## S-1 CHRONOLOGY

**1. General.** The personnel situation improved to the extent that enlisted on rolls exceeded T/O authorizations. Scheduled rotations for the coming month will drop us to below T/O strengths again.

**a. Strength.** The average monthly strength for the period ending 31 December 1966 was as follows:

USMC	USN
<u>OFF</u> 35	<u>OFF</u> 2
<u>ENL</u> 1112	<u>ENL</u> 50

(1) Percentage of T/O strength is 96%.

**b. Losses**

	USMC		USN	
	<u>OFF</u>	<u>ENL</u>	<u>OFF</u>	<u>ENL</u>
Battle	0	16	0	0
Non-Battle	1	36	0	0
Admin	5	52	0	8

(1) Of the battle casualties, 1 was KIA, 1 MIA and 14 were WIA's; 6 remain hospitalized while 8 have returned to duty.

(2) Of the 37 non-battle casualties, 4 were transferred by S/R, 18 still remain hospitalized and 15 have returned to duty.

(3) 5 Officers and 52 USMC enlisted (plus 8 USN enlisted) rotated to NUS. Transfer percentage was 5%.

**c. Replacements.** This command joined 5 USMC officers and 134 USMC enlisted during the reporting period. No USN personnel were joined.

**d. Administration**

(1) State of Morale. Morale remains outstanding. The move to Phu Bai contributed to enhancing morale to this peak.

(2) Significant Activities of Personnel Services. Approximately 1200 wallets and Red Cross gift parcels were distributed to personnel of the battalion. 1000 writing portfolios and 50 cartons of cigarettes were distributed to line company personnel.

(3) Promotions. Five officers received promotions to 1st Lt. A total of 30 enlisted were promoted; 1 Meritoriously to SSgt, 2 meritoriously to Sgt, 5 to Cpl, 6 to LCpl and 17 to PFC.

**e. Discipline, Law and Order.** Two Special Court-Martial are pending and one was completed. Eleven persons were awarded Battalion Commanders Office Hpus.

UNCLASSIFIED

S-2 Chronology

1. General. During the period 1 Dec 66 to 31 Dec 66, the 2d Battalion, 9th Marines deployed from Camp CARROLL to Dong Ha (4-7 December) and from Dong Ha to Phu Bai (11-14 December). From 15-31 December the battalion conducted operations against Local Force guerrillas in the Phu Bai TAOR. In that no contact was made by the 2d Battalion, 9th Marines from 1-14 December, discussion will be limited to the period 15-31 December, 1966.

a. Area. The Phu Bai TAOR encompasses approximately 160 square miles of land consisting of sandy areas and wet rice paddies in the coastal region with rolling terrain and higher mountains to the West. The area within 500 meters of National Highway #1 consists of rice paddies divided by thick hedgerows and tree-lines. The highway bisects the long axis of the TAOR for a distance of 18.75 miles and provides access to an additional 47 miles of road. The population which lives near highway #1 is predominantly Buddhist and consists largely of farmers with some skilled laborers and professional men located near population centers.

b. Trafficability. Although the monsoon rains slackened some, movement off of National Highway #1 was almost impossible for tracked or wheeled vehicles. The TAOR contains a total of 60 miles of roads, 166 miles of navigable waterways, and numerous trails; all of which are accessible to the Viet Cong forces as well as USMC forces.

c. Weather. During the month of December, the weather in the Hue/Phu Bai area improved slightly over the previous month. Intermittent monsoon rains hampered operations to a slight degree. Weather summary for the period 1-31 December is as follows:

Maximum Temperature	92
Minimum Temperature	62
Number of days with rain	21
Total rainfall received	17.5 inches
Average winds	4-5 knots
Visibility	1-2 miles

2. Enemy Situation. During this reporting period, one known (identified) enemy force, the C-116, was reported to be operating within the 2d Battalion, 9th Marines' TAOR. Enemy activity was limited to that of sniping, harrassing, bombings, and assassinations. Light contact was established in areas peripheral to the TAOR.

a. Order of Battle. There are four confirmed units operating near the TAOR. Elements of two Local Force companies, the C-116-117, operate North of our TAOR and the C-119 Local Force company operates to the West in the Royal Tombs area. To the South are located elements of the 804th NVA Battalion. Each of these units

UNCLASSIFIED

has 80 to 120 men, 60mm mortars, and machine guns. These forces are located on the periphery of the T.O.R with the mission of obtaining rice, destroying government forces and controlling the populace. They have utilized the T.O.R extensively for treks from the mountain ranges in the West and South to the coastal plains in the East. They have avoided contact with USMC units and have depended on raids, sabotage, and assassinations to control the people. Intelligence reports indicate the possibility that some transient main force units have been within the T.O.R for brief periods.

b. Significant Enemy Activity.

(1) Mine Activity. An increase in mining incidents has occurred during this period in an attempt to slow down or prevent the use of roads by allied forces. Several reports indicate that this trend is going to continue.

(2) Assassinations. Because of the increase in rallies and intelligence received by government forces, the Viet Cong have stepped up their terrorist activity. During the period 23-26 December, a 55 year old male and a 24 year old female, who had helped locate two Viet Cong, were killed. These are typical examples of this type of terrorist activities.

(3) Sabotage. Captured documents indicate that bridges are the principle targets; however, no Viet Cong sabotage incident against any bridges was attempted within the T.O.R. On 26 December the Hue/Phu Bai - Da Nang train was damaged by a command type mine.

(4) Security. Hotel Company, while on a two week security mission at ID 862248, received harassing fire and mortar fire. During this period, they had 10 VC KI (CONF), 2 VC, and 7 detainees.

(5) Cache. On 15 December Force Reconnaissance, in conjunction with Company Foxtrot, found over one hundred rounds of ammunition. Although most of the ammunition was French, Viet-Minh, and old US type, all could have been used for mines. Some of the ammunition was deposited in the creek bed where they found it, quite recently.

3. Viet Cong Casualties. 1-31 December (Hue/Phu Bai - Dong Ha)

VC KI (CONF)	12
VC KI (PROB)	7
VC	2
Detainees	36

4. Enemy Fortifications Destroyed.

Bunkers	10 <sup>1</sup>
Tunnels	1

UNCLASSIFIED

CONFIDENTIAL

UNCLASSIFIED

5. Enemy Equipment Destroyed/Captured.

## a. Weapons

Soviet Carbines	1
K-50	2
B1R	1
AK-47	2

## b. Grenades

M-26	4
Chi Com	2

## c. Mortar Rounds

60mm	63
81mm	41
82mm	1
120mm	10

## d. Ammunition and Miscellaneous Rounds.

37mm	1
46mm	3
57mm	8
2.36 rocket rounds	2
.50cal	12
.30cal	450
20mm	1

## e. Mines and Fuses

Mine, Pineapple fragmentation	1
Mine, Chemical horn	1
TNT	163 lbs (13 separate mines)
Mortar Fuzes (French)	2
Blasting Caps	15

6. VC Initiated Incidents.

Mining	6
Small Unit Contacts	5
Mortar	4
Sniping	2
Assassinations	2
Terrorist Attack	1

7. Sources of Intelligence. Intelligence information was gained from ground forces primarily, however, the following sources

UNCLASSIFIED

provided additional intelligence of significant value:

- a. RVN Officials
- b. District/province/village/hamlet Officials
- c. District Police
- d. CIT (Ralliers)
- e. ITT (Documents)

8. Surveillance Devices. During this reporting period, no surveillance devices were utilized. The AN/TPS 21s were on loan to IIIMF. Inclement weather and noise background prevented use of SIDs.

9. Psychological War fare. During this reporting period, combined action company Alfa, under the operational control of 2d Battalion, 9th Marines, distributed 20,000 news papers and 25,000 leaflets. Both distribution programs were well received by the people.

10. Comments and Conclusions.

- a. From incidents within the TAOR, it appears that an increase in sniping, mining, and terrorism will be in store for the Hue/Phu Bai TAOR. It is possible this transition from large scale to small scale operations is taking place to slow the rate of destruction of Viet Cong forces. Indications are strong that a guerrilla type organization will be set up to counter the revolutionary development teams in the Phu Bai area.
- b. An increase in assassinations indicate that possibly the Viet Cong are losing control of the people. An increase in reliable information supports this theory.

**UNCLASSIFIED**

## S-3 CHRONOLOGY

1. General. During the past month the 2d Battalion, 9th Marines continued to participate in Operation Prairie until 12 December 1966. The battalion displaced on 4 December from Camp J. J. Carroll to Dong Ha where they reorganized, coordinated, and participated in the defense of the Dong Ha Combat Base. On 11-13 December the battalion moved from Dong Ha to Phu Bai where they assumed the mission of the Phu Bai Vital Area Defense Battalion. Training continued during the month for all replacement personnel. On 4 December operational control of the battalion shifted from the 3d Marines to the 4th Marines, and on 12 December operational control of the battalion shifted from the 4th Marines to the 3d Marine Division. Administrative control remained with 3d Marine Division.

2. Dong Ha. The battalion (-) completed its move from Camp J. J. Carroll to Dong Ha via truck convoy on 4 December. At this time Company "F", 2d Battalion, 9th Marines came under the OPCON of 3d Battalion, 4th Marines at Cam Lo and Company "E", 2d Battalion, 9th Marines remained at Camp J. J. Carroll and came under the OPCON of 2d Battalion, 3d Marines. Upon arrival at Dong Ha the battalion came under OPCON of the 4th Marines, effected the relief of 2d Battalion, 3d Marines and was assigned the mission of Dong Ha Combat Base Defense Battalion. The Commanding Officer of 2d Battalion, 9th Marines assumed the responsibility of defense coordinator for the Combat Base.

In accomplishing its mission the battalion effected the following deployments: Company "H", with one platoon of Company "G" attached, manned a sector on the defensive perimeter; Company "G" (-) provided a 15 minute reaction force; Company "H" (-), 2d Battalion, 3d Marines provided security for POL facilities at the mouth of the CUA-VIET River, and H&S Company provided the reaction platoon for the battalion sector of the Dong Ha perimeter. Extensive patrols and ambushes were conducted by all line units. Measures were taken by the battalion to strengthen the defenses of Dong Ha and rehearsal drills were organized and conducted for base and sector reserve/reaction forces.

On 8 December, Company "H", 2d Battalion, 3d Marines, at the CUA-VIET River mouth, mounted out units to search a Vietnamese boat which was beached by the U. S. Coast Guard. Search of the boat and immediate area produced negative results, however several enemy were sighted and there was a brief exchange of fire between USMC and VC forces. The probabilities of an enemy force being in this area prompted a platoon patrol the next day which resulted in contact with the enemy; one VC KIA (confirmed), and two weapons captured.

On 10 December a one day company sized reconnaissance-in-force operation was conducted by Company "G", 2d Battalion, 9th Marines along the southern periphery of the Dong Ha area of operations (See Order 4-66). Although no contact was made with the enemy the operation was a successful exhibition of fire support coordination, force, reaction capability and mobility.

**UNCLASSIFIED**

CONFIDENTIAL

**UNCLASSIFIED**~~CONFIDENTIAL~~

2d Battalion, 9th Marines commenced movement from Dong Ha to Phu Bai on 11 December via air transport after being relieved of its responsibilities by 3d Battalion, 26th Marines. The airlift of battalion personnel and essential gear and property was completed on 13 December. Operational control of the battalion was shifted to the 3d Marine Division on 12 December.

3. Phu Bai. 2d Battalion, 9th Marines relieved 1st Battalion, 4th Marines of responsibility for the area of operation and assumed the mission of the Vital Area Defense Battalion on 13 December. The battalion assumed OPCON of Company "E", 2d Battalion, 26th Marines. Company "G" (-) remained in Dong Ha until 14 December, under the OPCON of 4th Marines, to provide security for a Rough Rider. In addition to its primary missions, the battalion was assigned several special missions. Deployment of the battalion's units generally remained in a constant state of flux during the month.

Initially the battalion deployed Company "F" and one platoon of Company "G" along Highway #1 as security for several bridges which were in danger of being destroyed by the Viet Cong. They maintained this bridge security until 20 December, conducting extensive ambush and patrol activities, many of which were conducted with local Vietnamese forces. During this period the company uncovered an ammunition cache in the vicinity of one of the bridges (See S-2 Chronology). Also, units providing bridge security made extensive repairs to the field fortifications in the vicinity of the bridges and were instrumental in laying wire in the water around the bridges for additional protection.

Company "E", 2d Battalion, 26th Marines had responsibility for the observation posts on Hills 180 and 230 and the mobile platoon in the GIA LE operating area until 18 December.

Company "E", 2d Battalion, 9th Marines maintained three platoons on the perimeter defense during the entire period except for the period 14-18 December when one of its platoon strengthened the security at the AN LO Bridge and during the period 23-25 December when the company was helilifted and participated in Operation Chinook and came under OPCON of 3d Battalion, 26th Marines.

Company "G", 2d Battalion, 9th Marines, upon its return from Rough Rider security provided one platoon as the Sparrow Hawk reaction force and one platoon for security of a hydrographic survey team working along the coast just north of Da Nang (See OpOrder 7-66).

On 15 December, Company "H" (rein) provided security for surveyors in the area 9 kilometers north of the Phu Bai Vital Area (See OpOrder 6-66). The operation lasted for a period of 9 days. Several contacts with the enemy were made, and Company "H" accounted for seven VC KIA. During this operation one Marine was reported as MIA. Company "H" (-) on 25 December was deployed by helolift to provide security for a U. S. Navy tugboat and its crew which had run aground on the coast between Hue and Dong Ha.

UNCLASSIFIED

On 24 December Company "E", 2d Battalion, 26th Marines was returned OPCON to 2d Battalion, 26th Marines and 2d Battalion, 9th Marines assumed OPCON of Company "G", 2d Battalion, 26th Marines which was deployed in the newly acquired Phu Loc area of operations.

On 25 December one platoon of Company "H" and one platoon of Company "F" manned defensive positions on the Vital ~~Area~~ Perimeter along with Company "E", 2d Battalion, 9th Marines.

Five platoon patrol bases areas were established throughout the area of operations. Platoon patrol bases were established in as many of these areas as other operational commitments would allow. The fixed defensive positions at GIA LE and TROUI were abandoned in order to provide mobile patrols throughout the area of operations.

The battalion assumed OPCON of the Combined Action Companies in the Phu Bai area. The CAC platoons accounted for the bulk of the squad sized patrol and ambush activity conducted in the Phu Bai area during the month. During the month six additional CAC platoons were established in Phu Loc District.

#### 4. Close Combat

a. Patrol Breakdown. During the month 161 squad sized ambushes and 307 squad sized patrols were conducted in the Phu Bai area of operations. Five platoons operated out of the GIA LE and TROUI platoon patrol base areas during this month.

b. Sparrow Hawk. During the month, the Sparrow Hawk reaction force was committed on four occasions (17 December, 19 December, 21 December and 22 December) in attempts to exploit contact made by recon units. On all four occasions the enemy broke contact when Sparrow Hawk arrived.

5. Training. Operational commitments precluded formal military training other than on the job training of personnel serving on crew served weapons. Two hundred and nine replacement personnel FAM fired their individual weapons and received training in the following subjects.

Patrols and Ambushes  
VC Tactics and Techniques  
Rules of Engagement  
Individual Weapons Safety  
Vietnamese Religions and Customs  
Civic Action and Pacification  
Battalion History  
Psychological Warfare  
Treatment of Captives  
Demolitions, Mines and Booby Traps  
Field Sanitation and Hygiene

A two day class on the M16E1 rifle was conducted by the 3d Marine Division and attended by 25 representatives of this command.

**UNCLASSIFIED****6. Fire Support and Fire Support Coordination.**

a. During the period 1-4 December 1966, while operating in the Opera  
Operation Prairie area, 2nd Bn. 9th Marines was provided artillery support  
by Battery "E", 2nd Bn., 12th Marines and Battery "C", 1st Bn., 12th  
Marines.

b. During the period 5-13 December 1966, while providing security for  
the Dong Ha Combat Base, 2nd Bn. 9th Marines was provided artillery support  
by 1st Bn., 40th Artillery, (105mm S.P.). U. S. Army. This support consisted  
of one 18 minute, 256 round landing zone preparation for a company "G"  
recon in force operation on 10 December 1966.

c. During the period 14-31 December 1966, while serving as the Phu  
Bai Vital Area Defense Battalion, 2nd Bn. 9th Marines was provided direct  
support by Battery "E" 2nd Bn. 12th Marines. The 4th Bn. 12th Marines  
provided general support and Battery "D" 1st Bn. 44th Artillery U. S.  
Army. The latter provided dual 40mm and quad 50 cal. weapons on the Vital  
Area Defense Perimeter as well as for convoy security.

d. Utilization of artillery in support of operations for the month  
consisted of 1 mission fired on a target of opportunity, 1 landing zone  
preparation, 1 recon by fire, 6 concentration adjustments, 7 illumination  
missions and 625 H&I concentrations which amounted to a total of 3,686  
rounds.

e. During the period 1-31 December 1966, the 81mm Mortar platoon  
fired 998 rounds in support of operations which included 612 He Medium,  
300 He Light, 55 WP and 31 illumination. The 81mm Mortar platoon fired  
in all illumination concentrations listed in the defensive fire plan for  
the defense of the Dong Ha combat base and the Phu Bai Vital Area.

f. Fire support coordination procedures were altered somewhat with  
each move. Procedures in the Operation Prairie area under the 3rd Marines  
FSCC remained the same as the preceding period. While operating as Defense  
Battalion of the Dong Ha Combat Base, under 4th Marines FSCC, the savaplane  
was employed during daylight hours. Regimental FSCC retained final clearing  
authority of artillery fires but Battalion FSCC retained control of 81mm  
mortar fires. While operating as the Phu Bai Vital Area Defense Battalion,  
under 3rd Marine Division FSCC, the savaplane was employed 24 hours a day.  
Division FSCC retained control of both artillery and 81mm fires.

**7. Air Support.**

a. Med Evac Missions.- A total of eight med evac missions were flown  
in support of 2nd Bn., 9th Marines during this reporting period. All med  
evac missions were requested while the battalion was operating in the  
Phu Bai Area. Thirteen USMC/ARVN/VN civilian personnel were evacuated to  
U. S. or VN. medical facilities for treatment. Fourteen UH-34's were  
utilized to complete the total number of Med Evac missions.

**UNCLASSIFIED**

**UNCLASSIFIED**

b. Logistic Missions.- Thirty logistic missions were flown in support of this battalion during the month of December. The large majority of the missions were flown after the battalion completed the move to Phu Bai and units were moved to outposts on Hill 180 and 230 and platoon patrol bases. The battalion also had resupply missions flown to units involved in security for survey and salvage teams. Thirty-one Marine C-130 aircraft were used to lift approximately 620,000 lbs of equipment during the battalion move from Dong Ha to Phu Bai. The weather had adverse effect on resupply missions and sometimes caused delays of up to two days. Approximately 124,960 lbs of resupplies, including rations, ammunition, parts and clothing, were lifted during the month. <sup>the month of 2nd Bn, 19th Marines while operating in the Phu Bai Area</sup> Twenty-five CH-46's and 60 UH-34's were used to lift resupplies/troops during the month. Several trooplift units involved in resupply operations during the same mission.

c. Troop Lift Missions.- Seventeen trooplift missions were flown during this period. Fifteen C-130 aircraft were used to lift 1176 troops from Dong Ha to Phu Bai. Forty CH-46's and twenty-five UH-34's were used to lift a total of 1634 combat troops during operational commitments inside and outside of the Phu Bai TAOR. These figures include trooplifts for Sparrow Hawk units which were employed four times during the month.

d. Close Air Support Missions.- Two close air support missions were conducted during this period. Two UH-1E "Gunships" and two A-4E "Skyhawks" were used as cover for trooplift into Hai Van Pass of a Naval survey team and a marine security platoon. 2 UH-1E and two F8E "Crusaders" were on station during a trooplift of an airfield survey team and a company (-) from 2/9 for security. The FAC with the company called in air support when the unit received sniper fire from a nearby treeline ~~after~~ the company landed in LZ. F8E "Crusaders" expended approximately 1400 rounds of 20mm during strafing runs on the treeline. The strike was controlled by a TAC (A) in one of the UH-1E's. The target area had good coverage and the sniper fire ceased after the strike. No KIA were confirmed.

e. Recon/Observation Missions.- Twenty five observation missions were flown during the month in support of company security forces involved with survey operations. Two Recon missions were requested by the Battalion Commander for units operating in and around the Phu Bai TAOR. Twenty-four O-1C's and 4 UH-34's were used for these missions.

**UNCLASSIFIED**

UNCLASSIFIED

## S-4 CHRONOLOGY

1. General. The overall logistical situation of this battalion is considered good, however, there are still critical problem areas in supply, motor transport, ordnance, and comm-electronics.

a. Supply. During the past month the supply situation has improved. Many items of 782 gear, M-14 rifles and magazines, and 45 cal. pistol magazines were received to meet the increasing demands for the equipping of incoming replacements. A limited amount of pneumatic mattresses, body armor-upper, and cots (folding) were received. At the end of the month there were still shortages of helmet liners, steel helmets, haversacks, canteens, headbands, canteen cups, blankets, 45 cal. pistol magazines, and ponchos. Difficulty was also experienced in obtaining some administrative supplies such as mimeograph paper, stencils, I.D. cards and unit diaries.

b. Ordnance. The battalion encountered difficulty with the flame-thrower compressors resulting in all eight flamethrowers being deadlined, primarily because of faulty compressors. The reliability of 3.5 rocket launchers and M-72 Laws still present very prevalent problem areas.

c. Motor Transport. The inability of this section to obtain carburetors and tires for the M-274A-1 mule is causing a major maintenance problem resulting in 50% of the mules being deadlined. None of these above mentioned parts have been received by this unit for nearly a year although valid requisitions are still pending. Major difficulty was also encountered with the M422A-1. The deadline rate due to faulty transmissions on these vehicles is ever increasing. Approximately 25% of our mules are presently deadlined. A high usage rate on brake shoes is always experienced during the rainy season. The fibrous material used in the brake shoe is extremely susceptible to inclement weather conditions and results in a major maintenance problem. The battalion is in very short supply on brake shoes and FLSU is experiencing difficulty in fulfilling the tremendous demand for these items at this time.

d. Comm-Electronics. There is an extremely critical problem area in this field revolving around the H-138 handsets for the PRC-25's. Presently 25 PRC-25's are deadlined because of a lack of handsets.

e. Supporting Units

(1) FLSU provides the bulk of the logistical support for the battalion.

(2) EOD support comes directly from FLSU in the Phu Bai area. They are a great aid in disposing of Class III ordnance.

(3) Engineer support comes directly from Division Engineers. All work requests are channeled through the Division Engineers.

UNCLASSIFIED

UNCLASSIFIED

(4) Truck support is provided by 3d and 9th Motors and is coordinated directly by the Division Motor Transport Official. The battalion requires an average of five trucks daily to function smoothly.

(5) Helicopter support is received from the MAG-16 and coordinated through the battalion air officer for logistical lifts.

(6) CB's are providing support for the whole Phu Bai area and are presently laying an extensive water pipe line through the battalion area.

2. Camp Development. During the period covered the battalion has moved on two occasions. The first move was from Camp J. J. CARROLL to Dong Ha. The second was from Dong Ha to Phu Bai a week later. During the latter  $2\frac{1}{2}$  weeks of the period the battalion was organizing and moving into its new CP. A few critical problems were immediately encountered. The water pump for the battalion had broken down and was in need of repair when the battalion arrived leaving the troops virtually without a shower for over a week. This unsatisfactory condition was somewhat alleviated during this time when arrangements were made with Headquarters Battalion, 3d Marine Division for the use of their shower unit for a short time in the afternoon of each day. This was soon stopped because of the drain on Headquarters Battalion water supply and because of the shortages of water trucks to refill water bladders for the showers. This problem was resolved when FLSU supplied the battalion with another water pump for the shower unit.

The heavy rains have taken their toll on the roads in the battalion area. A great problem is ~~existing~~ with soil erosion. Banks are being washed away and vehicular traffic is being impaired by the large gulleys and ruts caused by the frequent washouts. Much effort will be required on the part of this unit to reinforce shoulders and prevent further erosion.

Many of the problems which had formerly plagued us have been resolved by this move. An adequate supply of potable water is available at present. A large enclosed mess hall has made it possible to adequately and comfortably mess all the troops when they are not in the field. Tropical huts have replaced GP tents and individual hooches and are sufficient to accommodate the entire battalion with billeting space. Discrepancies in these huts have been noted and are being followed up with work requests for necessary repair work.

In regard to head facilities the battalion has (2) 8 hole, (1) 6 hole, (5) 4 hole heads and 8 interdispersed urine soakage drums throughout the area which have proven sufficient to handle the needs of the battalion.

Truck support for household runs has been poor these first few weeks, due mainly to the small number of trucks and staggering number of commitments within the Phu Bai area. Presently there is little relief in sight.

3. Operations. During the reporting period there were no significant operations which the battalion took part in. There were two movements in which the S-4 played a major role.

a. The first was the move from Camp J. J. CARROLL to Dong Ha. During this move the battalion used a total of 68 trucks. Twenty-two of these trucks were used over a three day period in the movement of 910 troops. The remaining 46 hauled equipment. The move was completed in three days from Dec 2 to Dec 4.

b. The second lift that took place was from Dong Ha to Phu Bai. The move was effected primarily by C-130. During the move the battalion used a total of 46 C-130's. A total of 1176 troops were moved in 15 C-130's. An estimated weight of 620,000 lbs of equipment was transported using 31 C-130's. Two LCU's were used to transport the remaining equipment too large in size and bulk for air embark. The move was completed in five days. It lasted from 11 Dec through 15 Dec.

#### 4. Troop Movements

a. Troop movements by truck from Camp J. J. CARROLL to Dong Ha via Cam Lo.

(1) Number of trucks	9
(2) Number of troops	170
(3) Number of lifts	1

b. Troop movements by truck from Camp J. J. CARROLL to Dong Ha.

(1) Number of trucks	37
(2) Number of troops	740
(3) Number of lifts	3

c. Troop movements by C-130 from Dong Ha to Phu Bai.

(1) Number of planes	15
(2) Number of troops	1176
(3) Number of lifts	3

#### 5. Logistical Lifts

a. Lifts by truck from Camp J. J. CARROLL to Dong Ha.

(1) Number of trucks	22
(2) Number of lifts	3
(3) Estimated weight	88,000 lbs

b. Lifts by C-130 from Dong Ha to Phu Bai.

(1) Number of planes	31
(2) Number of lifts	4
(3) Estimated weight	620,000 lbs

c. Lifts by LCU from Dong Ha to Phu Bai.

(1) Number of boats	1
(2) Number of lifts	1
(3) Estimated weight	12,000 lbs

## COMMUNICATIONS- CHRONOLOGY

A. General. During the early part of the month the battalion maintained a forward command post in the Camp JJ Carroll area and an administration command post in the Dong Ha area after the battalion moved to Dong Ha a tactical command post was maintained in the Dong Ha area ( including the command post for the base perimeter security). From December on a forward command post was maintained in the Phu Bai area (including the command post for the base perimeter security). The four rifle companies were given continuous support throughout the month and at least two of the companies were in the field or on the move at all times during the month.

B. Support. The Third Battalion, Twenty-Sixth Marines was supported by the loan of a radio set AN/FRC-25, and local indoctrination of their advance party. They were also assisted in setting up their own forward command post at Dong Ha, and by message center guard while awaiting their arrival. The Communications Company, Third Marine Division was supported with the loan of thirteen radio sets, AN/PRC-10, and two radio sets AN/PRC-25. The Third Marine Amphibious Force was supported with the loan of two radar sets AN/FPS-21. The Fourth Battalion, Twelfth Marines was supported with the loan of a remote control set AN/GRA-39, four wiremen, and crossarms for two poles (telescopic). The Third Reconnaissance Battalion was supported with the loan of Cable, Elect. CX4655/U, and a KW-7 technician. The First Battalion Fourth Marines was supported with the loan of a radio set AN/PRC-25. The combined action company was supported with the loan of three antennas RC-292, three telephones TA-312/PT, and two telephones TA-1/PT. Echo Company, Second Battalion Twenty Sixth Marines was supported with the loan of an antenna, RC-292.

C. Telephone Communications. Telephonic installations were put in and removed at Camp JJ Carroll and Dong Ha area. All main trunks were left at both places (with tagging) for the use of relieving units. The telephonic installations at Phu Bai have been completed. This includes hot lines to the command bunkers of all the units on the perimeter. These lines terminate in a switchboard, SB-22/PT in the battalion CCC. The battalion's main telephonic switching system consists of three switchboards SB-22/PT, stacked. All switchboards SB-22/PT and all telephones, TA-312/PT, and EE-8/PT, organic to this battalion are in use at this time. The back up, repair, and other servicing is being done by utilization of replacement line packs and telephones TA-1/PT.

D. Training. The Communications platoon furnished equipment and instructions on the use, care and operation of the radio set AN/PRC-25 and its accessories for each Sparrow Hawk platoon since the battalion arrived in the Phu Bai area. Operators in the perimeter security platoon were schooled on the use of this switchboard SB-22/PT, which was installed at the command bunker for a limited period of time. Normal training requirements for operators, wiremen, and message centermen within the platoon were met. Two message centermen per week have been receiving instruction and application in on-line operations and message handling at the Third Marine Division Communications center.

UNCLASSIFIED

q 8 E. Operations. The battalion was moved by truck from ~~tactical command~~ post at Camp Carroll to Dong Ha area where the administrative command post was rewired and set up for tactical operations. After only ten days the battalion again moved to PHU BAI. The advance party and subsequent arrivals were billeted in the Second Battalion Twenty Sixth Marines billeting area and ~~quartermaster~~ #2 and #4 of the 3rd Marine Division billeting area. Until the departure of the First Battalion Fourth Marines a temporary wire setup was utilized. The communications equipment of the battalion was utilized by the First Battalion, Fourth Marines to speed their packing and departing. A relay station has been set up and manned on Hill 180 with the equipment, men, and resupply from this unit. All the outlying rifle companies, relay sites, and 81MM mortar unit are being resupplied with shackles, repair parts and batteries by couriers from the message center section.

F. Difficulties. Due to the extremely heavy commitments of the battalion, constant deployment of the companies, and the number of the command posts set up, a large amount of wire has been expended. The repair and maintenance facilities of this battalion have been stretched to near limit. Many of the spare parts and components placed on order have come in slowly or not at all. Requisitions for items of critical nature have been cancelled and placed on a higher priority with negative results. Tracers have been initiated, with as many as three separate tracers being placed on one single order; because of the distance separating the battalion and companies, antenna, RC-292, have been necessary for reliable communications. Due to wear and tear or extended combat operations, the lack of resupply parts, and necessary temporary loans, the of field expedient antennas has been necessary. A critipak shipment has been authorized on a monthly basis. The badly needed handsets, H-138 and parts for antenna, RC-292 have been placed on this critipak which should alleviate this situation.

UNCLASSIFIED

MEDICAL CHRONICL

1. General:

- a. During the month of December, the BAS personnel held military sick call for 705 Marines.
- b. The battalion began its move from Dong Ha to Phu Bai with the advance party departing on 10 December. Other echelons of corpsman and medical supplies and equipment began movement on 12 December. The complete movement of BAS personnel, supplies and equipment was concluded on 15 December with minimum loss of gear. All personnel and the 23 pallets of supplies and equipment belonging to BAS were flown by C-130 to the Phu Bai area.
- c. After arrival in Phu Bai, the establishment of the 2/9 BAS was hindered due to 1/4 personnel and equipment still remaining in the area. After the departure of 1/4, however, the BAS was established in a fast and orderly manner.

2. Sanitation:

- a. Routine sanitary inspections of both the Dong Ha and Phu Bai areas were conducted.
- b. In the Phu Bai area, the primary problems appeared to be that of setting up of the various departments, holding a general field-day of all buildings and surrounding areas, procurement of trash barrels, and procurement of new urinals. All problems were solved with the exception of installation of new urinals. Ten of these are on order and will be installed as soon as received.

3. Disease, Injuries, Treatments in General:

- a. Since movement to Phu Bai, the BAS has maintained a 6-10 bed ward for minor illnesses and injuries. This enabled the BAS to render more effective treatment. Patients with skin infections, cellulitis, etc. are responding to treatment much quicker than when they were confined to their own quarters. Personnel requiring more extensive care are referred for admission to Company "A" 3rd Medical Bn. for hospitalization and treatment and for possible further evacuation.

- b. The majority of patients treated at the BAS during the month of December were of a routine nature. There were three cases of confirmed malaria during the month. The reduction in the number of cases over the preceding two months is believed to be a combination of cooler weather, heavy rains, and movement from an area with high malaria incidence rate. All cases reported were of the falciparum strain. The battalion remains on a once-weekly Primaquine and Chloroquine tablet as a preventive against malaria plus utilization of insect repellent and mosquito netting.

UNCLASSIFIED

4. Casualties and Hospitalization: There were 49 personnel from the Battalion hospitalized during the month of December. ~~Thirtytwo were referred~~ admission to Medical Companies and 13 were BAS ward admissions. There was 1 KIA, 14 WIA's and 1 MIA during the month. These were all a result of direct enemy action. Of those patients hospitalized, 6 were WIA's, 11 upper respiratory infections, 12 skin infections, 3 malaria cases, 4 strains, 2 sprains, 2 cases gastroenteritis, 2 neuropsychiatric problems, 1 hernia, 1 suspected stomach ulcer, 1 allergy, 1 orthopedic problem, 2 dental cases, and 1 possible meningitis.

5. Training: Informal discussions were held in the BAS by the Battalion Surgeon on emergency medical treatment of casualties. Three lectures on venereal disease and personal hygiene were conducted for new personnel.

6. Health and Service Records: Routine maintenance of health and service records was accomplished during the month. Approximately 500 immunizations were administered.

7. Complement of BAS: At the close of the month, the BAS had a complement of 49 corpsmen. Of these, 4 were SNO's. There were no corpsmen joined during the month. Eight were transferred by ~~POB~~ orders.

8. Conclusion: No major problems developed during the month of December.

UNCLASSIFIED

## CHAPLAIN CHRONOLOGY

1. In regard to the chaplain's primary duty, 26 Protestant Divine Services were held with an attendance of 495. One hundred and seventy-five marines received communion during the month. The chaplain held 12 Bible Study Classes, following an outline on the Book of Mark with an average attendance of 8 men in each class. Personal counseling interviews number about 10.
2. Since arriving back at the Phu Bai area the battalion had the good fortune of a chapel in which to worship. This chapel was first set aside and equipped when 2/9 had occupied the area some months earlier. The chapel was decorated for the holiday season and a full schedule of services was begun. Each night of the week prior to Christmas a choir practice was held. On Christmas Eve a Carol Service was held. The chapel was filled on Christmas Eve and also on Christmas day.
3. After arriving in the Phu Bai area the chaplain assumed the CAC units as a part of his responsibility. On Christmas day plans were made to visit all forward units of the battalion... but plans were cut short because of the bad weather which prevented the flight of the helicopters. However, the Commanding Officer, the Sergeant Major and the Chaplain were able to visit at least one unit out forward before the planes were grounded. During the holiday season the chaplain has distributed many, many packages that have come from different interested parties back in the states. It was requested that the men write letters 'thanking' the good folks back home for their thoughtfulness.
4. During the month of December 11 layleader services were held in the battalion. The men who served in this capacity did a commendable job and helped the chaplain tremendously in his ministry to the men. At the present time the chaplain is revising his list of layleaders and should have all plans completed by early January. A new system is being developed to teach and train the laymen.
5. The literature ministry was well received and there is now available a good variety of material that the marines might use for daily devotions and spiritual growth. About five hundred pieces of religious literature were distributed by the chaplain.
6. Catholic personal (as well as Jewish and LDS) were well covered as the battalion was close to the Division Chapel at which place these services were held. All 2/9 personnel had the opportunity to worship in this area.

2015		J-71	282015	CAC-3 relayed information from Intelligence Agent that 1 company of VC will split into 3 groups, 30 VC at YD 945063, 30 VC at YD 962026 and 30 VC at YD 960045 armed with 3 60mm mortars, 3 machine guns of unknown caliber, and individual weapons. Their mission is to collect ride in that area.	F M S T	
		LATE ENTRY				
1117		J-72	291117	G/2/9 reported finding a booby trap at YD 954035. Trap was packed with nails, shrapnel, and approximately 2½ lbs TNT. Was rigged with pressure release device. Trap was destroyed in place.	M S F	
1320		J-73	291320	G/2/9 at YD 954035 discovered 2 foot traps. 1 trap consisted 1 7.62 round and the 2nd consisted of 1 shotgun shell. Both traps will be evacuated to the Battalion S-2.	M S F	
1100		J-74	301100	H/2/9 reported squad patrol checking house at YD 551517 found 2 serrettes and 1 catgut suture. Remainder of house was searched with negative results. Gear will be evacuated to the Battalion S-2.	M S F	
1930		J-75	301930	H/2/9 received 12 rds automatic weapons fire from YD 511518. Returned fire with 4 M-79 rounds, 6 81mm illum, and 6 81mm HE rounds. No friendly casualties reported; Enemy casualties unknown at this time.	M S F	
2045		J-76	302045	H/2/9 CP received 6 carbine rounds from YD 560515. Returned fire with 10 M-79 rds; Unknown results.	M S F	
2120		J-77	302120	FLSU defense perimeter positioned at YD 900148 received 7 rounds S/A fire from YD 901145. Returned fire with 20 rds S/A and illumined the area with 4 rds 81mm illum. Illumination revealed negative results.	M S F	
0015		J-78	310015	CAC A3 reported patrol at YD 905121 observed unknown number of VC setting in ambush and laying mines at YD 901115. 1 VC stood up and charged patrol. Point man on the patrol opened fire resulting in 1 VC KIA CONF.	M S F

At 1700 one platoon moved out toward caves located at (YD 724149). The remaining platoon stayed as security for the LZ and was prepared to move up to assist in searching the caves. The search platoon arrived in cave area at approx 1730. They systematically searched caves by throwing C.S. grenades in first and then entering with gas mask and flashlights. No bodies were found but the caves had been inhabited. A large amount of papers was taken out. There were five caves in all. Operation ceased at 1850. Area was searched thoroughly and caves will not be inhabited for some time due to large amounts of C.S. grenades thrown into them. Captured material were brought back to S-2 and turned in Negative enemy contact was made. F-M. Neg. N. Assorted documents, clothing and papers. Approx 10 lbs of rice (taken by Recon S-2) Small amount of medical supplies,	S, F

Operation Order 4-66

Ref: (a) Map: AMS Series L7CL4, Sheet 6142 IV, 1:50,000  
 (b) 4th Marines OpOrder 305-66  
 (c) 4th Marines Frag Order 182-

Time Zone: H

Task Organization: As published by separate directive

1. SITUATION

a. Enemy Forces. See current INTSUMS

b. Friendly Forces

- (1) 4th Marines conducts offensive operations in the Prairie operating area.
- (2) Det A, 620th ICS (DAS) provides security on Northeast portion of perimeter.
- (3) 3d Marine Division (FWD) and HQ Co, 4th Marines each provide one provisional rifle platoon to be a part of the Combat Base Reserve.
- (4) 2d ARVN Regiment provides security on North portion of perimeter.

c. Attachments and Detachments. As assigned by 4th Marines

2. MISSION. Be responsible for the overall defense of the III MAF Area of the Dong Ha Combat Base; establish and run a Base Defense Command Post in the main compound of the Dong Ha Base; provide one rifle company to man assigned sector of Base perimeter; organize a Sector Reaction Force of sufficient strength to block and counterattack enemy penetrations into assigned sector; provide patrols, ambushes, listening posts, and other tactical details outside the Base perimeter and coordinate those of the Sector Commanders; organize a Combat Base Reserve to be used in execution of the Counterattack Plan (Ref. (b)); direct, supervise, inspect, and approve all Base defensive measures, to include FFL and LDL; conduct training programs for, and provide training teams to, those units within the perimeter requesting or requiring such assistance; conduct rehearsals and inspections of Base Defense lines as are necessary to maintain high state of readiness; construct and maintain the defensive wire plan in coordination with the Combat Base Development Officer; maintain at Dong Ha Combat Base a reinforced rifle platoon as a rapid reaction force on 15 minute alert; conduct operations in area of operations to the South and Southwest of Dong Ha Combat Base; be prepared to conduct operation in other areas as directed; defend the bulk fuel installations at mouth of Sua Viet River.

APPENDIX: 4

3. EXECUTION

a. Concept. The Dong Ha Combat Base defense battalion establishes and operates a Base defense Command Post for III MAF units in the area; the Battalion Commander is designated the Base Commander and as such coordinates and executes all defensive plans for the Combat Base; the Base Defense Battalion defends assigned sector with one rifle company; provides a reinforced rifle platoon as a ready reaction force; conducts operations in the area of operations.

b. Company G

- (1) Detach one platoon to Company H for use in the base perimeter.
- (2) Provide one reinforced platoon as Sparrow Hawk reaction force on a ~~24~~ hour 15 minute alert.
- (3) Conduct local night patrols and ambushes outside Dong Ha Combat Base.
- (4) Be prepared to provide working parties as needed.

c. Company H

- (1) Occupies and defends designated sector of Dong Ha Base defensive perimeter.
- (2) Utilize rifle platoon from Company G on defensive perimeter.
- (3) Conduct local daylight patrols outside Dong Ha Combat Base.

d. Company H, 2d Battalion, 3d Marines

- (1) Defend bulk fuel installation at Cua Viet River.
- (2) Conducts local patrols, ambushes and listening posts outside bulk fuel installation.

e. H&S Company

- (1) Provide one (rein) provisional rifle platoon as Sector Reserve/Reaction force.

f. Coordinating Instructions

- (1) Rules of engagement remain same.
- (2) Submit overlay plans 96 hours in advance for all activities.
- (3) Spot reports will be submitted on occurrence.
- (4) Submit hourly SITREPS during hours of darkness.

## (5) Alert/Readiness Conditions:

<u>Alert Condition</u>	<u>Readiness Status</u>
<u>WHITE</u>	
Enemy attack improbable	Normal internal security. Normal security on perimeter (50%). Sector Reaction Force and Base Defense Reserve conduct normal activities; prepare for employment with 2 hour notice.
<u>YELLOW</u>	
Enemy attack probable	Normal internal security. Increase security on perimeter (75%). Reaction and Reserve on 30 min standby. Activate Base Defense net. 4 6x6, 2 tanks, 2 ontos on 15 min standby.
<u>RED</u>	
Enemy attack imminent or occurring	Increase internal security. 100% security on perimeter. Reaction/Reserve move to assigned assembly area. Trucks, tanks, ontos to designated assembly areas. Personnel not actively engaged in execution of this plan will man minimum essential command/control billets or will take cover in designated shelter areas.

## (6) Flak jackets and helmets will be worn on perimeter at all times.

4. ADMINISTRATION AND LOGISTICS. No change.
5. COMMAND AND COMMUNICATIONS-ELECTRONICS
  - a. Defense net M687 48.8
  - b. Battalion will be net control.

1. SITUATION

a. Enemy Forces. See current INTSUMS and PERINTERPS.

b. Friendly Forces

(1) 3d Marine Division conducts offensive operations in the HUE PHU BAI operating area.

(2) 4th Bn, 12th Marines, general support of PHU BAI TAOR.

(3) DONG DA National Training Center conducts operations adjacent to Vital Area Perimeter.

(4) Combined Action Companies "A" and "H" conduct offensive operations/civic action within PHU BAI TAOR.

(5) ARVN units conduct training and offensive operations in PHU BAI TAOR as announced by separate directives.

(6) 4th Bn, 3d Regt, 1st ARVN Division conducts operations in PHU LOC District.

(7) 3d Reconnaissance Bn conducts missions in recon zones adjacent to TAOR.

(8) MAG-16 provides helicopter support.

(9) Btry "E", 2d Bn, 12th Marines, direct support.

(10) Btry "D", 1st Bn, 44th Arty, U. S. Army, direct support.

c. Attachments and Detachments. None.

2. MISSION. 2d Bn, 9th Marines defends the PHU BAI Combat Base and provides security for the TAOR; controls and coordinates the defense of the Combat Base; maintains a minimum posture of adequate surveillance of the perimeter during daylight hours; mans perimeter defensive positions and maintains reserve/counterattack force during hours of darkness; maintains COP on Hills 180 and 230; provides personnel for 81mm mortar section at COLOC BEACH; maintains a reinforced platoon (Sparrow Hawk) on fifteen minute alert; provides Reaction Company/Rough Rider Reserve on two hour alert; maintains patrol bases and conducts extensive patrols in the GIA LE and TROUT Bridge areas; assumes operational control of Combined Action Companies; conducts extensive patrols in PHU LOC District in assigned AO.

3. EXECUTION

a. Concept of Operation. The battalion defends the Vital Area Perimeter with two rifle companies and elements of units assigned by Higher Headquarters; establishes combat outposts on Hills 180 and 230; establishes Platoon Patrol Bases throughout the TAOR; establishes Company Patrol Base in PHU LOC District (Annex A, Operation Overlay). Fire support provided from combat base area (Annex B, Fire Support Coordination; Annex C, Defensive Fire Plan).

b. H&S Company

- (1) Provide Provisional Rifle Platoon on 15 minute alert.
- (2) Provide security for rock crusher at (YD 838152).
- (3) Provide security for north and south checkpoints along National Route #1 from 1800 to 0630 daily.
- (4) Provide security for wire teams, convoys, sweep teams, and Vietnamese grave diggers as required.

c. Companies \_\_\_\_\_ and \_\_\_\_\_

- (1) Occupy and defend designated portion of Vital Area Perimeter.
- (2) Repair/emplace tactical and defensive wire and defensive positions in assigned sector of Vital Area Perimeter.
- (3) Provide reinforced platoon as Sparrow Hawk Reserve on 30 minute notice.
- (4) Be prepared to conduct aggressive patrol and ambush activities.
- (5) Provide squad (rein) reaction force for deployment in assigned sector of Vital Area Perimeter.

d. Company \_\_\_\_\_

- (1) Establish mobile Platoon Patrol Base in designated operating area.
- (2) Establish combat outposts on Hills 180 and 230.
- (3) Occupy and defend designated portion of Vital Area Perimeter.
- (4) Repair/emplace tactical and defensive wire and defensive positions in assigned sector of Vital Area Perimeter.

e. Company \_\_\_\_\_

- (1) Establish mobile Platoon Patrol Bases in designated operating areas.
- (2) Provide reinforced platoon (Sparrow Hawk) on 5 minute alert during the hours of daylight.
- (3) Provide security for Rough Riders and survey details as required.

f. Company \_\_\_\_\_

- (1) Conduct extensive patrols and ambushes in PHU LOC AO.
- (2) Be prepared to reinforce CAC units in PHU LOC District.

g. 81mm Mortar Platoon

- (1) 2 sections, general support Vital Area Defense.
- (2) 1 squad, direct support OP on Hill 180.
- (3) 1 squad, direct support OP on Hill 230.
- (4) Provide sufficient personnel to man mortars at COLOO BEACH.

h. Combined Action Companies Alpha and Hotel (CAC-A and CAC-H)

- (1) Conduct aggressive patrol and ambush activities in assigned operating areas (Annex A, Operation Overlay).
- (2) Conduct general military subjects training for assigned Popular Forces personnel.
- (3) Conduct intensive Civic Action/MEDCAP programs within assigned operating areas.
- (4) Accomplish liaison with various District Headquarters for Commanding Officer, 2d Bn, 9th Marines.

i. Units Responsible For A Sector Of The Vital Area Perimeter

- (1) Occupy and defend designated portion of Vital Area Perimeter.
- (2) Repair/emplace tactical and defensive wire and defensive positions in assigned sector of Vital Area Perimeter.
- (3) Provide reaction force for deployment in assigned sector of Vital Area Perimeter.

i. Coordinating Instructions

- (1) Submit overlays of defensive positions and fire plans within 96 hours of receipt of this order.
- (2) Submit overlays of patrols and ambushes extending over 100 meters forward of perimeter 24 hours in advance.
- (3) Rules of engagement, reference (e).
- (4) Ensure that all personnel are aware of the weapons safety policy contained in reference (f).
- (5) Lateral coordination of sectors of observation and fire plans between units is directed.
- (6) Hand illumination will be used only upon approval of sector commanders.
- (7) Submit hourly SITREPS during hours of darkness.
- (8) Submit SPOT REPS immediately upon enemy contact.
- (9) Counterattack plan. (Annex D, Counterattack Plan).
- (10) Defense Reaction Conditions (Annex E, Defense Reaction Conditions).
- (11) Patrols, ambushes and isolated positions will be manned by a minimum of 12 personnel. A positive means of communication will be maintained at all times.

(12) Sector commanders will be responsible for patrolling in front of their sector up to a distance of 300 meters.

(13) This order effective upon receipt.

**4. ADMINISTRATION AND LOGISTICS**

- a. Ensure that adequate resupply of all types of ammunition is readily available to all units manning defensive perimeter.
- b. All units assigned sectors of Vital Area Perimeter will construct ammunition storage bunkers within respective sectors.
- c. Requests for all classes of supplies through normal channels.
- d. Personnel manning positions on the Vital Area Perimeter will have a minimum of 2 fragmentation and 2 illumination grenades in their possession; grenades will be stored in their cardboard containers; illumination and fragmentation grenades will be kept separated.
- e. All ammunition will be clean, serviceable and rust free; MG ammo will be left in assault packs.
- f. Flak jackets and helmets will be worn by all personnel manning positions on the Vital Area Perimeter.

**5. COMMAND AND COMMUNICATIONS-ELECTRONICS**

- a. See Annex F (Communications-Electronics).
- b. See Annex G (Communications Diagram).
- c. Command Posts. Report changes and locations of Command Posts when established.

**ACKNOWLEDGE RECEIPT**

Annex B (Fire Support Coordination) to Operation Order 8-66

Ref: (a) Map: VIETNAM, 1:50,000, AMS Series L7014, Sheet 6541 IV

Time Zone: H

1. SITUATION

- a. Enemy Forces. See current INTSUMS and PIRS.
- b. Friendly Forces. See Annex A (Operation Overlay).
2. MISSION. To provide a defensive fire plan and coordinate all supporting fires for the defense of the Vital Area and for offensive operations within the area of operation.

3. EXECUTION

- a. Concept of Operation. Artillery and 81mm mortars provide fire support for defense of Vital Area and other critical installations; provide fire support for offensive operations within the area of operation; provide harassing and interdiction fires throughout the area of operation.
- b. Battery "E", 2d Battalion, 12th Marines
  - (1) Direct support of Vital Area Defense Battalion.
- c. 4th Battalion, 12th Marines
  - (1) General support of HUE PHU BAI TAOR.
- d. 81mm Mortar Platoon, Vital Area Defense Battalion
  - (1) General support of Vital Area Defense Battalion.
- e. 81mm Mortar Section, MCB-62
  - (1) Direct support MCB-62; general support of Vital Area.
- f. Coordinating Instructions
  - (1) For defensive fire plan of Vital Area see Annex C (Defensive Fire Plan).

(2) All requests for artillery support will be sent directly to the Vital Area Defense Battalion FSCC on the hot line.

(3) If direct land line communications is not possible, missions will be requested over the Vital Area Perimeter Defense Net.

(4) Vital Area Defense Battalion FSCC has authority to assign requests for fire support to either 81mm mortars or artillery.

(5) All missions fired by artillery or 81mm mortars on targets within the area of operation must be cleared by Vital Area Defense Battalion FSCC.

(6) All missions fired by artillery or 81mm mortars must be cleared by Division FSCC.

(7) All missions fired in support of a sector must be observed and adjusted by the unit making the request.

(8) All missions considered by the unit commander as requiring emergency fire support should be designated as "emergency" in fire request.

(9) Rules of engagement apply.

(10) All units will maintain a current list and know the locations of all on-call concentrations for the defense of their sector or position.

4. COMMAND AND COMMUNICATIONS-ELECTRONICS

a. See Annex F (Communications-Electronics).

b. Vital Area Defense Battalion FSCC located in 2d Bn, 9th Marines COC (YD 885134).

c. Telephone lines from each sector's command bunker to the Vital Area Defense Command Bunker will be utilized for fire support coordination.

Annex D (Counterattack Plan) to Operation Order 8-66

Ref: (a) Map: VIETNAM, 1:50,000, AMS L7401  
(b) PHU BAI Combat Base Coordinator OpOrder 1-66

Time Zone: H

1. SITUATION

- a. Enemy Forces. See current INTSUMS.
- b. Friendly Forces
  - (1) Annex A (Operation Overlay).
  - (2) Reference (b).
- c. Attachments and Detachments. As assigned by 3d Marine Division.

2. MISSION. The Vital Area Defense Battalion conducts counterattacks to contain, seal off and destroy enemy penetrations and restore the integrity of the Vital Defense Area; coordinates the reaction forces utilized within the respective sectors of the Vital Area Perimeter.

3. EXECUTION

a. Concept of Operations. Each unit responsible for a sector of the Vital Area Perimeter will have a designated reaction force that can be committed by that sector to block or restore the perimeter. The Vital Area Defense Battalion will constitute a company sized reaction force that will move to designated assembly areas and follow designated routes to blocking positions or attack positions from which to limit penetrations and to destroy the enemy within the penetration and restore the perimeter. (Appendix 1 to Annex F, Assembly Area and Blocking Positions Overlay). Supporting fires will be preplanned and on-call. (Annex G, Defensive Fire Plan).

b. H&S Company

- (1) Provide one provisional rifle platoon for use as initial reaction force.
- (2) Be prepared to provide security guard at Battalion COC.
- (3) Muster all remaining personnel in designated assembly area for use as Battalion Reaction Force.

c. Perimeter Defense Companies

(1) Provide reaction force that can be committed within sector to block or restore the perimeter.

d. Units Responsible For A Sector Of The Vital Area Perimeter

(1) Muster all personnel in designated assembly area and be prepared to reinforce sectors with all available personnel.

(2) Provide reaction force that can be committed within sector to block or restore the perimeter.

e. Coordinating Instructions

(1) Assembly areas and blocking positions. Appendix 1 (Assembly Areas and Blocking Positions Diagram).

(2) The Vital Area Defense Battalion COC will designate blocking positions to be manned by counterattack force.

(3) Sector commanders will designate blocking positions to be occupied by sector reaction force.

(4) Defense Reaction Conditions. Annex E (Defense Reaction Conditions).

4. ADMINISTRATION AND LOGISTICS

a. Transportation for Battalion Reserve Counterattack Force will be provided upon assuming condition 3.

5. COMMAND AND COMMUNICATIONS-ELECTRONICS

a. Annex F (Communications-Electronics).

b. Operational control of the Battalion Reserve Counterattack Force will be retained by this Headquarters.

1. SITUATION

a. Enemy Forces. See current INTSUMS and PERINTERPS.  
b. Friendly Forces  
(1) Annex A (Operation Overlay).  
(2) Reference (b).

2. MISSION. The Communications Platoon of the Vital Area Defense Battalion installs, operates and maintains communications facilities in support of the battalion's sectors of the Vital Area Perimeter and combat operations in the PHU BAI TAOR.

3. EXECUTION

a. Vital Area Defense Battalion Communications Platoon  
(1) Install, operate and maintain communications facilities from COC bunker to perimeter defense units and Highway #1 checkpoints as required.  
(2) Install and maintain telephone communications to the CAC Headquarters.

b. Perimeter Units (Units assigned sector defense responsibility)  
(1) Establish and maintain guard on perimeter defense radio net from 1800 to 0730.  
(2) Maintain telephone communications with Vital Area Defense Battalion COC.  
(3) Maintain a command bunker with telephone lines to the respective positions on the perimeter.  
(4) Radio AN/PRC-25 will be located at each command bunker for alternate communications.

Annex E (Defense Reaction Conditions) to Operation Order 8-66

Time Zone: H

1. This annex establishes various conditions and sets forth the duties and responsibilities of units.
2. This Headquarters will establish the defense reaction conditions commensurate with the existing situation.
3. Defense reaction conditions:

a. Condition I. A daylight only condition; automatically set at sunrise and terminated 30 minutes past sunset.

Meaning - No known enemy threat.

Action - Units conduct normal operations, man specified daylight observation/defensive positions, keeping entire perimeter under continuous observation.

b. Condition II. Condition assumed automatically from 30 minutes prior to sunset to sunrise or as specified by this Headquarters during daylight.

Meaning - No known enemy threat. Units conduct normal operations.

Action - Units man assigned perimeter positions. 50% (At least one man in each position) on watch and alert. Entire perimeter under continuous observation. Patrols forward of the perimeter as ordered. Activate perimeter defense net. All stations check-in.

c. Condition III. The condition of highest alert; all additional active and passive defense measures are initiated.

Meaning - Indications are that the enemy may attack or attempt infiltration within one to 180 minutes.

Action - (1) Perimeter positions 100% alert.  
(2) Issue supplemental ammunition.  
(3) Vital Area Defense Battalion musters reserve forces; prepares for immediate employment.  
(4) Motor Transport unit dispatches vehicles (to transport 300 persons) to Vital Area Defense Battalion.

JOHN J. PEELER  
Major, U. S. Marine Corps  
Commanding

(8)

(5) Personnel and equipment to install and maintain communications within each sector will be provided by the unit responsible for that sector of the Vital Area Perimeter.

c. Combined Action Companies A and H

(1) Maintain communications with subordinate units.

4. COMMUNICATION

a. Telephone and radio call signs will be the call sign of the unit assigned the sector as listed in reference (c).

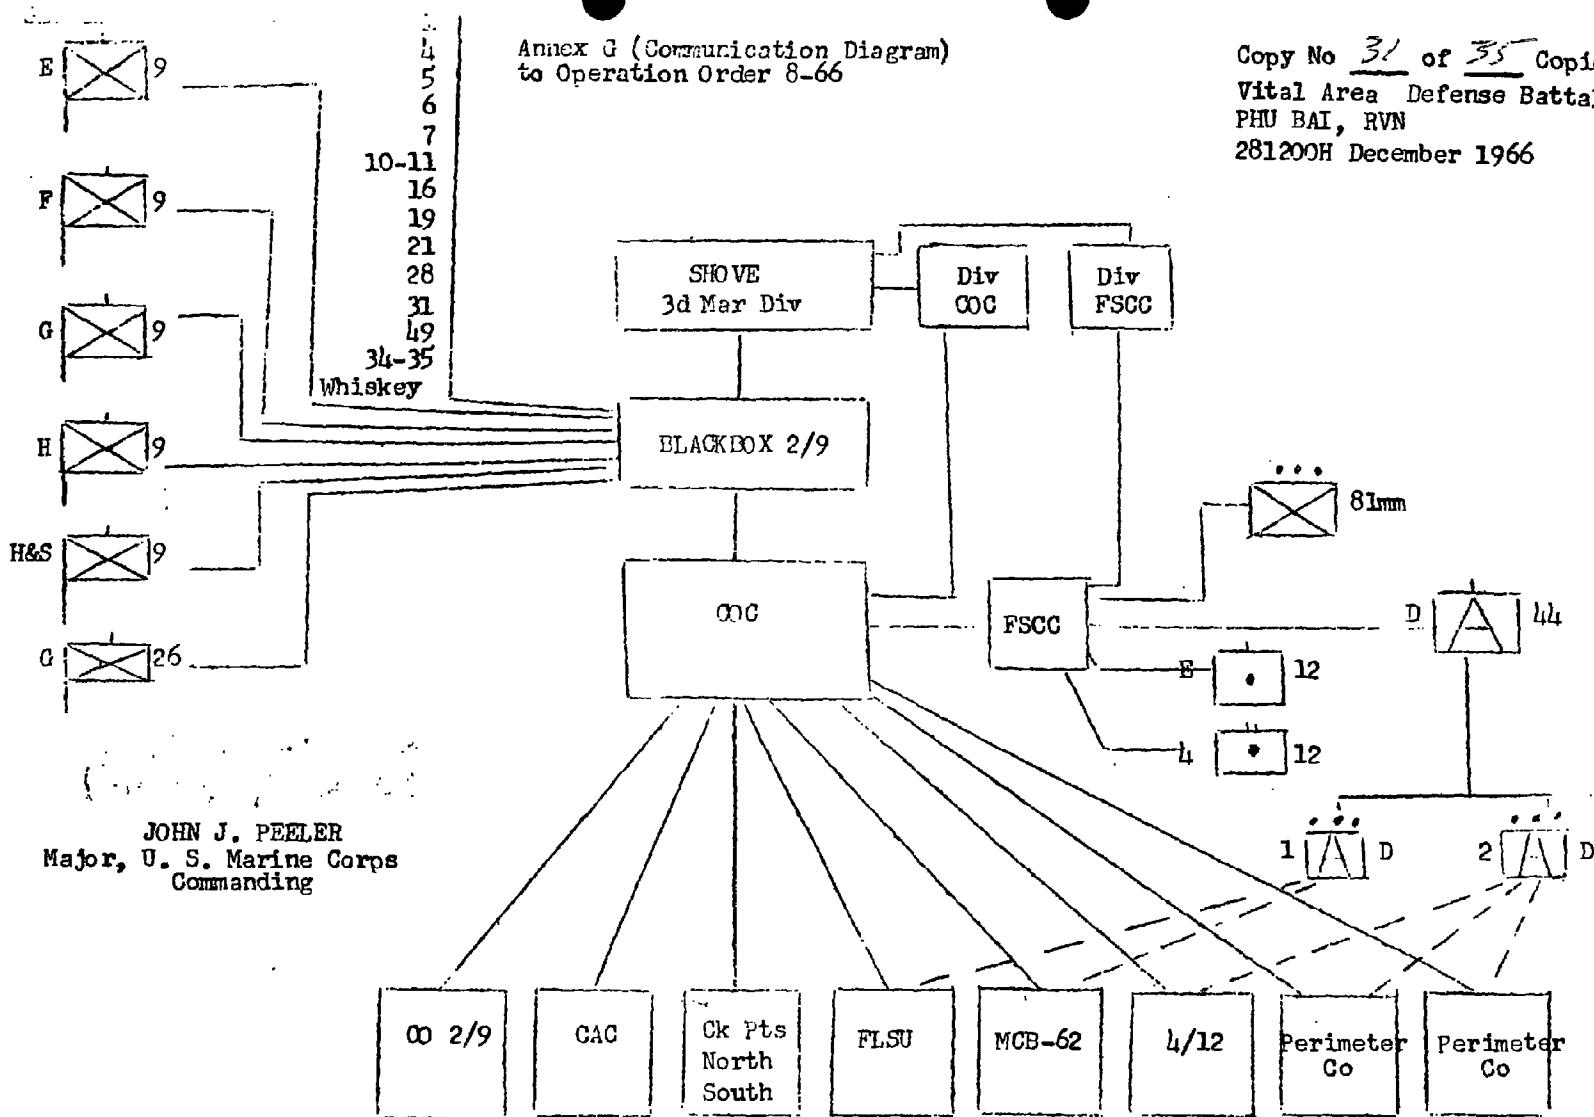

b. Vital Area Perimeter Defense Net 40.5 (M-543).

c. The Vital Area Defense Battalion will be net control. Net control maintains 24 hour monitor watch.

Annex 1

(a)

Copy No 30 of 54 Copies  
2d Battalion, 9th Marines  
PHU BAI, RVN  
311200H December 1966

Operation Order 9-66

Ref: (a) Maps: VIETNAM, 1:50,000, Series L7014, Sheets 6441 I, II,  
6442 II, 6541 I - IV 6542 III

Time Zone: H

1. SITUATION

a. Enemy Forces. See current INTSUMS and special intelligence reports as issued.

b. Friendly Forces

(1) 3d Marine Division conducts offensive operation in the HUE PHU BAI operating area.

(2) 4th Bn, 12th Marines, general support of operations in HUE PHU BAI operating area.

(3) 3d Reconnaissance Bn conducts missions throughout HUE PHU BAI operating area.

(4) MAG-16 maintains two CH-46 helicopters on strip alert for support of Sparrow Hawk.

2. MISSION. 2d Bn, 9th Marines maintains a reinforced platoon on 15 minute alert as Sparrow Hawk during daylight hours for instantaneous deployment by helicopter to any point in or adjacent to PHU BAI TAOR to exploit contacts or sightings of enemy elements and to engage and destroy such enemy forces contacted and/or sighted.

3. EXECUTION

a. Concept of Operation. A ~~need~~ exists for a ready force to exploit enemy contacts or sightings which cannot be engaged effectively by supporting arms or by troops already on the ground. The 3d Reconnaissance Bn will attempt to make contact with enemy units and, on order, the Sparrow Hawk will be committed to exploit the contact. The reinforced Sparrow Hawk platoon will be located in a designated billeting space within the battalion area. On order the platoon will be transported to the alert helicopters for employment as required. This concept requires reaction and execution in a ~~matter~~ of minutes to effectively accomplish the mission.

b. Company       

(1) Maintain one reinforced rifle platoon in the battalion area during daylight hours on a five minute alert for immediate employment in assigned operating area to engage and destroy enemy forces contacted and/or sighted.

(2) Be prepared to reinforce Sparrow Hawk with one platoon and company command group on order.

c. Coordinating Instructions

(1) Sparrow Hawk platoon commander will report to 3d Recon Bn duty officer at 3d Marine Division COC each morning for a briefing on 3d Recon Bn activities.

(2) Sparrow Hawk platoon commander will maintain a folder containing the maps listed in reference (a).

(3) When the Sparrow Hawk is notified that it has been committed the sequence of action will be as follows:

(a) Platoon commander reports ASAP to 3d Marine Division COC for briefing.

(b) Platoon (rein) moves by truck to MAG-16 helicopter pad. Platoon sergeant reports in ~~immediately to operation officer~~ at helicopter squadron ready room.

(c) S-3 notifies:

(1) S-4 of additional truck requirements.

(2) Commanding Officer.

(4) Thrust point will be lower left corner of grid square that contains designated Sparrow Hawk landing zone.

(5) Submit SITREPS once each hour and SPOT REPS on occurrence.

(6) Rules of engagement apply.

(7) Riot control agents are authorized.

(8) Reports

(a) Takeoff.

(b) Landing in LZ.

(c) Contact with recon team.

(d) Enemy contact.

(e) Liftout.

(9) Carry yellow air panels and yellow smoke to mark friendly front lines.

UNCLASSIFIED

(10) If air strike is requested, be prepared to mark target with white phosphorous.

(11) Capabilities of all supporting arms will be fully exploited.

4. ADMINISTRATION AND LOGISTICS

a. Prescribed loads

(1) 1 MCI and 2 canteens of water.

(2) Batteries for 2 days.

(3) Double BA ammunition per individual.

b. Carry sufficient hand illumination and flashlights to provide for night med-evacs.

c. Flak jackets and helmets are mandatory.

5. COMMAND AND COMMUNICATIONS-ELECTRONICS

a. Sparrow Hawk platoon commander and helicopter flight commander will use the 3d Recon Bn tac net, 35.7 during helolift into landing zone and for contacting recon team.

b. The special tac net 44.2 will be used by the Sparrow Hawk and units reinforcing Sparrow Hawk to maintain contact with the battalion.
