S-1 CHRONOLOGY

1. General. The enlisted personnel situation remains excellent. Present strength exceeds T/O authorization and should continue through April, even with 72 anticipated rotatees. Our officer strength remains at eight below T/O and four below M/L with an additional four rotating during April.

a. Strength. The average monthly strength for the period ending 31 March 1967 was as follows:

USMC		USN	
OFF	ENL	OFF	ENL
<u>34</u>	<u>1232</u>	<u>1</u>	<u>52</u>

(1) Percentage of T/O strength is 105%.

b. Losses.

	USMC		USN	
	OFF	ENL	OFF	ENL
Battle	<u>0</u>	<u>88</u>	<u>0</u>	<u>4</u>
Non-Hostile	<u>0</u>	<u>38</u>	<u>0</u>	<u>0</u>
Admin	<u>5</u>	<u>34</u>	<u>1</u>	<u>6</u>

(1) Of the battle casualties, 16 were KIA's and 76 were WIA's. Of the 76 WIA's, 13 were transferred by service records, 37 were returned to duty and 26 remain hospitalized.

(2) Of the 38 non-hostile casualties, one was KIA, five were transferred by service records, four remain hospitalized and 28 have returned to duty.

(3) Three officer and 31 USMC enlisted rotated to CONUS. Transfer percentage was 3%. In addition 2 USMC officers and 3 USMC enlisted were transferred intra-Division. One USN Officer was also transferred intra-Division.

c. Replacements. This Command joined five USMC officers and 113 USMC enlisted personnel during the reporting period. Six USN enlisted personnel were joined for duty.

d. Administration

(1) State of Morale. Morale remains outstanding.

(2) Significant Activities or Personnel Services. Special Services activities have been curtailed due to present operation, however, a highly successful smoker was participated in during the reporting period with members of MCB-62.

(3) Promotions. A total of 15 enlisted personnel were promoted; one to Corporal, 12 to Lance Corporal and two to Private First Class.

(3) Cobi Thanh Tan Valley leading to the valley north of Hill 51 at YD 5530.

(4) The Song Bu, Song O Ho, Song O Lau, and Song Thac Ma Rivers.

In addition, the entire TAOR is interlaced with a good network of trails and, with the exception of the rivers, is passable for tracked vehicles in most places.

c. Weather. During the month of March, good weather prevailed throughout the operating area and had little or no effect on friendly/enemy movement and operations within the operating area. As the good weather continues, it is anticipated that the height of the rivers will decline and they will be passable at more points than are now available. A weather summary for the period 1-31 March is as follows:

Maximum Temperature	99
Minimum Temperature	57
No of days with rain	8
Total rainfall received	2.31 inches
Average winds	N-NW @ 3½ knots
Visibility	4-7 miles

2. Enemy Situation. During this reporting period, Order of Battle listings were clarified and confirmed by captured documents and ralliers. Enemy activity was limited to that of sniping, mining, and small unit contacts and/or sightings. The enemy was active around the perimeter of the operating area particularly in Phong Dien (YD 5235) and the area north of it; also northeast of the operating area, and in the mountains to the south.

a. Order of Battle. The largest and most active unit in the area is the 6th NVA Regiment with it's headquarters in the mountains to the south. It is felt that all enemy activity in this area is controlled by this unit. The mission of this unit is to keep open lines of communication and supply from the mountain area at (YD 4825 - YD 5422), to the coastal lowlands at (YD 5840 - YD 6138). These lines of communication and supply are necessary for the harboring areas in the mountains to receive rice and necessary equipment from the coastal areas. The 6th NVA Regiment has the following units subordinate to it: 800th Infantry Battalion NVA, 802d Infantry Battalion NVA, 804th Infantry Battalion Main Force, 806th Infantry Battalion NVA, and the 810th Transportation Battalion. In addition, several Local Force Companies are believed to take their orders from this unit. The 800th Battalion is believed to be located in the Annamite Mountains at YD 4322 and is probably involved in the transportation of rice from the southern end of the Cobi Thanh Tan Valley to the mountains and it's final destination.

The 802d and the 804th are assumed to have moved down to the Phu Bai area of operation. The 802d is not believed to have had it's entire unit in this area. After contact with 3/26 during December and January, it is believed to have taken a critical amount of casualties, resulting in personnel from this unit

**UNCLASSIFIED**S-2 CHRONOLOGY

1. General. During the period 1 March to 9 March 1967 the 2d Battalion, 9th Marines continued to conduct operations against the local force guerrillas in the Hue/Phu Bai TAOR. At this time the Battalion displaced approximately 21 miles to the north in the Phong Dien District, to operate against elements of the communist North Vietnamese Forces (NVA) and local force Viet Cong insurgents as part of Operation CHINOOK II; under the operational control of the 4th Marine Regiment. The period 1 March to 9 March 1967 in the Hue/Phu Bai TAOR, produced no significant change in the enemy situation and remained as covered in the February S-2 Chronology of this unit. This Chronology will deal therefore with the period 9 March to 31 March 1967 in the Phong Dien District as part of Operation CHINOOK II.

a. Area. The Chinook II area of operations is bounded on the northeast by Highway #1 to the railroad at YD 5831, then along the railroad bed to the Song Bo River, on the east by the Song Bo River, on the south and southwest by the Annamite Mountains, and on the north and northwest by the area just north of the Song Thac Ma River. In the northeast portion of the area, near and parallel to Highway #1, cover is good to excellent for small infantry units. This is due to the gentle rolling nature of the terrain, stream beds, and gulleys. Low scrub vegetation grows throughout this area and with only a few exceptions, is from ankle to waist in height. In the southwest portion of the TAOR encompassing the Cobi Thanh Tan Valley, cover and concealment is provided by cultural features such as rice paddy dikes, villages, treelines and the rolling nature of the terrain. The mountains in the south and west portion of the operating area provide outstanding observation for both friendly and enemy units. This is due to the position and height of the mountains, and the heavy vegetation. Key terrain features in the area include Hill 51 (YD 550280), hill masses at YD 503C, YD 5131, YD 5428 and the mountains to the south. Civilians throughout the operating area have been instructed by GVN authorities to leave the area and it is assumed that any remaining people are VC or VC sympathizers. The civilians formerly from this area have been relocated inside the northern boundary of the TAOR. All civilians encountered inside have been forwarded, after interrogation by CIT/ITT, to the 4th Marines collection point or to the Phong Dien District Headquarters at Pho Trac.

b. Trafficability. Movement throughout this area is generally good with a few exceptions, notably the Song O Lau river, which cuts through the operating area in a north-south direction and the Song O Ho River, cutting through the Cobi Thanh Tan Valley in an east-west direction. Crossing these rivers during the monsoon season proved to be difficult, but with the letup of rain and experience of units previously operating in these areas as to the locations of crossing points, this problem is being solved. Routes offering ease of travel within the operating area are:

- (1) Highway 554 running along the southern end of the Cobi Thanh Tan Valley.
- (2) Hoa My Road at YD 549328 running through the center of the operating area.

8. Sources of Intelligence. For the most part, Marines (ground forces) continued to be the primary source of intelligence information. However, the following supplemented our intelligence information on a continued basis:

- S-2, 4th Marines
- ARVN Officials
- District/Province/Village and Hamlet Officials
- MACV personnel at Phong Dien
- Kit Carson Scouts
- Battalion Reconnaissance Squads

9. Surveillance Devices. During this reporting period, 4 TPS-21's and 17 SID's have been utilized by this command with excellent results. They have contributed to the security of the 4th Marines Perimeter and the combat outpost on Hill 51. Also used was 1 B.C. Scope, 6 infra-red scopes and 4 twenty-power scopes.

being reassigned to other Battalions; notably the 804th and possibly the 806th. In the event of capture, they are to identify themselves as members of the new battalion.

The 806th Battalion, is now believed to be located in the Quang Dien area (YD 6834). This unit had been initially north of Phong Dien and during this reporting period moved to its present position. The headquarters for this unit is still believed to be located at YD 4844.

The 810th Transportation Battalion is believed to be located in the mountains south of the Cobi Thanh Tan Valley. The reason for this movement is unclear at the present time, but elements of this unit are presumed to be still located at YD 6030, to keep that route open for resupply.

No large contacts have been made by this unit since its movement into this area. Sniping, mining and booby-trapping continue to be the favored tactic of the enemy and contacts of this nature are a daily occurrence. It is felt that the enemy does not desire any large contact with this unit at the present time. It appears that the main concern of the enemy is to move supplies and troops through the area with as little trouble as possible.

Mines and boobytraps continue to be our biggest obstacles. Usually found on trails, breaks in hedgerows, and entrances to bunkers and huts, they form an effective warning system for the VC as to the approach of friendly units. Marines of this unit have proven very adept at detecting mines and boobytraps, and are becoming more experienced in this type of detection daily. Our only serious casualties have resulted from tripping mines and boobytraps at night when normal detection procedures are limited. M-26 grenades, dud artillery rounds and dud aircraft bombs continue to be the most common type of explosive devices encountered.

### 3. Significant Events.

a. On 20 March 1967, this Battalion received four Kit Carson Scouts to be tested for hiring purposes. Two of the scouts quit shortly after being committed to the field; the remaining two were hired based on their cooperation, aggressiveness, and thorough professional knowledge.

b. During this reporting period, this unit continued to utilize two reconnaissance squads under the control of the S-2 Section. These squads are 14 men each and have 12 M-16's, 1 M-79, 1 M-60, and 2 PRC-25's per squad. Primarily utilized in sustained ambush/observation positions covering suspected avenues of movement, they have greatly added to the observation and intelligence capabilities of this unit.

10. Psychological Warfare. Psy Ops efforts in the area of operations are controlled and coordinated by 4th Marines S-5.

11. Items of Intelligence Interest. Many reports have been received concerning the mountainous area in the southern position of the TAOR. Every effort is being made, to learn as much as possible about this area as it is subject to future operations.

12. Comments and Conclusions. The central portion of our Operating Area continues to be denied to the VC for anything but small unit movements. The VC have been forced to use the longer and less dangerous routes around the northwestern and southeastern ends of the operating area. The lack of contact in these areas is not due to lack of intelligence on these movements, but the shortage of one company of this unit during most of the reporting period.

as Sparrow Hawk reaction force. From 28 to 31 March Company "G" moved to Hill 51 and operated from the combat outpost/company patrol base at that location.

5. Company "H", 2d Battalion, 9th Marines. While in the Phu Bai area of operation, from 1-9 March, Company "H" operated platoon patrol bases throughout the TAOR, maintaining a reinforced rifle platoon as Sparrow Hawk reaction force and provided security for a survey team at Coco Beach. Upon arriving at the Chinook II operation area on 10 March Company "H" assumed defensive positions on the 4th Marines perimeter and maintained a reinforced rifle platoon as Sparrow Hawk reaction force. On 20 March Company "H" commenced extensive patrolling and ambushing from a company patrol base in the northwestern portion of the TAOR. On 31 March the company returned to the 4th Marines perimeter.

6. H&S Company, 2d Battalion, 9th Marines. H&S Company manned a section of and operated a security patrol around the Phu Bai Vital Area Defense Perimeter from 1 to 9 March. From 1-7 March the company provided 81mm support at Coco Beach and provided security for MCB-62 at Phu Bai Vital Area Rock Quarry. On 10 March H&S Company moved to the Chinook II operating area and assumed positions on the 4th Marines defense perimeter. During the month the two reconnaissance squads of H&S Company conducted operations as described in the S-2 portion of the Chronology.

7. During the period 7 to 9 March elements of 3d Battalion, 26th Marines were under operational control of 2d Battalion, 9th Marines. From 7 to 9 March H&S Company, 3d Battalion, 26th Marines provided 81mm support at Coco Beach and provided security for MCB-62 at the Phu Bai Vital Area Rock Quarry. From 8 to 9 March I Company 3d Battalion, 26th Marines manned positions on the Vital Area Defense Perimeter, maintaining observation posts on Hill 230 and 180, reinforced CAC A1 and A2 and provided security for survey team at Coco Beach. K Company 3d Battalion, 26th Marines assumed the mission of Sparrow Hawk and operated a platoon patrol base on 9 March. On 10 March Company I, Company K, and H&S Company 3d Battalion, 26th Marines changed to 3d Battalion, 26th Marines.

8. Close Combat.

a. Patrol Breakdown. During the month of March 295 patrols and 200 ambushes of squad size were conducted. Of these, 23 patrols and 15 ambushes were conducted in conjunction with CAC units in the Phu Bai area of operation. 47 patrols and 35 ambushes of platoon size were conducted during the month. 8 patrols and 8 ambushes were conducted while 2d Battalion, 9th Marines was in the Phu Bai operating area.

b. Sparrow Hawk. Sparrow Hawk was not employed at any time during the month.

9. Training. Operational commitments precluded formal military training that normally would have been accomplished. 95 replacement personnel received training in accordance with Division Order 1510.3A. 95 replacement personnel received 10 hours of individual instruction on the M-16E1 weapon including familiarization, firing and battle sight adjustment. All personnel of the battalion were issued M-16E1's and fired the weapon for battle sight adjustment.

## S-3 CHRONOLOGY

1. General. From 1 to 9 March, 2d Battalion, 9th Marines continued its mission as the Phu Bai Vital Area Defense Battalion, maintaining observation posts on Hill 230 and 180, providing a reinforced rifle platoon as Sparrow Hawk reaction force, coordinating the Defense of the Vital Area Perimeter, providing security for various survey and road sweep activities, coordinating the activities of an reinforcing Combined Action Company (CAC) unit, and operating extensive platoon patrol bases throughout the Phu Bai TAOR.

On 9 March at 1345H, 2d Battalion, 9th Marines assumed responsibility for the Chinook II area of operation, maintaining a combat observation post/company patrol base on Hill 51, coordinating the defense of the 4th Marines Perimeter, providing security for various engineer and resupply activities, maintaining a reinforced rifle platoon as Sparrow Hawk reaction force on day and night alert for employment, most probably at the Phong Dien, Quang Dien, Huong Dien, or Huong Tra District Headquarters, and conducting offensive search and destroy activities within the area of operations to deny the enemy lines of communication, and destroy NVA/VC forces with aggressive patrols, ambushes, and small unit tactics.

2. Company "E", 2d Battalion, 9th Marines. While in the Phu Bai area of operations, from 1-7 March, Company "E" operated a platoon patrol base, provided security for rough riders and provided reinforcement to CAC units. Company "E" was chopped from 2d Battalion, 9th Marines to SOP 3d MarDiv/III MAF Rep. from 071615H to 281025H March. On their return to 2d Battalion, 9th Marines Company "E" provided one (1) rifle platoon (Reinforced) as Sparrow Hawk reaction force, and provided security for tanks and otters in mechanized recon north of Chinook II operating area 29 March. From 30-31 March Company "E" conducted patrols and ambushes from a company patrol base in the Chinook II area of operations.

3. Company "F", 2d Battalion, 9th Marines. Company "F" was chopped to 3d Marine Division until 021530 for support on operation PRAIRIE II. On their return Company "F" operated a platoon patrol base in the Phu Bai TAOR and reinforced CAC units as required. On 071135H the company moved to Chinook II area of operation. The company moved to Hill 51 on arrival and remained in that company patrol base/combat outpost until 28 March. While on Hill 51 Company "F" operated extensive platoon and squad size patrols. From 28 to 31 March Company "F" assumed the mission of defense of a sector of the 4th Marines perimeter and provided a reinforced rifle platoon as Sparrow Hawk reaction force.

✓ 4. Company "G", 2d Battalion, 9th Marines. While in the Phu Bai area of operation, from 1 to 8 March, Company "G" maintained observation posts on Hill 230 and 180, operated extensive patrols and ambushes throughout the TAOR with platoon patrol bases and manned a sector on the Phu Bai Vital Area Defense Perimeter. On 10 March the company moved to the Chinook II operating area and conducted extensive patrols and ambush activities from company patrol bases. Company "G" returned to the 4th Marines perimeter on 20 March to man a sector of that defense perimeter in addition to maintaining a reinforced rifle platoon

from the vehicles occupying perimeter positions were also integrated into the perimeter countermortar plan. 106mm RR fire support utilized during the period consisted of 1 direct fire bunker destruction mission and nightly indirect fire H&I fires, expending 982 HEP-T rounds and 1 HEAT round. Dual .40mm support consisted of nightly indirect fire H&I fires, expending 4030 rounds. Quad .50 caliber support consisted of nightly indirect fire H&I fires, expending 35,000 rounds. All perimeter indirect fire H&I's were fired from surveyed positions and were controlled at 2d Battalion, 9th Marines FSCC.

i. During the period of operation in the Chinook II area, the 81mm Mortar platoon fired 9784 rounds in support of operations, which included 9296 HE-Med, 20 WP, and 468 illumination rounds. The unit operated as a platoon for the first time in several months with three sections combined. In response to a countermortar plan which was developed, the platoon attained a reaction time of less than thirty seconds.

j. An extensive twenty-four hour H&I program was maintained, utilizing tanks and artillery. During the hours of darkness 81mm mortars, 106mm RR (ONTOS), twin .40mm and quad .50 caliber fires supplemented their fires.

k. In defense of the Chinook CP perimeter a countermortar plan was developed utilizing 81mm mortars, artillery, ONTOS, twin .40mm and quad .50 caliber fires with preplanned data maintained at the individual piece level. The plan consisted of an eight sector 81mm mortar plan, and a four sector artillery plan. In addition, the perimeter defense weapons, while not engaged in firing H&I's were laid on data for targets that were possible enemy mortar positions.

l. Fire support coordination policies while operating in the Phu Bai TAOR remained unchanged from the previous month. Upon moving to the Chinook II Operating Area, control changed from 3d Marine Division FSCC to the 4th Marines FSCC. Within the 2d Battalion, 9th Marines TAOR, responsibility for troop safety clearance of artillery missions rested at the Battalion FSCC. The responsibility for air safety clearance rested at the Regimental FSCC. Battalion FSCC controlled 81mm mortar fires, coordinating both troop safety and air safety, utilizing for air coordination the method of positive control of all aircraft within the area.

#### ll. Air Support.

a. Resupply. During March, 2d Battalion, 9th Marines required a total of 25 resupply missions. Five of these were in the Phu Bai TAOR, utilizing 10 UH-1 heliicopters. The remaining 21 missions were in the Chinook II operating area and utilized 5 H34's, 33 H46's, and 1 UH-1E.

b. Recon. During the month the Battalion was supported by 40 recon aircraft missions, which included command and control missions, visual reconnaissance by OIC and OIC aircraft and tactical air controller airborne missions. Thirteen missions, involved 24 H 34's and 2 Hueys, were flown as Battalion TAOR recon missions. The remaining 27 missions were flown by army OIC's and Marine OIC aircraft which controlled air strikes in the Chinook II

10. Fire Support and Fire Support Coordination

a. During the period 1-8 March 1967, while operating in the Phu Bai TAOR, 2d Battalion, 9th Marines was provided direct artillery support by Battery "E", 2d Battalion, 12 Marines and general artillery support by 1st Prov. 155mm Howitzer (Towed) Battery, and 1st Prov. 155mm Gun Battery. Battery "D", 1st Battalion, 4th Artillery, USA, provided dual .40mm(M42) and Battery "G", 1st Battalion, 65th Artillery, USA, provided quad .50 Cal.(M55) support for perimeter defense and convoy security.

b. Utilization of artillery in support of operations during this period consisted of 1 mission fired on a target of opportunity, 2 illumination missions, 15 defensive target adjustments and 629 H&I concentrations. These fires resulted in the expenditure of 5 HC smoke, 42 WP, 13 illumination and 1979 HE rounds.

c. During this period the 81mm Mortar platoon fired 1009 rounds in support of operations, which included 802 HE-Med, 58 WP, and 149 illumination.

d. During the period 9-31 March 1967 upon moving to the Chinook II Operating Area, 2d Battalion, 9th Marines was provided direct artillery support by Battery "E", 2d Battalion, 12th Marines, Battery "D", 2d Battalion, 12th Marines and general artillery support by 1st Prov. 155mm Howitzer (Towed) Battery, all under the tactical and technical fire direction control of Headquarters, 3d Battalion, 12th Marines. General support was also provided by a platoon of 8" Howitzers from 1st Prov. 155mm Gun Battery.

e. Utilization of artillery in support of operations during this period consisted of 49 missions fired on targets of opportunity, 33 recon by fire missions, 18 illumination missions, 5 training missions, 5 defensive target adjustments, 8 precision destruction missions, 1 smoke screen mission and 4630 H&I concentrations. These fires resulted in the expenditure of 14 HC smoke, 310 WP, 92 illumination and 9262 HE rounds.

f. Additional H&I fire support was provided by 3d Platoon, Company "C", 3d Tank Battalion, covering areas beyond the range capability of local artillery. The fires of this unit were also controlled by Headquarters Battery, 3d Battalion, 12th Marines.

g. 2d Platoon, Company "C", 3d Tank Battalion, provided support for patrol escort and for perimeter defense by occupying perimeter positions and providing a direct fire and an IR/searchlight capability.

h. Company "B" (-), 3d Anti Tank Battalion; 1st Platoon, Battery "D", 1st Battalion, 4th Artillery, USA (M42); and Section, Battery "G", 1st Battalion 65th Artillery, USA, (M55) provided support for patrol/convoy escort and for perimeter defense by occupying perimeter positions with a primary mission of direct fire and secondary mission of indirect fire support. c. Medevac. Twenty-nine medevac missions were flown during March, evacuating 31 Marines and two Vietnamese civilian. Fifteen H 34's and 7 UH1F's were used in medevac missions. As usual, reaction time remained very good for medevacs.

d. Troop Lift. Only one troop lift was conducted during March involving the relief of companies on Hill 51. This lift was conducted over two days utilizing 2 H 46's each day. A total of 300 Marines were lifted.

e. Close Air Support. March was an excellent month for fixed wing support. During the month 74 fixed wing sorties were flown in direct support of the 2d Battalion, 9th Marines. Of these 36 were F4B's, 30 were A4CE's, 4 were F100's, and 4 were F8 aircraft. All these missions were flown within the Chinook II TACR, and all were controlled by airborne controllers. One G117 Dragon Ship was utilized expending approximately 20,000 rounds of 7.62 ammunition.

S-4 CHRONOLOGY

1. General. The logistical situation of this battalion is considered good. There are still critical problems areas in Supply, Motor Transport and Comm-Electronics.

a. Supply. Items of significance during the reporting period was the receipt of (3) field ranges, (75) compasses, (921) M-16 rifles, (3) M422A1 Mites, (30) pistols Cal. .45, rifle cleaning gear, jungle boots, (3) typewriters, (12) tires for the M274A1 Mule, (1) generator, PU-239, and (3) M274A1 Mules. Critical shortages which still exist are constant velocity (CV) joints for the Mite (M422A1), long antenna bases for the radio AN/FRT-25, small tropical trussees, and tires for the M274A1 Mule. The battalion still lacks a PU-462 (30 KW) generator.

b. Ordnance. The battalion armorer has not encountered any major difficulty during this reporting period, although some difficulty has been encountered with the 81mm Mortars.

c. Motor Transport. Presently (13) M274A1's are deadlined, 12 of which are down for engines and one for transcr axle. The MTO at FLSU stated that there is no further outlook for the return of the M274A1's due to the lack of parts. There are (8) M422A1's deadlined of which three (3) are down for engines, one (1) for release bearings, one (1) for pinion seal, and two (2) for transmission. One (1) M422A1 is down for 2d echelon and parts are on order on a priority 02.

d. Comm-Electronics. There is a critical shortage of the long antenna bases (30) for the radio AN/FRT-25. There is (1) AN/FRT-25 deadlined at 3d echelon for the radio and (1) AN/FRT-25 deadlined at 2d echelon for a clutch.

e. Supporting Units.

(1) FLSG-A provides the bulk of the logistical support for Class II items; with LSA-2 providing support for Class I (except "K" rations), Class III, IV and V.

(2) EOD support is provided by Company "B", 3d Engineer Battalion, in the Chinook II area.

(3) Engineer support comes directly from Company "B", 3d Engineer Battalion. All work requests are channeled through Division Engineers.

(4) Truck support is provided by the 1st Platoon, Company "B", 3d Motor Transport Battalion and is coordinated through the 4th Marines S-4.

(5) Helicopter support is received from MAG-16 and coordinated through LSA-2 at Chinook II for logistical lifts.

(6) Otter support is received from 3d Motor Transport Battalion, detached, and is coordinated through 4th Marines S-4.

~~UNCLASSIFIED~~COMMUNICATIONS CHRONOLOGY

1. General. The Communications Platoon furnished wire message center, radio, maintenance, and electrical support for the Battalion during the month of March.

a. Support. This platoon provided AN/TPS-21 operators (3 men) during the month. It furnished communication equipment and operators for five (5) rough riders. The Division was supported with the loan of a reproducing machine. The 4th Marine Regiment was supported with a teletype repairman, a teletype writer, and twenty-six hours of circuit guard on the Division teletype net. Working in conjunction with the 4th Marines, electric power was supplied for this Battalion, the 4th Marines, the 3d Battalion, 12th Marines, "E" Battery, 12th Marines, the Logistic Support Area, attached units, and elements of the 1st Battalion, 9th Marines. The 4th Marine Regiment was also supported with courier service, a radio set AN/PRC-41, a battery charger PP-3240A, and a radio operator for the recharging and maintenance of wet cell batteries, BB-451. The 3d Motor Transport Battalion was supported with the loan of a radio set AN/PRC-10. The M-42 Unit was supported with the loan of a radio set AN/PRC-10. The 3d Battalion, 26th Marines were supported with the loan of a KAK-QT, remote control set, AN-GRA-39A/U, and a radio set AN/PRC-25 with antenna RC-292. The rifle companies of this Battalion were supported logically with deliveries made by the courier of the message center section.

b. Telephonic Communications. The wire section of this Battalion has removed and serviced the old wire installation in the Chinook operating area, while replacing it with an underground cable system. The new perimeter defense wire network consisting of four (4) switching centers has been completed. The Wire Section of this Battalion has wired all of the supporting units and the perimeter defense positions, and has assigned personnel fitting in the perimeter defense company areas to maintain telephonic installations and wire lines.

c. Training. The Communications Platoon was trained in the use of on-line and teletype procedures. Instructors and instruction was provided for the radio operators at company level.

d. Operations. Operations in the Phu Bai area were terminated and the Battalion moved to the Chinook II operating area from 7 to 10 March 1967. The Communications Platoon maintained communications control at two command posts at one time while in support of the movement. Men and equipment were loaned to the 3d Battalion, 26th Marines in order to facilitate the easy transition of command responsibility.

e. Difficulties. The shortage of accessories (antenna bases) for the radio set AN/PRC-25 remains critical. One company of this Battalion has deployed separately at Khe Sahn and resupply of radio equipment was necessary from time to time, which consisted of moving the equipment from Chinook to Phu Bai to Khe Sahn. Losses of equipment due to combat demands effort as the Battalion is at this time short of radios and accessories.

2025		J-1	012025H	2d Platoon "H" Company was moving into an ambush position at YD 944046, when they spotted a man coming up trail. Fired 15 rounds S/A fire and 6 rounds 60mm illumination. Area was searched which resulted in 1 VC/KIA (conf). They confiscated a cartridge belt, 1 grenade, poncho, 1 carbine magazine w/ 6 rounds, documents. They also found empty bag made from an old poncho. The bag contained traces of unhusked rice and particles of rice stalk. The VC was killed while moving toward Loc Son from the mountains. This may indicate that the VC may be harvesting rice in paddies and then transporting it to the mountains for processing.		MSF

0855	J-22	220855H		1/H/2/9 at YD 471352 received approximately 20 rounds S/A fire from unknown number of VC at YD 473355. Returned fire with 50 7.62mm rounds and 15 M-79 rounds. While beginning to search village, received approximately 70 rounds S/A fire. Returned fire with 30 M-79 rounds, 6 3.5 WP rounds, 15 7.62mm rounds, 225 M-60 rounds, 1 LAW, and 4 M-26 rounds. VC broke contact and headed south. Called artillery mission on route of withdrawal; searched area and apprehended 1 detainee. H/2/9 found 2 concrete buildings which villagers said were VC offices. It is estimated that it took 9 VC to carry 60mm mortars/rounds, 40 VC to carry carbines, and 10 VC to carry pistols; when retreating to the south. The buildings were destroyed and the detainee was questioned and released as innocent civilian. Casualties reported were 3 VC/KIA.		
1035	J-22	221035H		H/2/9 at YD 473355 reported 1 USMC WIA, while firing M-70 at concrete building. He was medevaced from area.		
1400	J-22	221400H		1/H/2/9 at YD 471361 destroyed 14 family bunkers 4'x5' - 1 year old, 2 concrete buildings 20'x10', and 100 punji stakes sticking out of ground.		
1500	J-22	221500H		1/H/2/9 located assorted documents of VC nature in 20mm shell casing at YD 477362. Documents will be forwarded to CP		
1400	J-22	221400H		1/H/2/9 reported that 1 USMC stepped on punji stake, but was not medevaced from area.		
1930	J-22	221930H		F/2/9 1st and 3d platoons at YD 577271 while moving to ambush site, heard approximately 5 rounds S/A fire in vicinity of YD 578268. They were fired approximately 300 meters southeast of point element and suspected to be warning shots. Spotted 1 VC dressed in black pajamas, but disappeared before Marines could open fire. Platoons continued enroute to ambush site.

2130	J-22	222130H		F/2/9 Company Commander on Hill 51 (YD 550281) reported witnessing fire fight in vicinity of YD 575275. The two units involved exchanged approximately 100 rounds of S/A fire. There are no USMC units in area and it is believed that one VC patrol ambushed another VC patrol in error. At 2130, 1st and 3d platoons F/2/9 were not in area (ref 221930H)		
230200	J-23	230200H		F/2/9 1st and 3d platoons at YD 596264, observed 1 VC approaching ambush site. He was sighted in vicinity of YD 599264. Ambush had been instructed to allow the first two VC to pass through position and wait for main body. Evidently VC discovered ambush and dropped two picks he was carrying. At this time, another VC was observed carrying carbines and both fled in a southeasterly direction. Fired at VC with no positive results. Immediately following, 3/F/2/9 received incoming sniper rounds which resulted in 1 USMC WIA.		
0730	J-23	230730H		1/F/2/9 at YD 596265 received 12 rounds of sniper fire from unknown number of VC in vicinity of YD 599264. Returned fire and called artillery mission. Area checked not checked because platoon was moving with casualty.		
0800	J-23	230800H		F/2/9 reported that 1 USMC was wounded in left foot at YD 596265. The sniper was located in the vicinity of YD 599263. Platoon reported minor wound, but requested to delay reporting spot report due to position being compromised. Casualty was medevaced. At approximately 230530, L/Cpl PHILLIPS, J.A. 2146483 was killed by a sleeping Marine, who awoke suddenly when PHILLIPS shook him. Investigation will follow.		
1645	J-23	231645H		F/2/9 at YD 550280 sighted 5 VC in vicinity of YD 528265. Three VC were armed and wearing black pajamas; while the others were dressed in civilian attire. They appeared to be digging positions. Called artillery mission from hill 51 and no casualties observed. 1st platoon has moved to night position at above coordinates (YD 528265)

NO USMC units are in this area and it must be assumed that 2 VC units on patrol got into a fire fight with each other. At 1930 2 platoons of F/2/9 moved through this area and reported 5 carbine rounds being fired as a signal of their approach. By 2130H both platoons were well clear of area. It is F/2/9 Co's opinion that VC unit was ambushed by another VC unit.	S, F
