Section II - S-1 Chronology

1. General. During the reporting period, the officer strength has increased, but is still 6 officers under T/O. 8 officers were joined and 7 were lost to this organization. The enlisted strength remained rather constant having joined 133 and dropped 154. A shortage no longer exists in SNCO ranks. The non-effectives at the end of the reporting period totals 3 officers and 203 enlisted. Losses for the month are expected to be 2 officers and 66 enlisted who rotate to CONUS.

a. Strength. The average monthly strength for the period ending 31 August 1968 was as follows:

<u>USMC</u>		<u>USN</u>	
<u>OFF</u>	<u>ENL</u>	<u>OFF</u>	<u>ENL</u>
36	1056	2	57

Note: Percentage of T/O was about 92%.

b. Losses.

	<u>USMC</u>		<u>USN</u>	
	<u>OFF</u>	<u>ENL</u>	<u>OFF</u>	<u>ENL</u>
Hostile	0	22	0	2
Non-Hostile	1	10	0	1
Admin.	6	122	1	3

Note: The above figures include only those personnel dropped from the rolls. For total casualties see the medical chronology.

(1) Of the battle casualties, 7 were KIA, 1 DOW, 1 died of other causes; malaria, and 13 were WIA. The 13 were transferred by service records to Camp S.D. Butler.

(2) Of the administrative losses, 3 officers rotated to CONUS, 2 were transferred inter-division and 1 transferred intra-division. 88 enlisted rotated to CONUS and 34 were transferred intra-division.

c. Administrative:

(1) State of Morale. Excellent.

(2) Significant Activities of Personal Service. None.

(3) Promotions. 3 Corporals were promoted to Sergeant meritoriously. 46 Lance Corporals were promoted to Corporal, 20 Private First Class were promoted to Lance Corporal and 10 Privates were promoted to Private First Class.

(4) Discipline, Law and Order. 1 Summary court-martial was completed, 2 special court-martials were held and one person was awarded NJP by the Battalion Commander.

(5) Mail. Service has been satisfactory.

Section III - S-2 Chronology**UNCLASSIFIED**PART I

1. General. From 1 August to 3 August, 6 August to 15 August, 17 August to 19 August and 20 to 27 August Second Battalion, Ninth Marines participated in Operation SCOTLAND II. The battalion's mission was security for Vandergrift Combat Base and the high ground surrounding this base.

2. Area. During the operation the operating area can generally be described as the area around Vandergrift Combat Base and also the high ground surrounding this area.

The terrain in this area falls in the category of rugged hills and mountains. Prominent terrain features in this area are Dong Toan vic (YD 0944) and Dong Ngan vic (YD 0944) as well as the ridgeline of which they are a part. Nui Ba Ho vic (YD 014513) and Hill #504 vic (YD 996468) are also prominent. These land masses offer excellent observation over much of the operating area.

Extremely poor trafficability will be encountered in most of the operating area due to the vegetation and steep gradient of land masses. Several of the land masses offered good movement, since they were covered with elephant grass less than three feet high. Other hill areas are covered with thick vegetation, making movement slow and often impossible. Movement in the Ba Long Valley is excellent with populated villages and cornfields predominating. The valley floor surrounding Vandergrift Combat Base is covered with thick scrub, which makes movement difficult.

The principle avenue of approach into and out of Vandergrift Combat Base is Route #9 running north and south. An old French road runs east from Ca Lu into the Ba Long Valley and various lesser footpaths offer varying quality movement. The Quang Tri River running east-west is a river avenue of approach except during the seasonal rains.

Vegetation in this rugged mountainous area is generally a double and/or triple canopy with heavy secondary growth offering excellent concealment to enemy forces harbored there. Some slopes and high ground is covered with tall elephant grass growing to heights of eight to ten feet.

3. Weather. The weather during this period typified the summer heat.

8. Sources of Intelligence. During the reporting period intelligence was gathered through S-2 Ninth Marine Regiment, S-2 Second Battalion, Ninth Marines, Battalion S-2 Scouts and ground troops in the area.

9. Surveillance Devices. N/APART II

1. General. From 3 August to 6 August and from 19 to 20 August, Second Battalion, Ninth Marines participated in Operation KENTUCKY. The battalion's mission was to set up defensive positions and run extensive searching patrols from these outposts.

2. Area. The operating area that the battalion worked in on Operation KENTUCKY can generally be described as the central and northern portion of Leatherneck Square and the area north of Con Thien.

The terrain of the operating area can be described as piedmont with large abandoned rice paddies. Prominent terrain features in the area of Operation KENTUCKY are the MSR running from Cam Lo to the northern outpost of Con Thien, Hill #158 Nui Con Thien vic (YD 115702) and the trace running from Con Thien to the artillery outpost at Gio Linh vic (YD 214743).

Trafficability in the area of operations range from good to fair. In the area of dense vegetation foot troop movement was hindered. Trafficability in the rice paddy areas was good and no problems were encountered. Track vehicles can be used in the rice paddy area and most of Leatherneck Square area.

Avenues of approach in the area are comprised of the MSR running from Cam Lo to Con Thien, Route #1 running from Dong Ha Combat Base to Gio Linh and the prominent east-west trail running from Route #1 vic (YD 212696) to the MSR vic (YD 121688) passing through Phu Oc vic (YD 114697), Loc Son vic (YD 166701) and Phu Tho vic (YD 179699). Enemy avenues of approach include a vast network of well used trails and roads throughout the operating area. Route #561 running from the southern boundary of the DMZ vic (YD 154741) is the primary access route.

Vegetation in the operating area can be described as thick scrub growth four to six feet high. In the rice paddy area elephant grass will be encountered. Also thick hedgerows will be found around the large rice paddies.

3. Weather. The weather during this period typified the summer heat.

7. NVA/VC Initiated Incidents. During the reporting period NVA/VC initiated 3 incidents against Second Battalion, Ninth Marines. The breakdown is as follows:

Artillery	1
Contacts	2

8. Sources of Intelligence. Intelligence was gathered during and prior to Operation KENTUCKY through S-2 1st Marine Regiment, S-2 Second Battalion, Ninth Marines, Battalion S-2 Scouts and ground troops in the area.

9. Surveillance Devices. N/A.

PART III

1. General. From 15 August to 17 August 1968, Second Battalion, Ninth Marines participated in Operation LANCASTER II. The battalion's mission was security for Camp J.J. CARROLL and the Rock Pile.

2. Area. The operating area for this period can be described as the area immediately surrounding Camp J.J. CARROLL and the Rock Pile.

The terrain around Camp J.J. CARROLL and the Rock Pile can be described as rugged hills and mountains. Prominent terrain features in the operating area are Dong Ha Mountain vic (YD 0159), Dong Kio vic (YD 0558) and About Cao vic (YD 0659), also the Main Supply Route is prominent.

There were no problems with trafficability during the reporting period because the battalion did not move from the defensive position.

The two main avenues of approach in the operating area are the MSR and Route #9.

Vegetation in these areas can be described as extremely dense in the mountainous area with double or triple canopy. A few of the hills and mountains have elephant grass covering them.

3. Weather. The weather during this period typified the summer heat.

4. Enemy Situation.

A. General. During the reporting periods the enemy showed no indication of defending in the area at this time. Enemy forces encountered during 3 August to 6 August were probably elements from the 27th Independent Battalion. From the 19th of August to the 20th of August enemy forces encountered were probably elements from a tactical unit of the 320th NVA Division, which have been confirmed to be in this area.

B. Significant Enemy Activities. Significant enemy activity during the reporting periods were four contacts with Marine patrols. Also the enemy initiated mortar and artillery attacks. The enemy engaged Marine patrols with small arms fire, automatic weapons fire and supporting arms. The enemy were repulsed with small arms, automatic weapons and supporting arms which included tanks. The enemy broke contact in each incident and retreated from the area. They were pursued and air strikes were called in on the enemy elements while they were making their retreat.

UNCLASSIFIED

1. General. From 27 August to 31 August 1968 Second Battalion, Ninth Marines participated in Operation SCORPION III - TROUSDALE. The battalion mission was to search out and destroy enemy forces and installations in the area west of the Rock Pile.

2. Area. The operating area can generally be described as the area to the west of the Rock Pile. The western boundary can generally be called the 88 grid line, the 58 grid line to the north and the 52 grid line to the south.

The terrain in this area falls in the category of extremely rugged hills and mountains. Prominent terrain features in this area are Dong Ke Soc vic (XD 912564), Nui Tri Pong vic (XD 901538) and Nui Ba Lao vic (XD 927547). These land masses are very steep.

Extremely poor trafficability will be encountered in the operating area due to the dense vegetation and steep gradient of land masses. Foot troops were confined to column movement and the movement was very slow. Any type of vehicular movement in this area would be impossible.

The principle avenue of approach in the area is Route #9, running west to the Rock Pile. In the area of operation only a few trails were encountered.

3. Weather. Weather during this period typified the ending of summer

4. Enemy Situation.

A. General. Enemy forces encountered during the reporting period could have very possibly been elements of the 52nd NVA Regiment. The enemy is well supplied and is ready to defend this area at this time. The enemy is set up in a very complex bunker system with A-frame type and also some concrete bunkers.

B. Significant Enemy Activities. Significant enemy activities during the reporting period consisted of four different small unit contacts with Marine patrols and mortar attacks. The enemy engaged Marine patrols with small arms, automatic weapons, RPG's and mortars. The Marines returned fire with small arms, automatic and supporting arms. Air strikes were called in on enemy positions. Also the enemy conducted one mortar attack upon the Marines.

Section V - S-4. Chronology

1. General. The Battalion was constantly on the move during this period. The following is a summary of the operations and areas covered by the Battalion during the month.

DATESOPERATION & AREA

31 Jul - 3 Aug	SCOTLAND II, Vandegrift Combat Base
3 Aug - 6 Aug	KENTUCKY, near Con Thien
6 Aug - 15 Aug	SCOTLAND II, Vandegrift Combat Base
15 Aug - 17 Aug	LANCASTER II, Camp CARROLL and surrounding area
17 Aug - 19 Aug	SCOTLAND II, Vandegrift Combat Base
19 Aug - 20 Aug	KENTUCKY, near Con Thien
19 Aug - 20 Aug	LANCASTER II, Route #9
19 Aug - 23 Aug	LANCASTER II, south of Camp CARROLL
20 Aug - 27 Aug	SCOTLAND II, Vandegrift Combat Base
27 Aug - 31 Aug	SCOTLAND II - TEGGSDALE, west of Rock Pile

Resupply problems were increased as a result of the constantly changing situation. While operating out of Vandegrift Combat Base resupply was effected primarily by helicopter to our position on the surrounding hills. However, when operating in the KENTUCKY area under 1st Marines, supplies were lifted from the LSA in Dong Ha. Difficulty was encountered on a night emergency resupply request for ammunition on 5 August. No ammunition was available at Dong Ha and Route #1 was closed between Dong Ha and Quang Tri making it impossible to transport the ammunition from Quang Tri to the LSA from which we were then operating. It was determined that the ammunition must be lifted from Quang Tri, but after contacting Shore Party we were informed that no nets were available there and apparently there was no established LSA in Quang Tri. This was determined after a helicopter was dispatched and had flown around the area to a number of Landing Zones but could not find any LSA or establish communications with our ground element. Finally the ammunition was driven directly to MAC-39 and loaded internally aboard the helicopter and transported to the field. Since this time an LSA has been established in Quang Tri and Shore Party now has the facilities to handle emergencies in the future. Other than this, no major problems were encountered. However, while OPOON to 3rd Marines at Camp CARROLL and Mai Loc, very little assistance was rendered to Second Battalion, Ninth Marines by their S-4. 3/3 assisted Second Battalion, Ninth Marines by serving hot chow to one company as well as supplying MCI's when initial resupplies were not available. It was necessary to transport supplies by truck from Vandegrift Combat Base to Camp CARROLL and positions along Route #9 just below the base. This would not have been necessary if 3rd Marines had provided a vehicle for use in transporting food, water and supplies to troops in and around Camp CARROLL.

a. Supply.

(1) The supply situation presented no major problems in carrying out the battalions mission. However, the following items were in short supply during the month:

Starters for M274A2's	Antenna Matching Unit
Carburetor for M151A1's	Compasses
Regulators for M151A1's	Sundries Pack
Air Mattresses	Paper plates
