(a)(u) During the month of July, the 2d Battalion, 9th Marines Chaplain held frequent Protestant Divine Services at the Company positions. Catholic Services were conducted at Vandegrift Combat Base by the Regimental Chaplain.

13.(s) Intelligencea.(s) General Information. During the period from 02 July to 06 July, the 2d Battalion, 9th Marines participated in Operation UTAH MESA. The remainder of the month was utilized in preparation for redeployment to Okinawa.b.(s) Operation UTAH MESA. This Operation was conducted in an area 18,000 meters south, southeast of Khe Sanh in southwestern Quang Tri Province. This area was suspected of being a major logistics and supply line, centered along route 926. In the past, this route has sustained tracked and wheeled traffic of moderate to light intensity, also the various other trails within the area of operations had signs of recent heavy use. This information coupled with other data seems to indicate that the Laotian Salient Area in general and Route 926 specifically is a major LOC into Quang Tri Province.c.(s) HLZ's and FSB's. During Operation UTAH MESA, the 2d Battalion, 9th Marines utilized FSB Spark (XD 874237). Two un-named HLZ's were utilized by Companies "G" and "E".d.(s) Analysis. Documents captured all related to the 24th Regiment (AKA 57th), particularly to the 4th and 6th Battalions. A POW, captured by Company "H" on 03 July 1969, claimed to be a member of the 1st Platoon of the 24th Regiment. Although he claimed that his unit's mission was to spearhead an attack and penetrate the perimeter of FSB Spark for the 13th Company, it doesn't seem plausible. He and his dead comrade were not dressed as sappers. Their attack on FSB Spark was not much more than a heavy probe. The Chieu Hoi captured by Company "G" on 03 July 1969, gave his unit as the 17th Company, 5th Battalion, 22d Regiment, 204th Division. Because of inconsistencies in his story, this man was given a lie detector

test and was considered to be lying. He was turned over to Counter Intelligence in Dong Ha for further investigation. The Hoi Chanh was utilized in an "early word" broadcast to his comrades via a PsyOps aircraft. It is believed that this area contains many vital LOC's and supply routes. One hundred pounds of rice in two 50 pound bags was discovered off a trail on a platform six inches above the deck and covered with a green plastic cover.

14.(b) Air Support

a.(s) Fixed Wing Support

(1)(s) Fixed Wing Support was excellent during all phases of Operation UTAH MESA. Fixed Wing was requested through Marine Air Liaison at Task Force Guadalcanal and directly from Base on a few occasions. AO's controlled most of the daytime flights because of superior observation capabilities and night-time flights were controlled by the FAC utilizing the Motorola Radar Beacon and systems of the A-6 Intruder. Most missions were pre-scheduled with a 45 minute reaction time on immediate requests. 390 bombs, 195,000 pounds of ordnance were dropped plus an assortment of rockets and cluster bombs.

(a)(s) 39 tactical air observation missions were flown with an almost continual visual reconnaissance, keeping enemy movements and mortar activity to a minimum during daylight hours. On 9 occasions the OV-10 and Huey gunships ran their own ordnance on targets of opportunity. Once the OV-10 was used as a flare ship covering a night medevac and emergency resupply.

(b)(s) 1 Spooky and 1 flare ship mission were flown.

(c)(s) 7 close and direct air support missions were flown.

(d)(s) 5 A-6 Beacon close air support missions were flown.

(e)(s) 1 special PsyOps mission for Chieu Hoi broadcasts was flown.

b.(c) CAS Bomb Damage Assessment

(1) 36 bunkers, plus 2 stone bunkers.

(2) 2 secondary explosions.

(3) 550 meters of trenchline destroyed.

(4) 1 structure destroyed.

c.(s) Helicopter Support

(1)(s) Helicopter support, although hampered by the distance away from Vandegrift Combat Base and the weather, was also excellent. The average time for completion of emergency and priority medevacs, day and night, was 40 minutes.

(a) 2 tactical lifts (1,150 personnel)

(b) 7 medevac missions (14 personnel). This does not include 11 personnel evacuated on resupply helicopters.

(c)(c) 1 C&C mission was utilized to evacuate a Chieu Hoi. Additionally, Task Force Guadalcanal supported the 2d Battalion, 9th Marines with their C&C aircraft on many occasions.

15.(s) Artillerya.(s) Supporting Fires

(1)(s) Artillery support for the 2d Battalion, 9th Marines during Operation UTAH MESA was provided by "B" Battery, 1/40 Artillery, "E" Battery, 2d Battalion, 12th Marines, and Army 175 guns firing from Vandegrift Combat Base.

(2)(s) Nature of targets fired included: enemy contact, active enemy mortars, bunker complexes, blocking fires, illumination, H&I's and TOT's.

(3)(c) Artillery support during the entire Operation was timely, accurate and effective.

(4)(c) Three enemy deaths were attributed to Artillery.

(5)(c) Total rounds expended were 945 HE, 35 WP, 26 ICM and 2 Illumination.

16.(s) Communications and Electronics

a. General. During the month of July, the Communications Platoon continued to provide radio, message and wire service for the Battalion rear in Quang Tri, Vandegrift Combat Base and in the field. During the month, the Platoon completed all the requirements for embarkation to Okinawa and by the 31st was ready to depart. During Operation UTAH MESA, from 2-6 July, some cipher difficulties existed between the CP at FSB Spark and the Army CP. This problem was overcome by switching antennas and through the rotation of PRC-77/KY-38's.

b. Wire.(s) Normal wire was used at Quang Tri and Vandegrift Combat Base from the 1st to the 21st when the system was partially broken down in anticipation of the redeployment to Okinawa. On the 28th, the wire systems at Vandegrift Combat Base and Quang Tri were broken down for Mount-Out to Okinawa, with one hot-line being maintained to 3d Battalion, 9th Marines' switchboard.

c. Radio(s) From 1-7 July, normal radio communication was employed. Following the stand-down on the 7th, radio traffic was limited to Perimeter defense at Vandegrift Combat Base and the Admin net from Vandegrift Combat Base to Quang Tri. Throughout the month, the radio section prepared all gear for Mount-Out to Okinawa.

d. Message Center(c) The message center processed 337 incoming and 222 outgoing radio messages during the month and 703 incoming and 15 outgoing teletype messages. Normal shackles deliveries were made to units at Vandegrift Combat Base and Quang Tri.
