NARRATIVE SUMMARY

Part II

1. Mission Assigned. Initially, BLT 3/9 as number two (2) surface BLT (forward afloat BLT) was prepared to land in Republic of Vietnam to conduct security missions, reconnaissance operations, and offensive/defensive operations as directed. Upon landing 8 March 1965 BLT 3/9 was initially assigned mission of defending Danang Airfield (proper) in conjunction with BLT 1/3. Subsequently BLT 3/9 was assigned mission of occupying and defending the dominating terrain immediately west of the Danang Airfield (Hill 327 and 268) and to provide security for the Brigade Engineer Group deployed in assigned zone and the LAAM Battery when deployed to Hill 327 and Hill 268.
2. Movements Made.
 - 1 March through 7 March 1965 Reporting period commenced with BLT 3/9 afloat off the coast of Republic of Vietnam prepared to execute landing in the Danang Area. Shipboard training continues.
 - 8 March 1965 Debarked from assigned shipping and landed administratively over Beach Red 2, Danang, Republic of Vietnam. Moved to and commenced operations Danang Airfield.
 - 10 March 1965 BLT 3/9 (-) departed Danang Airfield and proceeded to assigned defensive position Hills 327 and 268.
 - 11-31 March 1965 Remained in designated position Hills 327 and 268.
3. Exercise Participation. No exercises conducted.
4. Training Conducted. Training conducted during the period 1 through 7 March 1965 consisted of the following:
 - a. Physical Training.
 - b. Individual Protection.
 - c. Tactical Foot Marches.
 - d. Weapons Training.
 - e. NBC Warfare.
 - f. Immediate Ambush and Counter-Ambush Procedures.
 - g. Information Program (Vietnam)
 - h. Guerrilla Warfare.
5. Terrain and Weather. During period 1 through 7 March 1965, there was no effect of terrain and weather upon training.

6. Summary of Events 8-21 March 1965

UNCLASSIFIED

- a. H-Hour, D-Day set for 080800H March 1965. H-Hour was delayed for one (1) hour due to high surf. The first elements of BLT 3/9 touched down on Beach Red 2 at 080900H March 1965. Upon landing, troops commenced administrative movement to assigned position on Danang Airfield. Throughout first day, surf continued to be high which prevented rapid unloading of remaining personnel and equipment. In conjunction with BLT 1/3 (-), this BLT assumed defensive positions around Danang Airfield immediately upon arrival.
- b. The day of 9 March was spent occupying assigned position on Danang Airfield. Company I assigned mission of security for Brigade Engineers constructing road to top of Hill 327. Subsequently, on 10 March 1965, BLT 3/9 (-) moved by foot to Hills 327 and 268 with mission of occupying and defending the dominating terrain immediately west of the Danang Airfield and provide security for the Brigade Engineer Group deployed in assigned zone and the LAAM Battery when deployed to Hill 327 and Hill 268. Co "L" was assigned operational control of BLT 1/3 for airfield defense.
- c. The period 11 through 31 March 1965 was spent preparing defensive positions. In addition the following occurred.
 - (1) On 16 March 1965 one (1) member of a fire team from Company "I" accidentally fired at three (3) members of the same fire team fatally injuring one (1), critically injuring another and inflicting minor injuries to the third. The critically wounded man subsequently passed away on the morning of 16 March 1965. The third man is presently on a duty status with his parent company. The Marine who did the shooting is still under observation after having partially recovered from a severe state of shock. An investigation is presently under way regarding accident.
 - (2) During the period 11 through 31 March 1965, there was some activity created by unidentified personnel. Fire was delivered upon these personnel on several occasions with no positive KIA's, and a likely wounding of one (1) or more of these personnel. (Partially substantiated by discovery of blood stains on ground and bushes in area where incident took place).
 - (3) Extensive recon/combat patrolling of assigned TAOR also took place throughout this period with several sightings of unidentified personnel. A total of three (3) Vietnamese were apprehended during this period and turned over to 9th MEB for interrogation. One (1) was possibly VC although not confirmed as of the last day of this report. Many problems encountered regarding liaison with ARVN training camp located on south-easterly edge of Battalion TAOR. Many cases of ricochets, and in some cases direct fire, from small arms fire penetrating Company "I" position have been reported. No solution to this problem as of 31 March 1965. One (1) man from Company "M" slightly wounded (mild shock) from enemy grenade. No other casualties inflicted by enemy.

- (4) A chronological sequence of events is contained in paragraph 7.

- (5) The effects from terrain and weather have been somewhat of a problem. The terrain is extremely rough in the Battalion TAOR which necessitates resupply of some positions by helicopter. The weather has had some effect on patrolling and movement of troops. Due to the hot climate, it has become necessary to conduct patrolling during the hours of darkness to eliminate the possibility of excessive heat casualties. It is imperative that all personnel be in top physical condition in order to cope with terrain and weather conditions prevalent in this area.

7. A Chronological Sequence of Events follows:

1-6 March 1965 Ship board training continued. On 4 March 1965 received warning order from CG 9th MEB which stated to be prepared to administratively land the landing force. Training continued with final preparations for the landing of the landing force. BLT 3/9 Frag Order 2-65 w/overlay issued to all units of BLT 3/9.

7 March 1965 As of 1400 this date, no information had been received as to H-Hour. Naval Gunfire and TAR and TAD Nets activated. Preparations for landing still underway. Message from CG 9th MEB received stating that rapidity of events could possibly preclude assurance of ARVN security around beach and route to airfield. Later, received message that ARVN would provide security for beach and route to airfield. D-Day and H-Hour set at 080800H March. Mov Rep sent by message. Received 9th MEB Frag Order which referenced 9th MEB Operation Plan 370-65 which was not held by this command. Remainder of day spent in preparation for landing.

8 March 1965 Received confirmation of D-Day, H-Hour. BLT 3/9 Frag Order 3-65 issued to all units of BLT. H-Hour postponed indefinitely due to high surf on Beach Red 2. High surf plan in effect (LCM's in lieu of LCVP's) H-Hour reset for 080900H March 1965. Swells, estimated to be 8-10 feet, played havoc with personnel and equipment during debarkation process. Virtually impossible to hold net in order for personnel to debark. Several sea painters snapped under pressure causing injury to three (3) personnel. Touch down of first wave LVT's occurred at 0904. Units upon landing established hasty defenses and shortly commenced movement to assigned position on Danang Airfield, via Motor March. Unloading of personnel and equipment continued throughout day and night while remaining personnel assumed defensive posture around Danang Airfield in conjunction with BLT 1/3 (-) who had arrived by air. Security of Beach Area assigned to Company M.

UNCLASSIFIED 9 March 1965

Received 9th MEB Frag Order 5-65 which stated in part that BLT 3/9 (-) continue security of Beach Red 2; provide security of Beach Red 2; provide security for BEG repairing road to Hill 327; coordinate overall ground defense of Danang Airfield; assign one (1) platoon OpCon Headquarters Commandant, 9th MEB. Btry F 2/12 in position ready to fire. All personnel, except ships platoons and beach security, unloaded and in position Danang Airfield. Company "I" designated as security for BEG and also assigned mission of conducting patrols within proposed Battalion TAOR. Received 9th MEB Frag Order 6-65 which stated in part that BLT 3/9 move to, occupy and defend Hills 327 and 268. Company "L" under OpCon BLT 1/3 until further notice. Preparations made for move to assigned Battalion TAOR on 10 March 1965.

- 10 March 1965 BLT 3/9 (-) commenced movement to assigned area at 1028H. Units were in assigned positions within Battalion TAOR by 1130H. Sit Reps from companies required every hour on the hour. Companies commenced preparation of positions. 25% security established throughout Battalion. A joint ARVN/USMC patrol was conducted with negative results. Negative contact throughout night.
- 11 March 1965 Companies continued to improve defensive positions throughout day. Artillery and 81mm Mortars commenced registration. CG 9th MEB ordered following detachments from BLT 3/9, Det. 3d Ser. Bn, 3d Plt, Co C, 3d Eng Bn, Det. Col. Plt, Co D, 3d Med Bn, Det. 3d Dental Co, FMF and platoon, Co C, 9th Motors. No enemy contact throughout night.
- 12 March 1965 Companies continued preparation of positions during daylight hours. At approximately 2010, a TPS-21 located in Company "I" area picked up reading of four (4) unidentified objects moving in front of their position. At the same time, two (2) additional unidentified objects believed to be personnel, were observed moving to right flank of Company "I" position. One (1) person observed moving within approximately 150 meters of an outpost. Upon firing illumination, unidentified personnel dispersed. At approximately 2321, TPS-21 picked up siting of an undetermined number of personnel moving in what was considered a skirmish line toward an outpost located on Hill 271. These personnel dispersed under machine gun fire. Also, artillery and 81 HE and illumination were fired. All patrols reported negative contact although some unidentified movement was detected in Company "M" area. (as of 122400H).

UNCLASSIFIED 13 March 1965

At approximately 0038, Company "I" reports that unidentified personnel were believed using military formation. Also, at 0105, unidentified personnel had disappeared. There were no friendly casualties nor known enemy casualties. At 0105, an unidentified grouping of approximately 10 unidentified personnel was detected by TPS-21. These personnel were brought under small arms and mortar fire - personnel dispersed. Surveillance continued throughout night resulting in negative contact. A recon patrol was dispatched to recon area of early morning action. Upon return to Company "I" position, patrol reported negative results from previous action.

14 March 1965

Throughout day, companies continued to improve defensive posture. Have commenced laying protective wire. Unidentified personnel observed during day but no contact made. Sit Reps now required from all units every 4 hours between hours 0600-2000 and every hour between hours 2000-0600. Received call from Company "I" that fire had mistakenly been delivered upon friendly troops located on outpost (Hill 271). Investigation revealed that one member of a fire team located on Hill 271 had accidentally fired upon the other three (3) members who were returning from investigation of a noise. The firing seriously wounded two (2) and inflicted minor injuries on another. Helo evacuation underway immediately. At the time helicopter was landing on Hill 271, unidentified activity was reported in that area. Helo evacuation successful. Wounded personnel and man who did shooting evacuated to airfield. Unidentified personnel vicinity Hill 271 dispersed under illumination. Negative contact remainder of night.

15 March 1965

At 0115, received information that LCpl Achas had died of wounds received in accidental shooting. Cpl Parham in very critical condition. Third man only slightly wounded. Man who did shooting in severe state of shock. Received information that Cpl Parham died of wounds received. Companies continued to improve positions throughout day. Negative contact on patrols and positions.

16 March 1965

Companies continue to improve positions. Received information that Cpl Pacelli, wounded accidentally, would return to duty today. Newburn, man who fired fatal shots, to be transferred to Army Hospital, NHA TRANG. Requested two search light tanks be attached this command-request denied. Negative contact on patrols and positions.

17 March 1965

Improvement of positions continue. Negative contact on patrols and positions. Extensive patrolling of Battalion TAOR continues.

~~SECRET~~UNCLASSIFIED
18 March 1965

Improvement of positions continues. Received information that General Westmoreland to visit position on 19 March. At approximately 2115, a combat patrol, code name Crusher, operating in forward portion of TAOR, delivered fire upon approximately four (4) unidentified personnel possibly wounding one (1) or more. (Heard screams) There was no return fire. Several sitings throughout night but of little or no significance. Negative contact from other patrols and positions.

19 March 1965

At approximately 0700, Crusher patrol delivered fire upon one (1) unidentified person - person fled. Received information that today is VC Anit-American Day and to be prepared for possible riots, demonstrations, etc. General Westmoreland visited position. At approximately 1746, an undetermined number of unidentified personnel fired five (5) rounds of small arms and threw one (1) grenade at a recon element from BLT 3/9 Crusher patrol. Fire returned but no confirmed enemy casualties - no friendly casualties. Several incidents of Marines setting off trip flares within own positions. Negative contact remainder of night although extensive patrolling of TAOR continues.

20 March 1965

At approximately 0528 a patrol from Company "I", code name Apache, took four (4) men under small arms fire. This action took place approximately 800 yards in front of outpost on Hill 271. Approximately 10-15 rounds were fired by unidentified personnel, considered to be VC, at patrol. There were no enemy casualties or friendly casualties. Reserve squad moved out to assist outpost - unidentified personnel dispersed. Evidence that at least one (1) or more of the unidentified personnel had been wounded - Recon patrol discovered blood stains on ground and in surrounding brush. Shortly after dark, there was activity in front of Company "M" position. Several tracers and 81 illumination rounds were fired but with negative results. Some sounds of individuals or things picked up by SID (Seismic Intrusion Device), a sound device currently under test by BLT 3/9. There was negative contact by patrols and positions throughout remainder of night.

21 March 1965

Received order from 9th MEB at approximately 1345 to cease fortifying positions any more than they presently are - extensive measures will be taken to camouflage existing positions. Throughout day, emphasis placed upon camouflaging of positions. Although two (2) incoming small arms rounds were reported by Company "K", there were no confirmed contacts with unidentified personnel. Extensive patrolling of TAOR continues.

Sid de [redacted] presently employed on LP's [redacted] have proven capability to pick up sounds from varying distances. One (1) Vietnamese apprehended within Battalion TAOR. Vietnamese released after confirmation that he was farmer. Again requested two (2) searchlight tanks be attached this command which was refused. Continued surveillance, improvement of positions and extensive patrolling of Battalion TAOR.

23 March 1965

Units continued preparation of areas throughout day. At approximately 1845, combat patrol (code name Panther) delivered fire upon one unidentified person. Man ran and in process dropped "gunny sack" which contained personal effects, rice, books, papers and a cooking pot. This equipment was later confirmed to that of a Viet Cong. Extensive surveillance and patrolling continued throughout TAOR with no contacts. Battalion visited by General Krulac CG FMF PAC.

24 March 1965

Received information that Company "L" to revert to parent control. Ambassador Taylor and Prime Minister Quat flew over Hill 327. Frag Order 8-65, which designated position of Company "L", distributed. Once again ricochet from ARVN training camp hitting Company "I" position - ARVN training camp notified but nothing done about it. Company "L" commenced helilift to designated positions at 1215H and completed lift at 1435H. There was much interference over radio nets from undetermined Vietnamese source. No contact - Very quiet.

25 March 1965

Plans commenced for rotation of Companies on line. Companies "K" and "M" to change positions with Company "K" becoming Battalion Reserve. Throughout day, companies continued to improve positions - during the hours of darkness, surveillance and continued extensive patrolling of TAOR continued with no contact.

26 March 1965

Frag Order 10-65 distributed which refers to changing Companies "K" and "M". Companies "K" and "M" changed position with minimum of confusion. Extensive use of helicopters proved satisfactory in all respects during move. Remainder of day spent in preparation of positions. Extensive patrolling of TAOR during hours of darkness. Company "L" brought fire upon one (1) unidentified personnel with no results. No more contact throughout night.

27 March 1965

The Battalion continues to occupy and improve same positions. Frag Order 11-65 issued to Company "K". Refers to a recon patrol to be helilifted to Hill 368 to carry out extensive reconnaissance of that area. Col. Farnell, J-3, COMUSMACV, visited positions. Extensive patrolling of TAOR continues. BLT 1/9 commenced reconnaissance of BLT 3/9 TAOR for proposed relief 7 and 8 April 1965. Received order to establish joint check point vicinity coordinates 9475. Check point to be established in conjunction with RVN Forces and will be established by 1800H. Unidentified activity in forward position of TAOR but no exchange of fire. At approximately 1130, Patrol Otter was fired upon by three (3) unidentified personnel. Three unidentified personnel apprehended and turned over to G-2 for interrogation. Units of Battalion continue preparation of positions and extensive patrolling of TAOR. No other contact.

29 March 1965

Patrol Sidewinder arrived back Battalion position. No contact during deployment to Hill 368. Extensive reconnaissance patrols were conducted and valuable information pertaining to water, trails and terrain in general was obtained. Company "L" conducted FAM Firing of weapons. Joint check point manned but arrangement with popular force personnel unsatisfactory. Personnel made appearance but then disappeared into nearby village and did not return, most unreliable military personnel. At approximately 2345 Company "M" reported that one (1) unidentified person threw a grenade, initially thought to be concussion grenade, at a position within Company defensive position. Fire returned and two (2) grenades thrown by Company "M" personnel. One (1) fr. Cas. - No enemy casualties. Much movement reported throughout forward portion, westerly portion, of TAOR but no confirmed sightings other than one (1) man reported by Company "L". Extensive surveillance and patrolling of TAOR continues. No other contact made.

30 March 1965

This day remained quiet although there was some movement reported in the vicinity of Company "M" positions. There were no confirmed sightings however. There were no other movements reported within Battalion TAOR. Positions on Hills 327 and 268 were visited by Admiral Miller and General Karch - departed at approximately 1400 after a 20 minute visit. Units of Battalion continue surveillance and extensive patrolling of TAOR and adjacent TAOR.

31 March 1965

Received CG 3d Marine Division Employment Schedule for 29 March to 22 June 1965. BLT 3/9 to be relieved by 3d Battalion, 3d Marines 14-15 June and off load Okinawa 21-22 June 1965. Barracuda Patrol, operating in TAOR NW of present Battalion position, has accumulated much information but had had no contact. Elements of Companies "M" and "L" fired at unidentified personnel on several occasions with negative results. Companies "K" and "I" switched positions with Company "I" reverting to Battalion Reserve. Units continue to improve positions. Extensive patrolling of TAOR continues.

Unit Report No. 1

Period Covered: 191800H to 201800H March 1965

Ref: (a) Verbal instructions from CG, 9th MEB
 (b) Map: TOURANE, 1:50,000, Series L701, Sheet 6659

1. ENEMY

- a. Units in contact. There is no contact at present with any known or identified enemy unit.
- b. Enemy activity during period
 - (1) "M" Co. reconnaissance patrol was fired on and a grenade thrown at them at 191737H from AT 929742. Fire was returned by the patrol and it withdrew to its patrol base with no casualties to either side. At 191805H another M Co reconnaissance patrol fired three shots at an unidentified individual from the vicinity of AT 942751 with unknown results and no return fire.
 - (2) M Co took one Vietnamese adult male as a prisoner at 191810H in the vicinity of 982741 after he had been identified as a VC by other Vietnamese from the words "DIET-CONDDRI" tattooed on his chest.
 - (3) An M Company/ARVN joint reconnaissance patrol took an unarmed adult Vietnamese prisoner at 200537H in the vicinity of 984744 in the BLT zone during the hours of curfew.
 - (4) An I Company reconnaissance patrol sighted and challenged three to four people in the vicinity of AT 962732 at 200528H. There was no response and the patrol fired on these people. Small arms fire was returned by the enemy with no friendly casualties. One and possibly more of the enemy was wounded. They (the enemy) withdrew and no further contact was made with them.
- c. Estimate of enemy strength, material, means, morale and probable knowledge of our situation
 - (1) Strength - No known organized units are in the BLT zone. The indications are that the enemy operating within the BLT zone are small groups of guerrillas that live and work outside the limits of the zone.
 - (2) Probable knowledge of our situation. The defensive positions in the BLT zone are probably well known. The immediate area is open to civilian movement and ground observation from areas outside the zone and outside

Tab. 2-#1

CONFIDENTIAL

the control of the BLT units.

- (3) The morale of the guerrillas in this area is probable fairly high because of the suspected operations of a VC main force reconnaissance platoon in the area during the past week. After contacts with this platoon ceased 4 days ago, the incidents with the non-professional soldiers greatly increased.
- (4) Reports of patrols having had contact with the enemy in which shots were exchanged have reported that the reports from their weapons sounded like a dull "pop" rather than a sharp report. No other equipment has been observed. The weapons themselves have not been seen.

d. Conclusions

- (1) That the BLT will not be threatened by any organized enemy units during the next 24 hours.
- (2) That the BLT will continue to receive minor harassment by guerrilla elements.

2. OWN SITUATION

a. Front Lines. Defensive position (overlay submitted previously).

b. Own operations during period

- (1) In proving defensive positions including barriers and obstacles, and conducting recon patrols within Battalion TAOR.
- (2) Patrols conducted within Battalion TAOR, one (1) contact made by Crusher Patrol, at 191820H vicinity check point 15 which resulted in approximately 15 rounds and one (1) grenade being fired by unidentified personnel. Another contact made approximately 200528H by Barracuda Alpha Patrol vicinity hill 271. Approximately 10-15 rounds fired by unidentified personnel at patrol. Fire returned with possibility of wounding one (1) enemy. Patrol of TAOR continuing.

c. Combat efficiency. 88% (based upon T/O and T/E. One company OPCON BLT 1/3. This company included in combat efficiency percentage.

d. Results of operations. Battalion is in control of assigned TAOR. Progress of construction is good. Defensive positions approximately 75% complete. Barriers and obstacles approximately 10-15% complete. (Due to shortage of materials

- a. Units in contact. There are no known organized enemy units in the BLT zone or immediately threatening the BLT.
- b. Enemy activity during the period.
 - (1) There were sightings of unidentified personnel in the BLT zone and one reported enemy contact in which fire was directed at BLT personnel. All of the sightings were small groups of 2 to 5 personnel.
 - (2) The one contact was when a friendly patrol received 5 rounds of small arms fire from one unidentified individual in a tree vicinity of 924741. The weapon appeared to be a carbine. No fire was returned by the friendly patrol, and there were no casualties. The patrol subsequently captured 3 unnormal civilians in the immediate vicinity and they were transported to G-2 for interrogation.
 - (3) There were other sightings of a fire fight involving small arms and mortar fire approximately 2 miles outside of the TAOR. There were also sightings of unidentified flashing lights in vic of 953758 that appeared to be answered from 935759. Both of these locations are within the TAOR.

2. OWN SITUATION

- a. Front lines. Remain the same.
- b. Own operations during period. Extensive patrolling conducted in TAOR. Reinforced platoon helilifted to Hill 368 to conduct patrolling in that area. Will remain approximately two days. "L" Company patrol "Otter" fired upon by unidentified rifleman. Patrol apprehended 3 unidentified personnel in vicinity. Prisoners were helilifted to rear and turned over to G-2, 9th MEB.
- c. Combat efficiency. 88% (based on T/O and T/E).
- d. Results of operations. Battalion has control of its TAOR and the situation is all secure. The Battalion is conducting extensive patrols in its TAOR.

- a. Units in contact. There are no known organized enemy units in the BLT zone or immediately threatening the BLT.
- b. Enemy activity during the period. There was no enemy activity in the BLT zone. From 0841 to 0850 small arms fire was heard by a patrol and by an "L" Company Outpost; shots came from vicinity of GS 9676. There was a sighting at 1230H of 50 unidentified men in dark clothing at coord. 924724 outside the TAOR, they appeared to be a patrol and were split with one half of group moving North and the remainder moving South. It could not be determined if any of them were armed.
- c. Conclusions
 - (1) The BLT will not be directly threatened by any organized units during the next 24 hours.
 - (2) The BLT will continue to receive minor harassments by small groups or individual guerrillas.

2. OWN SITUATION

- a. Front lines. Remain the same.
- b. Own operations during period. Extensive patrolling conducted in TAOR. Negative contact with enemy. "L" Company fired 10 rounds of M-79 ammunition and 15 fragmentation grenades in various gullies in their area to flush possible enemy. Fertilize Sidewinder (reinforced platoon) completed its mission at 291600 and helilifted back to their company area.
- c. Combat efficiency. 88% (based on T/O and T/E).

Unit Report No. 11

Period Covered: 291800H to 301800H March 1965

Ref: (a) Verbal instructions from CG, 9th MEB
(b) Map: TOURANE, 1:50,000 AMS Series L701, Sheet 66591. ENEMY

- a. Units in contact. There are no known organized enemy units in the BLT zone or immediately threatening the BLT.
- b. Enemy activity during the period.
 - (1) There were possibly seven separate groups of enemy sightings, which were reported during the hours of 292005H to 300035H in all areas of the BLT zone.
 - (2) There was no enemy fire reported as directed at any BLT unit except for the throwing of one concussion type hand grenade.
 - (3) There were no known enemy casualties during this period.
- c. Conclusions
 - (1) The BLT will not be directly threatened by any organized unit during the next 24 hours.
 - (2) The BLT will continue to receive minor harassments by small groups or individual guerrillas.
 - (3) Enemy activities during this reporting period indicated an uncoordinated plan of harassments or attempted infiltration of several different BLT units at the same time by local guerrillas.
 - (4) Lack of firing by enemy may indicate withdrawal of weapons from local unit. Object of their activities appear to be infiltration possibly to seize arms and ammunitions.

2. OWN SITUATION

- a. Front lines. Remain the same.
- b. Own operations during period. Joint check point with ARVN established in pass. (Coord 9475) BLT 3/9 provided one (1) squad which effected liaison with two (2) popular forces personnel. Popular Forces Personnel stayed on post approximately 45 minutes when they informed squad leader that they were departing for village and if they did not return during night would see them next day. A most unsatisfactory arrangement which should be corrected immediately. At approximately 2048 Company "L"

fired upon what appeared to be a squad at coordinates 938742. Negative results. At approximately 2114 one (1) man from Company "L" observed a man's head and shoulder and delivered fire upon this man from a distance of approximately 20 yards - man ran and there was no evidence that he had been hit. At approximately 2345, one (1) unidentified person threw what was thought to be a concussion grenade at an "M" Company position. Fire from .45 Cal. pistol and two (2) fragmentation grenades were thrown at this individual with negative results. One (1) Marine suffered from mild shock. Several unidentified movements were reported during remainder of darkness but there was no other contact. Barracuda patrol deployed to designated patrol area at 1000H. At approximately 1340H Admiral Miller and General Karch visited Hill 268 and 327 and observed BLT 3/9 and the LAAM Battery - departed at approximately 1400H. There was no other contact or sightings during reporting period.

- c. Combat efficiency. 88% (based on T/O and T/E).
- d. Results of Operations. No confirmed enemy casualties - no friendly casualties. BLT 3/9 has control of TAOR with no foreseeable danger of losing control. Much information reported by patrols which adds to control factor of TAOR.
- e. Miscellaneous Activities. Rifle Companies conducted familiarization firing of small arms.

				then with several visual sightings. The U/I pers moved in column to I Co zone, then changed to a skirmish line formation. They were signalled with no response. Then fired on with mortar, arty, and MG fire under which they withdrew. Other probing type actions occured in four other areas in BLT zone on a lesser scale. Early in the morning of 13 March a man was sighted by I Co, possibly part of action from night. The patrol in- vestigating area where fire was delivered found no trace of the enemy. Patrolling continued throughout the zone.
