PART II

NARRATIVE SUMMARY

On 1 March the Commanding Officer established the Battalion Command Post at Camp J. J. CARROLL, Republic of Vietnam and on 3 March assumed responsibility for the TAOR from the 2nd Battalion, 3d Marines. Change of Command was effected on 9 March when Lieutenant Colonel J. S. WILSON relieved Lieutenant Colonel S. A. BRUNNENMEYER.

During the period 1-31 March 1967, this battalion conducted search and destroy operations, patrolled aggressively and established out-posts and listening posts and ambushes throughout the assigned TAOR. Emphasis was placed upon saturation patroling within the respective company sectors to counter and minimize activity in these areas.

PART III

SEQUENTIAL LISTING OF SIGNIFICANT EVENTS

- 1. FMF organization committed to combat.
 - a. Combat mission assigned.
- (1) Conduct unilateral offensive operations within assigned sector of TAOR.
- (2) Conduct unilateral and/or coordinated offensive operations within the Division area of responsibility as directed.
 - (3) Occupy and defend assigned sector of TAOR.
 - b. Significant operations conducted.
- (1) During the periods 6-9 March, 10-14 March and 27 March-3 April, this battalion(-) conducted search and destroy operations and reconnaissance in force missions in the Quan Cam Lo District, Quang Tri Province, Republic of Vietnam, in support of Operations Pararie II and III.
 - c. Casualties inflicted on the enemy.
 - (1) KIA Confirmed -----65
 - (2) KIA Probable -----36
 - (3) NVA/VC Detainees -----71

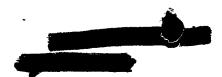

- d. Casualties sustained.
 - (1) KIA ---- 23
 - (2) WIA ----- 88
- e. New techniques employed. None
- f. Command Relations. This battalion functioned under the OPCON of the 3d Marine Regiment, 3d Marine Division during this period.
- g. Equipment. During this period there were no serious problems with equipment and normal Marine Corps issue was sufficient in all respects.
 - h. Logistics.
 - (1) Supply and Distribution.
- (a) To support the battalion logistical effort, the supply section was established at DONG HA in proximity to the sources of supply provided by FLSU#1.
- (b) A forward supply section was established at Camp CARROLL to monitor customer requests, stock a small supply of fast moving expendables and perform limited second echelon ordnance maintenance.
- (c) The required annual physical inventory of all material and equipmentplus a recomputation of all inventory control data was accomplished.
- (d) All equipment belonging to attachments to BLT 3/9 was invoiced back to the respective battalion organic supply accounts.
- (e) Company sized and larger operations have been supported by HST from 3d Shore Party Battalion.
 - (2) Transportation.
- (a) Two motor pools have been established; one at the battalion rear at DONG HA, one at Camp CARROLL.
- 1. The majority of the Motor Transport Section is located at DONG HA where the bulk of the second exhelon maintenance and administrative work is accomplished.
- second echelon maintenance, inspection and dispatching functions.

(b) Troop movements and daily house keeping and resupply vehicles are supplied by 9th Motor Transportation Battalion at DONG HA.

1 9th Motors' response for troop movements has been excellent.

2 The daily allocation of two trucks with trailers is sufficient to support only normal operations at Camp CARROLL. The requirement to supply the D-5 Area with water buffalos prevents the complete accomplishment of household work.

(3) Embarkation.

- (a) The offloading of BLT 3/9 at DONG HA and the establishment of the battalion at Camp CARROLL with an administrative rear located at DONG HA was accomplished in a smooth professional manner facilitating the assumption of all assigned missions.
- (b) The "Can Do" attitude and competence of the 3d Shore Party Battalion and the 9th Motor Transportation Battalion greatly aided this effort.

i. Civil Affairs.

- (1) Public Health. The public health program activities conducted during this period revolved around the Med Cap Program. A total of 980 civilians received medical attention, and two children were evacuated for fragmentation wounds.
- (2) Public Welfare. Public welfare activities included the distribution of 439 bars of soap, 7,800 pounds of food, 379 cans of salad oil, 400 pounds of clothing and 720 blankets were distributed during this period.

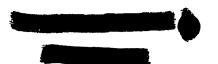

(3) Other Activities.

- (a) The village of CAM NGHIA was burned down by the Viet Cong and about 950 people were assisted. Construction materials have been provided and the rebuilding project is now underway.
- (b) With the help of the village chief, three VCS were captured during this period.
 - (c) One Viet Cong turned himself in under the provisions of the Chieu Hol Program.

UNGLASSITIED Englosure

7

- j. Administration. There were no administrative difficulties encountered during this period.
- k. Personnel. No personnel problems have been encountered during this period and replacement personnel have been adequate to cover casualties and personnel rotating back to CONUS.
 - 1. Intelligence.

(1) Situation.

- (a) The most significant incident during this period was the mortar attack commencing at o62358H March 1967. The overall attack was broken into three timely attacks; the first beginning at 062358H; the second beginning at 070400H; and the third beginning at 070615H. the enemy fired from unknown positions, but counter mortar fire commenced shortly after the first attack using 81mm mortars, twin 40mm, 106's and artillery. Approximately 450 to 485 mortar rounds and rockets were fired upon Camp Carroll. From crater analysis and duds found in the area, the munitions used by the enemy were 81mm, 107mm, 120mm, 130mm and 140mm mortars plus assorted sizes of rockets.
- (b) During the attack there were four USMC KIA and twenty-eight (28) WIA. Retaliation upon the enemy had unknown results; however, 106's reported one secondary explosion.
- (c) Three operations were conducted during the periods 6-9 March, 10-14 March and 27 March until 3 April.
- (d) Intelligence information prior to the first operation stated that a battalion size cache harboring site was in the area of operations. A0's received sniper fire from the area, and an estimated VC platoon with the mission of harrassing and terrorizing the local villages had been reported.
- (e) During the operation some fighting holes and grave mounds were discovered, but there was no indication of recent enemy activity. Allied propaganda leaflets were also found.
- (1) Contact with the enemy resulted in one NVA KIA. Captured material included: AK-47 submachinegun, 4 magazines, magazine pouches, extra ammunition, NVA script and personal items.
- (g) Intelligence information prior to the second operation (10-14 March) gave evidence that two battalions of NVA were in the area of operation. Vehicles on Route #9 had received sniper fire from the hills in the operation area, and mortar/rocket flashes were beserved during the attack on Camp Carroll were also believed to be in the area of operation.

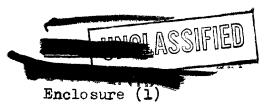

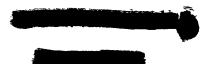

(h) Some holes, trails and trenchlines were found but there was on evidence that the enemy had used the area for some time.

- (i) Terrain analysis, obstacles, and new trails were closely observed during both operations.
- (j) The intelligence information prior to the third operation indicated that two battalions of NVA were operation in the area. The 1st Battalion, 9th Marines had made contact with the NVA giving confirmed proof of the NVA existance. Enemy activities in this area had been prominent for quite some time, and intelligence reports indicated that NVA had become well organized in the area.
- (2) Scout Section. The scout section during the month of March employed the AN/TPS-21 team and the AN-TPS-21 on OP Red (Hill 250). In addition two scouts were attached to each of the line companies for variable periods of time. During the three operations, the scouts were used as security for the command group.
- (3) During this period twelve (12) scouts were given additional instruction in scouting and patrolling procedures at the 3d Force Reconnaissance School.
 - (4) Destroyed/Captured Enemy Equipment.
 - (a) Packs ---- 7
 - (b) Canteens ----- 11
 - (c) Carbine Rounds ---- 150
 - (d) Hammock ---- 7
 - (e) Cartridge Belts ---- 9
 - (f) Duds ----- 1 155mm round
 - - 20 (*) ChiCom Grenades
 - (h) Acceseries ----- 15 AK-47 Magazines

m. Communications. During this period the communications platoon continued to provide communication support for the battalion. Normal communication support was provided for debarkation and subsequent move to Camp Carroll. Upon arrival at Camp Carroll, the communication platoon rapidly established communication within the Battalion Command Post in order that the assigned combat mission could be accomplished.

The communication platoon provided communication support for the command group during operations conducted during this period. Communication equipment and personnel were maintained on a stand-by basis and prepared to displace immediately with a command group as required.

Periods of instructions were conducted for reconnaissance personnel by the communications platoon during this period.

The PM of equipment was continued throughout the period. The 11th Engineers assumed responsibility for the power supply for the CP area including responsibility for the generator, related equipment and maintenance.

- n. Weather. Weather during the period was mostly clear with exceptions. Weather during the first part of the month was cloudy and air operations, if needed, would be limited. However, the weather did not seriously hamper any of the operations conducted during the period.
- o. Fire Support. During the period there were 51 artillery missions fired in support of the 3d Battalion, 9th Marines during Operation Pararie I and II, with an expenditure of 2800 rounds. The artillery batteries which fired in direct support of the battalion were the following: F Battery, 2d Battalion, 12th Marines; B Battery, 1st Battalion, 40th Artillery, USA; A Battery, 4th Artillery, USA; M Battery, 4th Battalion, 12th Marines. The first three batteries respectively are 105mm howitzer batteries and the last one is a 155mm howitzer battery. H&I fires were fired throughout the month. Artillery support in all instances was considered excellent.
- p. Air Support. During March 1967, 54 missions were requested in support of this battalion and 47 were received. A detailed breakdown follows:

Eype of M	ission	Sumber Requested	Number Received
Med Evac	Routine Priority Emergency	7 7 4	7 7 A SOUTHER
***		10	Enclosure (1)

Type of Mission	Number Requested	Number Received
Resupply	11	9
Troop Lifts	2	2
Aerial Observation	13	12
Gunship	2	2
Helo Recon	2	1
Helo Admin	3	1
Fixed Wing	2	2
AC-47 Flare/Gunship	1	1
Total	54	47

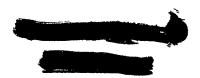

Air support was considered excellent in almost all cases. Extremely low ceilings on several occasions resulted in delayed medevacs and resupply. During the period the TACP suffered 50% casualties and due to these losses the combat effectiveness of the TACP has been reduced to an unacceptable level.

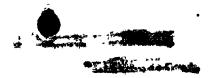

q. Chaplain. During the month of March there were 19
Protestant Services held with a total attendance of 631. There
were 3 memorial services held with an attendance of 488. The
Chaplain made 25 visits to the dispensary, accompanied 2 Med
Caps, held 2 Baptisms, wrote 55 letters, and counseled an average
of 2 men per day. Catholic Services were conducted by Father
Ed JOHNSON, Chaplain of 1st Battalion, 12th Marines.

r. Medical.

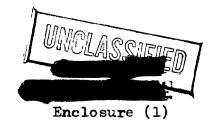

- (1) The medical status of the battalion is presently good,
- (2) There were 947 visits to sick call this month; 938 Marines, 2 Navy, and 4 Army.
 - (3) There were 252 clinical laboratory procedures performed this month.
 - (4) The medical supply remains adequate and the sanitation of Camp J. J. CARROLL is good.
 - (5) Approximately 980 Vietnamese civilians were treated this month during a MedCap.

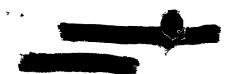

(6) There has been 3 cases of venereal disease in the battalion during the past month.
