2. Commander's Narrative Summary of Significant Events

Supporting fires were provided throughout the reporting period for U.S. Marine and Government of Viet Nam Armed Force (GVNAF) units. Operations APACHE, KANSAS and OAKLAND were conducted outside the CHU LAI Tactical Area in conjunction with GVNAF units. A Provisional 155mm Howitzer Battery (towed) was maintained at the QUANG NGAI Airfield (BS 604722) supporting the 2d ARVN Division. Observation Post NUI TRON (BS 515780) was continuously manned to conduct fires along the SONG TRA KHUC River Valley. Long range fires were also provided the GVNAF outposts at TRA BONG (BS 345883) and AN HOA (BS 474863) in the SONG TRA BONG River Valley. A platoon of 105mm howitzers from Battery D, 2d Battalion, 11th Marines was helo-lifted into the Special Forces Camp at TIEN PHUOC (BT 107142) to provide direct support artillery fires for units operating in the SONG KHANG River Valley and surrounding terrain. The diversification of the artillery assets have enabled artillery fires to be delivered deep into Viet Cong held territory. Observed effects of this employment has been to deny freedom of movement along principal supply routes of the Viet Cong forces within range of the emplaced artillery.

The following tabulated ammunition expenditures reflect the magnitude of fire support provided:

	<u>105How</u>	<u>107Mort</u>	<u>155How</u>	<u>155Gun</u>	<u>8"How</u>

c. Intelligence. During the month of June 1966, the Intelligence Section provided target intelligence for support of Operation KANSAS, along with continuing its regular target gathering procedures. First Reconnaissance Battalion Patrol Reports comprised a major source of enemy activity information, together with Aerial Observer Reports and 1st Marine Division INTSUMS. Special studies of the following nine Special Forces Camps within the general area have been nearly completed:

HA THANH	(BS 386702)
BA TO	(BS 566323)
TRA BONG	(BS 345883)
KHAM DUC	(ZC 003078)
GIA VUC	(BS 372271)
TIEN PHUOC	(BT 107142)
MAI LANH	(BS 543527)
SA HUYNH	(BS 919219)
AN HOA	(BS 474863)

These studies are specifically aimed at evaluating various possible artillery firing positions and recommending the most desirable for support of each camp. Much of the analysis is from hand held photography accomplished by Aerial Observers of the 11th Marines.

d. Special Operations

(1) APACHE. This operation began on 9 June and ended on 12 June and was a combined operation with U.S. Marine and GVNAF units participating. On 9 June Headquarters Battery 2/11, Battery D 2/11 with four 105mm howitzers, and Mortar Battery 2/11 with six 4.2" Mortars M-30, were helo-lifted to the below listed positions. The initial displacements of 2d Battalion (-)(Rein) units support of Operation APACHE were:

<u>UNIT</u>	<u>POSITION</u>	<u>DIRECTION OF FIRE</u>
HqBtry (-)	BT 304144	
Btry D 2/11	BT 304143	3200
Mortar Btry 2/11	BT 305143	3200

UNCLASSIFIED

UNCLASSIFIED

The following batteries supported the operation without displacing:

<u>UNIT</u>	<u>POSITION</u>	<u>DIRECTION OF FIRE</u>
Btry L 4/11	BT 395145	4600
3d Platoon, 3d 155GunBtry	BT 438083	5000

On 12 June the operation ended and Headquarters Battery, Mortar Battery and Battery D returned to their Tactical Area positions by helicopter (See TAB (5) to Appendix (B)).

Summary of Surveillance. U.S. Marine or U.S. Advisors to GVNAF units reported surveillances of damage due solely to artillery fire as follows: 5 Viet Cong KIA (confirmed), 12 Viet Cong KIA (probable), 25 Viet Cong WIA (probable), 2 Viet Cong defensive villages partially destroyed with 2 secondary explosions noted. Due to the coordinated supporting arms fires and close supporting fires for maneuvering infantry an accurate count of all casualties due to artillery fire was not possible. A total of 1138 rounds of artillery ammunition was fired during the operation.

(2) KANSAS. Operation KANSAS was primarily a reconnaissance operation heavily supported by air, naval gunfire, and artillery. This operation was conducted from 17-22 June. The unit displacements of 4th Battalion (-)(Rein) during the operation were:

<u>UNIT</u>	<u>POSITION</u>	<u>DATE</u>	<u>DIRECTION OF FIRE</u>
HqBtry (-)	BT 227316	16June	
Btry K 4/12	BT 226316	16June	4400 mils
Btry Y (Prov) 4/12	BT 165405	16June	4000 mils
Btry Y (Prov) 4/12	BT 395144	17June	4600 mils
Btry K 4/11	BT 227316	18June	4400 mils
Btry Y (Prov) 4/12	BT 133368	18June	4400 mils
Btry K 4/12	BT 133367	19June	4400 mils
Btry Y (Prov) 4/12	BT 226316	19June	4800 mils
Btry D (XRay) 2/11	BT 107142	19June	6200 mils

The artillery units remained in support of ARVN and reconnaissance operations after Operation KANSAS was terminated. See TAB (8) Appendix (B) for the After Action Report.

Summary of Surveillance. Cumulative surveillance reports from U.S. Marine units and U.S. Advisors with GVNAF units were 29 KIA (confirmed), 37 KIA (possible), 7 WIA (confirmed), 21 structures destroyed, 13 structures damaged, 1 fortified trench line 40% destroyed, and numerous secondary explosions were noted. A total of 4162 rounds of artillery ammunition was fired for Operation KANSAS.

(3) OAKLAND. This operation commenced on 29 June and terminated on 1 July. It was a combined operation with U. S. Marine and GVNAF units participating. The initial unit displacements of 3d Battalion (-)(Rein) on 29 June were:

<u>UNIT</u>	<u>POSITION</u>	<u>DIRECTION OF FIRE</u>
HqBtry (-)	BS 712600	
Btry E 2/11	BS 707603	2200
Btry I 3/11	BS 712603	2200
Btry M (-) 4/11	BS 705620	2700

Battery M (-), 4/11 returned to BS 604722 and resumed its mission of supporting 2d ARVN Division units in that area shortly after arrival in the OAKLAND area of operations. The following displacements occurred on 30 June to effect better support for infantry forces.

<u>UNIT</u>	<u>POSITION</u>	<u>DIRECTION OF FIRE</u>
HqBtry (-)	BS 601612	
Btry E 2/11	BS 707613	2200
Btry I 3/11	BS 701610	2200

On 1 July 3d Battalion (-)(Rein) returned to the Tactical Area positions illustrated on TAB (5) to Appendix (B).

Summary of Surveillance. Cumulative surveillance reports from U.S. Marine units and U.S. Advisors with GVNAF units were 3 KIA (confirmed), 2 KIA (possible), and 2 WIA (possible). A total of 413 rounds of artillery ammunition was expended on this operation.

d. Command and Control. Locations of command posts and battery positions as of 30 June are shown on the overlay attached as TAB (5) to Appendix (B).

e. Logistics. The primary emphasis in logistics has been to provide continuing support for one battery of 155mm How (TD) located at Quang Ngai. The support provided has been limited to Class V. Regiment provided all 155mm Howitzer ammunition supply support for Operation KANSAS. Repair parts for engineer equipment continues to be a problem; however, on 30 June a survey of Division assets has been initiated by the Regimental Supply Officer to try and locate 1 and 2 echelon parts to remove all TD-15s and TD-18s from deadline. The overall logistical evaluation of the Regiment is considered excellent.

f. Civic Action

(1) Medical personnel treated 940 patients for minor ailments during the period. There are also 19 Vietnamese personnel under medical training under this program.

(2) Dental personnel treated 51 patients. A summary of patients treated by locale is listed in TAB (6) to Appendix (B).

(3) A summary of personal assistance rendered to the Vietnamese people in the surrounding area is set forth in TAB (6) to Appendix (B).

g. Aerial Observation. During the month of June, 1966 the Aerial Observation Section of the 11th Marines flew 56 missions for a total of 99.5 hours. Missions flown were in support of the Tactical Area/Reconnaissance Zone and for Operations KANSAS and OAKLAND. Aviation support was provided by VMO-6 based at CHU LAI and by the detachment of the 220th Aviation Company based at QUANG NGAI.

12. Administrative Matters

a. Supply. A Logistic Support Area was established at KY HA Airfield (BW 525115) for initial lift of 105mm howitzers and ammunition to TIEN PHUOC. A Logistic Support Area was also established at Tay KY for resupply for the operation.

b. Maintenance. One 155mm towed howitzer required replacement of a left trail when damaged by a mine. An ordnance contact team and trail were helo-lifted to effect repairs.

c. Treatment of Casualties. Corpsmen were available in each battery. A Doctor and a Corpsman were available at the BAS.

d. Transportation. No comments.

e. Communications. A radio relay link was established between Headquarters Battery (-), 4/11 and the 11th Airborne FBC which operated excellently. No communications difficulties were experienced.

f. Medical Evacuation. There were two (2) non-battle casualties evacuated.

13. Special Equipment and Techniques. Two specially prepared CH-46 helicopters were used to lift two 105mm howitzers with gun shields removed approximately 30 miles deep into VC controlled country to Special Forces Camp at TIEN PHUOC. These CH-46 aircraft had removed all armor and flight gear not essential to flight safety. Standard CH-46 and UH-34 helicopters were used to lift section equipment, ammunition, and personnel.

14. Commanders Analysis

This operation was noteworthy for its employment of artillery support of reconnaissance forces operating deep in Viet Cong territory. In order to provide this support, displacement of artillery batteries was accomplished from 11th and 12th Marines resources to the objective area by road convoy and by helicopter lift. Resupply of ammunition was accomplished by both helo-lift and road convoy as the situation dictated. This operation demonstrated the ability of firing units to displace rapidly to remote firing positions and be resupplied by multiple means to enable accomplishment of the assigned mission. Radio Relay was utilized throughout the operation and proved invaluable in expediting rapid and effective communications over the widespread areas.

15. Recommendations

a. That the use of helicopters to lift 4.2" mortars and 105 and 155mm howitzers be exploited at every opportunity in order to increase the range and flexibility of fire support available.

CONFIDENTIAL

~~CONFIDENTIAL~~

b. That ambitious lift of heavier caliber, longer range artillery units be undertaken when appropriate to further enhance the fire support capabilities of the Regiment.

c. That Radio Relay equipment be made available to the artillery with the force and utilized in all such operations to ensure reliable communications. A recommended R/TL change which will provide this capability organic to the Artillery Regiment is being submitted.

d. That engineer support be continued to the maximum extent possible in order to increase the surface mobility of artillery units and to facilitate ammunition resupply.
