## PART II

## NARRATIVE SUMMARY

During October 1968, the 11th Marines continued to provide supporting fires for the 1st Marine Division in its defense of the Danang vital area and in operations in the Quang Nam and Southern Thua Thien Provinces. In addition, continued support was provided to Division Reconnaissance Teams, Combined Action Platoons, USA, USN, CIDG, KMC and ARVN forces. Forward observers again accompanied USMC, USA, and ARVN convoys traveling as far south as Quang Ngai and north to Hue.

Artillery fires accounted for 390 of the 910 enemy killed within the Division Area of Operations. Of these, 298 were the result of missions fired for Division reconnaissance teams operating in the 1st Marine Division TAOR. A total of 156,459 rounds were expended on 24,325 missions.

In the month of October, four operations were terminated. Operation Talledega Canyon was initiated on 1 October and terminated on 5 October. The operation was supported by the 3rd Battalion, 11th Marines in direct support of the 7th Marines. Operation Owen Mesa, supported by the 1st Battalion, 13th Marines, was terminated on 14 October and Operation Maui Peak, supported by the 3rd Battalion, 11th Marines, was terminated on 19 October. Operation Mameluke Thrust, supported by the 2nd Battalion, 11th Marines, was terminated on the 23rd of October.

Three operations were initiated during the month of October. Operation Henderson Hill was initiated on 23 October with the 2nd Battalion, 11th Marines in direct support of the 5th Marines. Operation Sabine Draw began on 8 October and is continuing with the 3rd Battalion, 11th Marines in direct support of the 7th Marines. Operation Garrard Bay was initiated on 25 October with the 1st Battalion, 11th Marines in direct support of the 1st Marines.

Improved conventional munitions (FIRECRACKER) continued to be employed throughout the 1st Marine Division TAOR. The Regiment fired 60 FIRECRACKER missions during the month accounting for 237 VC/NVA KIA. All surveillances represent confirmed KIA's and do not include additional probable KIA. Total FIRECRACKER expenditures for the month was 1245 rounds.

On 7 October, Battery D, 2nd Battalion, 11th Marines fired a FIRECRACKER mission on 75 VC in the open, at grid AT 959521. The mission was observed by Recon Team (IPSWICH) and resulted in 46 KIA's. On 11 October, Battery K, 4th Battalion, 11th Marines; Provisional 155 Howitzer Battery, 11th Marines and Battery F, 2nd Battalion, 11th Marines fired a FIRECRACKER mission on 36 NVA at grid AT 803479. The mission was observed by Recon Team (SERVICE MAN) resulting in 14 KIA's. On the 22nd and 23rd of October the 11th Marines, firing in support of Recon Teams (WAGE EARNER and WEDDING RING), accounted for 177 confirmed KIA's.

ENCLOSURE (1)  
SECRET

SECRET

Counter-rocket drills continued during the month. Chart drills were conducted unannounced each night to exercise the ability of participating FDC's to compute accurate grids of rocket positions. In addition, counter-rocket firing drills were conducted nightly on possible rocket positions. It is significant to note that there were no enemy-initiated rocket attacks in the Danang TAOR during the month of October.

2. Intelligence

a. During the month of October, enemy attacks against artillery units decreased from the previous reporting period. A total of one recoilless rifle, one mortar and four small arms fire incidents were recorded during the month.

b. The following significant incidents took place during the month of October 1968:

- (1) 041000H: 11th Marines VR flight (AT 966559) received ground fire.
- (2) 071852H: 3/11 (ZC 217549) received 3 to 7 rounds of 75mm recoilless rifle fire.
- (3) 281400H: 11th Marines AO (BT 021619) observed 40 NVA and received small arms fire.
- (4) 281920H: 11th Marines AO (BT 093643) received automatic weapons fire from estimated platoon.
- (5) 290305H: W/2/11 (AT 877400) received 10 rounds of 82mm mortar fire.
- (6) 311830H: 11th Marines AO (AT 953691) received small arms fire.

SECRET

3. Organization and Operations. Units of the Regiment participated in seven operations in the Danang area during the month of October 1968. These were:

- a. Operation MAMELUKE THRUST, 19 May to 23 Oct 1968. APPENDIX 5 to ANNEX C.
- b. Operation OWEN MESA, 1-14 Oct 1968. APPENDIX 6 to ANNEX C.
- c. Operation MAUI PEAK, 6-19 Oct 1968. APPENDIX 7 to ANNEX C.
- d. Operation HENDERSON HILL, 23-31 Oct 1968. APPENDIX 8 to ANNEX C.
- e. Operation SABINE DRAW, 28-31 Oct 1968. APPENDIX 9 to ANNEX C.
- f. Operation GARRARD BAY, 25-31 Oct 1968. APPENDIX 10 to ANNEX C.
- g. Operation TALLEDEGA CANYON, 1-5 Oct 1968. APPENDIX 11 to ANNEX C.

4. Training

a. Forward observer training of non-artillery personnel was again conducted this month. Recipients of this training were personnel from the 1st, 2nd, 3rd and 4th Combined Action Groups, 1st Reconnaissance Battalion, Division Scout Snipers School, Force Logistics Command and Headquarters Battalion, 1st Marine Division. A total of 227 students received two hours of classroom instruction and from four to six hours of practical application.

b. During the month of October, four one-hour periods of instruction were given to 250 students from Headquarters Company, Headquarters Battalion, 1st Marine Division. The subjects presented were the characteristics and capabilities of artillery within the 1st Marine Division TAOR.

c. Four officers and thirty-six enlisted Marines attended in-country Division level schools and two officers and fifteen enlisted Marines attended schools out of country.

d. On 14 October 1968, the 11th Marines began an on-the-job training program for ARVN soldiers with a view toward qualifying them as 105mm howitzer (towed) and 155mm howitzer (towed) cannoneers. During the month, 160 ARVN soldiers have completed the training. The classes are scheduled to continue for approximately eight weeks to train ARVN cannoneers for a newly-activated ARVN artillery battalion.

ENCLOSURE (1)  
SECRET

SECRET

5. Logisticsa. Operation Maui Peak

Ammunition resupply for the fire support base at Hill 52 was of primary concern during the initial stages of Operation Maui Peak. A continuous resupply to support twelve 105 howitzers, six 155 howitzers and two 8" howitzers was required. Initially, 3/11 and the Regimental S-4 coordinated the augmentation of vehicles to support the 105 batteries, while 4th Battalion, 11th Marines and 3rd 8" Howitzer Battery handled their respective Battery and Platoon ammo resupply on an individual basis. This proved unsatisfactory from the start for a number of reasons. Although the road from Hill 65 to Hill 52 was outposted by the 3rd Battalion, 7th Marines to a point of relative security, India company at Hill 65 had instructions to provide the convoys with additional security. In an effort to do this, they established a check point where Route 4 passes Hill 65 to prevent vehicles from passing at will and to delay vehicles until additional vehicles arrived to make larger convoys. This caused problems in the delivery of ammo and supplies to Hill 52. Large convoys arrived to find that due to the inadequacy of the hill to accomodate large numbers of vehicles it was unfeasible to move more than a couple of trucks on the hill at one time. The additional trucks only caused delay in unloading.

The suggestion was made that a series of three-truck convoys be sent at set time intervals to avoid the overloading in the inadequate space of the hill and that control and organization of the convoys rest with 3/11. Coordination and control by 3/11 was effected and in as much as was practicable, this method was practiced.

Increased numbers of H & I fires, numerous early morning prep fires and the advent of heavier firing for all units on the hill caused some ammo counts to slip to a point of concern in the early part of the day. It was determined that there was a necessity for earlier ammo resupplies; a temporary ammo supply point was established at India Battery on Hill 65. Vehicles were augmented by Division, 11th Marines, 4/11 and 3rd 8" to haul ammo from ASP at Danang. All types of ammo were provided and an adequate supply of 105 ammo was delivered daily. "I" Battery's trucks were used to shuttle ammo and supplies to Hill 52. A 6000 pound rough terrain forklift was procured by Regiment to alleviate "I" Battery working parties tasked with the chore of manhandling ammunition. By these methods, 3/11 assumed additional control and coordination over vehicles moving between Hill 65 and the fire support base on Hill 52, and was better able to coordinate with the infantry company for security and timely dispatch of practical sized convoys. "I" Battery trucks were able to be preloaded for early morning departures with task loads to meet the fire support base resupply requests based on limited storage space at Hill 52. Maximum storage levels established were 2000 rounds of 105, 1200 rounds 155, and 400 8". Prior to the establishment of a controlling agency and because of the limited storage space on Hill 52, trucks were returning only partially unloaded to be returned the following day.

SECRET

Mortar Battery 3/11 entered the Operation on 7 October 1968 and was heli-lifted to a position not accessible for resupply by road; they carried 551 rounds of HE. An additional 400 rounds were requested from the LSA at Hill 55 and delivered by helo. Some of these rounds were found upon inspection to have been manufactured in 1953 and had been subject to improper storage at sometime during their fifteen years resulting in rust, deterioration and corrosion beyond use. These rounds were suspended from use by the Battery Commander and Spot reports submitted. Additional rounds were delivered on 8 October and unserviceable ammo retrieved. 11th Marines and Division Ordnance attention was given this matter and no further problems were encountered.

Mortars displaced on 10 October by helo to a new position forward of Hill 52 which was accessible by road. However, resupply vehicles encountered some difficulty traversing the route because of two wash outs, but tanks and amtracks serving as escorts on all runs were available by road for resupply until 12 October when inclement weather caused the trip to mortars to be impractical due to inability of the trucks to negotiate the road.

Heavy rains started on 12 October. Otter support was requested from Division Motors to support the 4.2" battery. 4.2" ammo was trucked to Hill 52 and hauled forward to the mortars by otters. All roads became less trafficable and eventually the road from Hill 65 to 52 washed out. Otters were called on to haul ammo from Hill 65. The otters proved their worth but developed extreme maintenance problems. The heavy rain lasted almost continuously until 21 October 68. During this period roads and bridges washed out on route 540 cutting off access to Hill 65. Resupply by helicopter was resorted to; this was sporadic depending on the weather and availability of helicopters. On one occasion the 4.2 battery was short of water for almost 24 hours. This was the only major deficiency or supply problem encountered.

To ensure adequate support for all artillery units on Hill 52, a central dump system was established at Hill 52. Supply personnel were provided by 3/11 to supervise and control the rationing of all classes of supplies other than ammo. A consolidated supply request was submitted daily via a logistics net.

Early in the operation, two trucks were provided to 3/11 by 11th Marines and tasked to haul class I and II supplies from Hill 55 to 52 daily. Items requested were drawn from both the LSA and Organic Supply System. Seldom was an item requested not provided. Trucks were first loaded with essentials such as tentage, C-Rats, engineer stakes, sandbags, mogas, diesel oil, cleaning solvent, PSP, pioneer tools, rags, comm wire, BA 30's and BA 386's, rifle cleaning rods, brushes, patches, ponchos, fighting hole covers, small arms ammo, salt pills, halazone tablets, lined tablets, message books, and toilet paper.

ENCLOSURE (1)

SECRET

SECRET

A Medical Officer was provided by 3/11 and required resupply of medical items on two occasions. The following items were required over a ten-day period: procaine, penicillin, tetracycline tablets, heattrash solution, diazinor, rat poison, hydrogen peroxide, adhesive tape, 21 gauge needles, compazine, undecylenic acid ointment, gama benzoin ointment and thermometers.

Once essentials and medical supplies were loaded, trucks were filled to capacity with a variety of any of the following: mail, newspapers, books, dry clothing and boots as required, poncho liners, sundry packs, beer, soda, ice, frozen fruit, fresh fruits, milk and ice cream, fresh eggs, coffee, onions and chili sauce, pinto beans, rice, canned hamburgers, soup, beverage powders, raisins and cookies. Mortar Battery personnel on Hill 52 received these items as long as they were accessible by road. The heavy rain fall eventually washed out Mortar Battery; they were extracted and moved back to the 3/11 CP.

Throughout the rainy spell, "I" Battery encountered excessive fogging of panasonic sights, having from three to five guns down at a time due to this condition. On 20 October a contact team from FSR was flown to "I" Battery to determine the problem. The contact team reported that "I" Battery was doing all possible and that excessive fogging was due to age and condition of sights. On 23 October 1968 the 11th Marines obtained and delivered four sights to "I" Battery alleviating the problem.

Other maintenance problems encountered: A fuel line on one of Kilo's M109 guns was borken, a contact team was dispatedched by 4/11, flown to Hill 52 and performed repairs. 4/11 EIMCO tractor required a starter and a contact team performed the repair. Kilo needed 20 leaf springs for a breachlock; these were obtained from 4/11 and delivered. The lunette on a water buffalo belonging to 8" "A" was broken; a replacement was obtained from 3rd 8" Howitzer Battery and flown to Hill 52. Sights on three LVTH-6's were fogged; ALVT's responded by sending a man to Hill 52 with 4 sights. A round was stuck in an LVTH-6 tube; 11th Marines obtained an EOD team, dispached the team by helicopter, and the round was removed.

b. General

During the reporting period the Regiment was augmented with twenty-seven M-52 tractor trailers, eleven M-54 trucks with dolly converters and thirteen M-54 trucks to transport ammunition and support all 11th Marines operational committments. Organic and augmentation transportation transported in excess of 92,000 artillery rounds and associated fuzes during the month of October 1968.

In addition, nine M-52 tractor trailers were used for the movement of 1/13 and five lowboys were used for movement of TD-15 and EIMCO tractors to widely displaced units and deadlined tractors to FSR. Upon cessation of Operation Maui Peak, a total of twenty-seven 2 1/2 and 5 ton trucks were furnished as augmentation to displace artillery units.

ENCLOSURE (1)

SECRET

SECRET

6. Civic Action Report for Headquarters Battery, 11th Marines

MedCaps and emergency medical aid were offered in the hamlet of Da Son AT 960765, Hoa Khan (V), Hoa Vang (D), Quang Nam (P). Emergency medical care was maintained on an on-call status. MedCaps were provided five times a week. Approximately 934 Vietnamese civilians were treated at the MedCap unit.

MedCap and Civic Action supplies were requisitioned from III MAF. Medical supplies for MedCap and assorted bath soap for the hygienic program were requisitioned for the dispensary. 2382 bars of soap were requisitioned for the dispensary.

DenCaps are offered once a week. Approximately sixty Vietnamese people were treated this month.

Two students were selected for the General WALT Scholarship program. The scholarships were awarded to the students by a representative from this Headquarters.

Headquarters Battery has continued to provide food waste for supporting the pig project in Da Son hamelt. Nine piglets were born during this reporting period.

7. Air Observation

The 11th Marines air observation section flew 138 missions for a total of 195.7 hours. The unit was supported by aircraft from VMO-2 and MAG-16, based at Marble Mountain Air Facility. The unit also had light observation helicopters attached from the 11th Infantry Brigade, 198th Light Infantry Brigade, 196th Light Infantry Brigade and the Americal Division Artillery, USA.

Missions flown in support of the 11th Marine Regiment were:

Artillery Registrations	27
Rocket Belt Reconnaissance	94

Missions flown in support of other 1st Marine Division units were:

Infantry assists	3
Air strikes	2
Artillery missions	8
Trim missions	1
Med-Evac	3

During part of this reporting period the unit provided one air observer TAD with the 1st Marine Air Wing.

The unit encountered seven ground fire incidents with four aircraft taking hits. All were Army aircraft, resulting in two friendly WIA: one USA and one USMC.

8. Northern Sector Defense Command

Northern Sector Defense Command is a rear area defense organization commanded by the Commanding Officer, 11th Marines. During the month of October, Condition 4 was set twenty-two times and Condition 3-Modified was set nine times.

There were 114 day recons and 53 day combat patrols. There were 78 night recons and 151 night combat patrols, with 164 night ambushes. The total patrols conducted for the month was 560.

9. Psychological Operations

During the month of October, the 11th Marines performed the following PSYOPS in the Danang Rear Area.

Distribution of leaflets:

Health - 6370  
Reward - 5525

Movies:

Two and one-half hours of entertainment movies were shown to the people of Da Son hamlet. Attendance was about 300 people. Prior to the showing of the movies, entertainment and propaganda tapes were played.

a. Operation MAMELUKE THRUST. A 5th and 7th Marine operation supported from 1 to 23 October 1968 by:

Headquarters Battery, 11th Marines  
2nd Battalion, 11th Marines  
Battery D, 2nd Battalion, 11th Marines  
Battery E, 2nd Battalion, 11th Marines  
Battery F, 2nd Battalion, 11th Marines  
Mortar Battery, 2nd Battalion, 11th Marines  
1st Platoon, 3rd 8" Howitzer Battery  
Provisional 155 Battery, 11th Marines  
Detachment, 3rd 155 Gun Battery  
Battery B, 8th Battalion, 4th Artillery  
1st Armored Amphibian Company (-)  
3rd Battalion, 11th Marines  
Battery G, 3rd Battalion, 11th Marines  
Battery H, 3rd Battalion, 11th Marines  
Battery I, 3rd Battalion, 11th Marines  
Mortar Battery, 3rd Battalion, 11th Marines  
4th Battalion, 11th Marines  
Battery K, 4th Battalion, 11th Marines  
Battery L, 4th Battalion, 11th Marines

The supporting units expended 23,327 rounds and fired 2,342 missions.

Operation Mameluke Thrust was an operation that commenced on 19 May 1968 and terminated on 23 October 1968. Both the 5th Marine Regiment and 7th Marine Regiment participated in this operation with the 2nd and 3rd Battalions of the 11th Marines in direct support.

For details see enclosures (1) (After Action Report, 2nd Battalion, 11th Marines) and enclosure (2) (After Action Report, 3rd Battalion, 11th Marines), and ANNEXES H and I.

ENCLOSURE (1) to APPENDIX 5

CONFIDENTIAL

3/DJB/jbl  
3480  
3 Nov 1968k. Execution.

At 261400HJUL68 1st FAG transferred OpCon of this battalion to the 11th Marines. The battalion displaced to the vicinity of An Hoa (AT 875475) arriving 271400HJUL68. Since arrival in An Hoa the battalion has provided fire support for the 5th Marines in Operation Mamaluke Thrust. In addition, Operation Sussex Bay was conducted simultaneously during the period 290900H AUG68 to 091200HSEP68. This operation was the subject of a previous after action report.

On 050600HAUG68 E 2/11 was heli-lifted to a fire base at grid AT 8689 3601. The battery remained at this fire base, co-located with F 2/27 for security, until 200800HAUG68 when it was heli-lifted back to the An Hoa Combat Base. During this period of time E 2/11 did not engage any targets of significance, most of their firing being devoted to unobserved fires or in support of elements of the 1st Reconnaissance Battalion. On 271200HSEP68 this battalion was given OpCon of Provisional Battery, 11th Marines. On 15 Oct 1968 Provisional Battery, 11th Marines was disbanded. The four 155mm Towed Howitzers of the Provisional Battery and their crews, were transferred to this battalion.

During Operation Mamaluke Thrust the 5th Marines concentrated the majority of their operations in the western two thirds of the Regimental AO. This allowed maximum artillery support to be available at all times. The battalion was able to mass in almost any area of infantry operation as well as call upon the general support elements of the 11th Marines to provide added reinforcing fires as required.

Increased infantry contacts and aggressive action by the 5th Marines resulted in increased effectiveness of artillery fire in regards to confirmed KIAS as well as the increasing use of general support artillery in firing preparation fires and targets developed by the intelligence sources of the 5th Marines.

At 010100HOCT68 2/5 chopped OpCon to the 7th Marines and at 060800HOCT68 3/5 chopped OpCon to the same regiment. In addition E 2/11 was chopped OpCon to 3/11. All of these units were involved in Operation Maui Peak.

This action resulted in a considerable reduction in the number of artillery missions fired in support of the operation Mamaluke Thrust. In addition, heavy rains from 12 thru 20 October 1968 reduced visibility and the number of observed missions. Ammunition expenditure remained at approximately 75% of normal due to an increase in the number of unobserved missions fired. Increased unobserved fires including daytime Harrassing and Interdiction fires were considered mandatory to discourage the freedom of movement available to NVA/VC forces under cover of the reduced visibility.

At 191415HOCT68 2/5 and 3/5 were returned to the control of the 5th Marines and E 2/11 was chopped to this battalion at 211200HOCT68. After two days of minor actions Operation Mamaluke Thrust was terminated.

Second Battalion units fired a total of 8379 missions expending 90686 rounds and accounting for 146 confirmed enemy kills.

1. Naval Gunfire. Naval Gunfire Support was not utilized during this operation.

3 Nov 1968

m. Administrative Matters.

(1) Supply - There were minor problems and shortages in most area of supply during various periods of Mamaluke Thrust. The battalion move to An Hoa was accompanied by the usual problems of obtaining building materials in the large amounts required for developing a new area. At times transportation difficulties resulted in rationing of even such vital items as food and fuel. Overall, the battalion has been adequately supplied during the period with the one major exception of monsoon clothing.

(2) Maintenance. - Maintenance has been a problem for the battalion. The establishment of 3rd echelon facilities at the LSU facility relieved the problem, but its limited scope still results in the necessity of evacuation of deadlined equipment to Danang. Transportation difficulties result in frequent delays in evacuation of equipment and the return of repaired or replaced equipment.

(3) Transportation - Transportation has been the largest logistics problem for the battalion. The An Hoa Cantonement has frequently been closed to all but air transport. Bad weather and scarcity of aircraft has often delayed receipt of supplies and evacuation of equipment for 3rd echelon maintenance. The lack of a suitable river crossing facility of the Song Thu Bon (AT 925530) has imposed a tremendous handicap upon the conduct of Operation Mamaluke Thrust.

(4) Treatment of Casualties. - Medical support was provided by the 5th Marines at An Hoa. No problems were encountered.

n. Communications. The communications for Mamaluke Thrust were good for radio communications. Problems were encountered with radio relay and wire communications with higher headquarters. This may be attributed to the erratic behavior of ANTRC-27. Radio relay became more reliable during the last 30 days of the operation. The receipt and utilization of the antenna AS-2236/GNC improved radio communications to a considerable degree and is considered a definite asset to the communication capability of the battalion.

o. Special Equipment and Techniques. A visual device has been developed by personnel of this battalion allowing a radio operator to compute the maximum ordinate of a particular Quadrant Elevation by means of the operator listening to the announced charge and range during the conduct of a fire mission. This graphic device reduces the amount of voice traffic within the Battalion Fire Direction Center and saves an average of 20-30 seconds in the processing of a Sav-A-Plane data. While it is realized that such a device may not be appropriate to mention within the context of this type of report, it is felt worthy of note due to the fact it illustrates the contribution that individual Marines can make to the overall accomplishment of a units mission.

A battalion rear, logistics element, was established at the 11th Marines CP in Danang. This rear echelon consisting of maintenance and supply personnel has greatly facilitated the movement of supply and 3rd echelon repair items.

p. Commanders Analysis.

The formation of a Provisional Battery, 155 mm Howitzer, within this battalion has given the battalion an extremely responsive reinforcing fire unit as well as enhancing the range capability of the direct support artillery unit. Although general support artillery units of the 11th Marines have been responsive to calls for reinforcing fires, the presence of a medium artillery fire unit controlled by the Battalion Fire Direction has proven to be a highly effective utilization of these weapons.

The lack of an adequate river crossing site and the resupply and maintenance problems caused by this situation, have been a matter of prime concern to this command. The inability of air resupply to function during heavy rains and other periods of low visibility points to the prime requirement of this command, (i.e., a suitable river crossing facility of the Song Thu Bon). It is with grave concern that this command prepares for future operations during the coming monsoon season.

7. Intelligence: Current Intsums

8. Mission: To provide artillery support for forces involved in Operation Mameluke Thrust under the 7th Marines operational control.

9. Concept of Operation: Initially displace one 105mm howitzer (towed) battery, one 155mm howitzer (self-propelled) battery, and Det. LVTH-6s to Hill 52 (vicinity AT 217553) to provide close support for maneuver battalions. Be prepared to displace on order to positions at Thuong Duc airfield (vicinity ZC 153540) or the Thuong Duc CIDG Camp (vicinity ZC 144530) as dictated by the tactical situation. Additional maneuver elements will be supplied from fire bases at Hill 55 (vicinity 968616), Hill 65 (vicinity AT883579), and An Hoa (vicinity 877477) or by further displacements as required.

10. Execution: On 19 May Battery G, 3rd Bn, 11th Marines, Battery K, 4th Bn, 11th Marines, and two LVTH-6s from 1st Armored Amphibian Company, 11th Marines displaced to Hill 52 (vicinity ZC 217553) to establish an initial fire base. On 27 May this fire base was displaced to the Thuong Duc airfield (vicinity ZC 153540) and Battery C, 1st Bn, 11th Marines was lifted to An Hoa (vicinity 877477) in order to support another tangent of the operation. These fire bases remained essentially the same until Battery G and Battery K were withdrawn to their normally occupied fire bases, Hill 10 (vicinity AT 923691) and Hill 65 (vicinity AT 883579) respectively, on 15 June. Battery C was returned to the operational control of 1st Bn, 13th Marines and displaced to meet new support requirements. Battery F, 2nd Bn, 11th Marines supported various maneuver elements of the operation from Hill 55 (vicinity of AT 968616) during the period 10 June to 5 July. Battery D, 2nd Bn, 11th Marines briefly supported another extension of the operation in Elephant Valley from positions in the vicinity of AT 897824 (9 July-14 July) and AT 856842 (15 July-18 July). Battery KY, 4th Bn, 11th Marines and Battery I, 3rd Bn, 11th Marines at Hill 65 (vicinity 883579) and Provisional Battery, 12th Marines at Hill 55 (vicinity 968616) provided additional support throughout the operation. 7th Marine participation in Mameluke Thrust actually concluded at 2400 on 8 August.

11. Results: The artillery accounted for 6 structures destroyed, 0 structures damaged. Is identified by fragmentation rounds, 372 KIA and 0 NVA/VC WIA. Of these, 173 KIA's must be shared with other supporting arms.

12. Administrative Matters. Administration details were covered in a conference prior to the operation.

- a. Supplies: Supplies were furnished through normal channels.
- b. Maintenance: Normal.
- c. Transportation: Transportation was furnished by battery trucks and helicopter.
- d. Communications: PRC-25 radios provided the primary means of communications.

3480  
4 November 1968SECRET

13. Special Equipment and Techniques. This is the first operation in which 3-11 used firecracker rounds in counter-mortar fire; the results were inconclusive.

14. Commanders Analysis. Operation Mameluke Thrust was in actuality a collective title for several smaller and in some cases unassociated operations. A total of seven maneuver battalions were utilized by the Seventh Marines alone, and the 3rd Bn, 11th Marines had operational control of three batteries plus its own organic batteries to provide the close artillery support. A significant factor in this operation was the demonstration of the flexibility of artillery to task organize to meet all requirements of fire support generated by rapidly developing and sometimes divergent schemes of maneuver.

ENCLOSURE (1) to APPENDIX 7

~~SECRET~~7. Intelligence: Current Intsums.

8. Mission: 3rd Battalion, 11th Marines to provide artillery support for the forces involved in Operation Maui Peak.

9. Concept of Operation: To establish a fire base at Hill 52 (vicinity grid T788552) for immediate and continuing support of all units in the operation. To lift a mortar battery into LZ Vulture (vicinity grid T070570) to provide close support for the 2nd Bn, 7th Marines and elements of the 51st NWN Regiment. Additional support to be provided from firebase at Hill 65 (vicinity grid T083579).

10. Execution: On D-Day minus two Battery E-4-11 was displaced to Hill 52, followed by Battery E-2-11 and Platoon C, 1st Armored Amphibious Company on D-Day minus one, and Platoon A, 3rd 8" Howitzer Battery on D-Day. PL-3-11 was lifted into LZ Vulture on D-Day, then displaced by helicopter on D-Day plus four to the vicinity of grid T202550, where it remained until withdrawn from the operation on D-Day plus ten. Platoon A, B-8-4 displaced to Hill 65 on D-Day minus two and provided support until withdrawn on D-Day plus eight. Platoon C, B-8-4 and Platoon F, 3rd 155 Gun Battery, normally based at Hill 65, also supported from that position.

11. Results: The artillery accounted for 57 KIA and 12 VC/NVA as WIA. The artillery fire base on Hill 52 (vicinity grid AT788552) received 3 82mm mortars and 8 B-40 rockets. Fired counter-mortar fire causing 4 secondary explosions.

12. Administrative Matters: Administrative details were covered in a conference prior to the operation.

- a. Supplies: Supplies were furnished through normal channels.
- b. Maintenance: Normal.
- c. Transportation: Transportation was furnished by battery trucks and helicopters.
- d. Communications: PRC-25 radios provided the primary means of communication.

13. Special Equipment and Techniques: 3rd Bn, 11th Marines provided a forward tactical Fire Direction Center at Hill 52 (vicinity grid AT788552) which effectively provided for additional artillery coordination and control during the operation.

14. Commander's Analysis: The utilization of the above forward tactical Fire Direction Center proved to be a very satisfactory method of coordinating and controlling the artillery for the operation. In addition to alleviating the communication problems that would normally be inherent to an operation with units at a comparatively long distance from the controlling agency, the forward element also made possible a coordinated and efficient logistics effort even under adverse weather conditions. Important also are the considerations that the technique enabled this unit to maintain its close command liaison with the 7th Marines, whose Command Post was not displaced, and also allowed the unit to provide an undiminished effort in fulfilling TAOR requirements.
