## PART II

NARRATIVE SUMMARY

During the month of August 1969, the 11th Marine Regiment continued to provide close and continuous fire support for the 1st Marine Division (Rein) in the defense of the Danang Vital Area and in other operations throughout the Quang Nam Province. In addition, the 11th Marines continued to provide supporting fires for Division Reconnaissance Teams, Combined Action Platoons, USA, CIDG, KMC and ARVN forces.

The lull in enemy activity, which was first noted during the week of 22 - 28 June and continued throughout the month of July ended abruptly the night of 11 August when the enemy launched varied and multiple attacks against Free World Forces throughout the Quang Nam Province. The enemy made a strong and determined attempt to penetrate the area encompassed by the 1st Division CP, DAI LOC Pass and the 11th Marines CP. The unsuccessful sapper attack on the 11th Marines CP commenced at 0030 on the morning of 12 August resulted in 10 NVA/VC KIA and two POW's, one of which was WIA and the capture of two RPG launchers with eight rounds, three AK-47 rifles, four bangalore torpedoes and 104 Chicom hand grenades. 11th Marines personnel sustained two minor WIA's. During the night of 11 August and the early morning hours of 12 August the enemy had launched five separate rocket, two mortar and one "lob" bomb attacks in such wide spread areas as the DANANG Air Base, the 1st Division CP, Hill 55 and AN HOA Combat Base. The enemy continued a high level of activity which culminated in the early morning hours of 19 August with a particularly vicious sapper attack that succeeded in penetrating the perimeter wire of Echo Battery, Second Battalion, 11th Marines at AN HOA Combat Base. The attack commenced at 190230H, and an estimated 15 NVA were inside the battery area, firing small arms and throwing satchel charges and hand grenades. An enemy force outside the perimeter fired 10 - 15 60mm mortar rounds and 15 - 20 RPG's. One sapper threw a grenade down the muzzle of a 105mm howitzer, damaging the tube and breech block. The attack was successfully repulsed by 190530H. At first light nine NVA bodies were found. The Marines sustained one KIA and 10 WIA, five of which were Med-Evaced. Three Marines were recommended for Silver Stars and ten for Bronze Stars for gallantry in action as a result of that night's battle.

During the month of August the enemy had initiated a total of 14 rocket attacks, nine mortar attacks, six "lob" bombs and two sapper attacks against 11th Marine units and the DANANG Vital Area.

Other significant events during the month of August 1969:

On 8 August Lt. Colonel Corbin J. JOHNSON relieved Colonel Charles E. WALKER as the Commanding Officer of the 11th Marine Regiment at an informal change of command ceremony attended by all subordinate commanders and their Sergeants Major/First Sergeants.

UNCLASSIFIED

On 15 August the Division extended its operating area south of the QUE SON Mountains. The new AO is bordered on the south by the QUANG-NAM QUANG-TIM Province boundary and is located generally in the QUE SON District. This expansion of the AO necessitated displacing most of the 11th Regiment's Artillery assets. The Third Battalion moved from Hill 55 to LZ's BALDY and ROSS south of the QUE SON Mountains. The First Battalion moved from Hill 34 to Hill 55. The Second Battalion displaced Battery D to Hill 65 in order to support the expanded 5th Marines AO, and the First Battalion, 13th Marines moved Battery B to FSB Six Shooter. The general support artillery assets were moved and reorganized in order to provide the entire Division AO with an equitable artillery mix. However, as those assets include only six 8" howitzers to support four infantry regiments, the Third Battalion was reinforced with two 155mm howitzers (towed) for additional fire support in the QUE SON District. Additional 8" howitzer support has been requested from higher headquarters, in order to provide the desired fire support mix in the expanded area.

A total of 186,449 rounds were expended on 15,272 missions during the month of August 1969. Artillery fires accounted for 259 of the 665 confirmed enemy killed within the Division's area of operations. Also, there were a reported 245 probable enemy KIA's. In addition, 11th Marine units fired 17 missions on a reported 652 NVA/VC and three active mortar positions during the month. Normally the only surveillances possible were "Rounds on target, no observed casualties", due to darkness or the elapsed time between the fire missions and a survey of the target area by aircraft or patrols. Besides the normal fire missions such as contact missions, intelligence targets, rocket and mortar suppression fires, preemptive fires and preparation fires, a considerable amount of artillery was expended in an effort to suppress the effects of the surprise firing devices used extensively by the enemy.

Improved Conventional Munitions (FIRECRACKER) also continued to be employed throughout the 1st Marine Division TAOR. A total of 1979 FIRE-CRACKER rounds were fired during the month. In addition to normal targets, the improved ammunition was utilized in counter-rocket fires and in a newly developed concept of close in defensive fires for isolated artillery batteries and to pursue the enemy by fire as he attempts to break contact after sapper attacks.

#### Significant Fire Missions:

At 191810H, a forward observer with 2/7 reported 100 NVA at grid AT 988355. H/2/7 moved into blocking positions and H/3/11 took the enemy under fire resulting in 30 NVA KIA by artillery fire.
