PART II

During the month of November the 2d Battalion, 11th Marines provided timely and accurate fire support to the 5th Marines in their Area of Operations. No major named operations were undertaken throughout the month by the 5th Marines. An unnamed operation which commenced on 27 October continued throughout the month of November.

The use of I.O.D. has greatly increased the target acquisition capabilities of the battalion. The I.O.D. system has proved to be an effective means of conducting registrations, both high burst or center of impact and precision.

An increase of targets and nature of targets has been noted in the Arizona area. Larger numbers of troops in the open have been observed during the daylight hours. Also an increase of bunker type structures has been noted and effective fire has been employed against them by "A" Platoon, 1st 8" Howitzer Battery (SP).

Officers and Staff NCO School was held each Sunday with emphasis placed on subjects of concern in the performance of duties within this command.

Increased emphasis has been placed on P.M. of vehicles, due to deep water and mud in the An Hoa Combat Base area. Salt water checks are required on a regular basis.

b. INTELLIGENCE

The month of November found enemy activity at a low level. A definite increase in bunker building has been reported in the Northern part of the Arizona, and many artillery missions have been shot on these type of activities.

An increase of H & I fires has occurred during the past month due to an increase of enemy movement at night.

Counter mortar and counter rocket drills have been held to test readiness and speed in getting out counter battery fire.

A significant number of enemy units are located in the Arizona and surrounding areas and H & I fires are being shot on these suspected locations and routes of communications.

UNCLASSIFIED

c. TRAINING

The battalion continues to devote a substantial amount of time to training with particular emphasis on security of the position area, patrolling, gunnery procedures, general military subjects and refinement of skills within each occupational field.

d. LOGISTICS

During the month of November, the supply section account was moved to An Hoa. While this move severely taxed our already overworked vehicles, it has already proved to be worth the price. All supplies have been inventoried and rewarehoused. A total inventory of the entire account is being conducted so that adjustments can be made. With the improved communications, numerous problems have been isolated and are systematically being solved.

Communications: There have not been any major difficulties experienced and the accountability problems have been rectified during this past period. Twentyfour PRC-77's were received which has eliminated the requirement for additional radios.

Motor Transport: The major problem area of this battalion has been motor transport. Mud, combined with heavy commitments, has resulted in an above normal deadline rate. This problem is further aggravated by an improper stock level and spasmodic usage data. A continuous training program, along with greater wall to wall inventory of the issue point was begun and adjustments will be forthcoming during the next reporting period.

Engineers: A cantonment package for all artillery units in An Hoa was submitted to the First Marine Division and it was approved and forwarded to III MAF. This package calls for 77 Southeast Asian huts along with four showers and a 500 man messhall.

Considerable difficulty has been experienced in obtaining engineer assistance to put in the secondary wiring for the 100KW generator which was received last month. This generator remains unused.

Ordnance: No major problems have been encountered. A float is usually in place when third echelon maintenance is being performed.

Miscellaneous: An embarkation re-inspection was held and a few discrepancies were found which have been corrected.

e. CIVIC ACTION/CIVIL AFFAIRS

With the completion of the school desks in the Phu Da area, the number of children able to attend school has been increased to 205. Supplies were purchased and donated to the people in order to improve health and sanitation. 2d Battalion, 11th Marines S-5 is also

UNCLASSIFIED

responsible for four hours of English instruction each week to local Vietnamese children.

Six Vietnamese children have been taken to Da Nang for various treatments. A rabid dog was apprehended after biting a Vietnamese child and sent to Da Nang for examination. The battalion surgeon treated the child with the Pasteur treatment for rabies.

Also during this reporting period 18 people were transported to the local German Hospital for treatment and 369 Vietnamese were treated at our Med Caps.

Local trash disposal problems were solved with the help of district.
