PART II  
NARRATIVE SUMMARY

During the period 1-31 January, this battalion continued to support operations of the 1st Marine Division (Rein) in the CHU LAI area. The battalion and its assigned batteries have the following missions:

4th Battalion	G/S of 1st Marine Division
Battery "K"	Modified mission G/S, Rein, 2d Bn, 11th Marines
Battery "L"	Modified mission G/S, Rein, 2d Bn, 11th Marines
Battery "M"	Modified mission G/S, Rein, 3d Bn, 11th Marines
Provisional Battery (Four 155mm How (TD))	G/S of 2d ARVN Division (Terminated 11 Jan)

In addition to organic batteries, this battalion has operational control of the 3rd 8" Howitzer Battery (SP) and the 3rd 155mm Gun Battery (SP) for coordination of local security, camp construction, messing, billeting, maintenance and combined fire direction center at collocated positions at coordinates BT441100, BT39461445, and BS53909441. The battalion manned observation posts at coordinates BS517778 (Nui Tron) from 1-23 January and at coordinates BS474864 (An Hoa) from 9-25 January. The Provisional Battery moved to the Battalion CP on 11 January and was deactivated. The 155mm Howitzers (TD) were assigned to Battery "K" for maintenance and dual weapon capability for contingencies. During January 1967, the battalion fired 790 missions, with a total of 7654 rounds.

Normal administrative functions were accomplished during the month. No difficulties were encountered.

During the month of January, this battalion increased its intelligence gathering facilities. No new VC or NVA units were confirmed to be located in the battalion's area, although some previously confirmed units have possibly combined to form new units.

By midmonth, all M109 howitzers were operational, as a direct result of a concerted maintenance and repair program. The Battalion Maintenance facilities received outstanding support from Force Logistics Support Group-Bravo and a U.S. Army Contact Team. There are no supply problems of great significance.
