2. INTELLIGENCE

(a) ENEMY ACTIVITY. Throughout the month, enemy ground activity remained at a light to moderate level. Enemy initiated incidents dropped to a significant low. The most significant contacts occurred in the eastern DMZ, where elements of the 2nd ARVN Regiment and elements of the 1st Brigade, 5th Division (Mechanized) (USA) made heavy contact with elements of the 138th NVA Regiment.

Attacks by fire were at a low level during the first three weeks of the month, until the latter portion of the month when there were heavy artillery strikes against Cua Viet and Dong Ha. Previously, most of the enemy artillery effort had been directed in support of NVA maneuver elements.

The 308th NVA Division appears to have replaced the 320th Division in operations west of the Rockpile. The 138th Regiment reappeared in the eastern DMZ in mid-October after a period of no contact commencing on the 22nd of September. The 1st Company, 126th Naval Sapper Battalion continues to operate in the vicinity of the Cua Viet Port Facility and the 31st Local Force (VC) continues its operations along Route 9 between Dong Ha and Camp Carroll, and along Route 1 between Dong Ha and Gio Linh.

(b) Counterbattery.

(1) Policy. The counterbattery policy remains the same.

(2) Counterbattery Radar. The AN/MPQ-10A and the AN/MPQ-4A radars were down most of this reporting period due to constant generator problems and lack of adequate test equipment to diagnose radar defects promptly.

(3) Ground Surveillance Radar. The AN/TPS-25A radars located at Gio Linh and Dong Ha have been down for the entire reporting period. Two AN/TPS-25A radars have been evacuated to the 63rd Maintenance Signal Shop located at Quang Tri for repair.

(c) Observation.

(1) Air. Air observation was restricted again this reporting period but only slightly, due to the weather. The number of missions flown has decreased due to the weather and a turnover in personnel. There are five AO's in the 12th Marines actively flying; 1stLt R. C. SIGRIST, 0101483, 1stLt A. R. AVERSA, 0102461, 1stLt

Division TACR and into North Vietnam.

d. Personnel. The intelligence personnel status remains the
same. 1 Officer 1stLt 0802; 2 Staff Sergeants (0239); 1 LCpl (0231)

PART III, SECTION 4, LOGISTICS

1. CO 12th Marines ltr 8/RHP/nsk over 8000 of 3 Oct 1968 was submitted to CG Force Logistic Support Group Bravo requesting additional float level of 105mm How and 155mm How sights and sight mounts. The present float level of the subject items was considered insufficient to meet the requirements placed upon it by the high usage of Howitzer Sights and Sight Mounts. The monsoon is increasing the requirement for these items due to moisture damage and extended operations under adverse weather conditions at forward fire support bases. The role of artillery support takes on even greater importance during the monsoon season with its resultant reduction in available close air support. The approval of this request will greatly enhance the ability of this Regiment to maintain a maximum number of tubes in operation during this period.
2. RegtO 8000.1A SOP for the Care, Handling and Storage of Ammunition was written and distributed to all units.
3. CO 12th Marines ltr 8/CGS/nsk over 8010 of 8 Oct 1968 to CG 3d MarDiv (SC-8) reported the selected munitions for the first half of October.
4. CO 12th Marines Memo 4/WDF/nsk over 11240 of 11 Oct 1968 to CG 3d MarDiv (SC-15) status and location of all TD-15 and Emco tractors within the 12th Marine Regiment. Due to the extremely large deadline percentage of crawler tractors within the Division, the Division Engineer desired to obtain the latest status of each tractor within the Division. This information will be utilized to improve management of operational assets, to facilitate follow up action and intensify management of deadlined tractors.
5. CO 12thMar ltr 4/DJM/nsk over 11000 of 15 Oct 1968 to CG 3d MarDiv (SC-15) reported the location, size, quantity and purpose of all bunkers required by 12th Marine Regiment.
6. CO 12th Marines ltr 4/GAW/nsk over 4000 of 15 Oct 1968 to Force Logistic Support Group Bravo requested an increase on the float level of the Computer, Gun Direction M-18 and Generator PU-668 (FADAC). The present float level of the subject items was considered insufficient to meet the stringent requirements placed upon it by the continuous high usage of the FADAC M-18 and FADAC Generator PU-668. The past history of excessive evacuation time has shown a definite need for an increase in the float level of these items. Further, the firing of danger close missions, especially during the periods of limited visibility inherent to the monsoon season is a critical factor to be considered when computing stockage levels of the maintenance float.
7. CO 12th Marines ltr 4/DJM/nsk over 11000 of 19 October 1968 to CG 3d MarDiv (SC-15) reported all End Item and Component Generators for the 12th Marine Regiment.

8. RegtO 4235.1B was written and distributed to all units of this Command on the Responsibility for the Support of Attached Units.
9. RegtBul 11370 was written and distributed to all units of this Command regarding the Installation and Operation of Space Heaters.
10. CO 12th Marines ltr 4/GAW/nsk over 4015 of 27 Oct 1968 to CMC (AO4G) request the modification of allowances on PRC-25 and Radio Set Control Group AN/GRA-39A. Current Naval Gunfire operational practices in the Republic of Vietnam indicate that direct support and general support ships are using VRC-12 series equipment exclusively for Shore Fire Spotting nets in place of the high frequency single side band equipment. While present operating practices temporarily reduce the amount of single side band equipment needed to successfully conduct Close Naval Gun Fire support, the requirement for VHF FM equipment has increased. This increase cannot be adequately supported from the Direct Support Artillery Battalions' present assets.
11. During the period 19 thru 24 October when fuel condition II was in effect, this section issued chits for 397 gallons of fuel for the operation of HqBtry, 1st 8" Howitzer Battery (SP) and 1st Searchlight Battery.

PART III, SECTION 5, COMMUNICATION

1. General. Communication posture has remained essentially the same during this reporting period.
2. Radio. A power supply PP-388 was installed in radio central, this enables the radios to use camp power vice dry cell and vehicular batteries.
3. Wire. The switchboard SB 86 was replaced with 5 switchboards SB 22. The SB 86 was turned into FLSG for third echelon maintenance to repair the operators pack and line drops. Wire section continued to improve existing wire lines and cables throughout the C. P.
4. Radio Relay. 7 channels were established on 13 October with 1/12, 4/12 and 3d Marines CPs at Camp Carroll, equipment has been operational 92.6% of the time from 130800H Oct until 010800H Nov.
5. Communications Center. Teletype communications with 3d Division Comm Operations Center improved with the installation of a full duplex circuit. This circuit enables 12th Marines to send & receive teletype traffic simultaneously using two teletype machines at each end.

PART III, SECTION 6, CIVIL AFFAIRS

MEDCAP: Headquarters Battery held 7 MEDCAPS at the Dong Ha village dispensary and saw approximately 790 medical patients and 50 dental patients. Dental technicians were provided by the dental unit attached to Sub-unit 2. The response to the MEDCAP has been improving, but in the opinion of Doctor BARGER, ~~the~~ Regimental Surgeon, the value has been decreasing. He cites the easy availability of the D-MED Children's Hospital, and the fact that the repeated treatment that the people in the immediate area of the dispensary have been given as the primary causes for the decrease in worthwhile cases that are appearing at the Dong Ha MEDCAP. As a result, Chief BELL, 12th Marines, suggested the possibility of another location. The village headquarters at Dong Le was selected. The village and hamlet chiefs were pleased with the possibility of a MEDCAP at that location and the program will start with a large MEDCAP on 5 Nov 1968. In addition to the regular MEDCAP, the civil affairs section was present in the village of Dong Ha during the incoming enemy artillery on 22 Oct and assisted in the evacuation of the injured to D-MED.

There were three solatium payments made through the S-5 office for a total of 6800\$VN. All payments were well received, though one was late due to a lack of knowledge on the part of a Battalion civil affairs officer. Two were the result of deaths caused by misdirected artillery fire, and the third was the result of a traffic accident.

The education program has shown marked success during the month. Although the total number of hours taught decreased to 39, this was largely due to Vietnamese holidays which cancelled school on several days. The public secondary school (Ban Cong Dong Ha) maintained its excellent organization, while the Buddhist secondary school (Bo De Dong Ha) organized itself much better than it had been. Both schools were damaged by the incoming artillery on 22 Oct and 30 Oct. Sand, sandbags and cement were provided to help protect the children from further shollings. A scholarship program was started by Headquarters battery for the 30 most deserving students at the Buddhist secondary school. Although only \$60 is required per month to put these children through school, the initial collection resulted in \$130 being donated, plus the promise by many Marines to donate \$2 a month until they rotate. This program has been well accepted by the school officials and the district officials.

Fill is being provided for the Bo De school to permit the construction of a new office to allow the school to open up another classroom next year. Headquarters battery has promised to provide all the materials required if the Vietnamese do all the work. The material was promised to Headquarters Battery by MCB-7.
