PART II, NARRATIVE SUMMARY

The 12th Marines (-) (Rein) provided tactical fire control and coordinated fire support for free world forces engaged in combat operations within and near Quang Tri Province of the Northern I Corps Tactical Zone including the southern portion of the Demilitarized Zone. These forces were the 3d Marine Division (-) (Rein), FMF, Task Force Clearwater, CIDG Forces in the Mai Loc TACR, combined action platoons throughout the Division AO, and the 1st and 2nd ARVN Regiments. The 12th Marines initially consisted of the organic battalions less the 1st Battalion (-) (Rein) which was OPCON of the 1st Marine Division for Operation TAYLOR COMMON. On the 17th the 1st Battalion returned from the south. The 1st Searchlight Battery likewise was refoined by the platoon (-) that had accompanied the 1st Battalion. The 1st Searchlight Battery (-), FMF, and the 1st 8" Howitzer Battery (SP), FMF were attached and the 5th Battalion, 4th Artillery ( U. S. Army) and the 2nd Platoon, 1st Armored Amphibian Company, FMF, were under the operational control of the Regiment. Reinforcing the fires of the 12th Marines were the following units under the operational control of the 108th Artillery Group (U. S. Army);

8/4th Arty (-) (175mm/8") (SP)
1/40th Arty (-) (105mm) (SP)
C/6/33 (105mm) (TD)
2/94th Arty (-) (175mm/8") (SP)
1st 8" HowBtry (SP), FMF
5th 155 Gun Btry (Rein) (SP), FMF

Also assisting the Regiment during this period was C Battery, 1st Battalion, 83rd Artillery (USA). This battery supported the DEWEY CANYON operation with 175mm guns at FSB Jack (YD 492280) from the 101st Airborne Division AO. The Regiment supported the Third Marine Division in Operations KENTUCKY, SCOTLAND II, MARSHALL MOUNTAIN, DEWEY CANYON, and PURPLE MARTIN. In addition the regiment participated in Operation HIGHRISE, support of the Mai Loc TAOR and support of Quang Tri and Dong Ha Combat Bases. Reinforcing fires were provided to the 1st and 2nd ARVN Regiments as requested.

The weather continued to allow heliborne operations though there were several extended periods when resupply was minimal. The 2nd Battalion supported the Ninth Marines and the 2nd ARVN Regiment from fire support bases in Operation DEWEY CANYON. Initially supplies were built up when the weather was good with one of the fire support bases, Shiloh, acting as a forward supply point. There was, however, one nine-day period with little resupply when food and ammo became scarce. By the 7th of February the 2nd Battalion was down to one meal per man per day. Eventually resupply was accomplished by helo and fixed wing air drop under control of ASRT. Operation DEWEY CANYON was a very highly successful operation with well over a thousand confirmed kills by the end of the month with two 122 field guns destroyed and four captured. The largest caches of weapons and supplies of the war were found, one of which included vast quantities of 82mm, 60mm and 120mm mortar rounds, rifle grenades, and Chi Com grenades. The 2nd Battalion fired 81,371 rounds of 105 How, 155 How, and 4.2 mortars during the month. The

SECRET

DECLASSIFIED

DECLASSIFIED

following new fire support bases were developed and occupied for DEWEY CANYON during February:

ERSKINE YD 1625 1070
TURNAGE YD 2524 0890

One of the most unusual aspects of the month was the large number of assaults by fire and by ground attack conducted against artillery units on fire support bases. FSB CUNNINGHAM was shelled regularly early in the month by 122mm field guns from positions in LAOS outside the range of our artillery. Fire Support Bases RUSSELL and NEVILLE were mortared with regularity. Rocket attacks were made against ELLIOTT Combat Base, C-2 and FSB NANCY.

The most intense attacks occurred during the TET Ceasefire 1800 16 Feb - 1800 17 Feb. Very early on the morning of 17 February at FSB CUNNINGHAM there was a mortar and sapper attack. The 2nd Battalion made a valiant defense of the position and suffered 3 men killed, 13 wounded. Thirty-seven NVA died in the assault. The guns were manned throughout the action. Support was received from the howitzers on FSB ERSKINE and ARVN artillery on FSB LIGHTNING.

On the night of 24-25 Feb. mortar and ground attacks were made against FSB NEVILLE and FSB RUSSELL. Again the forces were fought off at a considerable cost, this time to the 3d Battalion artillerymen. There were 3 killed and 5 wounded on FSB NEVILLE and 8 killed and 26 wounded on FSB RUSSELL. Enemy losses were 36 KIA and 25 KIA respectively. The fire bases continued to support each other with fires being provided from FSB ALPINE, ELLIOTT Combat Base and VANDEGRIFT Combat Base.

Near the end of the month the threat of attack from the North increased. Artillery firing units were appropriately redeployed and a considerable amount of firing was done in the area to the west and north of A-4 and C-2. The Naval Gunfire OP at Oceanview was hit by mortars and a ground attack on 23 February. Over four thousand rounds of artillery and naval gunfire were used in a very successful defense.

Use of electronic devices to locate targets continued strong during this period. SID bases provided three hundred and seventy-five fire missions upon which 4305 rounds of mixed calibers were fired. Two confirmed kills resulted but a better indication of the effectiveness of these unobserved missions was a sign found along a road near a SID base to the south of Quang Tri. It had been placed there by NVA/VC and read as follows: "DANGER! MINED! If you go down this trail you will be blown up."

The TPS-25 radar contributed 65 targets this month on which 1384 rounds were expended. This reflects both a decrease in enemy movement in the area scanned by the radar and a decrease in the size of the groups observed.

During February the Regimental Survey Section carried 4th order (1:3,000) survey control to the permanent combat bases located at Dong Ha, Gio Linh (A-2), Con Thien (A-4), and C-2. This quadrilateral was measured with the DME MC-8 Tellurometers on loan from F/2/26 TAB and the Theodolite T-2 organic to the Regimental Survey Section. The survey covered a distance of over 69,000 meters and closed within .5 meters of starting grid. The purpose of this survey is the establishment of a common grid to firing batteries and seven Counter-Mortar Radar sites.

DECLASSIFIED

DECLASSIFIED

The Regimental Survey Section also supported Operation DEWEY CANYON from 13 to 28 February. When unable to locate established survey control in this remote area, the section conducted a detailed terrain analysis and limited resection to determine an assumed grid. Astronomic observation (sun) was employed to obtain starting directional control. From this data the artillery and radar units on FSB CUNNINGHAM and ERSKINE were placed on a common grid.

Because of experiencing several electrical failures in the meteorological equipment, the Regimental Metro Section began sending visual metro messages on 12 February. The electronic capability became operational on 23 February at Vandegrift Combat Base serving Marine and Army artillery units and providing weather information to MAG-39. During the period 19-27 February the Regimental Metro Section employed personnel and equipment at FSB CUNNINGHAM for the purpose of producing visual metro information for this area because data produced at Vandegrift was not valid at that distance. After 23 February this visual information was relayed to Vandegrift Combat Base and incorporated into the electronic data obtained there, to produce an accurate ballistic metro message for the mountainous area of Fire Support Bases CUNNINGHAM, TURNAGE and ERSKINE.

During February the regiment made a significant contribution to the forces used for ground defense. The regiment provided the bulk of a platoon to the Quang Tri Combat Base Provisional Rifle Company formed from various units in the Division. This company was used to reinforce Quang Tri province Headquarters during the critical TET period. Aggressive patrols up to platoon size were conducted as well as two company sized operations in and south of Quang Tri City and north of Dong Ha City. The Regiment also contributed five men to a provisional rifle squad for the use of Dong Ha base defense. This squad patrols during the daytime and conducts ambushes at night.

Four speed requirement candidates were submitted during this period. They were as follows:

a. A simplified means to determine wind speed and direction at various levels to an altitude of 8000 meters.

b. A means of broadcasting the artillery metro message in digital form to be presented in both printed and punched paper tape form at battalion/battery level.

c. A simplified means of increasing the range of present artillery weapons.

d. Developement of computerized targeting system to provide real time target analysis and fire planning data with emphasis on the counter-fire application. (Supporting Documents, Part IV).

Dong Ha Base defense operation Order 1-69 redisignated subsectors along its perimeter. Heretofore the CO, 12th Marines was responsible for the area guarded by 108th Artillery Group (USA), 12th Marines and 1stBn,

DECLASSIFIED

DECLASSIFIED

40th Artillery (USA). With the resignation of subsectors, the CO, 12th Marines is responsible only for that portion of the perimeter manned by regimental personnel. The full time use of a 1st Searchlight Battery mule-mounted light and occasional use of a DHBD light enhance the illumination capability of our perimeter defense.

Naval Gunfire Support Ships providing supporting fires for Operations HIGHRISE, KENTUCKY, SCOTLAND II, MARSHALL MOUNTAIN and 3d Marine Division AO.

5. TRAINING

a. On the job training and MOS training was conducted at all levels.

b. The following school quotas were filled by 12th Marines personnel.

| Schools Attended | Number Attended |
|---|---|
| Motion Picture Projectionist | 3 |
| SNCO Combat Leadership | 4 |
| Basic Organic Supply Accounting | 4 |
| Basic Ammo Technician | 4 |
| Infantry Weapons Repair | 3 |
| Embarkation (Officer) | 1 |
| XXIV Corps Forward Observer School | 2 |
| XXIV Corps Fire Direction Officer | 3 |
| Naval Gunfire Shorefire Control Party Course | 8 |

6. Regimental Directives published during the month of February:

a. RegtDul 8200 dtd 18 Feb 1969 (Calibration of Artillery Units in Northern I Corps).

b. RegtO 3000.3 dtd 14 Feb 1969 (SOP Within the 12th Marines Regimental Fire Direction Center).

c. RegtO 3400.1A dtd 2 Feb 1969 ( Procedure to Collect Knowledge Gained by Units and Individuals).

d. RegtO 1500.8A dtd 1 Feb 1969 (Command Orientation and Troop Indoctrination Program).

PART III, SECTION 2, INTELLIGENCE

1. CASUALTIES INFLICTED ON THE ENEMY.

| KIA CONFIRMED | WIA CONFIRMED |
|---|---|
| 22 | 4 |

2. INTELLIGENCE

a. ENEMY ACTIVITY. Enemy activity in February was greatly increased over that of January with the coming of TET, the spring offensive, and the pressure exerted by the Ninth Marines in the DEWEY CANYON operation. The enemy launched several well coordinated ground attacks on Marine Fire Support Bases throughout northern I Corps. The enemy also stepped up attacks by fire. Mortars and rockets were used during the latter half of the month against allied installations in the northernmost portion of I Corps. Mortars, rockets and artillery were also used to shell friendly fire support bases in the DEWEY CANYON area.

The extension of the DEWEY CANYON operation appears to have caught the enemy off guard. The advancing of friendly units into the enemy's base area was initially met with only moderate resistance, exhibiting that the enemy was unprepared for such attacks. Evidence that this operation has interdicted a major enemy supply route is apparent from the installations, equipment and munitions captured in great quantity along Route 922. This highway is a well maintained, well travelled route of access for the enemy from LAOS to the ASHAU VALLEY, a known enemy supply, maintenance, and operation center. In an attempt to eliminate the Ninth Marines threat to their security in this area, the enemy executed a well planned, coordinated ground attack on Fire Support Base CUNNINGHAM, using well-equipped sappers to penetrate the perimeter. Firing 122mm guns from LAOS the enemy continuously shelled friendly positions until the weapons were located and destroyed or captured. Counterfire efforts were initially hampered by the lack of availability of 122mm gun firing tables. However, by interpolation from similar firing tables using the time interval from the report of the gun to the impact of the projectile ("boom to bang") and reported angle of fall, terrain analysis, and knowledge of NVA artillery tactics, likely position areas were selected. A maximum effort by artillery and tactical aerial observers, artillery and fixed wing aircraft resulted in the destruction of two guns. Four more weapons were captured by units of the 9th Marines.

The build up to a spring Offensive was marked with increased mining and ambush incidents along allied supply routes. Infiltration from the North increased in the latter half of February. This is apparent from recon reports, increased contact, AN/TPS-25 sightings, and aerial observer reports of heavy trail movement crossing the BEN HAI river to the south. Attacks by fire have been noticeably increased since TET. 60mm and 82mm Mortar, 122mm and 140mm rockets have been employed, thus far concentrating on fire support bases

DECLASSIFIED

DECLASSIFIED

within the 4th Marines AO, C-2, and OCEANVIEW. There have been several well-coordinated ground attacks against units of the 4th Marines in this same time frame. Using experience sappers to penetrate friendly perimeters, these enemy appear to have been in the field for a long time. Their equipment is ragged, they wear sandals, and what uniforms they have are very shabby. The actions of the suicide sappers have led to the belief that these units are drugged in preparation for their attacks. Documents captured indicate that the current offensive will extend over a 34 day period which will be sub-divided into three phases lasting 5, 10 and 19 days.

Although actions scheduled to take place in each phase are not well defined it is apparent that the threat thus far experienced should be expected to continue at least into late March.

b. COUNTERBATTERY

(1) Policy. Counterbattery policy remains active.

(2) Counterbattery Radar. During February, AN/MPQ-10A radar sets were emplaced at RED DEVIL and VINH DAI. An AN/TPQ-31 radar set was emplaced at C-2; this set reported one rocket position on 25 February which was fired upon with four secondary explosions observed. Plans for March include emplacement of a Q-10 radar at Fire Support Base ELLIOTT.

(3) Ground Surveillance Radar. The AN/TPS-25 at Gio Linh was evacuated to Dong Ha for fourth echelon maintenance and a temporary replacement set was acquired from the 1st Brigade (Mech) at Fire Support Base SHARON. The AN/TPS-25 radar was operational 19 days of the month and has detected 113 targets north of the BEN HAI river and 100 south, of which 65 were taken under fire by artillery and naval gunfire.

c. OBSERVATION

(1) Aerial Observation was restricted by weather during the period. The number of missions flown has decreased this month.

TOTAL FLIGHT HOURS.....188.4

TOTAL ARTILLERY SPOT MISSIONS.....57.5

(2) Ground. The Regimental observation post at Gio Linh continues to provide observation for general support artillery and intelligence in the northeast sector of the Division AO and into the DMZ.

d. PERSONNEL. 1stLt D. H. WILLARD was transferred to CONUS. 1stLt M. S. LAFLAMBOISE was assigned duties as the assistant S-2. SSgt G. R. MESZAROS and LCpl J. DONDA, Jr. were transferred to CONUS. LCpl K. S. B. LEAVELLEY was assigned duties as Intelligence clerk.

e. ARTY INSUMS. (See Supporting Documents, Part IV)

## PART III, SECTION 3, PERSONNEL/ADMINISTRATION

1. ACTIVATION/DETACHMENTS/REDESIGNATIONS: None.

2. CASUALTIES SUSTAINED IN HEADQUARTERS BATTERY, TWELFTH MARINES:
WIA/KIA: period 0001 February to 2400 28 February 1969

| USMC | | USN | |
|---|---|---|---|
| OFF | ENL | OFF | ENL |
| 0 | 0 | 0 | 0 |

3. PERSONNEL JOINED AND DROPPED IN HEADQUARTERS BATTERY, TWELFTH MARINES:

a. Joined 4 USMC Officers, 14 USMC Enlisted: 3 USN Officers, 1 USN Enlisted.

b. Dropped 4 USMC Officers, 13 USMC Enlisted; 2 USN Officers 2 USN Enlisted.

c. Critical shortages throughout the Regiment in the following MOS's:

0849

4. ADMINISTRATION

a. All units of the 12th Marine Regiment operate under Battery administration.

b. The following units are under the administrative control of Headquarters, 12th Marines:

Headquarters Battery
1st Searchlight Battery, FMF
1st 8" Howitzer Battery (SP), FMF

5. The Command of the 3d Provisional Battery was transferred from the 11th Marines to the 12th Marines effective 25 February 1969. This 4 howitzer 155mm Howitzer Battery with personnel assets of 3 officers, 65 enlisted and corpsman was assigned to the 2nd Battalion, 12th Marines for administrative control.

DECLASSIFIED

DECLASSIFIED

PART III, SECTION 4, LOGISTICS

1. The emergency power supply was installed in the regimental command post for the Regimental FDC, Logistic Bunker, Sickbay Bunker and 1/12 FDC, on 8 February 1969. The emergency power source was modified so as to include the Message Center on 10 Febraury 1969.

2. Dye Marker Personnel Bunker requirements for the unit rears at DHCB was submitted on CO, 12th Marines ltr 4/AM/jwp over 11000 of 4 Feb 1969. Requirements passed on to the Base Coordinator, DHCB were as follows:

| UNIT | QTY REQUIRED |
|---|---|
| HqBtry | 8 |
| 1/12 | 8 |
| 2/12 | 6 |
| 4/12 | 7 |
| 1st 8" HowBtry | 2 |
| 1st Searchlight Btry | 2 |
| 5th 155mm Gun Btry | 3 |
| TOTAL | 36 |

3. CG, 3d MarDiv msg 050236Z Feb69 requested recommendations for deletions to T/E P4960. Allowances for the Regiment were reveiwed. Among items recommended for deletion were those allowances allocated to the Composite Artillery Battalion at Gio Linh. This Battalion was disbanded in January 1968. The equipment recommended for deletion included obsolete AN/PRC-6's, MRC-109, AN/GRC-125, SB-22 switchboard, slide projector, 6 volt electric lanterns, office supply set, field desk and telephone set TA-312. These items were submitted to the Commanding General, 3d Marine Division (SC-4), on CO, 12th Marines ltr 4/GAW/jwp over 4441 of 11 Feb 1969.

4. A second request was submitted on a Motor Transport Maintenance Shop to be constructed at the 1st Searchlight Battery position at Dong Ha Combat Base on CO, 12th Marines ltr 4/AM/jwp over 11000 of 16 Feb 1969.

5. CO, 12th Marines ltr 4/AM/jwp over 4600.2 of 18 Feb 1969 requested Command and Control Aircraft for the period of 20 February to 20 March 1969. To date the receipt of aircraft has not been satisfactory, however, limiting weather has influenced the availability of aircraft in the past week.

6. A request on CO, 12th Marines ltr 4/WDF/jwp over 11000 of 18 Feb 1969

DECLASSIFIED

DECLASSIFIED

was submitted to the Commanding General, 3d Marine Division (SC-15) for the installation of a 43,000 gallon tank in the Regimental Command Post. Subject request was disapproved due to the fact that a new water supply is presently being designed for the Dong Ha Combat Base.

7. A request for Modification of Special Allowance was submitted on CO, 12th Marines ltr 4/GAW/jwp over 4015 of 20 Feb 1969 for a Special Allowance of Electronic Equipment. Present allowances of AN/PRC-25 radios and Radio Control Group AN/GRA-39A are inadequate to support Direct Support Battalions under centralized fire direction concept. An increase of thirty AN/PRC-25's and thirty AN/GRA-39's were requested. These allocations would enable the battalions to equip and man an average of twenty five radio nets each.

8. Bunker requirements for the month of February as reported on CO, 12th Marines ltr 4/AM/jwp over 11000 of 28 Feb 1969 was submitted to the Commanding General (SC-15) with totals of bunkers required as follows:

DHCB

| 8'x8'x8' | 8'x12'x8' | 10'x24'x8' | 20'x32'x8' |
|---|---|---|---|
| 42 | 79 | 19 | 2 |

Elliott Combat Base

| 8'x8'x8' | 8'x12'x8' | 10'x24'x8' | 20'x32'x8' |
|---|---|---|---|
| 5 | 20 | 17 | 0 |

Vandergrift Combat Base

| 8'x8'x8' | 8'x12'x8' | 10'24'x8' | 20'x32'x8' |
|---|---|---|---|
| 3 | 2 | 21 | 12 |

Bunkers received during the month are as follows:

C-2-one 8'x12'x8' for CMR
Elliott Combat Base - eight 10'x24'x8' for 5th 155 Gun Btry
Elliott Combat base - one 20'x32'x8' for 5th 155 Gun Btry

9. Construction of a 100 man messhall at the FSB Elliot has been approved and will commence construction on approximately 15 March 1969. CG, III MAF msg 240130Z Feb69 approved construction of a 100 man messhall for our position at C-2 and tasked 11th Engineers with construction. Priority 80.9 assigned.

10. Shipment of TD-18A tractors was completed with assets assigned as follows:

DECLASSIFIED

DECLASSIFIED

| UNIT | QTY RECEIVED |
|---|---|
| 1/12 | 3 |
| 2/12 | 3 |
| 3/12 | 3 |
| 4/12 | 3 |
| 1st 8" HowBtry | 2 |
| 5th 155 Gun Btry | 1 |

11. Regimental Bulletin 11240 of 13 February was published. Subject matter convoys to C-1 and A-2. (Supporting Documents Part IV).

12. On 10 February 1969 the 12th Marine Regiment was tasked with providing six TD-18 tractors and two operators to assist in a land clearing operation in the vicinity of A-2. In addition to providing the tractors and operators, the entire 100 man detail involved in the land clearing operation was subsisted in the 1st 8 Inch Howitzer Battery mess at A-2. This operation terminated on 1 March 1969.

13. During the period 1 February 1969 to 1 March 1969 convoy security took on increases importance as the result of stepped-up VC/NVA ambush and mine activity. As a result of this, Regimental Bulletins 11240 of 13 Feb 1969 (Sweep Team and Convoys to C-1 and A-2) and 11240 of 13 Feb 1969 (Dispatching of Vehicles to Phu-Bai and Danang Areas) were promulgated to provide guidance to subordinate commands on convoy security and control in order to improve reaction time and reduce ambush/mine damage.

DECLASSIFIED

DECLASSIFIED

SECRET

PART III, SECTION 5, COMMUNICATION

1. General. First Lieutenant HUDSON joined the platoon as assistant regimental communications officer. The communications posture has remained essentially the same. Some changes in employment of personnel and installation of equipment have occured. The communications officer is presently absent on R&R in Hawaii. Two other men are on special leave, having extended their RVN tour.

2. Radio

a. Scheduled second echelon maintenance of FM equipment was not accomplished due to the tactical committments that has every operational FM radio in the regimental headquarters in use.

b. The radio central was enlarged and completely revised and a power supply PP-308 was returned from 3d echelon and reinstalled.

c. Secure voice was changed over to the PRC-77/KY-38 equipment and a station was reestablished at TF Hotel on the regimental tactical net. We now have one radio operator, one PRC-77 and one KY-38 at TFH.

d. The jeep components of one AN/MRC-110 was replaced by a rebuilt M151A1. A rebuilt engine was installed in the jeep component of one AN/MRC-87. This set is still in a deadline status due to required repairs to the radio component. One AN/MRC-83 was placed on code H; no replacement received as yet.

e. A two hour class on secure voice operations, trouble shooting and remoting was presented to 5 radio operators.

3. Wire

a. Request submitted to Division to replace old and trouble filled cable with a new 50 pair cable was approved. Work will commence soon, with the 12th Marines assisting Division.

b. The switchboard SB-86 was received from 4th echelon repair and is now being given an operational check prior to installing.

4. Radio Relay

a. The section chief, Sgt ATCHINSON, rotated to CONUS at mid-month and these duties are now filled by Cpl BROOKS. The installation between A-2 and Regt was operational 84% for the month. 40 hours of down time was due to power troubles (generators) and 76 hours due to electronic troubles. The section does not have the capability (equipment nor personnel) to operate more than this one relay link. We have two RT-252 on loan from Div Comm Co, two down for repair and two on line and six on requisition. There are two TD-101 on line, two on stand by, and five down for repair and ten on requisition. At A-2 we are using power from the radar generators. At the Regimental CP we obtain power from the two PU-278 that we have on line and from a generator borrowed from the Radar Section.

DECLASSIFIED

DECLASSIFIED

b. We have on loan to the 3d Marines one FU-27S. The 3d Marines are providing the regiment with one channel on their link to A-4. We have two FU-27S down for repair and fifteen on requisition.

5. Communications Center

a. The message center chief (Sgt SHARROCK) rotated to CONUS and he was relieved by Sgt SCHENEMANN who joined us from Div Comm Center. On the 15th, we established a teletype circuit into the Div CCC. Very little traffic has been received or sent to date over this channel. Sgt. GRANT, a crypto repair technician, reported aboard and improvement in crypto and teletype maintenance and repair was immediately noticed. In conjunction with rearranging the radio central, the crypto repair shop was decreased in size, a hot locker for equipment was built and an overall improvement of the work shop was accomplished.

| | | |
|---|---|---|
| Message traffic for Feb. | Incoming | 1673 |
| | Outgoing | 221 |
| | Total | 1894 |

Decrease of 255 from Jan.

6. Maintenance and Supply

a. Normal maintenance on platoon equipment. Second echelon maintenance on remainder of 1st Searchlight Btry's telephones. Held a reconciliation on Comm-Elect items with Supply.

b. A total of 112 items were turned into the shop for repairs. 24 of these were evacuated to FLSG-D and 72 were repaired locally and 17 remain in the shop awaiting parts.

c. A total of 113 items were returned to operational use, 41 of these having been returned from FLSG-D.

PART III, SECTION 6, CIVIL AFFAIRS

During the month of February, Headquarters Battery conducted its MEDCAPS on a weekly basis in Dong Le (YD 264615) and in Nghia An (YD 230618). Corpsmen from the Regimental Aid Station treated a total of 872 people in the two villages.

Coordination was effected between MCB - 7 and 11th Engineers for the construction of an enclosed play area and a fence and gate at the entrance of the 3rd Marine Division Children's Memorial Hospital. The Records Section was given a set of maps to better obtain location of home addresses when children enter the Hospital. Permission to operate was obtained in one case and in another one child's body was returned to Cam Lo.

A total of 20,000$NV was distributed in scholarship money at the Dac-Lo School, the Bo-Do School, and through Chaplain O'Connor of MCB - 7. Our teaching program took something of a beating this month, as a result of a two week Tet holiday in all the schools. Classes were conducted as usual at the Buddhist School, the Semi-Public School, and at District Headquarters during the other two weeks.

The biggest event of the month was Tet, the lunar new year celebration. A party for 150 children was given at the Buddhist School with ice cream, cookies, cakes, and Tet envelops. Headquarters Battery was the co-sponsor of a party at 62nd ARVN Artillery. Ice cream, cookies, toys, clothing, and Tet envelops were provided for 200 children. Father Co at Cam Lo Refugee Village was given 300 Tet envelopes, toys, 6 boxes of clothing, a case of baby powder, dextrose, and streptomycin.

The arch and gateway at the Buddhist School was completed this month and plans are presently underway for the construction of one head at each of the two branches of the Public Elementary School in Dong Ha.

The weekly Periodic Civic Action Reports compiled by Dong Ha Area Civil Affairs Coordinator (CO, 12th Marines) for the month of February are attached in Part IV (Supporting Documents).

PART III, SECTION 7 CHAPLAIN ACTIVITIES

1. Divine Services Conducted.....29
   Attendance.....364

2. Personal Counseling Cases.....23

3. Memorial Services.....1
   Attendance.....56

4. Pastoral Functions:
   Ministered to wounded and dying at 3d Medical Battalion
   Letters written.....5
   Religious Instructions.....5
   Received into the Church through Baptism.....1

5. Meetings Attended:
   Regimental Daily Briefings.....24
   Regimental C. O.'s Weekly.....2
   Division Chaplain's Weekly.....4
   Regimental Chaplain's meeting for Dong Ha Chaplains...2

6. Commands visited: During the month of February the Regimental Chaplain visited all of the Battalions of the 12th Marines in forward and rear positions. Particular attention was paid to the individual batteries of the Fourth Battalion because no chaplain is assigned to the Fourth Battalion. Units of the "C" Battery were visited at Con Thien, Gio Linh and Elliott FSB (Rockpile), Twelfth Marines units at C-2, C-1, Vandegrift, and Alpine. Commands visited other than Twelfth Marines were MCB 22 and MCB 53 at the Vinh Dai Rockcrusher location, MCB 58 personnel at Cam Lo MCB 7 at Dong Ha, Task Force Hotel, other units located in the Dong Ha area in coordinating Divine Services.

7. Additional Coverage: Roman Catholic Coverage was provided for Twelfth Marines by the Chaplains assigned to 1/12, 11th Engineers, 4th Marine Regiment, Task Force Hotel Chaplain and the 9th Marine Regimental Chaplain.

Jewish Personnel were organized for worship under a lay leader at FLSG "D". Regular weekly services are now held for men of the Jewish Faith.

8. Civic Action: With the exception of providing some materials for school construction and distributing some soap and candy to two orphanages, this portion of the report is negative.

CANDIDATE SPEED REQUIREMENT
A. CG THIRD MARDIV 100914Z DEC 68
1. THE FOLLOWING IS SUBMITTED IAW REF (A).
A. PARA 1 TO BE ASSIGNED.
B. PARA 2 REQUIREMENT. DEVELOPMENT OF A COMPUTERIZED TARGETING SYSTEM TO PROVIDE REAL TIME TARGET ANALYSIS ND FIRE PLANNING DATA WITH EMPHASIS ON THE COUNTERFIRE APPLICATION. THIS SYSTEM WILL ELIM-
INATE LABORIOUS AND TIME CONSUMING MANUAL FILING AND PRINTOUT OF TARGET INFORMATION. IT WILL ALSO ELIMINATE THE PRESENT LACK

PAGE TWO Y14F C O N F I D E N T I A L
OF INTEGRATION OF REPORTING AGENCIES. THERE IS ALSO A NEED TO BRIDGE THE GAP BETWEEN THE PRESENT SYSTEM AND FOLLOW ON CON-
CEPTS SUCH AS TACFIRE.
D. PARA 3 CHARACTERISTICS.
A. MINIMUM DEPARTURE FROM PRESENT FIRE PLANNING TECHNIQUES.
B. COMPATABLE WITH MARES/HORSTAT.
C. COMPATABLE WITH FOLLOW ON SYSTEMS SUCH AS TACFIRE.
D. COMPATABLE WITH NATO STANDARD TARGET DESIGNATION SYSTEM.
E. UNIFORM REPORTING PROCEDURES FOR ALL SOURCES OF TARGET INFORMATION.
F. INTEGRATION OF ALL TARGET INFORMATION AND TARGET INTEL-
AGENCIES.
G. CAPABILITY FOR CARD, TAPE, KEYBOARD, TELETYPE, AND IPTICAL MARK READER INPUT/OUTPUT DEVICES TO INCLUDE REMOTE TERMINALS.
H. RANDOM ACCESS TO TARGET DATA BASE FROM ON LINE REMOTE INQUIRY STATIONS.
D. EXPECT NO CHANGE IN NUMBER OF PERSONNEL INVOLVED. A MINIMUM INCREASE IN TRAINING WILL BE REQUIRED. INVOLVING THE CODING AND TRANSMISSION OF DATA. LOGISTIC REQUIREMENTS INCLUDE THE ADDITION OF HARDWARE TO PROVIDE A D P CAPABILITY FOR ON LINE RANDOM ACCESS

SPEED REQUIREMENT
A. MCO 3900.6
B. FM 6-15
1. FOLLOWING REQUIREMENT SUBMITTED IAW REF (A):
A. PARA 1. TO BE ASSIGNED.
B. PARA 2. DEVELOPMENT REQUIREMENT: A SIMPLIFIED MEANS TO DETERMINE WIND SPEED AND DIRECTION AT VARIOUS LEVELS TO AN ALTITUDE OF 8,000 METERS. THE VALIDITY OF THE PRESENT ELECTRONIC METRO MESSAGE EXTENDS ONLY TO A RADIUS OF 16,000 METERS IN THE MOUNTAINOUS TERRAIN OF THE WESTERN PORTION OF THE 3D MARINE DIVISION A O. THE BALLISTIC TEMPERATURES AND DENSITIES ALOFT REMAIN VALID UP TO A RADIUS OF 60,000 METERS. THE LIMITING FEATURE OF THE METRO MESSAGE IS WIND DIRECTION

PAGE TWO Y14E C O N F I D E N T I A L
AND SPEED. THESE ELEMENTS REMAIN VALID FOR ONLY 16,000 METERS AS PER REFERENCE (B). THE ELECTRONIC METRO SECTION HAS DEVELOPED A MOUNTAIN METRO TECHNIQUE. THIS REQUIRES WIND SPEED AND DIRECTIONS TO BE MEASURED AT THE DISTANT FIRE SUPPORT BASE. THIS DATA IS SENT ALONG WITH THE SURFACE TEMPERATURE AND DENSITY TO THE ELECTRONIC METRO SECTION. THE DATA IS THEN INTEGRATED WITH ELECTRONICALLY OBTAINED TEMPERATURE AND DENSITY DATA TO PRODUCE AN ACCURATE MOUNTAIN METRO MESSAGE FOR USE AT THE FIRE SUPPORT BASES.
AT PRESENT THE ACCURACY OF ARTILLERY FIRE FROM DISTANT FIRE SUPPORT BASES IS OFTEN QUESTIONABLE DUE TO THE LACK OF VALID METEOROLOGICAL DATA. THERE ARE NOT ADEQUATE PERSONNEL NOR EQUIPMENT TO EMPLOY PRESENT VISUAL TECHNIQUES AT ALL THE LOCATIONS DESIRED. EVEN IF THERE WERE, DURING PERIODS OF LOW VISIBILITY THE VISUAL OR PILOT BALLOON TECHNIQUE CANNOT BE EMPLOYED TO OBTAIN REQUIRED WIND DATA. THE EMPLOYMENT OF ENOUGH ELECTRONIC METRO SECTIONS TO PROVIDE VALID WIND DATA FOR THESE BASES IS EVEN LESS FEASIBLE BECAUSE OF PERSONNEL, BULK OF EQUIPMENT, AND RESUPPLY PROBLEMS. AN ALTITUDE OF 8,000 METERS IS REQUIRED TO SUPPORT 105MM AND 155MM HOWITZERS, WEAPONS USED ON FIRE SUPPORT BASES.
C. PARA 3. CHARACTERISTICS OF THE SYSTEM: EQUIPMENT SHOULD BE

CONFIDENTIAL

TAB-C.2

DECLASSIFIED

DECLASSIFIED

PAGE THREE Y14E C O N F I D E N T I A L
LIGHTWEIGHT, RUGGED, COMPACT AND BATTERY POWERED. A SET OF DATA SHOULD BE OBTAINED IN ONE-HALF HOUR OR LESS.
D. PARA 4. TRAINING PERSONNEL AND SUPPORT CONSIDERATIONS: SYSTEM SHOULD BE SIMPLE TO OPERATE AND REQUIRE NOT MORE THAT (2) PERSONNEL TO EMPLACE. SYSTEM WOULD BE OPERATED BY TWO FIRE CONTROL MEN (0844) PRESENTLY ON THE T/O OF THE D/S AND G/S ARTILLERY BATERIES WITH A MINIMUM OF TRAINING REQUIRED.
E. PARA 5. SUPPORTING DATA AND RECOMMENDATION: NONE.
F. PARA 6. DATA OPERATIONAL CAPABILITY DESIRED: ASAP.

SPEED REQUIREMENT
A. MCO 3900.6
1. FOLLOWING REQUIREMENT SUBMITTED IAW REFERENCE (A):
A. PARA 1. TO BE ASSIGNED.
B. PARA 2. DEVELOPMENT REQUIREMENT: A MEANS OF BROADCASTING THE ARTILLERY METRO MESSAGE IN DIGITAL FORM TO BE PRESENTED IN BOTH PRINTED AND PUNCHED PAPER TAPE FORM AT BATTALION/BATTERY LEVEL. THE PUNCHED PAPER TAPE IS FOR DIRECT LOADING INTO THE M-18 FADAC COMPUTER. THIS MACHINE HAS THE CAPABILITY OF ENTERING DIGITAL DATA INTO ITS MEMORY THROUGH A TAPE READER ON THE COMPUTER CONSOLE. AT PRESENT THE MARINE CORPS ARTILLERY METRO

PAGE TWO Y14E C O N F I D E N T I A L
STATION CAN PRODUCE THE REQUIRED DATA BUT MUST THEN TRANSMIT IT BY VOICE ON CHARACTER AT A TIME. ONCE RECEIVED BY THE BATTALION/BATTERY FDC THE COMPUTER OPERATOR MUST INSERT THE INFORMATION MANUALLY. THIS NOT ONLY IS THE CONSUMING BY LENDS INSELF TO ERROR. A REQUIREMENT EXISTS FOR EQUIPMENT THAT COULD ACCEPT THE METRO MESSAGE AT THE MET STATION. BROADCAST THE INFORMATION ON COMMAND OF AN OPERATOR AND BE RECEIVED BY ALL MET USER STATIONS. AT THE USER STATION THE INFORMATION MUST BE PRESENTED IN BOTH PRINTOUT AND PUNCHED PAPER TAPE FORM SO THAT IT CAN BE USED FOR BOTH MANUAL COMPUTATION/INSERTION OR INSERTION THROUGH THE TAPE READER.
C. PARA 3. CHARACTERISTICS OF THE SYSTEM: THE SYSTEM SHOULD BE COMPOSED OF AN INPUT DEVICE WITH BOTH PAPER TAPE PUNCH AND PRINTOUT CAPABILITY. THE PUNCHED PAPER TAPE OR MANUAL INPUT WOULD BE INSERTED AT THE INPUT STATION AND THE DATA BROADCAST ON COMMAND. AT THE RECEIVING END THERE SHOULD BE OUTPUT EQUIPMENT THAT WOULD PROVIDE THE USER WITH BOTH A PRINTOUT OF THE MET MESSAGE FOR USE IN MANUAL COMPUTATIONS AND A PAPER PUNCH PRINTOUT DEVICE TO PROVIDE THE MET DATA FOR INSERTION INTO FADAC THROUGH THE TAPE READER. OPERATION AND HANDLING PROCEDURES ARE REQUIRED.
D. PARA 4. TRAINING PERSONNEL AND SUPPORT CONSIDERATIONS:

TAB C.3

CONFIDENTIAL

DECLASSIFIED

DECLASSIFIED

INFO TWELFTH MARINES
BT
C O N F I D E N T I A L
SPEED REQUIREMENT
A. MCO 3900.6
1. FOLLOWING REQUIREMENT SUBMITTED IAW REFERENCE (A):
A. PARA 1. TO BE ASSIGNED.
B. PARA 2. DEVELOPMENT REQUIREMENT: A SIMPLIFIED MEANS OF INCREASING THE RANGE OF PRESENT ARTILLERY WEAPONS. BECAUSE OF THE REQUIREMENT TO COVER LARGER DIVISION OPERATING AREAS THE INFANTRY UNITS CANNOT PHYSICALLY OCCUPY MUCH OF THIS AREA. TO ASSIST IN COVERING THESE "UNATTENDED" AREAS THE COMMANDER MUST RELY ON ARTILLERY TO CONDUCT EXTENSIVE PROGRAMS OF FIRE WITH THE PURPOSE OF DENIAL AND HARASSMENT. CURRENTLY THE MOUNTAIN

PAGE TWO Y14E C O N F I D E N T I A L
FIRE BASE CONCEPT PROVIDES MUCH OF THE NEEDED CAPABILITY. FROM THE MUTUALLY SUPPORTED BASES THE ARTILLERY IS ABLE TO KEEP UP A CONTINUED PROGRAM OF FIRES INTO THE ENEMIES SANCTUARIES. HOWEVER, THE ENEMY HAS ARTILLERY THAT IS ABLE TO OUT RANGE OUR ARTILLERY. HE IS ABLE TO POSITION THESE JUST OUTSIDE OUR RANGE AND FIRE AT WILL INTO OUR POSITIONS. THE ONLY COUNTERMEASURE AVAILABLE IS AIR WHICH IS VISIBILITY LIMITED.
BECAUSE EVERY GUN, PROJECTILE AND OTHER SUPPORT MUST BE BROUGHT TO THE FIRE BASES BY HELICOPTER THE SYSTEM BECOMES HELICOPTER LIMITED. WEAPONS WITH GREATER RANGE ARE MUCH TO HEAVY TO BE HELICOPTER TRANSPORTABLE. A REQUIREMENT EXISTS FOR IMPROVED AMMUNITION THAT WOULD INCREASE THE RANGE OF PRESENT WEAPONS WITHOUT ANY MODIFICATION OR ADDITIONAL WEAR AND STRESS TO THE WEAPON. REQUIRED RANGES ARE 20,000 METERS FOR THE 105MM HOWITZER. 10,000 METERS FOR THE 107MM MORTAR. AND 30,000 METERS FOR THE 155MM HOWITZER AND 8" HOWITZER. IT IS ALSO DESIRED THAT THE NEW LIGHT-WEIGHT 105MM HOWITZER XM 164 BE TESTED IN THIS ENVIORNMENT WITH THE IMPROVED MUNITIONS.
C. PARA 3. CHARACTERISTICS OF THE SYSTEM: THE PROJECTILES SHOULD BE PROPELLED TO GREATER RANGES BY THEIR OWN DESIGN AND NOT

TAB C.4.

CONFIDENTIAL

DECLASSIFIED

DECLASSIFIED

PAGE THREE T14E C O N F I D E N T I A L
FROM AN INCREASE OF PROPELLANT THRUST AT THE WEAPON. THE IMPROVED PROJECTILES SHOULD NOT REQUIRE SPECIAL HANDLING OTHER THAN PRESENTLY REQUIRED BY STANDARD MUNITIONS. THE MUNITION SHOULD ACHIEVE ACCURACIES WHICH APPROACH PRESENT ACCURACIES. FIRING TABLES AND EMPLOYMENT PROCEDURES ARE REQUIRED.

D. PARA 4. TRAINING PERSONNEL AND SUPPORT CONSIDERATIONS: AMMUNITION SHOULD BE SIMPLE TO HANDLE AND REQUIRE NO SPECIAL TRAINING OTHER THAN CURRENTLY REQUIRED FOR STANDARD AMMUNITION.

E. PARA 5. SUPPORTING DATA AND RECOMMENDATION: CURRENT DEVELOPMENT OF THE ROCKET ASSISTED PROJECTILE. DEVELOPMENT OF THE LIGHTWEIGHT 105MM HOWITZER XM 164.

F. PARA 6. DATA OPERATIONAL CAPABILITY DESIRED: ASAP.

DEFENSE OF FSB CUNNINGHAM
1. THE DEFENSE OF YOUR POSITION DURING THE GROUND ASSAULT ON FSB CUNNINGHAM ON 17 FEB 1969 WAS AN ACT OF GREAT COURAGE. IT REFLECTED THE FEROCIOUS TENACITY WITH WHICH ARTILLERYMEN HAVE TRADITIONALLY PROTECTED THEIR GUNS AND KEPT THEM IN ACTION. THE GREAT EFFORT PUT INTO REPAIRING YOUR POSITION AND THE ALERTNESS OF THE GUNCREWS WAS EVIDENT IN
THE DISPARITY BETWEEN YOUR LOSSES AND THOSE OF THE ENEMY. THE ELEVEN OF THE ASSAULTING SAPPER FORCE FOUND OUTSIDE THE GUN POSITIONS ATTESTS TO THE DETERMINATION OF YOUR MEN
THE LARGE NUMBER OF OTHER CONFIRMED KILLS DURING THIS ACTION IS A TRIBUTE TO YOUR FIRING DURING ENEMY INCOMMING FIRE
AND GROUND ASSAULT.

PAGE TWO RUMHVP #0143 C O N F I D E N T I A L

PERFORMANCE OF DETACHMENT MORTAR BATTERY THIRD BATTALION TWELFTH MARINES
1. DURING ONE NIGHT OF 17 FEB 1969 THE QUANG TRI COMBAT BASE WAS ATTACKED BY A DETERMINED ENEMY FORCE ON TWO OCCASIONS. IN THE FIRST INSTANCE THE DETACHMENT FIRED ILLUMINATION AND HIGH EXPLOSIVE SHELLS DISRUPTING THE ATTACK. ON THE SECOND OCCASION A SAPPER UNIT PROBED THE NORTH-EAST SIDE OF THE BASE. THE PROXIMITY OF THIS LOCATION TO POPULATED AREAS POSED A SPECIAL PROBLEM.
2. BY DETERMINED AND TIRELESS EFFORT THE THREE TUBES OF THE DETACHMENT PROVIDED CONTINUOUS ILLUMINATION FROM MIDNIGHT TO SIX IN THE MORNING. THIS REQUIRED ALMOST SEVEN HUNDRED ROUNDS. THIS WAS A REMARKABLE EFFORT REQUIRING SEVERAL RESUPPLY TRIPS TO THE AMMO STORAGE AREA.
3. WITH THIS ILLUMINATION, THE ENEMY WAS PREVENTED FROM COVERT

CCN; 157 HAS BEEN SENT

REGIMENTAL ORDER 1500.8A

From: Commanding Officer
To: Distribution List

Subj: Command Orientation and Troop Indoctrination Program

Ref: (a) DivO 1510.3D
(b) RegtO 1500.1E

1. Purpose. To provide guidance for an in-country command orientation and troop indoctrination program (COATIP).

2. Cancellation. RegtO 1500.8.

3. Background. Due to the peculiarities of the situation in Vietnam, it is necessary to insure each recently joined Marine be given thorough indoctrination. It is also necessary to continue the indoctrination and orientation program throughout an individual's tour.

4. Action

a. Those subjects listed in enclosure (1) of reference (a) plus a briefing on Security of Classified Information will be presented to each Marine within four (4) days of his arrival at the battalion/separate battery. This instruction will include individual weapon familiarization firing and zeroing. Instruction will be conducted at a place no further forward than a battalion's/separate battery's rear area. Rear area is defined as that area where the Marine is issued his individual weapon, helmet, flak jacket, and other essential combat items.

b. In addition to the initial orientation, subjects listed in enclosure (1) of reference (a) will be included in each unit's quarterly training plan (Paragraph 7.a. (2) of reference (b)).

c. Upon completion of the initial COATIP training, an entry will be made in the individual's service record book, indicating participation in the command orientation and troop indoctrination program.

5. Reports. No periodic reports are required, however, commanders will be prepared to provide the following information on request:

To: Distribution List

Subj: Procedures to Collect Knowledge Gained by Units and Individuals

Ref: (a) ForceO 3480.2A
(b) DivO P1500.2, Section X

Encl: √(1) Debriefing Paper Format

1. Purpose. To publish instructions in accordance with references (a) and (b) for obtaining maximum benefits from professional knowledge and experience gained from individuals and units.

2. Cancellation. RegtO 3480.1.

3. Background. The Marine Corps has four programs whereby professional knowledge and experience can be collected and disseminated. These programs are:

a. The lessons learned program;

b. Debriefing papers;

c. Professional articles;

d. Individuals submitting ideas on beneficial suggestions to the Commandant of the Marine Corps via the appropriate chain of command.

4. Action

a. Lessons Learned. Battalion and separate battery commanders will submit a monthly report of unit lessons learned to reach this headquarters no later than the 25th day of the month covered. Negative reports are required. Members of the Regimental staff will submit lessons learned at anytime. Lessons learned will be submitted in the following format:

TAB F.2

DECLASSIFIED

DECLASSIFIED

RegtO 3480.1A
2 Feb 1969

Item:

Comment:

Lesson Learned:

Lessons learned concerning tactics, techniques, and field expedients are particularly desired. Those items involving restatement of accepted tactical principles and unsatisfactory equipment are not desired. This headquarters will evaluate and consolidate the reports of lessons learned for submission as a single report to the Commanding General, Third Marine Division (Attn: ACofS, G-3).

b. Debriefing Papers. Commanding Officers will ensure each officer and staff non-commissioned officer submits a written debriefing paper at the time of his detachment. The paper will be in the format shown in enclosure (1) and will be submitted to the Commanding General, Third Marine Division (Attn: ACofS, G-3). Commanders are encouraged to thoroughly review the debriefing papers and to make comments as appropriate.

c. Professional Articles. These may be submitted to an appropriate military service publication. The Marine Corps Gazette will send a copy of "Writer's Guide" upon request. Address requests to:

The Marine Corps Gazette
Box 1775
MCS, Quantico, Va., 22134

d. Ideas and Suggestions from Individuals. Individuals who possess ideas to improve the effectiveness of Marine Corps training or material should forward a written report outlining the idea to the Commandant of the Marine Corps (Code AO3H) via the chain of command.

Encl: (1) Duties of Personnel
(2) Records and Reports
(3) Instructions for Providing General Support Fires
(4) Incoming Rounds (Enemy; Misdirected; or Suspected Misdirected)
(5) Attack of Personnel Targets Located by TPS-25 Radar
(6) Support of Recon Inserts and Reaction Forces
(7) TOTs

1. Purpose. To standardize certain procedures within the 12th Marines Regimental Fire Direction Center. Information in the enclosures will be supplemented by special instructions contained in the Fire Direction Officer's and Duty Operations Chief's folders. The pertinent folders will be reviewed by watch personnel prior to assuming the watch.

2. Action. The following general rules, supplemental to procedures in the enclosures, will be adhered to in the Regimental FDC.

a. A sense of urgency must prevail. Although certain targets have priority over others (i.e. "crew-served weapon firing" vs "suspected enemy position"), no request for fire will be allowed to drift by the wayside. Artillery has the potential of responding more rapidly than any other supporting arm and it must maintain that reputation. Speed with safety must be utilized in conducting the operations of the 12th Marines FDC.

b. The operations of the Regimental FDC will be conducted in a professional, military manner at all times. Special attention will be given to personnel and working space appearance.

c. Each Fire Direction Officer will obtain an official time check from the Naval Gunfire Section upon assuming the watch. The Naval Gunfire Section is located in the Division FSCC.

TAB-F. 3

DECLASSIFIED

DECLASSIFIED

d. Noise, including loud talking, radio squelch, etc., will be held to a minimum.

e. All grids received by the Regimental FDC will be recorded legibly and read back to insure they are correct. All grids sent by this FDC will be read back by the unit receiving them.

f. Units assigned fire missions by this FDC will report (on a FIREP) the results of those missions as soon as each mission is completed. In the event a unit is unable to fire a mission assigned from this FDC, a complete explanation from the unit involved will be obtained by the FDO.

g. Calls for fire will be taken directly by the FDO or the Duty Operation Chief. The call for fire will be recorded from the RTO read-back. It will not be written down by the RTO. As soon as "FIRE MISSION" is announced all hands will make every effort to reduce noise and will rapidly process the call for fire with a sense of urgency.

h. In massing fires when the target must be located by adjustment, one battery only will adjust. The other batteries to fire will fire for effect on the replot data.

i. Friendly positions will be plotted as received on the FDO map. The source of this information is the friendly position report published daily by the 3rd Marine Division COC.

j. When unobserved targets are plotted, their location relative to friendly positions will be condidered. Units to fire will be assigned so they are compatible with the closeness to friendlies and the direction of the gun-target line. 175mm guns will not be fired within 2000 meters of friendlies. 155mm guns will not be fired within 1500 meters of friendlies. No unobserved general support fires will be fired within 1000 meters of friendlies unless specifically requested by them. (See enclosure (3)).

k. The following minimum criteria will be used in determining method of fire when attacking personnel targets with Improved Conventional Munitions:

3-105mm per individual
2-155mm per individual
1-8" per individual

l. When general support fires are used to attack an area target, the size of the area occupied by the target must be considered in determining the method of fire. Zone and shifting fires should be considered. It is

DECLASSIFIED

DECLASSIFIED

not sound policy, for example, to fire an 8" Howitzer battery, a 175mm Gun battery, and two 155mm Howitzer batteries at a single grid when the nature of target is "NVA element within 300 meters". Do not fire more than 20 rounds per grid on any unobserved area target without zone or shifting fire.

m. Fires can only be cleared or given negative clearance by the ground commander of the area concerned. FSCC's are not clearing agencies, but are responsible for relaying clearances to the appropriate agency. FSCC's therefore do not "give" a negative clearance (or clearance), but relay, for example, "negative clearance, grid 200 meters from 3rd Marines CP". Always obtain the reason for negative clearance and the agency that denied clearance. Always obtain a danger element with positive clearance.

n. Any events or incidents involving base defense or security conditions will be immediately referred to the Regimental Executive Officer.

o. Prior to relief each individual on watch will thoroughly brief the person relieving him. Points to be specifically covered by the Fire Direction Officer and the Duty Operations Chief are:

(1) The status of each currently active mission. The offgoing Fire Direction Officer and Duty Operation Chief will remain in the FDC to see to completion all missions involving firing at the time of relief.

(2) The status of currently scheduled fires. To be included are TOTs, acquired targets, and any other scheduled fires.

(3) Firecaps. Include the tube status and any other limiting factors.

(4) Availability of general support and reinforcing units.

(5) Scheme of maneuver and pending operations. Include the planned displacements of firing batteries and supported units.

(6) Current communication status. Include both radio and wire.

(7) Pending reports.

(8) Significant activities that have occured during the watch.

(9) All applicable special instructions.

p. Checkfires deserve close scrutiny. Due to the long range of general support artillery checkfires sometimes pose a significant problem. This is especially true of checkfires for air. Special attention must be given to determine the exact cause of the checkfire. The provisions of CG 3d MarDiv msg 220025Z January 1969 must be observed. In no case will any agency be allowed to arbitrarily check artillery fire.

E.3

DECLASSIFIED

DECLASSIFIED

q. Fires will not be initiated into the 2nd ARVN AO. ARVN organic artillery is well capable of supporting normal requirements and of planning and delivering artillery fires. 2nd ARVN calls for reinforcing fires will be promptly met, after coordination with the Artillery Liaison Officer in the 2nd ARVN Fire Support Center. All calls for reinforcing fires from and to the 2nd ARVN will be channelled through the Artillery Liaison Officer at the 2nd ARVN Fire Support Center.

DUTIES OF PERSONNEL

1. General. The Regimental FDC is composed of personnel from the Regimental S-3 Section. A normal watch section consists of the Fire Direction Officer, the Duty Operations Chief, the Duty Assistant Operations Chief, and two Fire Direction Center Clerks, one of which will be the duty driver. Sufficient communication personnel will be provided from the Regimental Communication Platoon to man radios and the FDC switchboard. Normally this will be two radio operators and one switchboard operator.

2. Fire Direction Officer. The FDO is personally responsible for all the actions taken by the fire direction center personnel during his tour of duty. He will actively supervise the FDC at all times. Specifically, he will:

a. Assume the watch only after being briefed to his satisfaction by the officer going off watch.

b. Personally inspect the plot of each grid that is received by the Regimental FDC for the purpose of being attacked. The purpose of this is to insure no grids plot in no-fire zones, restricted fire zones, friendly positions, or in any other sensitive areas.

c. Personally assign units to fire on all targets and the method of fire when necessary. Units will be selected to minimize instances where they will fire over or to ard friendly units. In some cases, units must be selected that do fire over friendly units, but in no case will such fires be within 1000 meters of a friendly position without the specific approval of the friendly force concerned. The FDC will also consider the ammunition status and the overall available supply rate of ammunition when selecting units to fire.

d. Insure reports are submitted accurately and on time.

e. Report any unusual occurrences to the Regimental S-3 or, in his absence, the Assistant Regimental S-3. Unusual occurrences include, but are not limited to:

(1) Any spot reports;

(2) Any event involving incoming, misdirected, or suspected misdirected rounds (See enclosure (4));

(3) Messages or telephone conversations of an operational nature requiring action;

(4) Inability to provide, or denial of, a call for fire;

ENCLOSURE (1) (E.3)

DECLASSIFIED

DECLASSIFIED

(5) Emergency situations;

(6) Any time the FDO has a question about any situation and/or procedure he is to follow.

f. Insure all records are kept accurately and legibly, and are complete (See enclosure (2)).

g. Maintain the FDC log insuring all significant events are logged therein. Entries should contain all the details required for an understanding of the event. Better too much than too little detail.

h. Thoroughly brief the on-coming FDO, utilizing the relief checklist.

i. Supervise and maintain control of the communication personnel in the FDC. He will be alert to what is being transmitted and insure proper procedures are being followed. MFO's will be carefully instructed in what they are to transmit and will send exactly what they are told. The FDO is completely responsible for everything that is transmitted from the FDC during his watch.

j. Prior to his relief, the FDO will examine all records and forms used during his watch to ensure completeness and accuracy. He will initial each form and enter the DTG of his perusal.

3. Duty Operations Chief. The Duty Operations Chief will supervise the enlisted personnel on duty in the FDC. Specifically he will:

a. Assume the duty as Duty Operations Chief only after being thoroughly briefed by the individual he is relieving.

b. Insure reports received from subordinate units are recorded in an orderly manner on the correct form. Failure of a unit to report accurately or on time will be referred to the FDC.

c. Be responsible directly to the FDO for the accuracy and completeness of all records and forms used during the watch.

d. Refer all requests for fire directly to the FDO.

e. Assist the FDO in supervising the operation of the Regimental FDC.

f. Insure a good state of police is maintained in the Regimental FDC.

4. Assistant Duty Operations Chief. The assistant Duty Operations Chief will:

a. Assume the duty as Assistant Duty Operations Chief after being thoroughly briefed by the individual he is relieving.

DECLASSIFIED

DECLASSIFIED

b. Record calls for fire, certain reports, and other data as directed. All data recorded will be accurate, orderly, and on the correct form.

c. Assist the Duty Operations Chief in the performance of his duties.

5. Fire Direction Center Clerk

a. Assume the duty as FDC Clerk after being thoroughly briefed by the individual he is relieving.

b. Type those records that require typing.

c. Make map changes as directed by the FDO or Duty Operations Chief.

d. Receive routine reports from subordinate units and insure their routing.

e. Forward FIREPS to the FSIC as soon as possible after receipt. He will also ensure that the information on FIREPS is used to complete entries on the S-3 worksheets at the first opportunity.

DECLASSIFIED

DECLASSIFIED

RegtO 3000.3
14 Feb 1969

FDC RECORDS AND REPORTS

1. General. Records of this FDC's activities and reports submitted by subordinate FDC's form the basis of reports that are forwarded to higher headquarters. Information based on these reports is submitted to higher echelons and in some cases is forwarded to national or international authorities. Therefore, it is of the utmost importance to maintain all records in an accurate and orderly manner. Complete, legible reports will quickly indicate what events occured at any specific period of time. Rules for records and reports are:

a. The individual receiving a report will not accept or record the report until he understands the following:

(1) who is submitting the report

(2) what is being reported

(3) when the report is effective, or when did the incident being reported take place

(4) where the report is coming from, or where the incident being reported took place.

b. Entries in records/reports of a permanent nature (i.e. FDO log, S-3 worksheets) will be made in ink (black or blue only) and will be PLAINLY. If an error is made, it will be lined through once and initialed. The correct entry will then be made above the original entry.

c. Prior to the relief of an FDO, the Assistant Duty Operations Chief will collect and compile all the records and will then deliver them to the Duty Operations Chief for inspection. After the Duty Operations Chief has checked them he will add the forms he is responsible to complete and will pass the complete set to the FDO who will inspect them for completeness and accuracy. The FDO will initial each page of the records to indicate he has sighted them for completeness.

2. FDO Log. The FDO log must reflect all significant events that have occured during any period of time. Significant events include, but are not limited to: Fire missions, check fires, reports, incoming rounds, assumption and relief of the watch, and receipt or sightings of classified messages. (NOTE: Messages requiring action will be immediately referred to the Regimental S-3.) The FDO will enter "FIRST ENTRY (date-time group), (signature)" as the first entry in the FDO log each day. The first entry will be made on a new page, thus precluding two days entries appearing on the same form. The FDO will enter "LAST ENTRY (date-time group), (signature)" as the last entry in each days log.

ENCLOSURE (2)

(F.3)

DECLASSIFIED

DECLASSIFIED

3. S-3 Worksheets. Worksheets will be utilized to assign fire missions from this FDC. As was previously stated, records require the utmost attention to maintain accuracy and neatness. Amplifying annotations are encouraged and will be made whenever required. Additional sheets will be utilized if necessary - it is better to have too many details than not enough.

4. The CADILLAC (ammunition on hand) and the Mustang (ammunition expended). These reports are particularly important in that they are the basis upon which the FDO makes the decision as to what battery to use on a mission. These reports also assist the Regimental Commander in evaluating the regimental available supply rate.

5. FIREPS (firing reports). These are important because they indicate the amount and type of ammunition that was fired on a particular mission. Rapid relay of these reports to the FSCC is important.

6. DMZ Missions. A separate form is utilized to reflect DMZ activities. All applicable blocks on this form must be filled in with the appropriate information.

ENCLOSURE (2)

DECLASSIFIED

DECLASSIFIED

INSTRUCTIONS FOR PROVIDING G/S FIRES

1. The following procedures will be utilized to process calls for general support fires:

a. Receive TOTs or other calls for fire from FSCC or other sources.

b. All missions will be processed ASAP with a sense of urgency.

c. If the mission is requested by a unit they should control it if practical. In case of observed fires this will occur easily and will be the normal case. If a unit requests a TOT tell the reinforcing unit the mike number and callsign to come up on and also tell the reinforcing unit that the requestor will control the mission and will provide clearance. The requestor will be told who will shoot for him and the grid of origin. If prep fires or other unobserved fires are requested use the same procedure as for TOTs. If, for reasons such as communications, overcommitment, request, etc., the control should not be given to the requestor but remain with the Regimental FDC, then this FDC will obtain all clearances. In all cases make certain the requestor understands exactly who will control and clear. Keep the requestor informed of the status of the fires he has requested.

d. The FDO will personally assign all available units to fire each TOT - HOWEVER, 155mm Guns and 175mm Guns will not normally be used to fire TOTs. 155mm Guns and 175mm Guns will only be used to fire TOTs when they are the only weapons available or are in remote areas, far removed from friendly forces. Selection of units to fire will take into consideration the direction of the gun-target line and the proximity of the target to the nearest friendlies. The general rule in obtaining clearance is:

IF THE REGIMENTAL FDC CONTROLS THE FIRING, THE REGIMENTAL FDC WILL GET THE CLEARANCE; IF ANOTHER UNIT CONTROLS THE FIRING, THAT UNIT WILL GET THE CLEARANCE.

e. For missions controlled by the Regimental FDC, clearance (or negative clearance) is received from the Division FSCC and includes all clearances. A danger element must be received with the clearance.

f. The FDO will inspect the danger element. If it is less than 1000 meters:

(1) The fire mission will be cancelled if it originated in the Regimental FDC or was sent to the Regimental FDC from the Division FSIC/FSCC; or,

(2) If the fire mission was requested by a unit other than the above, that unit will be notified of the danger element and the units to fire, and will be asked if it still wants the mission to be fired.

ENCLOSURE (3)

F.3

DECLASSIFIED

DECLASSIFIED

g. Units to fire the mission are sent clearance (or negative clearance).

h. Cleared units will be sent a mark from the Regimental FDC when required.

DECLASSIFIED

DECLASSIFIED

RegtO 3000.3
14 Feb 1969

INCOMING ROUNDS (FRIENDLY; MISDIRECTED; OR SUSPECTED MISDIRECTED)

1. When notified a friendly unit is taking incoming, the FDC will direct the unit involved to submit a spot report ASAP. The unit will also be directed to conduct a crater analysis and submit an artillery counterfire form ASAP. Times and reactions will be carefully recorded in the FDC log. Notify the S-3 and Commanding Officer as soon as possible.

2. As soon as indications show the possibility of friendly units firing misdirected rounds, the FDC will order "CHECK FIRE, IN THE NAME OF THE FLOCK, FALL IN" to all units that are within range of the grid of impact.

3. Units will be directed to check all data. Data to be checked includes:

a. Firing data - units will check the computation of the data computed by the FDC involved.

b. Data received by the firing battery - units will insure that data received by the recorder is the same as that sent by the FDC. A common error here is the transposition of figures, i.e. "2349" vice "2394".

c. Data placed on the pieces firing - units will check to insure that:

(1) Deflection is correct.

(2) Quadrant is correct.

(3) Fuze setting is correct (if VT or mechanical time is used).

(4) Charge is correct. The checking to insure the correct charge was fired bears special mention. This must be accomplished even if it involves checking the entire days excess powder charges (or increments in the case of mortars). If the command "LAID OF MISSION" was given prior to the check fire, the entire day's excess powder charges (increments) will have to be checked.

4. Be alert to the possibility of quadrant, charge, or deflection error, or a combination of these. By comparing the grid of impact with the grid of the target(s) fired at, it is often possible to detect:

a. Deflection error - the impact will be to the left or right of the target, but at the same range.

b. Charge error - the impact will be short or over the target on the gun-target line.

c. Quadrant error - the impact will be short or over the target on the gun-target line.

ENCLOSURE (4)

F.3

DECLASSIFIED

DECLASSIFIED

d. Fuze setting error - air burst short of the target on the gun-target line.

e. Combination of the above errors would result, of course, in a combination of the above listed impact or air burst locations in relation to the target fired.

5. Units will be directed to report the results of their checking all the data listed above.

6. The command "CANCEL CHECK FIRE" or "END OF MESSIO" will be given only with the permission of the Regimental S-3 or, in his absence, the Assistant Regimental S-3 after all units have reported the results of their checks. Care must be taken not to assume that an error detected means the cause has been found. If this happens and a "CANCEL CHECK FIRE" is given to other units the true cause of the incident may never be found.

ENCLOSURE (4)

DECLASSIFIED

DECLASSIFIED

RegtO 3000.3
14 Feb 1969

FIRING IN SUPPORT OF AN/TPS-25 RADAR

1. Purpose. To establish procedures for the attack of personnel targets located by the AN/TPS-25 Radar.

2. Background. The ability of the AN/TPS-25 Radar to detect personnel targets provides the Regimental FDC with a special opportunity for effective use of artillery. Standardized procedures will be used so that targets can be effectively attacked.

3. Action. The following steps will be taken to attack targets located by the AN/TPS-25 Radar:

a. The location of such targets is considered to be observed fire.

b. The observer will base his call for fire on a predicted target location, assuming it will require ten to fifteen minutes to set up the artillery fire. Control element will normally be AMC.

c. The FDO will conduct the mission as follows:

(1) Use ICM shell whenever appropriate.

(2) Minimum method of fire btry (1), zone, 3 quadrants AMC. A 100 meter zone will be used with HE; the size of the battery zone with ICM will be as follows based on data in FM 6-141-2:

| | |
|---|---|
| 105mm How | 200 meters |
| 155mm How | 200 meters |
| 8" How | 200 meters |

(3) To provide better coordination with the observer and save set-up time a modified TOT procedure will be used when "TOT" effect is desired. The rounds will be fired at the command of the FDO in the Regimental FDC. Each unit firing will report when ready, and the time of flight. When all units are ready, the times of flight will be compared. The longest time of flight will be given the command to fire. Each other unit will be given the command at the appropriate time. Example:

Time of flight "A" 62 seconds
"B" 46 seconds
"C" 33 seconds
"D" 28 seconds

"A" given "fire", stop watch starts; "B" given "fire" at 16 seconds; "C" given "fire" at 29 seconds; "D" given "fire" at 34 seconds.

ENCLOSURE (5)

E.3

DECLASSIFIED

DECLASSIFIED

d. It is imperative that proper reporting procedures be followed. Since these missions will be fired at night, often late at night, special effort must be made to improve timeliness of reporting. Complete information will be submitted to the FSCC immediately upon completion of the mission. A special call from the FDO to the FSCC Watch Officer at 0600 to ensure all data is in and properly received would be appropriate.

e. Whenever possible the 2nd ARVN Regiment (62nd ARVN Bn) and NGF will be invited to shoot on TPS-25 targets once the fire for effect grids have been determined.

DECLASSIFIED

DECLASSIFIED

RegtO 3000.3
14 Feb 1969

ARTILLERY SUPPORT OF RECON INSERTS AND EXTRACTION FORCES

1. The recon representative at the Division FSCC will notify the Regimental FDC of scheduled recon inserts. The information received from the recon representative will be recorded on a recon insert form and will be placed in the recon insert log.

2. The FDC will plot the area of operations and will assign a unit to support the team. The selection will be based on the following factors:

a. Direct support units will be assigned the mission of supporting recon inserts. General support units will be assigned the mission of supporting recon inserts only if no direct support units are within range of the team. The exception to this rule is when 4/12 has the mission of supporting recon teams operation in the western portion of the Quang Tri area.

b. Ground troops (including recon teams) will have a 3000 meter overshoot. This is to provide defense against incoming mortar fire. Whenever the 3000 meter overshoot is not possible, the recon representative at the Division FSCC will be notified and an appropriate entry will be made on the recon insert form and in the FDC log. Each time a battery displaces, the FDO will check to see if the displacement leaves an insert without adequate artillery support. If the move dictates inadequate support, the recon representative will be notified and an appropriate entry will be made on the recon insert form and in the FDC log.

3. When the FDC assigns a unit to support a recon team, that unit will be notified of the information received from the recon representative. This will include the name of the insert, the date, the niko number and frequency the team will be using, and the area of operations the team will be working in. The date time group and name of the person receiving the information will be recorded in the proper block on the recon insert form.

4. The information that a team is actually being inserted will be sent to the Regimental FDC by the recon representative. This information will be sent to the unit supporting the team as soon as possible.

5. Supporting units should make an effort to establish permanent sav-a-planes for areas recon teams are operating in. This is particularly true of general support units. Recon units can give ground clearance for fires against targets located in their own AO's - if firing units already have permanent sav-a-planes the fire can be delivered more rapidly. It must be emphasized that recon teams can give ground clearance only in their own AO's. If a target plots outside the recon team's area, the ground commander of the unit concerned must give the clearance.

ENCLOSURE (6)

(F.3)

DECLASSIFIED

DECLASSIFIED

6. The recon representative will notify the Regimental FDC when a recon team is extracted. This information will be sent to the FDC of the unit providing artillery support to the recon team.

7. Special instructions will be provided separately for support of recon inserts that may occur in the DMZ.

DECLASSIFIED

DECLASSIFIED

RegtO 3000.3
14 Feb 1969

REGIMENTAL TOT'S

1. It is necessary to develop a standard method of firing and controlling Regimental TOT's that will:

a. place the maximum amount of surprise fire on a specified target at a specified time;

b. effectively and efficiently utilize all available firepower, yet will not delay other necessary fire support.

2. The system to be employed by the Regimental FDC when firing TOT's is as follows:

a. When the FDC receives a request for a Regimental TOT the FDO will personally inspect the plot of the grid(s) and will assign the units to fire.

b. The FDO will insure the request for clearance is submitted to the Division FSCC.

c. The FDC will then send the target number and the grid of the target(s) to be fired to the FDCs concerned and will insure the grids are designated NOT cleared. This is an exception to the normal rule of not sending unobserved grids to units prior to obtaining clearance. This is justified in that this FDC controls the TOTs not cleared elsewhere. Units to fire will also be notified of the nature of target, the number of rounds to be fired, and the approximate time of the TOTs.

d. Clearance and sav-a-plane designator will be received from the Division FSCC and will immediately be sent to the FDCs of the units to fire. When the TOT request was initiated at this level, the FDC of the AO in which it is to be fired will be notified prior to firing it.

e. Units to fire will be given a 10 minute mark from the Regimental FDC. The format to be used is found in figure IV-5A of RegtO P3000.1G

f. Units assigned a TOT from the Regimental FDC will fire all available weapons. The advance notification of the time the TOTs are to be fired will insure that the maximum amount of fire can be brought to bear at the appropriate time.

g. "END OF MISSION" will be sent to the firing units upon completion of firing the TOT. Units will submit a FIREP to the Regimental FDC as soon as possible.

3. This system will eliminate the unprofessional procedure of asking units unnecessary questions such as "When will you be ready to take a mark?". The 12th Marines Regimental FDC will notify units that a TOT will be fired, and units concerned will fire all available weapons on the TOT.

REGIMENTAL BULLETIN 8200

From: Commanding Officer
To: Distribution List

Subj: Calibration of Artillery Units in Northern I Corps .

Encl: (1) Tentative Schedule for Borescope and Pullover Gauge Readings
(2) Tentative Calibration Schedule
(3) Instructions for Borescope and Pullover Gauge Readings and Calibration

1. Purpose. To announce the availability of a calibration team in Northern I Corps and to publish a tentative schedule for calibration.

2. General

a. The 177th Ordnance Detachment will be in Northern I Corps for the purpose of calibrating artillery pieces of the 12th Marines, 108th Artillery Group (USA), and the 62nd ARVN Artillery. The detachment consists of a borescope and pullover gauge team, and two calibration teams. One calibration team will use the M-36 Chronograph and will operate on the fire support bases. The other calibration team will use the sky screen and will calibrate units in the remaining locations. The detachment will be in the area for a period of approximately twelve to fifteen days. Due to the short period of time, close coordination will be necessary.

b. The borescope and pullover gauge team will arrive on approximately 25 February and will operate with units as scheduled in enclosure (1). The calibration teams are scheduled to arrive 28 February and will operate in accordance with the schedule in enclosure (2). Arrival of the borescope and pullover gauge team prior to the calibration teams will afford units with unserviceable tubes time to replace them.

c. Enclosures (1) and (2) are tentative and provided as the best information available; further information will be promulgated as it is obtained.

d. Pullover gauge and borescope readings, and calibration of selected 175mm guns will be accomplished, time permitting.

e. The detachment will be composed of one captain, one sergeant first calss, three staff sergeants/specialist-6's, and nine other enlisted personnel.

TAB F-4

DECLASSIFIED

DECLASSIFIED

2. Action

a. Responsible units as designated in enclosures (1) and (2) will provide quarters and messing for personnel of the detachment, and will also provide limited POL and maintenance facilities.

b. Units will insure that fires are planned on appropriate grids and necessary clearances are obtained ahead of time so that unnecessary delays do not occur.

c. Units whose batteries will be calibrated and given borescope and pullover gauge readings on fire support bases will obtain appropriate helicopter transportation. The M-36 Chronograph and it's allied equipment is an internal load and weighs approximately 800 pounds. The crew consists of five men. The equipment can be manhandled between gun positions after it is helilifted to the fire support base. The borescope and pullover gauge teams's equipment is man-carried and the crew consists of 4 personnel.

d. Battalions will insure the same lot of ammunition is used throughout their batteries calibration. Providing valid data is obtained from the calibration, regrouping of weapons within battalions will be accomplished. Units with separate loading ammunition will use the same powder lot and projectile lot throughout the calibration. Powder temperature and metro density (line 01) is also required. The M-36 Chronograph can calibrate all charges for any artillery weapon. The sky screen is able to calibrate charges 6 and 7 only for the 105mm Howitzer; charges 5, 6, and 7 for the 155mm Howitzer; and charges 5, 6, and 7 for the 8 inch Howitzer. The following charges will be calibrated:

| Unit | Weapon | Sky Screen | M-36 Chronograph |
|---|---|---|---|
| 2/12 | 105mm | | 4,5,6,7 |

INSTRUCTIONS FOR BORESCOPE/PULLOVER GAUGE READINGS AND CALIBRATION

1. Preparation for Borescope and Pullover Gauge Readings

a. All gun books will be checked to determine those tubes with the least tube life remaining, or for those tubes that have been firing erratically. If a tube is found to be unserviceable a calibration of the replacement tube will be accomplished after the scheduled units have been calibrated.

b. All tubes that are to be borescoped will be thoroughly cleaned with hot soapy water prior to inspection.

2. Requirements for M-36 Radar Chronograph Calibration

a. All charges can be calibrated.

b. Each charge to be calibrated must be fired at the same quadrant and deflection.

c. There is no need for clear space in front of the firing position. There must be a fairly level area to the left of the weapon on which to erect the equipment (approximately 1-15 meters beside the gun and on line with the breech and trunnion).

d. A powder temperature and current metro (line 01) will be required for each battery position.

e. The calibration will require 6-10 rounds per charge.

3. Requirements for Sky Screen Calibration

a. 105mm Howitzer

(1) Charges 6 and 7 only can be calibrated for the 105mm Howitzer.

(2) A single position from which to fire all guns in the battery. All guns march order to this spot.

(3) 150 feet of clear space to the front of the firing position. Not necessary for it to be level, but must be able to get a clear line of sight to the tube from about 2 feet off the ground.

(4) A single deflection and quadrant on which to fire all charges. All charges must be fired using the same data.

(5) 5 rounds per charge are required plus one warm-up round on the first charge fired. Consequently on the 105mm Howitzer a minimum of 11 rounds will be needed. Be prepared to shoot at least 4 additional rounds.

(6) Two powder temperature gauges are needed.

(F.4)

DECLASSIFIED

DECLASSIFIED

(7) Log books should be up to date and have room on the 2408-4 for a calibration entry.

b. 155mm Howitzer

(1) Charges 5, 6, and 7 only can be calibrated for the 155mm Howitzer.

(2) A single position from which to fire all weapons.

(3) 250 feet clear to the front of the firing position. Five rounds are needed for each charge to be calibrated, plus one warm-up round for the first charge. Be prepared to fire an additional 4 rounds.

(4) Two powder temperature gauges are needed.

(5) Log books should be up to date and have room on the 2408-4 for a calibration entry.

(6) A single deflection and quadrant on which to fire all charges.

c. 8" Howitzer

(1) Charges 5, 6, and 7 only can be calibrated for the 8" Howitzer.

(2) A single position from which to fire all weapons.

(3) 300 feet clear to the front of the firing position. Five rounds are needed for each charge to be calibrated, plus one warm-up round for the first charge. Be prepared to fire 4 additional rounds.

(4) Two powder temperature gauges are needed.

(5) Log books should be up to date and have room on the 2408-4 for a calibration entry.

(6) A single deflection and quadrant on which to fire all charges.

d. Miscellaneous

(1) It is not necessary to wash the tube with hot soapy water for calibration.

(2) There cannot be a variance of over 1 mil between deflection per charge.

(3) Maximum quadrant that can be fired is 600 mils. Minimum quadrant is 150 mils. High angle cannot be calibrated.

(4) Calibration can be accomplished using direct fire procedures. This does not affect the instruments.

DECLASSIFIED

DECLASSIFIED

(5) The team working with the sky screen will bring a van with them. The team using the M-36 Chronograph will require a shelter (tent, vehicle trailer, etc.) of some type in which they will compute the data.

REGIMENTAL BULLETIN 11240

From: Commanding Officer
To: Distribution List

Subj: Sweep Team and Convoys to C-1 and A-2

Ref: (a) CG, 3d Mar Div msg 260534Z Sep 68
(b) CG, 3d Mar Div msg 261214Z Sep 68
(c) RegtO P11240.1

Encl: (1) Instructions for and Assignment of Sweep Team and Security Force
(2) Instructions for Convoy Security and Convoy Support
(3) Instructions for Convoy Commanders

1. Purpose. To promulgate instructions and responsibilities relative to the conduct of the sweep team and convoys to subject positions.

2. Cancellation. RegtBul 11240 of 19 Nov 1968.

3. Background. Due to the constant threat of enemy interdiction of Rt.1, the highway must be swept for mines, and vehicles must travel in convoy after the sweep mission is completed.

4. Action. All units assigned a support mission in enclosures (1) and (2) are directed to comply.

a. All units having a requirement to move vehicles to subject areas will notify the Regimental S-4 of number and type of vehicles by 1600 on the day prior to the move.

b. Units moving supplies to subject areas will notify the recipient prior to its arrival so that working parties and material handling equipment can be made available for prompt and efficient off loading.

c. Convoys will depart at 1130 on each odd numbered day.

d. Convoys will stage on the service road south of Engineer Water Point #1. All vehicles will be staged and ready to move by 1130. Convoys will not be held up waiting for tardy vehicles.

TAB F-5

DECLASSIFIED

INSTRUCTIONS AND ASSIGNMENT OF SWEEP TEAM AND SECURITY FORCE

1. The following units are tasked with providing support for the sweep team:

11th Engineer Battalion

Provide the engineer personnel and equipment required to conduct the mine sweep operation.

1st Battalion, 44th Artillery

Provide two (2) twin 40mm guns (Dusters) with gun crews.

4th Battalion, 12th Marines

Provide seven (7) troops to include one (1) Cpl., one (1) 2½ ton truck, one (1) PRC-25 radio and one (1) M-60 7.62 caliber machine gun, with 2000 rounds of ammunition.

1st 8" Howitzer Battery

Provide one (1) SNCO and three (3) troops.

Headquarters Battery, 12th Marines

Provide four (4) troops and one (1) corpsman.

2. Personnel assigned to the sweep team security will have in their possession, helmet, flak jacket, gas mask, rifle, two (2) canteens of water and a minimum of seven (7) loaded magazines per rifle.

3. The Staff NCO in charge of the security squad will report to Regimental S-4 at 1800 the evening prior to sweep for special instructions, smoke grenades, map, and thrust points.

4. Sweep team and security forces will assemble in the old sentry booth area at the front gate to DHCB by 0700 on sweep days.

5. The vehicle from 4/12 will stop at the Regimental Headquarters Battery Motor Pool to pick up the security personnel from Headquarters Battery and 1st 8" Howitzer Battery at 0645 while enroute to the assembly area.

CONVOY COMMANDER'S INSTRUCTIONS

1. Convoy Commanders will be guided in the performance of their duties by references (a), (b), (c) and this Bulletin.

2. The Convoy Commander will be responsible for the organization and dispatching of the convoy from Dong Ha Combat Base.

3. Convoy Commanders will check in with the Regimental Motor Transport Officer between 1000 and 1030 on convoy days to pick up radio call signs/ frequencies, map, mail for CMR, listing of convoy vehicles and any special instructions.

4. The Convoy Commander will stage his convoy on the service road south of Engineer Water Point #1, prior to 1130. Convoys will depart at 1130.

5. The Convoy Commander will check in to the 12th Marines net prior to departure and insure his radio is operational. The Convoy Commander will request permission to depart Dong Ha Combat Base From the Regimental S-4 and will maintain continuous radio contact with the Regimental net relaying all Check Points as he crosses them.

6. Convoy Commanders will not delay the scheduled departure of convoys from Dong Ha Combat Base due to tardy vehicles.

7. Upon arrival at A-2 the Convoy Commander will report to the Officer in Charge, A-2 Detachment, Hq Btry and Platoon Commander of the 1st 8 Inch Howitzer Battery unit and effect liaison for the off-loading and retrograde of any equipment or supplies at that position.

8. Convoy Commanders are responsible for the reorganization of convoys at subject areas for the return trip to Dong Ha Combat Base. Vehicles may be dispatched in serials by the Convoy Commander upon completion of off-loading, provided the serial has communication with the security elements and the Convoy Commander.

9. Convoy Commanders are responsible for the proper police of all staging areas.

h. Narrative
H(3) Headquarters, 12th Marines continued its teaching programs in Dong Ha and its MEDCAPS in Dong Le an Nghia An. The arch and gateway at the Buddhist School remain 95% completed in that the welder has not yet completed the gate. Plans are presently underway for the construction of a two-holer, Vietnamese style head at each of the two sections of the Public School. Plans are being drafted at this time by the contractor and the project has G-5 approval.

2nd Battalion, 12th Marines continued its slop program at This Trang as well as the sand bag filling. They also donated 50 lbs of scrap lumber to the village.

9th Meters still maintains all its programs in Mac Bai and Thuong Nghia. They showed 5 hours of health and support GVN films to 250 villagers. This was accomplished with the aid of an HE Team. They also donated three rice threshers to the villages, the use of one of their trucks to aid in road repair, and 25 rosaries to the Catholic School. 400 TET envelopes were given to the children.

FLSG - B donated heavily to Dong Ha Orphanage, Luong An, Phong Gia, and Trung Chi in the form of slop, lumber, and cement. They are also in the process of building a structure which will serve as the dormitory at the Dong Ha Orphanage. The building is approximately 1 5% complete at this time.

MCB - 7 has embarked on a fourth project: they are now working on school for the dependants of 2nd ARVN Regiment. The school is approximately 5% complete at this time. The Vinh Dai School is now 70% complete, the Dong Ha Hospital 70% complete, and the Cam Le Refugee Village Dispensary is 80% complete.

M: Narrative
H(3) Overall activity as reflected in the categories of the above statistics is down from previous reporting weeks. The reason for this apparent decrease in activity is a great increase in activities not reportable on the standardized form. Special Tet activities are noted on the attached sheets.

Regular activities reportable in this section consist of FLSG - B continuing their massive commodity distribution program at the Dong Ha Orphanage, Lnang An, Phuong Cia, and Tuong Ghi. The new dormitory at the Orphanage is now approximately 60% complete. The MCB-7 projects are moving along even faster now, in an attempt to finish as much as possible before the unit retates back to the States. The Vinh Dai School is now 80% complete, the Dong Ha Hospital 75% complete, and the recently started 2nd ARVN Regiment Dependents' School in Dong Ha is 15% complete.

TAB-F. 8

DECLASSIFIED

DECLASSIFIED

h. Narrative

H(3) Headquarters, 12th Marines conducted one Medcap in Dong le treating approximately 165 people. Coordination has been made with 1 11th Engineers and MCB - 7 for the construction of a wooden gateway and enclosed play area at the Children's Hospital. Consent was obtained from the parents of one Vietnamese child to perform an operation at the Children's Hospital. The work on the arch and gateway at the Dong Ha Buddhist School is complete with the exception of a coat of paint on the gate. Schools in Dong Ha will open on the 24th and work will commence on the heads for the Dong Ha public school during the coming week.

2nd Battalion, 12th Marines has managed to accomplish a considerable amount, in spite of Tet. They have continued their daily sleep distribution, cleared and leveled a playground area in Thie Trung, provided some boxes for 4/12's grave moving project, paid another 5,000$VN to the Thie Trang Hamlet Chief for sandbags filled, and cleared through Base Defense for a wild boar hunt 2 Km. south of the village.

MCB - 7 has continued on its three construction projects: the Dong Ha Hospital is now 75% complete, 2nd ARVN Regiment Dependant's School in Dong Ha is 20% complete, and the Vinh Dai School is 80% complete. Cam Lo Refugee Village was given 200 lbs. of clothing. The Cua Valley Montagnards were given 225 lbs. of soap. 15 bags of cement were given to the Quai Ma Bridge. The Dong Ha Orphanage was given 50 sheets of tin and 400 b.f. of 2"x8"s.

FLSG - B has continued its massive material distribution programs at the Dong Ha Orphanage, Lueng An, Phong Gia, and Trung Chi. This data is reflected in the statistical section of the report. A party was given for 27 of the Dong Ha orphans and Tet envelopes were distributed in Phong Gia and Trung Chi.

There has been a considerable decrease in the area activities for this reporting period, as a result of the Tet holidays. A notable increase in productivity should be noted in the coming week, as the Vietnamese appear extremely well rested and the unit S-5's have expressed eagerness to continue and expand their present programs.

h. Narrative

Headquarters, 12th Marines resumed their regular teaching program at District Headquarters, Dong Ha Buddhist School, and the Semi-Public School. Coordination was made between 11th Engineers and MCB - 7 for the construction of a gate and an enclosed play area for the Children's Hospital. Work is continuing on commencing the two heads for the Public Elementary School. The body of one dead child from the Chigdren's Hospital was evacuated to Cam Le.

FLSG - B continued their scrap distribution in Trung Chi, Phong Gia, Lueng An, and the Dong Ha Orphanage. Their totals this week amounted to 14 truckloads of lumber and firewood, 7 truckloads of sand, 19 bags of cement, and 20 cans of bug spray. One well was completed at Lueng An. One child was evacuated to the Children's Hospital and one adult to the Quang Tri Provincial Hospital.

2nd Battalion, 12th Marines distributed scrap lumber to the villagers of Thit Trang for use in house construction. A Vietnamese flag was given to the local school. Tin is being obtained through G-5 for roofing on two meeting houses. Plans are being made at this time for moving the entire village of Truong Xa to the other side of the Cam Le River.

MCB - 7 has continued work on all of its major construction projects. The Vinh Dai school is now 85% complete, the Dong Ha Hospital is 80% complete, the 2nd ARVN School is 25% complete, and repair work on the irrigation pumps at Cam Vu is 30% complete.

108th Artillery Group as of this week has a full-time S-5, Captain Tyler. He is very enthusiastic and predicts much better participation from the Army units in the future.
