A new shower for the officers is 70% completed, the work accomplished by the officers. Two holes for new 4 holer accommodations have been dug, and the construction requested.

8. Civilian Employees. Civilian employees have been obtained through Regimental S-4 and are in continuing use and are controlled by the Battalion S-4.

LOGISTICS, MOTOR TRANSPORT, and MEDICAL SERVICES

Significant logistical events that occurred during the month of August 1966, while 1st Battalion, 12th Marines were engaged with communist insurgent forces in the Republic of Viet Nam are related in the following paragraphs.

The highlight of the month was the arrival of B-1-13 replacing C-1-12, which rotated to Okinawa. This battery is completely equipped with new or rebuilt equipment and will be a definite logistical asset to 1st Battalion, 12th Marines.

The month of August also showed a significant increase in the orderly flow of supplies that were critically needed by the firing batteries. We received 100 peanut bulbs, the first healthy shipment in four to five months. This item is used extensively throughout the battalion for everything from enabling the gunner to use the panoramic telescope at night, to allowing the forward observer proper lighting for his B.C. scope during night operations. Another sorely needed item arrived in the form of sixty (60) 900X20 tires for our M35 prime movers.

The receipt of the tires however did not solve all the problems in the motor transport field. The battalion is critically short of qualified automotive mechanics, (MOS 3516), with only 54% of the 13 men rated. During the month these men have continued to stay abreast with the needs of the battalion's 1st and 2nd echelon maintenance. The critical area in motor transport, whose overall deadline percentage for the month was 15%, evolves in 3d and 4th echelon repair parts. Presently we have seven (7) of our prime movers in FLSG awaiting parts, three (3) of which have been awaiting engines for over a period of two (2) months. Three (3) other M35's have been coded X, one (1) since November 1965. In spite of the shortages of vehicles this battalion has successfully compiled an overall mileage figure of 37,940 miles for the month, averaging 1,223 miles daily for logistical resupply.

The Medical Department treated 517 patients, administered 843 immunizations and gave 12 physical examinations. In medical civic action 765 Vietnamese were treated by the medical department. There were no combat injuries sustained during the reporting period. The overall health conditions of the command was good, no major episodes of food borne illnesses or heat casualties occurred.

Battery B, 1st Battalion, 12th Marines has, during the reporting period, had a 16X64 mess hall constructed by MCB-10, which has greatly improved the battery's messing facilities.

COMMUNICATIONS1. RADIO.

a. The Battalion received fifty-nine AN/PRC-25, eight AN/MRC-109, two AN/MRC-110, thirty-four AN/GRA-39A, five AN/VRM-1, and fourteen installation kits for AN/GRC-125 during the month. The receipt of these new items has greatly enhanced the Battalion's communications effectiveness.

b. Three incidents of mutual interference by friendly forces (2 Marine, 1 Navy) occurred on two radio nets during the month.

c. Four incidents of enemy interference occurred during the month on three radio nets. Three were identified as being Vietnamese and the fourth was identified as possibly Chinese.

2. WIRE.

a. A major overhead construction job was completed during the month to B-1/12. A total of thirty miles of wire was expended.

b. The remainder of the month was spent trouble shooting and maintaining the approximately 175 miles of wire Battalion has laid.

3. MESSAGE CENTER.

a. There were a total of 476 messages processed and handled during the month. Headquarters, 12th Marines continues to remain as the communications guard for this Battalion.

4. MAINTENANCE. There were no significant events during the month.

5. TRAINING.

a. Each battery is raising the training level of the new radio operators who were trained on Okinawa.

b. Two technicians and one radio supervisor attended a two day school on the installation and operation of the KY-8 cyphoney equipment.

c. Eight Marines attended a half day school on the AN/PRC-25, AN/PRC-47, KY-8, AN/MRC-109, AN/MRC-110, AN/PRC-41, and AN/MRC-83.

CIVIL AFFAIRS

1. During the month there were 675 Vietnamese civilians medically treated under the MEDCAP program. Mortar Battery provided the bulk of this assistance at the hamlet of NAM-O.
2. There were a number of self-help projects undertaken during the month.
 - a. The school at DA SON was painted and refurbished. Also, another classroom was started at DA SON and progress is continuing. Headquarters Battery is providing the necessary material and the Vietnamese are doing the actual work.
 - b. The school at NAM-O was refurbished with material and assistance furnished by Mortar Battery. Also, Mortar Battery provided the populace of NAM-O with technical assistance in the laying of concrete sidewalks. These two projects also remain in progress.
 - c. Battery "C" was assisting the people of THANH VINH in the building of a schoolroom prior to their departure. A portion of the materials had been provided by GVN, however, there were some items lacking and these have been requisitioned through the Civil Affairs program. Battery "B" 1st Bn 13th Marines will continue this program.
3. At NAM-O, Mortar Battery has instituted two English language classes per day. These one half hour classes are held on an average of six days a week. The Vietnamese have been reciprocating by having Vietnamese language classes for selected members of Mortar Battery. During the month, there were fifty classes held with an average of 15 adults and approximately 100 children attending daily.
4. There were the following personal assistance provided by all batteries of the Battalion: 250 pounds of clothing, 75 pounds of food, 2 tool kits, 620 bars of soap, and 2 boxes of toys. These were distributed to the hamlets of THANH VINH, DA SON, NAM-O, and DUYEN SON (1).
