From 290050 to 290708 Battery C fired 3 and Battery A fired 1 unobserved missions on intelligence targets (XD 985605), (XD 995605), (XD 975602), and (XD 985602) for the 3d Marines. From 291300 to 291645 Battery C fired 3 and Battery A fired 2 spotting round missions for a recon patrol. At 291755 Battery C fired a training mission for 2/3. The battalion fired 50 harassing and interdiction missions and 65 unobserved missions.

4. Significant Events.

During the month of December this battalion displaced a two platoon battery to a forward position for 5 days to support a company size operation. The battery operated a decentralized FDC. On 12 December Battery E displaced from this position to Phu Bai, now OpCon/AdCon to the 4th Battalion, 12th Marines. To augment the battalion's fires Battery A, 1st Battalion, 40th Artillery (USA) moved to Battery E's old position, OpCon this battalion, on 19 December and stayed until 28 December at which time Battery A, 1st Battalion, 12th Marines was returned to this battalion and replaced Battery A, 1st Battalion, 40th Artillery which returned to parent control. On 8 December Battery C fired its 50,000th round in country during an observed fire mission. On 29 December Battery M, general support- reinforcing this battalion, fired

and was reinforced by general support artillery on an additional 60 unobserved missions.

30 December

From 300935 to 301140 Battery C fired 3 spotting rounds for a recon patrol. At 301815 Battery A fired a practice mission on camp counter mortar plan. The battalion fired 25 harassing and interdiction missions and 110 unobserved missions and was reinforced by general support artillery on an additional 51 unobserved missions.

31 December

At 310630 Battery A fired an unobserved mission on an intelligence target for the 12th Marines. The battalion fired 50 harassing and interdiction missions and 7 unobserved missions and was reinforced by general support artillery on an additional 2 observed and 29 unobserved missions prior to the cease fire which went into effect at 310700.

its 50,000th round in country during a counter mortar fire mission. On 28 December Capt R. V. BRENNAN was relieved by Capt D. J. HARRINGTON as Commanding Officer of Battery A. On 30 December LtCol L. W. LARSON relieved LtCol M. S. CAMPBELL as Commanding Officer of 1st Battalion, 12th Marines.

5. New Techniques.

During the month all personnel on FO teams, Lnc teams and in the FDCs of the batteries and the battalion trained in the use of the new FO terminology as shown in the DA Training Circular 6-1 of September 66.

6. Logistics.

The overall supply situation within the command is satisfactory with some reservation. Battalion supply has completed their move from Da Nang to Dong Ha. The Battalion has completed the external reconciliation of equipment lost during the move, and during the next reporting period the internal reconciliation will be made. The shortage of supply personnel has been corrected.

BA-30s have been a critical item for a period in excess of four months. This shortage inhibits the use of the ANGRA/39A, and also has caused difficulties in the operation of the night lighting equipment in the firing batteries. One Crit-a-pak was received this month by the Battalion.

7. Ordnance.

During the month of December no 105mm howitzers were due for six month maintenance. On 28 December Gun #5614 of Btry C, and on 29 December Gun #19762 of Battery A had to be evacuated to the Dong Ha Ordnance Repair Section FLSU, due to a malfunction in the recoil mechanisms. There were no float guns to replace these howitzers, and at present there is no estimate as to when they will be returned to action.

There have been no problems with ammunition.

8. Medical.

The general health of the command is excellent. During the month of December the Battalion Sick Bay had 256 out patients, 8 of which were evacuated to C Med. Also during this period 595 immunizations were given.

9. Motor Transport.

The availability of Motor Transport repair parts has improved during the month. However, certain items, such as 26H

batteries, 900 X 16 tires and torque rods for M-35s are needed to keep vehicles off deadline. During December, six annual and

formed. Also during the month two M-35s, one M543, and one M422 were returned from FLSU, while two M-35s, one M422, one MRC-83 and two M-37s were returned from FLSG "A". The average time at third echelon for these vehicles was 45 days at FLSU, and 90 days at FLSG "A". The percentage of T/O maintenance personnel in the battalion has steadily increased from 56% in October to 72% in November, and now stands at 85%. The battalion's vehicles traveled 11,700 miles this month for an average of 385 miles per day. The average monthly deadline rate was 18% for all vehicles.

10. Civic Action.

A civil affairs program was established with Thom Tan Dink Village, Quang Tri province on 15 December 1966. Contact was established through the advisory groups at Cam Lo.

The only services provided to date has been in the form of medical support. Medcap teams have been making scheduled runs every Monday and Thursday to treat the people of this village. This month 251 people were administered medical aid in one form or another, as well as 200 bars of soap distributed.

11. Weather.

During the reporting period the seasonal rains hindered this unit by preventing the S-3 from scheduling and then firing any registrations. Numerous times an AO was requested and the area was cleared to fire but cloud cover prevented the observer from conducting the registrations. Both high burst and impact registrations were scheduled. The weather had no other effects on this unit's operations.

12. Training.

During this period three quotas to Infantry Weapons Repair School, Okinawa were utilized, one each by Batteries A, C, and Headquarters. The batteries are continuing their troop orientation programs and the majority of this battalion's personnel completed familiarization firing with their T/O weapons and the crew-served weapons organic to this battalion. In addition to the training in the new FO terminology FCS from Battery C ran two FO schools for infantry small unit leaders.

13. Personnel and Administration

a. Strengths.

Net loss of 15 Off; Net Gain 166 Enl, 2 Navy Off, and 1 Navy Enl.

b. Discipline, Law and Order. One individual was charged with violation of Articles 86 and 121. Referred to trial by SCM, pending. One individual has been UA (AWOL) since 4 December 1966. Charges pending.

c. Prisoners of War.

e. Morale and Personnel Services.

(1) Since being located at the artillery plateau, this battalion has had no PX available except for the mobile PX truck which always arrives with very little in the line of toilet articles and sundries. An enlisted club has been initiated where the troops can buy beer when it is available. US Mail is delivered on a daily basis. The Holiday season was greeted with enthusiasm. Caroling groups were organized and well received. Christmas packages from Division Special Services and the American Red Cross were distributed to all hands. During December, 41 Marines were granted R&R to the following places:

- | | |
|------------------|---------------|
| 1 - Okinawa | 8 - Hong Kong |
| 2 - Bangkok | 6 - Taipei |
| 5 - Hawaii | 9 - Tokyo |
| 2 - Manila | 2 - Singapore |
| 3 - Kuala Lumpur | |

2. Awards Made. During December, one Marine was recommended for the Commendation Medal, and one Marine was recommended for the Secretary's Commendation (Ribbon). Additionally, one Marine was awarded the Purple Heart Medal and four Marines were awarded Letters of Commendation.

(3) Significant activities for Personnel Services. ALMAR 54 was received which allowed a "free" 30 day leave for personnel extending their overseas tour for a period of 6 months. It was well received and many personnel have taken advantage of this. (See 6a and b)

(4) One 2ndLt was promoted to 1stLt; one 1st Sgt to SgtMaj; eight Cpls to Sgt; one LCpl to Cpl meritoriously; and one Pvt to PFC. One recommendation for meritorious promotion to Sgt was submitted to CG, 3dMarDiv.

(5) Unusual events or problems which have occurred.

(a) Currently at C-1, critical shortages of personnel by MOS are:

MOS	T/O	O/E	Dec Losses
0121	1	0	0
0239	1	0	0
2529	5	1	0
2533	15	6	1
3381	1	0	0

(b) There is a critical shortage of unit diary forms, promotion certificates, unit punishment forms, record of trials for Special Courts-Martial (Summarized), charge sheets, carbon paper (legal size and 8½X10), bond papers, and PERSTAT report forms.

f. Personnel Procedures

(1) 31 requests for extensions of overseas tours have been submitted.

(2) Two emergency leaves to CONUS were granted, 21 "free" 30 day leaves to CONUS were granted and two annual leave to Japan were granted.

g. Interior Management. A battalion messhall has been built. Showers are currently under construction.

h. Civilian Employees. Not applicable.

14: Communications.

a. Radio. During the month, the battalion maintained four radio nets on a continual basis in the Battalion FDC: 12th Marines Fire Direction Net, C-1/12 Conduct of Fire Net, E-2/12 Conduct of Fire Net (1-13 Dec 66), C-1/12 Conduct of Fire Net (13-19 Dec 66), and A-1/12 Conduct of Fire Net (19-31 Dec 66), and the Reconnaissance Net. The Battalion Command Net was activated daily during the month for an average period of eight hours per day.

There were no incidents of enemy interference nor mutual interference occurring during the month. However, interference from a commercial Vietnamese radio station was experienced on the Battalion Command Net. It is believed that interference is from harmonics and atmospheric conditions.

A daily covered voice radio net was activated with 12th Marines utilizing KY-8 cryptographic equipment. This net was activated on an average of 15 minutes per day.

b. Wire. The battalion reinstalled an administrative trunk line to 12th Marines Radio Relay terminal. In coordination with wiremen from C-1/12, the Battalion Headquarters relaid and re-routed the battalion's major trunk lines within Camp J. J. CARROLL.

During the month, there were approximately 250 man-hours spent maintaining the wire lines. The majority of the difficulty occurred when tracked vehicles repeatedly destroyed the perimeter defense line and when vehicles knocked down overhead construction poles.

Additionally, wiremen of the battalion maintained a 24 hour watch on five separate switchboard installations.

c. Message Center. During the month, the Battalion Message Center processed 626 incoming and 37 outgoing messages for a total of 663.

d. Maintenance and Supply. The Battalion Tech Shop repaired fifteen items of wire equipment during the month.

Two Telephone Set TA-312/PT, one Radio-Transmitter RT 524, and one Radio-Transmitter RT 505 were evacuated to FLSU in Dong Ha.

Two Radio Sets AN/PRC-25 were evacuated to the third echelon maintenance facility at FLSU and were replaced by float items.

Dry cell batteries BA-30 and BA-31 remain in critically short supply. The lack of electrical power has somewhat hindered the radio repairmen in the rapid repair of equipment.

[REDACTED] e. Training. Five radio operators received four hours informal instruction in the operation of the KY-8 cryptographic equipment commensurate to their security clearances.

Message Center personnel received training on the operational procedures of Teletypewriter AN/TGC-14(V).

All radio operators received informal instruction and practical application in the new NATO Fire Request terminology.

The wiremen received informal instruction and practical application on field wire construction, switchboard operating procedures, and electrical line construction.

The battalion technicians received informal instruction on the proper utilization of second echelon maintenance records.

All personnel received instruction on the proper methods to complete first echelon maintenance of equipment and their accompanying records.
