5. NEW TECHNIQUES

During the month all personnel on FO teams, L teams and in the BN FDC fully implemented the new FO terminology as shown in the DA training Circular 6-1 of September 66.

6. Logistics

During the period 1 Jan to 31 Jan 1967, the battalion supply completed an internal reconciliation. All requisitions for items in excess of allowances were cancelled and excess items on hand were turned in.

Construction and improvement projects continued during this period with emphasis on fighting holes, motor transport areas and sand bagging sensitive installations. The firing batteries continued to improve living areas, gun pits, and ammo bunkers.

7. ORDNANCE

On 11 January gun number #15793 of "C" Battery went to FLSG-A Phu-Bai for a new tube. The defect was caused by the lands stripping. On 19 January another gun with the same defect was repaired in the Dong Ha Ordnance repair section of FISU-A and also returned on the 28th of January. The 107MM M93 Mortars were sent to Dong Ha Ordnance repair section for a six months maintenance check and returned 19 January. There were no float guns to replace these howitzer/mortars, and at present there is no estimate as to when there will be one available.

There have been no problems with ammunition.

8. MEDICAL

General health throughout the battalion continues to be excellent, 382 patients were seen at sick call with 3 being referred to "D" Medical Company for treatment and subsequent admittance. 52 immunizations were given, a figure considerably less than reported last month. The reduction in immunizations was caused by a lack of vaccine available to this command. 4 formal sanitation inspection were conducted in addition to daily informal inspections. Overall sanitary conditions are considered to be very good.

9. MOTOR TRANSPORT

The availability of Motor Transport repair parts continued to improve. The deadline rate during the month was 19%. Thirty-four (34) quarterlies and 5 annuals were performed and thirty-seven (37) vehicles were repaired at 2nd echelon. One vehicle was returned from FISU. The battalion received four (4) M-37.

3/4 ton trucks. The personnel strength situation in Motor Transport remained at 85%.

Mileage for the month approx 1500 miles with a daily average of 516 miles. The bulk of this mileage was accumulated as a result of the frequent and numerous resupply trips between Dong Ha and Camp Carroll. Artillery ammunition continues to account for the majority of the material carried.

10. CIVIC ACTION

During the latter portion of the month, the two hamlets jointly referred to as Hung Phu II were added to the area of responsibility for this command, which now includes Hung Phu I and Hung Phu II, located on Route 9 west of Cam Lo. Medical services were provided twice weekly for 387 Montagnards in Hung Phu I; and will be expanded to include the two hamlets of Hung Phu II next month. The Executive Officer of the battalion visited the District Chief, Cam Lo District, and the hamlet chiefs in the new area of responsibility to ascertain that civic action projects could best aid the villagers.

11. WEATHER

During the month, seasonal rains and low overcast conditions hampered the S-3 in scheduling and firing any registration missions. These conditions often prevented the needed AD support from functioning in a timely manner. Optical equipment (nowitzer sights) were very susceptible to moisture damage and several incidents of fogging were reported. The fogging, however, did not produce any lasting adverse effects nor hinder the accomplishment of our mission.

12. TRAINING

No quotas for formal school's training were received this month. One-third of the personnel completed familiarization firing of their individual weapons and those pre-derived weapons organic to their unit. There was a notable increase in the amount of on-the-job informal training conducted by the individual sections within each battery.

13. Personnel and Administration.

b. Discipline, Law and Order. One Summary court-martial completed, violation Articles 86 and 121. One individual was referred to trial by Special court-martial, trial pending investigation. One individual was joined from desertion; currently on restriction pending receipt of information from Marine Barracks, Subic Bay.

e. Morale and Personnel Services.

(1) Supplemental Packs have been issued on a half ration basis to alleviate the shortage of toilet articles and sundries. The mobile PX van continues to have shortages in these items. Beer ration have been curtailed with the last issue being the 8th of January. Two USO shows appearing at Camp J. J. CARROLL were received by all personnel. During January, 75 marines were granted R&R to the following places:

4 - Okinawa	5 - Kuala Lumpur
10 - Hawaii	13 - Taipei
12 - Bangkok	12 - Tokyo
11 - Hong Kong	4 - Manila
4 - Singapore	

(2) Awards Made. During January four men were awarded the Vietnamese Gallantry Cross and seven were awarded Purple Hearts. One Marine was recommended for the Bronze Star Medal, one was recommended for the Navy Commendation Medal and three were recommended for Secretary of the Navy Commendation (Ribbon). Additionally, four Marines were awarded Meritorious Mast.

(3) Significant activities for Personnel Services. Many members of this Command have taken advantage of the in-country extension with Special Leave in CONUS. Timely receipt of Orders on personnel rotating continues to present problems, especially on Sergeants and up.

(4) One First Lieutenant was promoted to Captain, eight Second Lieutenants to First Lieutenant, one Sergeant to Staff Sergeant, one Corporal to Sergeant Meritoriously, thirty-two Lance Corporals to Corporal, eight Private First Class's to Lance Corporal and one Private to Private First Class.

(5) Unusual events or problems which have occurred.

(a) Currently at C-1, critical shortages of personnel by MOS are:

(b) There is a critical shortage of unit diary forms, promotion certificates, unit punishment forms, record of trials for Special Courts-Martial (Summarized), charge sheets, carbon paper (legal size and 8 $\frac{1}{2}$ X 10), bond paper, PERSTAT report forms, stencils, mimeograph paper and white flimsy paper.

f. Personnel Procedures

(1) Nine requests for extensions of overseas tours have been submitted.

(2) Two emergency leaves to CONUS were granted and six "free" 30 day leaves to CONUS were granted.

g. Interior Management. A battalion messhall has been built. Showers are currently under construction. Work is continuing on defensive positions.

h. Civilian Employees. Not applicable.

14. COMMUNICATION

a. Radio- During the month, the battalion maintained five radio nets on a continuous basis in the battalion FDC; 12th Marines Fire Direction, Battalion Fire Direction (13-31 Jan), O-1-12 Conduct of Fire, A-1-12 Conduct of Fire (1-25 Jan), B-1-12 Conduct of Fire (25-31 Jan), and the Reconnaissance Net. The Battalion Command Net was activated daily during the month averaging 3 hours per day.

Some difficulties were encountered during the month involving mutual interference and interference from an unknown source. On 9 and 10 Jan. The Bn. Command Net experienced a loud fluctuating tone of unknown origin which greatly reduced our transmitting range. The A-1-12 Conduct of Fire net experienced an ABW transmitting on a close frequency. This interference could be overridden. On 17&18 Jan other Marine units; (Recon, AO, Helicopters, and AIO) were on the Bn Command frequency. We could override their transmissions but they were conducting a MEDEVAC for recon at the time. Apparently there was switch of digits of a Recon frequency which brought everyone up on our frequency.

The most severe interference problem lay in two battalion nets mutually interfering with each other, the battalion fire direction net and B-1-12 conduct of fire net. They are separated by only 0.2 MC and transmissions on one succeeds in cutting the other out. On 31 Jan B-1-12 conduct of fire frequency was switched to W-1-12 conduct of fire frequency to alleviate the difficulty with favorable results.

A daily covered voice radio net was activated with 12th Marines utilizing KY-8 cryptographic equipment. This net was activated on an average of 15 minutes per day.

b. WIRE

On 16&17 Jan a single wire line laid from the Bn FDC switchboard to battery "B" 1st Bn, 40th Artillery (USA) extending 7 miles of cable WD-1/T1. This line is difficult to maintain and proven to be impractical. On 27 Jan a trunk line was laid to "E" battery temporary position from the FDC switchboard extending 4 miles of cable. This line was retrieved when B-1-12 displaced at Camp Carroll.

The battalion wiremen began to rewire the major portions of the CI with the advent of better weather. A total 220 man-hours were spent on installing and maintaining the battalion's wire system.

Due to a reallocation of radio relay channels two lines; one to 12th Marines FDC and one to 3d MarDiv FSCC, were lost.

c. Message Center

During the month, the battalion message center processed 656 incoming and 72 outgoing messages for a total of 728.

d. Maintenance and Supply

The battalion Electronic TECH. Shop received 84 items for repair 48 of which were repaired and returned to the using units. Six items were evacuated to FLSU in Dong Ha. One radio was exchanged at FLSU, one radio set, AN/MRC-83 and one radio set, AN/PRC-25 were deadlined, unserviceable.

[REDACTED]

A shipment of sorely needed batteries, BA-30 was recieved during the month. The lack of an electrical power source continued to hamper the repairmen in the rapid repair of equipment.

E. Training

Four radio operators received two hours informal instruction in the operations of KY-8 cryptographic equipment commensurate with their security clearances.

The wiremen received instructions on switchboard operating procedures, and field wire construction.

The radio operators received on the job training on voice radio procedures with emphasis placed on the peculiarities of artillery communications.

The message centermen received on job training on message handling, processing and filing procedures

All personnel received on job training on the proper method to complete first echelon maintenance of equipment and their records.

15. INTELLIGENCE

Two intelligence personnel joined the S-2 section, greatly increasing its work capability. The battalion's negligible contact with the enemy precluded any acquisitions of intelligence data by this unit. Considerable time was spent, however, in updating the access to classified material lists of the individual batteries and instituting clearances for certain personnel.
