4. SIGNIFICANT EVENTS

On 21 April, a rough rider convoy was organized for the purpose of moving Battery F 2/12 from Cam Lo to Khe Sanh, replacing Battery I 3/12 in that position. Battery C 1/40 displaced a platoon to CA Lu to support the convoy and Battery B 1/40 sent

[REDACTED]

3 guns to Cam Lo to replace Battery F 2/12. The convoy successfully moved Battery F 2/12 to Khe Sanh and returned Battery I 3/12 to Dong Ha. On 3 April the platoon from Battery C 1/40 returned from Ca Lu to Thon Son Lam. On 6 April Battery G 3/12 arrived at Camp Carroll and Battery A 1/40 displaced to Dong Ha, reverting to operational control of its parent unit. The 3 guns of Battery B 1/40 at Cam Lo also returned to their parent unit at Dong Ha, reverting to that unit's operational control. On 8 April, the Battalion held an EO school for a detachment from 3rd Recon Bn. The personnel were led through an operational FDC in the morning and participated in live practice missions, fired by Battery G 3/12, in the afternoon. On 13 April a platoon from Battery C 1/40 displaced from Thon Son Lam to Ca Lu to support a 3/3 operation. On 14 April Battery G 3/12 moved into position previously occupied by Battery C 2/94 and assumed that unit's responsibilities in the Camp Carroll defensive perimeter. Also on this date the platoon from Battery C 1/40 displaced back to Thon Son Lam. On 19 April Operation PR IRIE III ended and Operation PRAIRIE IV began. On 20 April the Battalion again assumed the operational control of Battery F 2/12 at Khe Sanh. Also on this date Battery M 4/12 displaced 2 guns to D-5 to support the relief of K/3/9 by I/3/3 in the Ba Long area. On 22 April Battery M 4/12 returned the platoon at D-5 to Camp Carroll. On 26 April another rough rider was organized to transport Battery B 1/40 to Khe Sanh, to be supported by the displacement of a platoon of Battery C 1/40 to Ca Lu. The convoy reached Ca Lu but was unable to proceed any further due to non trafficability of the road past that point. On 27 April Battery B 1/12 was air lifted into Khe Sanh. Battery B 1/40 aborted the attempt to proceed to Khe Sanh and relieved Battery C 1/40 at Thon Son Lam on 28 April as Battery C 1/40 returned to the operational control of its parent unit at Dong Ha. On 30 April, a calibration team arrived at Camp Carroll and performed a sky screen calibration of Battery G 3/12.

## 5. LOGISTICS

During the month, the battalion was provided with electrical power. The battalion working spaces were wired and a PU-239, 20 KW generator was installed by 11th Engineers. As a result of this electrical power, the messhall received refrigerated bulk milk dispensers.

The requirements for bunker material for the battalion were again forwarded to Division. Continued improvement of the battalion defensive perimeter has been hampered by a lack of 8 foot stakes and the lack of a TD-15 tractor.

## 6. ORDNANCE

Due to lack of 3d echelon spare parts at support maintenance facilities, it has become difficult to effectively decrease the deadlining of the 105mm howitzers. Specific areas of necessary replacement parts include recoil mechanisms and gun tubes.

## 7. MEDICAL

During the month 310 patients were treated at the battalion sick bay. Of these, 302 were treated and returned to duty while 8 were evacuated to higher medical headquarters.

There were no immunization given during the reporting period. There were 3 preventive maintenance and sanitation inspections performed with satisfactory results in each case. The general health of the battalion continues to be very good.

## 8. MOTOR TRANSPORT

The vehicles in the battalion travelled a total of 31,435 miles during the reporting period. There were 39 preventive maintenance quarterlies/annuals and 51 individual repairs performed during the month. There were 2 modifications performed on M-422's. Four 2½ ton trucks and 2 M-422 ½ ton trucks sent to FLSU for repairs and the battalion received 2 M-422's back from that activity.

Critical parts include batteries for 2½ ton trucks, electrolyte, hot patches, inner tubes, M37 radiators, and bell-cranks and bushings for the M-38 and M-422 vehicles.

## 9. WEATHER

Continued clear weather enabled 3d Marines to continue to increase its operational commitments. The aerial observer coverage of the 3d Marine ACR continued to increase during this period of good visibility.

**10. TRAINING**

There was one formal school quota filled by the battalion, as one officer attended Registered Publications School. Four times during the month, the battalion conducted an FO School for personnel from 3d Recon Battalion.

There was a continued effort made on on-the-job informal training conducted by the individual sections of each battery.

**11. COMMUNICATIONS**

On 1 April the radio-relay shot to Gio-Linh was re-established. On 14 April, Battery G 3/12 moved into the position previously occupied by C 2/94 (USA) and all wire lines from the battalion switchboards, both Admin and FDC, were re-laid to that position. On 19 April a radio-relay shot was established from 3d Marines Headquarters to Khe Sanh, with 1/12 receiving 1 channel enabling us to have a hot line from our FDC to Battery F 2/12 FDC.

There was a total of 841 messages handled by the 1/12 message center. Of these, 481 were classified and 360 were unclassified.
