8. Effect on Infrastructure. Since the last report the VC Hamlet Squad Leader has been killed as well as a trained mine warfare guerrilla. In conjunction with previous casualties inflicted and PW's captured during the Fair, there has been a further weakening of the VC Infrastructure. Quite obviously these villagers have not been exposed to GVN influence in sufficient dosages to counter the effect that the VC had. This County Fair is now beginning to do just that.

4. Objective.

a. To locate, capture, or destroy enemy forces and conduct Civic Action/Psychological operations, and to further the Pacification Program and assist in Revolutionary Development.

b. Commander's Analysis. The County Fair conducted at CAM VAN was singularly successful in accomplishing its missions; (1) that of destroying VC and (2) that of indoctrination of the population. The latter mission was considerably complemented by the success of the former. It has become apparent by conversations with the village elders that the Viet Cong are not wanted. That the VC hamlet chief was killed and the VC village chief was captured, greatly pleased the people, and it is therefore anticipated that these villagers will eventually prove strong supporters of the GVN.

5. Friendly Casualties. None.

6. 529 VC screened.

7. VC Losses. 7 KIA, 5 PW.

8. Effect on Infrastructure. The infrastructures of both CAM VAN (H) and MY QUANG (V) have been severely damaged. The VC village chief, the tax collector and two lesser cadre were captured and the VC hamlet chief was killed.

ENCLOSURE (4)

Additionally, the military structure, upon which the infrastructure bases its control of the people, was 80% destroyed. The people expressed dissatisfaction with the VC when interviewed on the first day of the County Fair. Prior to the termination of the County Fair the people were reinterviewed. The general attitude was one of acceptance of GVN control.

9. Civic Action

- a. MEDCAP 600.
- b. DENTCAP 40.
- c. 1800 pounds of rice.
- d. 100 sewing kits.
- e. 2 cases of soy bean oil.

- h. 16 bottles of listerine.
- i. 30 gallons of Kool Aid.
- j. 50 pounds of carrot and water melon seeds.

10. Psychological Operations

- a. Distributed 1700 assorted propaganda leaflets - approximately 200 of each type.
- b. Lecture by village chief on relations between villages and GAO of this Battalion.

11. Other Significant Results. Marines from this unit provided entertainment for villagers by singing and playing guitars. The children especially were entertained. Also Marines and GVN officials played games with children, especially popular was tug o' war.

12. Other Remarks

a. The people of CAI VAN were very leary of the Marines, when first brought to the County Fair site. As VC KIA's were brought from the cordon area, the people seemed to become more and more relieved and as the Fair progressed, considerable headway was made. The people went home with some understanding and explanation of who and what a Marine is - and how they can work with the people in achieving a victory.

- b. All figures shown are accumulated totals.
