Company "D" continued to occupy Hill 861.

Company "B" reverted to Battalion Reserve on 10 July and operated from the KHE SANH Combat Base.

On 31 July 1967 Company "M", 3rd Battalion, 26th Marines was attached for the conduct of a Battalion (-) clearing operation.

SEQUENTIAL LISTING OF SIGNIFICANT EVENTS

1. Combat missions assigned. During the period 1 July to 31 July the Battalion's mission was to occupy key terrain features to prevent enemy movement into vital areas; to conduct extensive patrolling to detect and destroy enemy forces and interdict enemy routes of approach to the KHE SANH area; to maintain one company as regimental reserve; to be prepared to effect ROUGH RIDER relief; to be prepared to relieve/reinforce the Special Forces Camp at LANG VEI; and to provide perimeter security for the assigned sector of the KHE SANH Combat Base.
2. Significant operations conducted.
 - a. Participated in OPERATION CROCKETT from 1 July to 162400H July.
 - b. Participated in OPERATION APDMOPE from 170001H July to 31 July. OPERATION APDMOPE continues.
 - c. Conducted Battalion (-) (Command Group, Companies "B" and "C" (-)) clearing operation in the vicinity of Route 9 from XD 9140 to XD 9143 to XD 9440 to XD 9443 during the period 21-29 July. Operation commenced as a result of a Company B patrol contact at 211030H. 1st Platoon, Company B while conducting a clearing patrol and moving east along the northern edge of Route 9 made contact with an NVA platoon located at XD 951432 supported by a heavy weapons platoon. The enemy appeared to have been surprised when B-1 approached the flank of the enemy position oriented along Route 9. The enemy opened fire when the B-1 lead elements were within 20 meters of their position. B-1 received 82mm mortar fire from Hill 214 (XD 945435), recoilless rifle, automatic and semi-automatic weapons fire from the enemy positions vicinity XD 915432. B-1 was supported by artillery and air (HULE gunships). During the artillery and air preparation B-1 reorganized and prepared an attack on the enemy position. As B-1 advanced toward the enemy position the NVA broke contact and moved north along a trail located at XD 945424. As a result of the B-1 contact the Battalion Command Group and the Battalion Reserve, Company B (-), moved to B-1's position. A Battalion (-) clearing operation was conducted along Route 9 until 29 July employing Company B and Company C (-) to ensure the safe passage of a series of POUCH RIDERS through the 26th Marines' TAOP. The B-1 contact resulted in 3 friendly KIA, 6 friendly WIA's, and 7 NVA KIA (C). During the subsequent Battalion (-) operation the following enemy equipment was captured: three AK-47's, one RPG-2, three claymore mines, five NVA packs each containing a new hammock, several sheets of plastic water proofing material, a mosquito net, blasting caps, fuze lighters, and TNT.
 - d. At 311300H July the Battalion commenced a Battalion (-) clearing operation employing Company G (-) and Company M, 3rd Battalion, 26th Marines to provide for the security of a series of POUCH RIDERS along Route 9 during the period 1-3 August. The operational area for this

a. During the Battalion (-) operation conducted during 21-29 July, evidence of an enemy ambush site along the north side of Route 9 was discovered. The ambush position covered the road east and west of a bypass at XD 944423. Fighting holes were within 10 meters of the road. On 21 July, the day of the B-1 contact described above, Company "L", 3rd Marines operating to the east of the Regimental TAOP, in the vicinity of XD 956428 found claymore mines and fighting holes along Route 9. At XD 956435 Company "L" found a battalion size harbor site including 25 reinforced bunkers, 60 holes that appeared to be bunkers under construction, and 8 cooking houses with underground smoke tunnels. There were OP's on the high ground surrounding the harbor site, each with bunkers, comm wire to the harbor site and well used trails. The position-

ing of the claymore mines found by both units indicated that the ambush site was in excess of 2000 meters along Route 9. Route 9 is relatively straight at this point and provided the enemy a long beaten zone for a convoy ambush. The road is narrow with a steep gorge and river on the south side and high ground to the north.

b. Numerous lights were spotted during the month south of Hill 881S (XD 778438). In particular, Company A reported stationary blinking lights at XD 785413 on 29 July at 2140H. Artillery zone fire missions into the area resulted in ten secondary explosions.

13. Communications. Nothing significant.

14. Weather. Rainfall for the month was moderate. All lines of communications were open to wheeled vehicles and the movement of infantry was unimpaired, except for the period 25-27 July during which Route 9 was impassible to vehicles in the vicinity of XD 913403 due to erosion of the road bed from sustained traffic over a wet surface.

Maximum Temperature:	82
Minimum Temperature:	73
Average Humidity:	79%

No other statistics on weather conditions were available due to the lack of recording facilities at KHE SANH.

15. Fire support and Fire Support coordination. During the month of July artillery units in direct/general support of the Battalion provided the normal types of fire support missions. 193 observed fire missions were conducted during the reporting period. Three 81mm Mortar sections were attached to the deployed rifle companies; one section remained at KHE SANH in general support. The platoon fired 148 observed fire missions and fired upon 2078 H&I targets.

16. Air support

a. During this period the Battalion has continued to maintain two forward air control teams with the companies on Hill 861 and 881S. Excellent observation from these positions has enabled the forward air control teams to control fixed wing airstrikes. The FAC teams controlled 36 fixed wing support missions during July.

b. 330 tons of supplies were lifted by helicopter to the units on Hills 861 and 881S during this reporting period. 21 MEDEVAC missions were coordinated and controlled by the Battalion Air Liason Section and Forward Air Control teams.

18. Chaplain and Moral Welfare. A Protestant Chaplain was not available to the Command during the period 9-20 July due to the transfer of the Battalion Chaplain without a contact relief. During the period 20-31 July a total of 15 Protestant services were conducted with a total attendance of 436 personnel. Roman Catholic Masses were celebrated for the Battalion by the 3rd Battalion, 26th Marines Chaplain. The Battalion Chaplain also conducted services at the Regimental Radio Relay Station (Hill 950), and the CAC "O" HQ in KHE SANH Village for personnel attached to the three CAP units.
