DECLASSIFIED

INTELLIGENCE

HUE-PHU BAI TAOR

1. Enemy Situation at Beginning of Period

a. Enemy activity was continued towards the disruption of the September 3d Elections. Terrorism was being increased and friendly installation began receiving small arms and mortar fire, with the PHU BAI Vital Area receiving a mortar attack at 010100H.

2. Significant Activities

a. The enemy stepped up his interdiction of Highway #1, mining the road on 16 separate occasions and destroying 1 bridge.

b. The enemy executed a highly successful attack against CAC-A6/9, destroying all buildings, two (2) bunkers, several weapons, communication equipment, and all personal gear. Friendly casualties were 5 KIA's and 13 WIA's.

c. The enemy initiated 17 mortar attacks against friendly installations and fired on 17 patrols.

d. The enemy employed electronic measures to jam communication equipment during mortar attacks.

3. Summary of Enemy Activity

a. The increased enemy activity throughout the PHU BAI TAOR indicates that another enemy unit, probably of battalion size, has been employed in this area. Also that one engineer/sapper unit is operating in direct support of that unit. The enemy units in this area have the capability of massing for a coordinated attack and have demonstrated this ability in using mortars in support of a ground attack.

b. Interrogation reports from Chieu Hoi's and PW's tend to indicate that the enemy food supply is at a critically low level. All indications point to the fact that the enemy has only accumulated enough rice to last on a day to day basis. The enemy has yet to be successful enough in his rice collection activities to store a quantity sufficient to last him through the coming monsoon. The possibility of enemy reinforced elements entering the area only compounds his problem.

(1) In substantiation of the above are the facts that approximately 3800 lbs of rice was captured (coords: YD 879061, YD 892088, YD 957077, YD 956085, ZC 092990, and AU 817047), and that the enemy has been forced to come out of the Hills with greater frequency and in greater numbers than in the previous reporting period.

DECLASSIFIED

(2) The primary route from the Troui Mountains base camp goes through the Ap Phu Bai (YD 9010) hamlet as evidenced by the contact at (YD 905097) which resulted in 17 Enemy KIA(C) and 2 POW's. The other major route originates in the same general area but crosses Highway #1 in the vicinity of (YD 945070) and terminates at the collection point of Ha Vinh (YD 956087) and Bong Mon (2) (YD 978077). In both instances the withdrawal route is identical to the route used to enter the area.

c. On three (3) separate occasions, the enemy delivered heavy volumes of automatic weapons and small arms fire and maintained continuous close contact for as long as 2½ hours. During these fire fights the enemy maintained contact until approaching daylight and/or the pending arrival of friendly units caused them to break contact.

d. The continuing increase in enemy initiated activities indicate that all local and main force units have probably come under control of a regimental headquarters.

4. Enemy Personnel and Equipment Losses:

KIA(C)	40
KIA(P)	79
PW	4
CIV DEF	3
DET	13
WPNS	25

5. Weather and Terrain

a. In general, the weather had no adverse effects on operations. However, a considerable increase in precipitation was recorded (9.72 inches) and rain showers, usually of short duration, occurred 23 days.

b. The area around AP-FHU BAI is predominately flat coastal lowlands which are in turn bordered on the north and east by the Gulf of Tonkin, and to the south by the mountains which are an eastern extension of the Annamite Chain. The flat coastal lowland is mostly under rice cultivation. Along the coast, many sand dunes are encountered. In the areas not under cultivation, vegetation ranges from grasslands, brushwood thickets, and stands of bamboo. Hedgerows are often found around hamlets and rice fields. Many of the mountains are bare of vegetation but for the most part they are covered by a dense broadleaf evergreen forest. The taller trees reach heights of 75-90 feet, with some ranging to 150 feet. The canopy is generally continuous, and in areas where it is broken, a thicker undergrowth with spiny rattans, full bushes, vines, and briars will be encountered.

DECLASSIFIED

TRAINING

1. Our Battalion training order was rewritten in September with the goal of strengthening our training program. We concentrated our training toward those subjects considered of a priority nature by higher headquarters and designed to supplement our present mission in PHU BAI. An eye has also been kept on training for possible commitment near the DMZ. Training was conducted by the company at PHU BAI base designated Sparrow Hawk and Sparrow Hawk Reserve.

Another area of particular concern was NCO leadership. The CONUS rotation of trained and experienced NCO's brought about this problem area. Therefore, a NCO School was established and will commence the first week in October. Lesson plans were just coming in as September ended. See Enclosure (1).

2. Classes Conducted

a. Priority subjects taught during the month were:

- (1) Ambushes and night ambush firing (Div) 3430.1).
- (2) M-16: Functioning, care and cleaning.
- (3) Vietnamese customs and traditions
- (4) Patrolling (Div) 3430.1).

b. Other training conducted included:

- (1) Assault of a fortified position conducted on an ARVN live fire range.
- (2) Preparation of Demolition charges.
- (3) Functioning of the Flame thrower.

3. Formal Schools

a. Three marines returned from Formal school training.

- (1) One L/ CPL and one PFC attended Vietnamese Language School.
- (2) One L/ CPL attended Basic Ammo Technician School.

~~DECLASSIFIED~~

NUCLEAR, BIOLOGICAL, CHEMICAL and other SPECIAL TYPES of WARFARE

1. NBC and other Special Types of Warfare.

- a. During September a new NBC SOP was written (Battalion Order 3400.1A). 1st Lt MATTHEWS has been appointed NBC Officer, and Sgt Meier who has a 5711 MOS has been appointed NBC NCO.
- b. The NBC Officer has become familiar with all the applicable directives and is presently planning a NBC training program to commence during October. See Enclosure (2).

DECLASSIFIED

1. Command and Control

a. Mission. During the period 1 Sept to 30 Sept 1967 the Battalion was assigned the following mission.

- (1) Conduct extensive patrols and ambushes to deny the enemy freedom of movement and prevent interdiction of LOC's in the assigned operating area.
- (2) Assume command and control of Vital Area Base Defense.
- (3) Maintain close coordination of CAC operations, with emphasis on security and support.
- (4) On order conduct Golden Fleece Operations.
- (5) On order provide security forces for scheduled Rough Rider operations.
- (6) During daylight hours maintain Sparrow Hawk reaction force on 5 minute alert.
- (7) Provide support of village/hamlet election security.
- (8) On order conduct planned program of County Fair Operations.
- (9) Control and coordinate fire support for defense of GIA LE Combat Base.
- (10) Maintain rapid reaction capability to counter enemy attacks against low-level government structures.
- (11) Be prepared for security operations along Route # 1 PHU BAI to HAI VAN Pass in support of MCB upgrading project.
- (12) On order provide security for Hydrographic and/or topographic operations being conducted in areas contiguous to PHU BAI TAOR.
- (13) Support as required, combat operations being conducted in areas contiguous to PHU BAI TAOR.
- (14) Provide security for CB Rock Crusher/Bridge at NAM HOA.

b. Task Organization: During the reporting period the Battalion was Task Organized basically as follows:

Direct Support

D/1/44

Capt L. R. CLARK (USA)

c. COMMAND POSTS

(1) Only two companies from 2/26 operate in the field at any one time. This is due to other commitments within the PHU BAI Vital Area and convoy security. Therefore a rotation system has been established which allowed each company between 48 hours to one week to operate in their assigned sector.

(2) The company assigned the southern sector of our operations normally has his Command Post at PHU LOC District Headquarters which includes the Army Advisor to the district chief, the Combined Action Company Commander, Hotel Company and the District Chief.

(3) The company that operates in the other sector of the PHU BAI TAOR usually locates his Command Post at Combined Action Platoon Two Hotel Company, because it is centrally located for control purposes.

d. Attachments and detachments: Lima Company, 3d Battalion, 26th Marines OPCON on 17 September.

e. Control

(1) All companies are controlled by radio and/or land line from the Combat Operations Center located within the PHU BAI Vital Area. The two companies which remain in PHU BAI Vital Area are controlled by land line and do not guard the Battalion Tac Net. The two companies deployed in the field both guard the tac net and can also communicate via the Combined Action Platoons located within their sector of operations.

(2) The primary difficulty of control is inherent in the mission assigned. In order to provide saturation patrolling throughout the PHU BAI TAOR units must be spread over relatively large distances. Therefore radios on occasion have difficulty reaching the COC, causing us to relay from OPs located in high ground in the TAOR.

f. Problem areas

(1) These are two problem areas. The first, the weather, has caused us to rotate our companies oftener than desired. This problem is encountered only with the advent of the monsoon season.

DECLASSIFIED

~~SECRET~~

The second problem area is mobility. Due to the size of [REDACTED] of operation, limited helicopter support, availability of trucks and distances involved, it is extremely difficult to mass sufficient troops to meet threats or targets of opportunity. Added flexibility and mobility would greatly improve our ability to accomplish our mission more effectively. See Enclosure (3).

~~SECRET~~

CLOSE COMBAT

1. Close Combata. Operations conducted(1) Patrols

(a) Saturation patrolling by platoon and squads was conducted throughout the PHU BAI TAOR pursuant with our mission. Platoon patrol bases are established during daylight with squad size patrols radiating from the base. At darkness each platoon breaks into three squad ambushes and moves clandestinely out into pre-reconnoitered ambush sites. See enclosure (3). Squad ambushes are utilized in order to provide greater coverage within the TAOR.

One successful squad ambush occurred on the night of 27 Sept 67 when Corporal Melchisedic Jackson's reinforced squad ambushed approximately forty VC. The marine squad called illumination, gained fire superiority and finally drove the VC from the field after a forty-five minute fire fight. A MedEvac was called in to evacuate three WIA and 1 KIA. A reaction squad from a combined action platoon came to their assistance. A sweep of the killing zone revealed seventeen (17) enemy KIA. The squad had to fight for the bodies as the VC continued the fight off and on. Finally the VC broke contact. See Enclosures (3) and (8).

(2) Operations

(a) Platoon operations consisted of Company E (-) working with the PBRs during the Green Wave operation. Navy PBRs were assigned to operate in the CAU HAI lagoon to prevent VC water traffic and to work in conjunction with friendly troops in area. From 18 to 29 Sept Company E made liaison and planned two reinforced platoon type operations. On 23 and 24 Sept respectively the company was landed and provided fire support by the PBRs. However no contact was made in either case. See Enclosure (4).

(b) A company size operation was conducted on 24 Sept when intelligence sources indicated that 100 to 200 VC were moving through the center of the PHU BAI TAOR. Company F, which was located in the vicinity of suspected contact was reinforced with a platoon from Company G. Squad and platoon size ambushes were established. Contact was made which resulted in 1 KIA(c) and 5 KIA(p) VC. It appeared the VC carried off many other casualties. See Enclosure (5).

We continued to provide a company minus for all Rough Rider convoys to either Camp Evans or Dong Ha as the primary infantry security element.

UNCLASSIFIED

(c) The lone Battalion operation was our participation in Operation LIBERTY which lasted from 30 August to 5 Sept. This operation was designed to prevent enemy interference with the National Vietnamese elections by interdicting and denying enemy access to populated area on Route #1.

(d) One joint operation was run with ARVN forces along the northern portion of the PHU BAI TAOR on 20 Sept 67. Marine forces involved consisted of a company minus, reinforced. The ARVN forces were conducting a sweep of the PHU TU peninsula while the marines secured the left flank. See Enclosure (6).

b. Significant Events.

(1) Sequential listing of all contacts, and results attained.
(See enclosure 7).

01 Sept 67 At 0108H Phu Bai Vital Area came under mortar and small arms fire. Received estimated 90 Rds of 82mm Mortar and 20 to 30 Rds SAF. At 0125H counter mortar fire commenced, ceased counter mortar at 0130H. Results 131st AVN Co. USA, 1 KIA and 3 WIA, FLSG-A USMC 3 KIA, 27 WIA, 155 Gun Btry USMC 3 WIA, HQ Bn USMC 19 WIA, PMO USMC 3 WIA.

At 0800H Hotel Company sweeping area of suspected mortar sites which mortared Phu Bai at 010108H Sept 67 found 3 mortar positions with aiming stakes vic YD 887111. Several increments found in area. Also found 1-81mm mortar Rd which was blown in place.

At 0934H 2/26 minesweep security truck hit mine at vic AT 876984, resulting in 3 USMC WIA, 1 MedEvaced.

At 1015H XO 2/26 reported that bus hit mine at AU 863999, killing 9 civilians and wounding nine.

02 Sept 67 At 1545H Company H picked up 1 male VN about 20-25 years of age with no ID card who was observing Plts movement. Turned detainee into CAC-A3 for questioning.

03 Sept 67 AT 0120H CAC-H1 reported that VC hit ballot box outside of CAC-H1's compound with 6 or 7 60mm mortar Rds and SAF. PF's returned fire, enemy broke contact.

At 0645H to 0745H, XO 2/26 vic ZD 097007 reported enemy fired 30-50-Rds 82mm mortars from vic ZD 095991 and ZD 115973. Appeared to be one gun at each coord. During attack all TACP freq. were jammed. Incoming Rds contained #2 bird shot. Fired 10 Rds 81mm counter battery fire, enemy fire ceased. Two vehicles and several tents received minor damage. 1 VN child killed, 2 children wounded, 3 USN WIA, 2 USMC WIA. (all minor).

UNCLASSIFIED

UNCLASSIFIED

03 Sept 67 At 0845H CAC-H6 reported that 1 VN female was wounded by VC Booby Trap at vic ZD 155019. Woman was brought to CAC-H6 for medical assistance, but died.

At 0930H CAC-A6 reported that a grenade exploded in market place vic YD 818183. Approx. 15 minutes later a grenade exploded at YD 822180. VN girl's body was found, believed she stepped on a mine, which caused explosion.

At 1000H CAC-H6 reported 3 60mm Mortars landed vic ZD 142009. Two VN women were wounded. Both women were brought to CAC-H6 for treatment, one died of wounds, the other was treated and Med-Evaced to A-Med.

At 1025H CAC-H6 reported that 2 mortar Rds landed outside CAC-H6 CP. Village officials said that mortar positions were at ZC 162987. Arty mission called with good coverage. There were no casualties.

At 1520H Company F found a suspected wounded VC harboring in a hut at vic ZD 142003. Suspect was taken to CAC-H6, after interrogation determined to be a innocent civilian.

At 1605H CAC-H7 received 6-8 60mm mortar Rds which hit near bridge vic ZD 806996. Arty mission called with good target coverage. There were no casualties.

At 1620H Company F patrol apprehended a VC female suspect, in a church at ZD 143008. Suspect was taken to CAC-H6 to be treated and Med-Evaced.

At 2110H CAC-A HQRS, received approx. 5-6 82mm mortars and small arms attack from side of compound. Main attack was a late ambush at vic YD 841175 set off by patrol from Cau Vue. Enemy came from South and fled North.

04 Sept 67 At 0400H Hq Bn, sector "B" heard movement outside the perimeter wire. A pop-up flare was fired and 3 people were observed running from wire. Opened fire, and checked area at first light finding 2 bodies 40 meters from wire. Both bodies were identified by a Captain Hoe of the ARVNS, who said that the 2 victims were AWOL and lived in a Village near by.

At 0840H CAC-H6 and Company F received 3 unknown type mortar Rds from suspected enemy vic ZD 141001. Swept area with negative results. 1 USMC WIA (minor).

At 2115H Company E ambushed 10 VC on Hwy #1 at ZD 055022, 2 VC seen fall. Area searched with negative results. 2 VC KIA(P).

UNCLASSIFIED

05 Sept 67
UNCLASSIFIED

At 0530H VC blew up bridge at YD 839176. Bridge security did not observe any VC. Believe bridge blown by VC underwater team.

At 0800H Operation Liberty Terminated.

At 1130H CAC-H3 reported VC released 5 VN that had been kidnapped prior to the elections. VN informed Hamlet Chief that there were Approx 100 VC in grid square YC 9598.

09 Sept 67

At 1000H CAC-H3 reported that 11 water buffalo were killed yesterday by a Marine Unit. An investigation is being held by CAC-H.

At 1230H Company H found 2 105 Rds and 2 aerial rockets at YD 890051. Rockets appear to be of U.S. make. Rockets and 105 Rds destroyed in place. Full description of rockets forwarded to G-2.

At 2205H CAC-H1B made contact with 5 VC at YD 923104. VC returned 50 - 100 Rds of automatic fire then broke contact and headed in a North-Easterly direction. Results of incident, 1 PF KIA and 2 VC KIA(c). Captured 1 AK-47, 1 cartridge belt, 2 small notebooks, 2 magazines, 1/2 lb of TNT, small bag of rice, civilian clothing, 1 set of utilities, poncho, extra ammo and personal belongings.

10 Sept 67

At 2100H CAC-H2 opened fire on 12 VC at YD 945027. Results of action 1 VC KIA(c) and one AK-50 captured.

11 Sept 67

At 0300H at YD 820181 CAC-A6/9 received 12 direct hits with AP6-2 rockets, approx. 20 Satchel Charges, and 8 Rifle Grenades. CAC-A6/9 returned fire. Results of Action 5 USMC KIA, 10 USMC WIA, 3 PF's WIA, destroyed structures in compound, 5 buildings, 2 bunkers, front gate, and all radio communication. There were 8 VC KIA(p).

At 11430H, MP Bn reported 1 USMC firing at MP manning South Checkpoint. A CB in Sector D shot the Marine doing the firing in the shoulder. Results 1 non-battle casualty.

At 1930H in the vic YD 781132 3rd Eng. Bn received sniper rounds. Arty mission called, sniper fire ceased. Results of action, 1 USMC WIA and Med Evaced, Results of enemy unknown.

At 2140H CAC-H2 patrol ambushed 7 VC at YD 947065. VC fled in Southerly direction. Swopt area with negative results.

UNCLASSIFIED

UNCLASSIFIED

11 Sept 67 At 2315H, YD781132 3rd Eng Bn received 7 to 8 60mm Rds, also automatic and semi-automatic SAF. Returned SAF and called Arty mission. Results of action: 1 USMC WIA.

13 Sept 67 At 0330H, Company H patrol at YD898097 made contact with 30 VC, exchanged fire at 100 meters. VC broke contact and fled Southwest. Swept area with negative results.

At 0845H, YD836196, Company F detonated a pressure type Bobby Trap on trail. Results: 1 USMC WIA.

At 1925H, ZC083998, a patrol from Company G was ambushed from hedge row. Patrol assaulted through ambush. Results of action: 3 VC KIA(c), 2 USMC WIA.

At 2200H, YD863150, 30 VC commenced firing on CAC-A1's PF's village. CAC-A1 called in fire mission and then went to check the area. They then received 200-300 SAF, VC fled area in a northerly direction, a secondary mission called. PF's of CAC-A1 researched area of contact. Villagers reported observing VC retreating North with 6 enemy KIA. 2 VC and 4 Regional Forces and also 3 WIA's. KIA's were caused by second fire mission. Results: 6 Enemy KIA(p).

At 0840H while minesweep proceeded down Route #1 at ZD134010, VC detonated 6 155mm Artillery Rds which had been placed along road as mines. There were no casualties. Minesweep incident was followed immediately by a mortar attack on CAC-H6. At this time CAC-H7 had made contact and CAC-H7A patrol had made contact at AU205025. 100 VC were estimated in the area. A Reactionary Force from CAC-H7 was sent to assist CAC-H7A who were pinned down by enemy fire. Enemy then broke contact and sporadic enemy fire was received with no effect. Results of incidents: FR/KIA 2 USMC, 1 PF, FR/WIA 3 USMC, 2 PF. MedEvaced 4. 2 VC KIA(c), 15-20 KIA(p). Captured 1 Chi-Com grenade, rifle grenade and 1 satchel charge.

At 2125H, YD975050, 7-10 VC walked into CAC-H8B's ambush. Ambush initiated by a Claymore mine, VC returned 200-300 Rds small arms fire plus 2 grenades, then broke contact. Results of Action: 1 Enemy KIA(c), 3 Enemy KIA(p). Captured 1 SKS Carbine Rifle, 1 cartridge belt, 20 Rds 7.62 Chi-Com and 2 Chi-Com grenades. 1 USMC and 1 PF WIA (Minor).

LOGISTICS

1. Logistics

During the month of September battalion supply continued to support the activities of this unit in the defense of Phu Bai. Every effort was made to obtain those critical items needed to take motor transport and communications equipment off deadline. Due to heavy requisitioning for the monsoon season, two requests for additional funds for SFA expenditures were submitted to Commanding General, 3d Marine Division. A total of 30 antennas 27A and 18 antenna bases AB591 were received from FLC. However, these items remain in short supply. 300 magazine assemblies for M16 rifle were obtained, but there will still be a need for them in the future. The magazine assemblies of .45 cal. pistols remain on priority O2 requisitions which continue to be unfilled. Cleaning material for the M16, though received in limited quantity this month, is also short in supply. Again this month the battalion's requisitions for seven PRC-25 radios and one 60mm mortar base plate remain unfilled. Light weight utilities were received in the quantity of 800. Small sizes are still a problem to obtain. Fortification material has been obtained in sufficient amounts from FLSG "A". The magnetic compass continues to be a critical item and is on order in the quantity of 90. Black cushion sole socks and I.D. tags are also critical items. The maintenance situation for the month of September is still in poor shape. There are five vehicles deadlined to 2nd echelon maintenance and 13 deadlined to 3rd echelon. The sole cause of the continuing deadlines is the lack of repair parts support. Electrical power supply continues to be provided by FLSG "A". "A" rations are fed to companies while they are in the rear. Ice cream is available on a semi-regular basis. This battalion is presently using one 600 and one 100 cubic foot reefer. The other 100 cubic foot reefer had been code X. The battalion is furnished two, sometimes three trucks each morning for household purposes. There has been no problem procuring transportation for tactical purposes. Requests for helicopter support for Recon and resupply have been met completely.

COMMUNICATION-ELECTRONIC CHRONOLOGY

1. Communication elements of this command operated and maintained continuous communications in the PHU BAI enclave.

a. Wire

- (1) Provide internal wire communications for the command posts.
- (2) Wire equipment is totally committed.
- (3) All equipment failures have been coped with and corrected without delay.

b. Radio

- (1) Radio has been the primary means of communications for field operations and the PHU BAI Perimeter.
- (2) Radio sets, AN/PRC-25, continue to provide good communications.
- (3) Accessories for radio sets, AN/PRC-25 are no longer a serious problem.
- (4) Repair parts for radio sets, AN/PRC-25 are in shortage; thus preventing our repair facility from promptly returning those radios in need of electronic maintenance.

c. Message Center. No major problems.

d. No radio relay problems.

e. Maintenance and Supply. The following combat essential equipment is deadlined:

- (1) AN/MRC-83 - 1
- (2) AN/MRC-87 - 1
- (3) AN/PRC-25 - 6
- (4) AN/PRC-47 - 2

f. Problem Area. Personnel shortages.

- (1) 2591 (E-8) 1
- (2) 2815 2
- (3) 1341 1

CHAPLAIN SUPPORT

1. CHAPLAIN SUPPORT FOR MONTH OF SEPTEMBER 1967

a. Name of Chaplain: Samir Jamil HABIBY, Lt, CHC, USNR

b. Number of Services, attendance and type:

(1) BATTALION SERVICES:

	No.	Attendance
(a) General Protestant	26	1025
(b) Holy Communion	12	133
(c) Lay Leader	1	25
(d) Roman Catholic	2	30

(Roman Catholic Services in the PHU BAI CP area are now all conducted at the 3d MARDIV CP Chapel - once daily, and twice on Sundays)

Totals	41	1,213
--------	----	-------

(2) OTHER SERVICES:

(a) Episcopal Holy Communion	3 (DIV CP)	36
(b) Jewish Church Party	1	4
(c) E. Orthodox Church Party	1	2
Total	5	42

(3) BATTALION CHAPLAIN HOSPITALIZED 11 September 1967

(a) The Battalion Chaplain provided religious coverage during his hospitalization and subsequent limited duty status through the following Chaplains: Chaplain's DAVIS, JOHNSON, RYAN, and WESTLING. Chaplains DAVIS and RYAN took services for men of the Battalion during their visits to the CAPS (NOTE: recorded above in totals)

c. Religious Instruction:	2 Classes	54
d. Indoctrination Lectures	2 Lectures	50
e. Counselling Sessions		35
f. Hospital and BAS Calls		21

g. Civic Action: (Materials given to S-5)

(a) People to People Clothing (Boxes)	2
(b) Several Hundred Cookies and Sweets for the MEAT/ITEM Festival at CAO KAI	
(c) Provided Sweets and Chewing Gum for the civilians wounded in the Mortar Incident	

h. Pocket Books Distributed to the Battalion	574
i. Comfort Items, Distributed to Battalion (Boxes)	5
J. Items (g), (h), and (i) above were received from Friends of the Battalion in the USA.	
k. Facilities and Motor Transportation - Adequate

DECLASSIFIEDCivil Affairs/Military Government/Community Relations.

1. Mission: To conduct a civic action program that will enhance the prestige of the civil government and to conduct psychological operations to further the efforts of the Government of Viet Nam in re-establishing its effective control over the people.

2. Civic Action Projects and Operations.

a. 1 Sept-30 Sept. The 2nd Battalion 26th Marines was responsible for Civil Affairs in the Village of Loc Tri. During that period the following Civic Action was conducted.

(1) The materials for a shower were taken to the Dispensary, the shower is now completed.

(2) An enlarged diagram was made of the Loc Tri area to be used for making future plans of projects in the adjoining hamlets.

(3) A Mid-Autumn Festival was conducted, 600 children and 150 adults attended the festival.

(4) Preparations were made to establish and start a Civil Affairs Program at Nam Hoa by I. Co, 3rd Bn, 26th Marines temporarily attached to 2nd Bn, 26th Marines.

(5) 57 Serious Incidents were investigated and solatium was paid. The Civil Affairs Officer visited all persons which were wounded and the family of the ones killed.

(6) MEDCAP by the Battalion Medical Officer and his team of Corpsmen treated 191 patients.

Psychological Operations for the month of Sept 1967.

a. 3,962,000 leaflets were dropped.

b. Aerial broadcasts 13 hours 10 minutes total broadcast time.

c. Approx 500 leaflets and newspapers were distributed hand to hand.

d. 1 film festival.

Remarks: The people of Loc Tri have been very receptive to the Civil Affairs Team. The Village Chief seems very pleased with the effort 2nd Bn, 26th Marines is making to enhance the prestige of his people. The Village is not secure from VC and the infrastructure has not been eliminated.

(j) DivO 5101.4

Encl: (1) Classroom/Field Training Inspection Report Form
(2) Sample Training Record/Report

1. Purpose. To provide units of this Battalion with a training program designed to prepare the individual, unit and Battalion for immediate deployment and combat.

2. Cancellation. BnO 1500.1A

3. Policy. The conduct of training will be in accordance with 2/26 SOP and policies outlined in this order.

a. General. All training will be oriented toward the type of operations being used by Marine Corps Forces in Vietnam. This training will include, but is not limited to, the following:

(1) Counterinsurgency Operations. To be effective, counterinsurgency operations must include an understanding of the limitations placed upon military operations by the local populace. All Marines must be thoroughly familiar with the political, economic, civic and psychological aspects of Vietnam.

(2) Counter guerrilla Operations. These operations are military actions of the armed forces of an established government and its allies against guerrilla forces. Training is required by companies of this Battalion in the tactics and techniques employed by infantry in counter guerrilla operations.

Encl

BnO 1500.3E
22 September 1967

(3) Anti-guerrilla Operations. These operations are concerned with protection of command posts against guerrilla forces. All companies of this command will insure that their personnel are thoroughly trained in scouting and patrolling, local security, camouflage, blackout discipline, mines and booby traps, and march security.

(4) Civic Action Operations. Civic action is the program being used by Marine units to gain the support and confidence of the local population of Vietnam. Included in this program is the improvement of health, education, and welfare of the Vietnamese people. In return, we receive vital information concerning location, size, organization, etc, of the Viet Cong. This program is producing excellent results and company commanders are encouraged to familiarize all personnel of their command with the Civic Action Program.

(5) Ambush and Counter-ambush. Ambush is one of the most effective offensive tactics employed by guerrilla forces. Unit commanders will conduct as concurrent training ambush and counter-ambush exercises on both tactical and motor marches. Reference (e) publishes information concerning employment of ambushes which may be of assistance to operating companies.

(6) "Tactical Trends and Training Tips". These pamphlets are published under FMFM Pac Bulletin 1500 and contain information on lessons learned by Marine units in combat in the Republic of Vietnam. Battalion S-3 will distribute these to company commanders who will insure that they get the widest possible dissemination both during regularly scheduled training and, as time permits, on field exercises.

(7) Land Mine, Booby Traps, and Demolition Training, Phu Bai TAOR. Reference (c) requires that fire team leaders, squad leaders, platoon sergeants, Company Gunnery Sergeants, Platoon Commanders and Company Commanders attend subject course. The course is not limited to above mentioned personnel, but these personnel constitute the minimum personnel training requirement.

(8) Countermeasures against Mines and Booby Traps. Reference (d) outlines specific countermeasures to reduce the number of casualties resulting from mine/booby trap incidents. Company Commanders are directed to give wide and continued publicity to the contents of this order.

(9) In-country Training-Troop Indoctrination. In accordance with reference (a) and (b). Certain topics are to be presented to new arrivals in Vietnam indoctrination lectures/discussions. Company Commanders will notify the Battalion S-1 when an indoctrination period has been scheduled so that arrangements can be made with the CO, Surgeon, Chaplain, and Sgt Major. In-country Training-Troop Indoctrination will be inserted in record book when individual has been given lecture.

(10) Safety Regulations for Individual Weapons. Reference (g) and BnO 5101.1A establishes safety regulations and directs unit commanders to schedule classes at the lowest level on the contents of this order and such other safety precautions deemed necessary to insure maximum safety in weapons usage.

22 September 1967

(11) Security of Information and Material. Reference (h) directs the establishment of an indoctrination program directed toward the individual Marine making him aware of his security responsibilities. Company Commanders will insure that their program encompasses the subjects listed in said reference.

(12) Safety Precaution for the Use and Handling of grenades. Reference (i) contains precautions and instructions on the grenades. Unit commanders will insure that all personnel are thoroughly indoctrinated in procedures for handling grenades and in safety precautions.

(13) Accidental Discharges of Weapons. Reference (f) requires enforcement of strict set of rules of prevention, supervision, and at frequent intervals, indoctrination, arming and disarming are incorporated in training schedules.

(14) Medical. All personnel of this Battalion will be instructed in preventive measures against diseases and poisonous flora and fauna prevalent in Southeast Asia. Emphasis will be placed on field sanitation, personal hygiene, and proper care of the feet in a hot, humid climate. Emphasis will also be placed on heat exhaustion and heat stroke. Company Commanders will insure these subjects are scheduled as concurrent training and placed on the weekly training report under the remarks column. Company Commanders will insure that personnel take adequate salt tablets and that proper check is made to insure malaria pills are taken.

b. Training Support. Training support available upon request includes:

(1) Transportation. Submit requirements to arrive at the Battalion S-4 by 1500 the day prior to requirement. Transportation pick-up located at the east corner of the mess hall.

(2) Special Equipment. Submit to S-4 24 hours prior to requirement.

(3) Class V, Submit to S-4, 24 hours prior to requirement.

(4) Class I, Submit to S-4, 24 hours prior to requirement.

(5) Lesson Plans, FM(s) and FMFM's are available at the S-3 Training Office.

(6) Request for outside specialized instructors to assist in more technical training should be made to the S-3 at least 2 days in advance.

4. Action

a. Companies will be rotated in such a manner as to permit each Company time enough to meet minimum training requirements. The Company Commanders will coordinate with the S-3 in establishing a training schedule for the period of time their companies are in the Phu Bai area. Company Commanders will schedule and cause to be conducted at least four (4) hours training each day that the company is free to conduct training. Maximum attendance is mandatory.

(1) The following subjects will take priority and must be completed before commencing other training:

22 September 1967

Nome, Nature, Care and Cleaning and Operation of the M-16.

Vietnamese Customs, Orientation and Civic Action

Ambush and Counter-Ambush (Immediate Action Drills) tactics and Techniques.

Patrolling.

(2) Other subjects to be conducted after the above priority subjects have been completed include:

Code of Conduct

Field Fortifications

Lessons Learned in Viet Nam

Leadership

Handling of POW's

Field Sanitation

Attack of a Fortified Position

Obstacle Appreciation

Technique of Fire

FO Procedure

b. H&S Company will set up a training schedule for Hills 180 and 230. The following subjects will be included.

(1) Weapons Instruction and Application

(2) Demolition Training

(3) VC Mines and Booby Traps

(4) The employment of Gas.

c. NCO School. See Bn Bul 1510

d. Company Commanders will insure that each instructor is thoroughly familiar with his subject. Lesson Plans should be reviewed by an officer and submitted one day before the class to the Battalion S-3 for review and filing.

e. Arrangements for classroom facilities will be made with the Battalion training NCO. Classes will be monitored and evaluated on a periodic basis. Monitors will be members of the Battalion S-3 section and will complete enclosure (1) upon return to the S-3 section. We are also subject to periodic evaluation by inspectors or contact teams from higher Headquarters.

DnO 1500.1E

22 September 1967

f. Company Commanders will maintain company training records as depicted in enclosure (2) on all training accomplished, to include general military subjects, specialist training, MCS training, rifle/pistol FAM and qualification scores, swimming qualifications and gas mask size. These records will be kept current on a weekly basis and used as a guide for subjects required to be covered in future training.

g. Company Commanders will submit a list of training completed during each week by 0800 on Monday of the following week to this Headquarters (Attn: S-3).

h. All school quotas assigned by higher headquarters will be fulfilled regardless of operational commitments, unless otherwise excused by this Headquarters (S-3).

i. Company Commanders are responsible for establishing a weight control program and will be guided by the requirements set forth in MCO 6100.3 Series.

BATTALION BULLETIN 1510

From: Commanding Officer
To: Distribution List

Subj: School for NCO's

Ref: (a) BnO 1500.1B

1. Purpose To promulgate instructions for the establishment of an NCO School within each rifle company.

2. General

a. This command continues to experience less than optimum results in its contact with the VC. The placement of ambushes relative to principal VC routes has been most successful. Intelligence continues to influence placement of most ambushes. Once contact has been made, however, the VC have either escaped or suffered minimum casualties.

b. This situation can be corrected only if the NCO's are thoroughly familiar with the proper techniques of ambushing and patrolling.

3. Action

a. Company Commander will establish a school for NCO's within their respective companies.

b. The subjects to be emphasized are indicated in Battalion Order 1500.1B paragraph 4A. The responsibilities of the unit leader regarding each subject should be the theme of the school. Continuity of the NCO Training throughout the battalion is the goal, and the continuity can be achieved by teaching the subjects listed as "priority" and "other" subjects in paragraph 4A of the Battalion Training Order. Thus the NCO School, coupled with the training conducted for the other Marines should produce successful operations in the field.

c. All instructors should be aware of the contents of reference (a). Instructions regarding material assistance, lesson plans, reports and the monitor program are also included in reference (a).

①

BnBul 1510
23 Sept 1967

d. Company Commanders should keep progress reports on each NCO and be able to provide the Battalion S-3 with these records.

BATTALION ORDER 3400.1A

From: Commanding Officer
To: Distribution List

Subj: Standard Operating Procedure for Nuclear, Biological and Chemical Defense

Ref: (a) MCO 3400.1A
(b) DIVO P3000.1E

1. Purpose. To prescribe NBC training and proficiency standards for individuals and units of this Battalion and to establish NBC procedures to be employed during, before, and after an NBC situation.

2. Classification. BO 3400.1

3. General. NBC weapons will produce mass casualties and extensive damage. For this command to carry out its mission, action must be taken to protect its personnel, their arms, equipment and supplies from the effects. Training and readiness measures must provide the capability to take defensive action to minimize the reduction in combat effectiveness from an NBC attack.

4. Scope. Reference (a) sets forth policies concerning the assignment of personnel to NBC Defense duties and the training and proficiency standards required of all Marines and units. Reference (b) establishes the criteria for all NBC Defense in the 3d Marine Division. This order supports and amplifies references (a) and (b) and prescribes the procedures to be followed by this Battalion for NBC Defense.

5. Organization. NBC personnel will be assigned in accordance with current tables of organization, references (a) and (b), and this order.

a. Battalion Organization

(1) The Battalion will appoint in writing a Battalion NBC Officer.

Enc 12

BnO 3400.1A
12 Sept 1967

(2) The Battalion will establish an NBC Defense Center (NBC-3). The NBC-3 Team will be located within the S-3 Section.

(3) The Battalion Aid Station will maintain one Medical Shock Team consisting of one Medical Officer and ten hospital corpsmen. It will maintain one radiac recording team consisting of one recorder and two radiac readers.

b. Company Organization

(1) Each Company will appoint in writing an NBC Officer and one NBC NCO. The NBC Officer will inform the Battalion NBC Officer of appointments and changes to the NBC team.

(2) Each Company will appoint in writing one primary and one alternate Monitor/Survey Team consisting of the monitor, one radiac operator/recorder, and one driver.

(3) Each Company will appoint in writing a Decontamination Team consisting of ten (10) men.

6. Staff Responsibilities

a. S-1

(1) Reports to the Commanding Officer on the number of personnel approaching maximum radiation dosage.

(2) Plans and supervises routine rotation and replacement of individuals who have received the maximum radiation dose.

b. S-2

(1) Maintains a current estimate of enemy NBC capabilities.

(2) Ensures wide and rapid dissemination of information regarding probabilities of NBC attack.

c. S-3

(1) Coordinates all matters pertaining to NBC Defense within the Battalion.

(2) Prepares plans for continuation of the Battalion's mission in the event of mass evacuation of a subordinate unit or units.

d. S-4

(1) Supervises area damage control and mass evacuation.

(2) Recommends the establishment of decontamination stations in coordination with the NBC Officer.

(3) Estimates requirements for and makes recommendations on the distribution of NBC supplies and equipment.

BrO 3400.1A
14 Sept 19677. NBC Officer

- a. The Battalion and Company NBC Officer will:
 - (1) Advise Commanding Officer and Staff on NBC matters.
 - (2) Assist in preparing troop safety plans.
 - (3) Establish and coordinate the functions of the NBC-3 team.

8. Proficiency Standards and Training

- a. Proficiency standards and training that must be achieved by each individual and unit are contained in references (a) and (b).
- b. Company NBC Officers will insure that all teams have NBC Training.

9. NBC Warning System and Procedures

- a. The NBC Warning Systems and Procedures that will be followed are set down in references (a) and (b). Each Company NBC Officer will make sure that all personnel in his company are familiar with the Warning Systems and Procedures in references (a) and (b).

10. Protection

- a. First and second echelon decontamination will be performed as prescribed in FM 21-40.

11. Decontamination

- a. First and second echelon decontamination will be performed by company personnel.
- b. Requests for third echelon decontamination will be submitted to Battalion S-4.
- c. All sections will perform or supervise the decontamination of their respective types of equipment.

12. Supply

- a. All NBC supplies and equipment available will be stored at Battalion Supply and issued when the situation demands.
- b. Emergency requisitions for replacement of NBC supplies and equipment will be forwarded through normal channels by the most expeditious means available.

Eno 3400.1A
14 Sept 1967

13. Reports

- a. NBC Training reports will be submitted to the Battalion NBC Officer.
- b. NBC reports are contained in reference (b).

3. EXECUTION

- a. The Arty Btry presently in D/S of 1/4 will provide Arty support to Co A 1/4 until 15 Sept.
- b. A Arty liaison team from 4/12 will be positioned with the ARVN Arty Wpns at NAM HOA and will receive fire mission called by the FO team attached to the company on 15 Sept. The ARVN Arty Wpns will be in D/S of Co A 1/4.
- c. The ARVN Arty unit and US Army advisor located with them will request clearance from the 12th ARVN Arty Div before firing a mission.

4. TARGET INFORMATION

- a. Hamlet or village may be attacked without prior warning if in the judgement of the ground commander his mission would be jeopardized by such warning.
- b. All supporting arms fire on hamlets or village will be controlled by an airborne or ground FO and will be executed only after approval of the 12th ARVN Arty Division.
- c. Close air support mission on hamlet or village will be controlled by FAC and executed only after Bn FSCC approval.

DECLASSIFIED
SECRET

(9)

Supporting arms will not be fired into any populated area except when the Inf. CO on the ground personally determines the area to be hostile and such action is necessary to save Marine lives and there is no alternative course of action.

e. See Fire Support Plan Overlay.

f. Restricted Targets

(1) Every effort will be made to preserve religious, cultural and public utility installations.

5. AIRCRAFT SAFETY

a. Air sentries and lookouts

(1) The Arty FO will check fire when it appears that aircraft are in danger.

(2) The Arty liaison team should assign air sentries when firing the guns in order to check fire when friendly aircraft are in a danger area.

6. SAFETY OF GROUND FORCES

a. No - Fire - Line - CO, Co A will establish a no - fire - line, and inform their HQ of its origin and any changes.

b. Since the two positions being occupied by Co A are within range of each other, care must be taken to direct bullet trajectory.

7. COMMAND AND COMMUNICATIONS - ELECTRONICS

a. The Arty liaison team should be prepared to call for fire clearance for the 105mm Howitzer over the Bn tactical net in the event the primary channel fails.

b. Requests for general support 155 Arty fire should be requested over the Bn tactical net.

Subj: County Fair Operation Report

Ref: (a) DivO 3100.d

1. In accordance with reference (a), the following report is submitted on County Fair Number 26-2:

COUNTY FAIR COMMENCES: 0400, 27Sep67
COUNTY FAIR TERMINATES: 1000, 28Sep67

LOCATION: Hamlet - Thon Binh An Grid Coordinate - AU 8105
262200Z Sep67

PARTICIPATING FORCES: One Company of RF's
One Platoon of PF's
One Company of Marines 2/26
One Marine Squad CAC H 6/7

PLANS FOR PROVIDING SECURITY FOR THE AREA OF THE COUNTY FAIR OPERATION:

- (1) Plans are being made for the formation of a CAC unit.
- (2) PF and USMC units will patrol area.

REASONS FOR SELECTING THON BINH AN AS A COUNTY FAIR SITE:

- (1) Located within or contiguous with other areas that are being returned to government control.
- (2) There is evidence of Viet Cong activity, determined by intelligence sources, by the presence of snipers, mines and booby traps.
- (3) The hamlet was selected in close coordination with the local officials of the government of Vietnam.
- (4) Located in a semi-cleared area.
- (5) The hamlet is physically capable of being cordoned off in order to prevent exfiltration of Viet Cong.
