PART II
NARRATIVE SUMMARY

A. During the first nine days of December this battalion was engaged in Operation "MEADE RIVER". The mission of the battalion, was to set up along Route 4 in the southwest sector of the Regimental cordon, and capture or destroy enemy within the vicinity of the cordon. The battalion also had a mobile reserve mission within the area of operation.

The enemy in the area of "DODGE CITY", were extremely well dug in. Bunkers were found with reinforced concrete decks, and overheads made of railroad ties, rails and covered with six feet of dirt. This made it very hard to destroy the enemy with supporting arms. In most cases it took a direct hit with delayed fuzes to destroy the enemy's fortifications. It was found that the enemy had to be ferreted out by individual Marines, using tactics similar to those used during World War II during the Island Campaigns.

As the cordon was slowly being closed the enemy's tactics became evident. They would set up their ambushes with mutual supporting bunkers, in the treelines and hedge rows that criss-cross the terrain. Our units would prep-fire the areas well before moving, but this would do practically nothing to the enemy's well fortified positions. After the prep-fires were completed the enemy would come back out of their bunkers and set up their ambushes. These ambush sites were set up in areas where there were open rice paddies in front, or natural barriers such as streams. Fire discipline of the enemy was very good. They would wait until the last moment before executing their ambushes.

On the second and third of December, while the battalion was moving to close the cordon, they discovered numerous articles of enemy equipment and food. The battalion was moving toward one of the last strongholds of the enemy in the cordon. It was later found that this area was the enemy's command center. On the fourth day India Company was taken under fire from an enemy entrenched in a treeline in front of them. This resulted in 2 Marines KIA and 7 WIA. On the fourth of December Alpha Company 1/7, which was OPCON to the Bn, captured 11 VC/NVA prisoners. On the fifth of December, India Company captured 7 POW's, one was a Chieu Hoi. Numerous enemy equipment and bodies were found on the sixth of December.

By the morning of the seventh the enemy was cornered into an area about the size of a grid square. They had been gradually pulling back to this area to make their last stand. Every time an attempt to move into this area was made it was quickly repelled by the enemy. Many veterans of other wars stated that this was the fiercest fighting they had ever seen. The fire was so intense that it was difficult to recover some of our wounded. On the night of the seventh volunteer parties went out to recover the bodies. Armored personnel carriers were brought in on the morning of the eighth. That morning they made a drive into the enemy positions killing 130 enemy. This seemed to break the enemy's resistance. That afternoon and night a concentrated bombardment of the area was conducted. This was done to soften the area up for the final drive on the ninth. The last push on the ninth was marked by heavy combat. Each bunker and hole had to be checked for enemy. Bunkers were found with enemy bodies stacked in them. An unknown number of enemy were buried beneath the bomb craters and blown up bunkers. Marines crawled down into the tunnels and found both live and dead enemy. It didn't take long to make the final sweep, because we had the momentum and the enemy was on the run. By mid afternoon the battalion was ready to go home after a job well done.

On the ninth of December, the battalion was helilifted out of the Dodge City area. Immediately upon arrival back at the "Rock Crusher" the battalion commenced getting ready to go afloat. People with less than six months left in country as of 1 January, were transferred out of the battalion and replaced with new men. A vigorous program of training was initiated to prepare the battalion for the BLT. On the 20th of December, we were designated administratively BLT 3/26. We continued rehabilitating our equipment to bring us up to TE. A great deal of work was involved in crating, paletizing and banding all of our equipment. At the same time that we were preparing for the BLT we continued to operate in our AO. Company Kilo and Company Lima were deployed into PPB's. Patrols were run from these PPB's every day and Killer Teams were run at night. Particular attention was given to make sure the Rocket Belt surrounding Danang was well covered not only by patrols and Killer Teams but also by supporting arms. The battalion also had a company "BALD EAGLE" and a platoon "SPARROW HAWK". These were put on sixty and thirty minute standby respectively. On the 20th of December, Mike Company (-) was moved into PPB's to counter an increased threat of attack to Danang. Continuous liaison was made with elements of 2/7 to effect the transfer of our AO to them. On the 27th of December, 2/7 moved two companies in, to replace two of our companies, operating out of PPB's. At 1200 on the 28th of December, 2/7 assumed the responsibility for the AO. On the 29th of December, an advanced party, to act as guides for the battalion, were helilifted to designated ships assigned to SLF Bravo. Afterwards the rear elements of the battalion completed the move, on 31 December 1968.

B. ADMINISTRATION: During the period 1-28 December 1968, the S-1 administration was set up in the Danang area, established at Camp Perdue; this included the Battalion S-1, Sick Bay Administration and the Company Offices. On 12 December 1968, the Battalion began the initial stages of reorganizing into a Battalion Landing Team. There was a 50 percent turnover of personnel during the next ten days. All attached units were joined on the rolls of the battalion on 15 December 1968. The Battalion was designated a Battalion Landing Team on 20 December 1968, and the task organization was changed.

C. INTELLIGENCE

1. From 1-9 December in the 3/26 "MEADE RIVER" AO the enemy situation was 150-350 NVA/MFVC and 70 local VC. The strength figure was predicated on 1 Battalion and local units operating in the AO. Enemy forces operating in the AO consisted of: elements of the 38th Regiment and local forces of the Quang Da Spec Sector. Elements of the 38th Regiment operating in the AO were the R-20 Battalion, (vic) BT034609, and support elements of the T-89 Sapper Battalion. The Q-82 Company, VC local force, and the X-16 Company, (vic) BT000606, had also been reported in the AO. From 10-31 December in the 3/26 Danang AO there were no major incidents and no large enemy troop concentrations.

2. ENEMY MISSION From 1-9 December in the "MEADE RIVER" AO the enemy mission was to attack U.S. and allied units in and around the area known as "DODGE CITY", also, to support rocket attacks on Danang and Hoi An and support village and hamlet infrastructures. From 10-31 December in the Danang AO the mission of the enemy seemed to be of a passive nature. The enemy had avoided major contact and relied upon minor harrassing tactics with a few isolated perimeter probes. Though we are sure he had capabilities, the enemy seemed content not to use them.

3. WEATHER The maximum temperature for this period was 82° degrees. The low was 71° degrees and the mean temperature was 77° degrees. Average relative humidity was 78% and precipitation totaled 1 inch. The winds were variable at 6 knots.

4. TERRAIN From 1-9 December in the "MEADE RIVER" AO the terrain encountered was mainly flat, fertile lowlands covered by cultivated rice fields. These rice fields are generally double cropped causing them to be inundated the majority of the year. Soils consist of light to heavy clay and there was one dominant terrain feature - an old railroad berm on Route #1. From 10-31 December the Battalion was back in the Dai La Pass cantonment. The terrain in this area consisted of an irregular ground with an average elevation of about 800 meters. The vegetation consisted of very thick brush and elephant grass. There were many types of trees ranging in height from 4-30 feet. Water is plentiful in the lowlands but scarce in the highlands.

5. AVENUES OF APPROACH From 1-9 December in the "MEADE RIVER" AO these avenues of approach were the best afforded; the valley at (vic) ZC1764, the Song Vu Gia River running west to east and the Song Thu Ban River (vic) AT9253 which ran in a northeasterly direction to the operation AO. From 10-31 December, in the Danang AO the best avenues of approach were; "HAPPY VALLEY" (vic) ZC1366 running east to west, the "LITTLE ELEPHANT VALLEY" (vic) AT8585 running west to east-southeasterly and "MORTAR VALLEY" (vic) AT8467.

b. Resupply and troop movements have been accomplished by 1st Motor Transport Battalion and helicopters during the month of Dec.

c. Maintenance support was furnished by FLC and 1st Fbk, Manang. Maintenance support has been adequate during this reporting period.

d. Ordnance support was furnished by ASP-1 and ASP-2 satisfactorily.

e. The Battalion subsisted on "A" and "C" rations for the month of Dec. Food service was satisfactory.

H. COMMUNICATION

1. Message Center. During the first part of December, messages were picked up from and delivered to the 26th Marine Regimental Communications Center. Pick-up was made three times daily except when priority traffic was received. On Operation "MEADE RIVER", 1st Marine Regiment provided a courier service from the field.

A message center for BLT 3/26 was established aboard the USS Tripoli on 29 December 1968. Messages are picked up every two hours from the SLF Message Center and from the SLF Tac Log, unless notification of priority traffic calls for a more hasty delivery.

2. Radio. During most of December, radio nets terminated in the COC. The COC was also up on the Regimental Tac Net. The radio section established a relay site on Hill 55 during Operation "MEADE RIVER", and operated on 1st Marine Regimental Tac and on an administration net between the fire base and 3d Battalion, 26th Marines. On 28 December 1968, the SLF Tac Log was activated for displacement to the USS Tripoli.

3. Wire and Radio Relay. The wire lay-out for the Rock Crusher area was left intact for the convenience of Battalion 2/7 and BLT 3/26 received like item replacements for electrical fixtures left in place.

Radio Relay was set-up during Operation "MEADE RIVER" from 1st Marine Regiment's Alpha CP to the fire base of 3d Battalion, 26th Marines.

4. General. In recent operations in our AO it was found that relay stations were often required to maintain communications with units in the field. It can be expected that this situation will occur any time the battalion has an area of operations in mountains or thick canopy.

1. Personnel The Battalion Aid Station has a total of 56 personnel; consisting of 53 Hospital Corpsman, two Medical Officers and one Chaplain. In addition, for the deployment, the Battalion Aid Station also has a total of 15 Hospital Corpsman attached to supporting units.

2. Capabilities This Battalion Aid Station was capable of treating all minor medical and surgical problems. Patients requiring more extensive care were evacuated to 1st Medical Battalion, NSA Danang, and the USS Repose. At the present time, the BAS is utilizing spaces aboard the USS Tripoli (LPH10) for sickcall, administration, and berthing. Our supplies are being drawn from our 10 day mount out blocks. On the beach, the BAS was utilizing one hardback and one tent for Medical Supply, which were adequate. The BAS is responsible for evacuating seriously injured or ill patients from the operation site.

3. Training The Hospital Corpsman received classroom training and on-the-job training under supervision of the Battalion Surgeon and the Chief Hospital Corpsman on field medical techniques and most diagnostic procedures.

4. Dental The Dental facilities were provided for by the 1st Dental Company. On board were one Dental Corps Officer and one Dental Technician.

5. Malaria Prophylaxis Chloroquine-Primaquine tablets were taken once a week.

6. Sanitation Sanitation reports were submitted to Battalion Commander on a weekly basis with recommendations for improvement.

PART III
SEQUENTIAL LISTING OF SIGNIFICANT EVENTS

02 December 1968

At 0755H, while on a sweep, India Company discovered 2 bunkers and a tunnel in vic of BT008673. Continuing to sweep the area, India discovered a hooch in vic of BT005575. The tunnel, bunker and hooch were destroyed.

At 0800H, Lima-2 discovered a bunker, in vic of AT995573, which was constructed of railroad ties, railroad rails and engineer stakes. It also contained the entrance to a tunnel complex with a reinforced concrete deck. Later in the day at 1000H, Lima-3 found the casing of a 500lb bomb which had been stripped of its internal parts and explosive. The casing was booby trapped and engineers were called to destroy it.

At 1115H in (vic) of BT004576, India found 03 Tunnels and 01 bunker reinforced with steel and 01 hooch. Within the complex they found 02 blasting caps, 2 3/4lbs of C-4, approximately 700lbs of rice, a South Vietnamese I.D. card, a USMC I.D. card and a Geneva Convention card (U.S. type). The complex and all gear were destroyed.

Continuing to sweep between coordinates BT007576 and BT005577, India discovered the following gear during the remainder of the day: 12 rockets still in their containers; 03 60mm rounds; 01 USMC helmet; 02 warneads for a 75mm recoilless rifle; 01 khaki uniform, 01 pair of utility trousers; 01 civilian suit; 01 pair of sunglasses; 01 parachute; 01 frying pan; 01 mosquito net; 01 raincoat; 01 scrub brush; 01 bandoleer of M-16 magazines; 01 M-26 booby trap and 02 gas masks.

At 1230H, the battalion found the following in vic of AT997577: 03 demolished houses with reinforced bunkers, 06 bottles of peas, 01 AK magazine, 13 M-16 magazines, 01 M-16 bipod, 01 pack and 01 flak jacket.

03 December 1968

At 0120H, 01 VC attempted to cross in front of Kilo's position and was spotted through a starlight scope. The enemy was brought under small arms fire and grenades. Results: 01 VC KIA (C).

At 0215H in (vic) BT001579, Kilo spotted 2 VC by using a starlight scope. They opened fire on the two VC with small arms and 01 VC fell. Checking the area out at first light, the body of 01 VC was found.

At 1040H, Alpha tripped a ChiCom booby trap in (vic) of AT997587, wounding 02 USMC personnel.

At 0630H in (vic) of BT001679, Kilo discovered 01 bunker containing approximately 100lbs of rice. The rice and bunker were destroyed.

04 December 1968

At 0950H, Lima began receiving sniper fire from a treeline. Results: 02 USMC KIA; 07 USMC WIA.

At 1400H, Alpha, while searching out a bunker, located in vic of AT996584, received 04 rounds of small arms fire. One CS grenade was thrown into the bunker and 06 people came out. Results: 06 detainees; 03 pistols captured.

04 December 1968

At 1620H, Alpha, while searching a bunker in vic AT995586, captured 05 VC/NVA. Results: 05 weapons and 01 ChiCom captured.

05 December 1968

At 0730H, India received 01 Chieu Hoi in vic of AT014585.

At 1000H, Lima, conducting a search of the area in vic of BT005591, captured and found the following: 07 POW's; 02 bodies; 01 ChiCom machinegun; 01 pouch of documents; 08 bunkers and 1100lbs of rice.

During the period between 1300H and 1700H, 07 bodies of USMC personnel were found by India in vic of BT011584. Also found were: 01 AK-47 and two magazines; 02 ChiCom grenades; 01 case of SKS ammunition and 02 bodies of enemy soldiers in graves. Documents and weapons were sent to S-2; rice and bunkers were destroyed.

At 1630, Hotel was checking a bunker in vic of BT005585 and found 02 VC hiding there. One VC tried to escape and was shot; the other VC was taken prisoner.

At 1900H, Alpha received 05 sniper rounds from the southwest to their rear. One USMC was seriously wounded.

06 December 1968

At 0815, Kilo, while on a sweep in vic of BT011584, found electrical equipment for lighting and comm system equipment. This included 01 voltage regulator, 01 coil, 01 amp meter and 01 electrical switch. Also found was the body of 01 female VC.

At 0930H, India, while searching a bunker complex, found: 01 bag of rice, 02 pair of black trousers, 01 LAAW, 03 womens blouses, 01 khaki pair of trousers, 02 60mm mortar rounds, 03 RPG rounds, 01 M-16 and 17 VC bodies.

At 1030 to 1700, India, while searching out a bunker complex in the vic of BT013587, found 03 LAAW's, 03 sets of documents, 02 ChiCom grenades, 09 VC bodies one of which was a medical officer and medical gear.

At 1600H, Lima, while on a search and sweep in vic of BT008596, captured 01 VC with 01 AK-47. The man was taken into custody and held until removal from the area.

07 December 1968

At 0700H, Delta spotted 02 VC moving toward their perimeter in vic of BT012588 and opened fire on them. A check of the area revealed large amounts of blood and a enemy light machinegun in excellent condition.

At 0830H, a fire team size patrol from Alpha made contact with an enemy force of unknown size armed with a machinegun and an M-79. A reaction force was sent out to reinforce the fire team and they got pinned down. Artillery was called in and maintained to suppress the enemy fire. Results: 8 USMC KIA; 17 USMC WIA; 16 NVA/VC KIA (C).
