PART II

NARRATIVE SUMMARY

Prior to the time of receipt of the initial Warning Order for deployment of the Regiment as a Regimental Landing Team, emphasis within the Command was on advanced tactical training. Units of the Regiment were actively engaged in training exercises involving ready force recall, air movement training and related combat preparedness of a infantry regiment. A continuing emphasis was placed on basic training of the individual Marine in the areas of General Military Subjects, Annual Marksmanship training, RVN orientation and related military subjects, drownproofing and physical readiness testing in addition to scheduled TACTESTS as required by FMFPac directives.

During the months of January and the early part of February units of the Regiment had participated in BLT Airlift exercises to test Contingency Plan 303-67 receiving training which later proved invaluable. This training aided materially to the smooth, efficient execution of the Regimental 303 Plan when ordered to deploy to the Republic of Vietnam.

Although the 27th Marines had little preparatory time prior to the actual movement of troops, equipment and supplies from CONUS to RVN it is considered that the Regiment was in an excellent state of readiness and adequately prepared for execution of the assigned mission when the order was given. As outlined in Part III a few problems did develop during the movement. Of those the most significant was the mass transfer of non-deployables and replacement of these Marines with eligible personnel to meet the combat readiness standards. A few minor problems developed which could not be anticipated such as the change from the basic plan as to movement of bulk cargo which although producing minor problems were resolved without adversely effecting the combat efficiency of the RLT. The Command responded to the order and was amply prepared by the end of February to assume its assigned mission within the Republic of Vietnam as a combat unit of the 1st Marine Division.

PART III

SEQUENTIAL LISTING OF SIGNIFICANT EVENTS1. Significant topics

a. Personnel. During the period 12-20 February this Regiment experienced a personnel turnover of approximately 3400 officers and men. When the Warning Order was received on 12 February 1968 there was some initial confusion on the criteria established for personnel to be eligible for deployment. This was cleared up later in the day and after screening of personnel records it was determined that there were approximately 33 Officers and 643 enlisted within the Regiment eligible for deployment. It was then necessary to transfer out some 1500 non-deployables and concurrently join approximately 1900 personnel in order for the Regiment to deploy at T/O strength. The turnover process was further complicated by the fact that 2/27 began initial deployment commencing 14 February. Thus it was necessary to build to T/O level those units scheduled for early deployment and incoming personnel were fed to the battalions and Headquarters Company according to the immediate needs and T/O. Identifying the non-deployables, processing requests for deferred assignments, obtaining waivers and accomplishing the required personnel accounting necessary to transfer the non-deployables were major problems encountered between receipt of the Warning Order and arrival in Vietnam. The input of personnel from the 5th Division units was characterized to a large degree by an input of non-infantry T/O type MOS's to fill infantry MOS billets. Of particular significance in this area was the assignment of approximately 23 Officers possessing MOS's not rated by an infantry regiment, and the joining of the following enlisted MOS's to fill infantry billets: 50-1345; 671371; 52-1391; 31-1121; 10-1316; 66-1811; 85-1833; 18-2142; 15-3111; and an assortment of other non-infantry MOS's of varying types.

b. INTELLIGENCE

(1) Prior to notification to deploy the Regimental Intelligence Section was engaged in routine security work and tactical planning for a scheduled two (2) day Command Post Exercise in mid-February.

(2) On 13 February the alerting directive was received by the Regiment. The Regimental S-2 immediately joined a Photo Interpreter Team, and Air Observers. Tactical maps and aerial photographs were delivered, inventoried, distributed and packed for shipment. Prior planning for deployment enabled the Intelligence Section to mount out without any major difficulties.

(3) On 15 February the Assistant Intelligence Officer and forward increment deployed for RVN with the remainder of the section following later as scheduled. On 22 February the section completed the move and reformed. Air Observers and Photo Interpreter personnel were transferred to CG, 1st Marine Division for assignment. The airlifted supplies, maps and photos began arriving on 25 February 1968. The

routine distribution of supplies, maps and photographs was accomplished during the period of 25 - 29 February 1968.

c. Training. The Regiment was undergoing extensive training in RVN Orientation, air movement training as well as normal General Military Subjects training at the time the order to deploy was received. Normal preparatory training had been initiated in recall of personnel, and mount out of BLT's by air. Upon receipt of the order scheduled training programs were stopped within the Regiment and the prepared Contingency Plan 303-67 was placed into effect. Upon arrival of troops in the Republic of Vietnam orientation training was increased at all levels of the command. Due to the necessity of reestablishing the CP during the remaining few days of February no formal training programs had been initiated at the end of this specific reporting period.

d. Operations. The major significant event within the areas of operations during this period was the actual utilization of the Regiments' Contingency Plan 303-67 establishing the criteria for just such an event as that which occurred. Although there were a few logistical problems encountered in the move, the operation was carried out quickly, efficiently and as planned. Coordination between the U.S. Air Force (63rd Military Airlift Wing, Norton AFB) and the Marine Corps facilities at MCAS, El Toro proved that prior planning had been adequate. During the few remaining days of this reporting period no major operations had been conducted although subordinate units of the Command did conduct combat patrols, search and destroy missions as well as other normal combat operational requirements deriving from actual commitment.

e. Logistics

(1) Embarkation. On 14 February the first elements of RLT-27 departed MCAS, El Toro. On 23 February the airlift of RLT-27 was completed. A total of 97 aircraft were used to airlift 3,349 personnel and 1,195.65 short tons of cargo from CONUS to RVN.

(2) Ordnance. The one significant item within the ordnance field was that troops of RLT-27 were not armed with the M-16 rifle, and had in their possession the M-14 rifle.

(3) Supply. RLT-27 deployed with only mount out supplies. Operational stock was inventoried and returned to Fleet Stock Account at Marine Corps Base, Camp Pendleton. Upon arrival in country RLT-27 was force fed jungle equipment by 5th FSR and Force Logistic Command.

(4) Motor Transport. All combat essential deadlined equipment was replaced at Camp Pendleton prior to deployment. This was accomplished by redistribution by the 5th Marine Division of required items from other units of the Division not being deployed.

f. Communications. The communications sections of the Regiment encountered no major problems in mounting out on short notice. Although a number of trained communications personnel were transferred out (non-deployables) and new personnel were obtained to replace them, the sections were not adversely effected. Communications equipment was in a high state of readiness for deployment and prior planning for execution of the 303 Plan precluded major problems. Changes made by the embarkation section in the sequence of loading bulk cargo did adversely effect the section's ability to establish CP communications upon arrival in RVN. This problem however was not brought about by the preparation or execution of the 303 Plan by the communications sections of the Regiment; and the interim use of the 1st Marine Divisions assets until the palletized equipment arrived prevented any serious problems.

g. Medical. The Medical department was adequately prepared for deployment and encountered a minimum amount of difficulty deriving from the movement of the Regiment. The major problem encountered was the preparation of health records and immunization of deployable troops. This problem developed from the mass turnover of personnel within a extremely short period of time. With the input of trained medical personnel by the 5th Marine Division as required the Medical Department was able to deploy and once in RVN operate as required with a minimum amount of difficulty. Upon arrival in RVN the section concentrated on insuring that medical standards throughout the Regiment were met and treatment of personnel was accomplished when and where needed.

h. Religion and Morale. During January 1968 moral was at a low point. Upon receiving notification of deployment in February 1968 to the Republic of Vietnam morale took an expected rise for the better. During the period of preparation for mounting out the Chapel helped approximately 1700 dependents of men being deployed. Since being in the Republic of Vietnam the morale has attained great heights the men have an eagerness to perform their duties and problems are of a minimum. There has been a marked increase in spiritual awareness throughout the Regiment which is reflected in Chapel attendance.

Task Organization: Annex A (Task Organization)

1. SITUATION

The tension that persists in many areas of the world today demands continuous maintenance within Fleet Marine Force, Pacific of ready forces capable of mounting out expeditiously by airlift or sealift for the conduct of independent military operations, or as the initial element of a larger force.

a. Enemy Forces

- (1) See Annex B (Intelligence)
- (2) Available current intelligence will be issued upon the execution of this Plan or designation of a specific objective area.

b. Friendly Forces. To be promulgated at the time of execution of this Plan.

c. Attachments and Detachments

- (1) Attachments are effective for planning 30 days prior to assumption of ready force status and for operations on order.

d. Assumption. That any air movement will be to an air field controlled by friendly forces where final staging and preparation can be conducted.

2. MISSION

27th Marines (-) (Rein) maintains two (2) BLT's and a RLT Headquarters in readiness for movement on order by airlift or by sealift as appropriate to assist in the protection of U. S. Nationals and property; to conduct show of force operations; to conduct an amphibious or helicopter assault over a defended beach; to participate in or conduct

the defense of an advanced Naval base or other U. S. installation or to conduct very limited offensive operations provided that logistic support is available.

3. EXECUTION

a. Concept of Operations

(1) General. This Plan establishes conditions of readiness, required reaction times and procedures for recall, marshalling and movement to enplaning airfields of two (2) BLT's and a RLT Headquarters, or recall, staging, embarkation and movement by sealift of a BLT or RLT (-), or movement of these forces by a combination of air/sealift in support of the requirements of reference (a) and/or any other similar commitments which might be placed on this organization. The assigned specific mission and details concerning the situation and areas of operation will be provided to units subsequent to the time of alert. Ready force assignments are contained in Annex C to reference (a) or in directives issued by this Headquarters.

(2) Airlifted Forces

(a) One (1) BLT identified as "BLT ALFA" and the RLT Headquarters are prepared to move from designated marshalling areas by increments to the departure airfield within 24 hours after notification. One (1) BLT identified as "BLT BRAVO" is prepared to move within 48 hours after notification to a departure airfield.

(b) The increments for BLT ALFA and the RLT Headquarters are contained in Appendices 1 and 2 to Annex A. BLT BRAVO will be incremented in the same way as BLT ALFA.

(c) Control of ready forces will be exercised during Phases I and II from the command center in Building 33341. Upon establishment of the Staging and Loading Support Group Center at the departure airfield control will shift to that center.

(d) Air movement will be conducted in accordance with ref b.

(3) Sealift Forces

(a) An RLT, or any of its attached BLT's employed independently, is organized to support contingencies requiring those size forces and is prepared to complete embarkation aboard designated shipping within 96 hours after notification of alert.

(b) Preparation for movement and embarkation will be conducted in accordance with RLT-27 Embark Plan 303-67.

b. RLT-27 Headquarters

- (1) Assume duties as an element of the airlift/sealift Ready RLT in accordance with reference (a).
- (2) When directed by 5th Marine Division designate Ready Force BLT's from the 27th Marines by message.
- (3) Notify Commanding General, 5th Marine Division of the unit designation of the battalion assigned as the BLT Ready Force if the assignment is made by this Headquarters.
- (4) Conduct essential training to maintain readiness to mount out by air (Increments 10, 11, and 12) and/or sea. Notify Regimental S-3 of any special training requirement generated to support this Plan.
- (5) Prepare plans for the organization and marshalling of personnel, supplies and equipment in preparation for movement by air (Increments 10, 11, 12), or sea.
- (6) Provide personnel and equipment as required to assist subordinate battalions in organizing, marshalling and inspecting Ready Forces (See RLT-27 Embarkation Plan 303-67).
- (7) Be prepared to activate required movement/embarkation coordination control points (S-4) and a Command Center in the Regimental War Room (S-3/CommO).
- (8) Upon being alerted, submit to the 5th MarDiv (-) (Rein), the personnel and equipment augmentation required from sources external to the Regiment to place the ready unit in the required readiness posture.
- (9) Be prepared to commence movement to the departure airfield within 24 hours of notification for mount out by air.
- (10) Be prepared to complete embarkation within 96 hours of notification of alert for mount out by sea.

c. BLT /27

- (1) Conduct essential training to maintain readiness to mount out by air or sea. Request from this Headquarters any special training assistance required to support this Plan.
- (2) Prepare plans for the organization and marshalling of assigned BLT Ready Forces by air (Increments 1-9) and/or by sea.
- (3) Determine and submit to this Headquarters within two (2) hours after notification of alert, personnel and equipment augmentation necessary to bring the ready force to the desired level of readiness. Ready units will maintain current listings of personnel and equipment shortages in accordance with RLT-27 Admin Plan 303-67.

- (4) Assume Ready Force duties when directed by reference (a) or directives issued by this Headquarters.
- (5) When designated as BLT ALFA:
 - (a) Maintain 50% of assigned personnel on board at all times.
 - (b) Ensure required embarkation data and personnel listings are updated and available for rapid enplaning.
 - (c) Notify this Headquarters by classified message, 72 hours prior to assuming the ready status that the unit has accomplished the actions set forth in Annex C and is fully prepared to assume the Ready Force responsibilities. Utilize the format contained in Appendix 2 to Annex C.
 - (d) Be prepared to commence movement within 24 hours of notification to the departure airfield.
- (6) When designated as BLT BRAVO:
 - (a) Liberty or leave will be authorized consistent with the units ability to comply with this Plan .
 - (b) Ensure required embarkation data and personnel listings are available for enplaning.
 - (c) Notify this Headquarters by classified message 72 hours prior to assuming the ready status that the unit is fully prepared to assume Ready Force responsibilities. Utilize the format contained in Appendix 2 to Annex C.
 - (d) Be prepared to commence movement within 48 hours of notification to the departure airfield.
- (7) When assigned as an attached BLT of the Ready RLIT Sealift Force:
 - (a) Liberty or leave will be authorized consistent with the units ability to comply with this Plan .
 - (b) Conduct essential training, organize equipment and supplies, and accomplish other actions as required to maintain readiness to mount out by sea completing embarkation within 96 hours after notification of alert.
 - (c) Notify this Headquarters by classified message 72 hours prior to assuming the ready status that the unit is fully prepared to assume Ready Force responsibilities. Utilize the format contained in Appendix 2 to Annex C.

- d. 5th Service Battalion. Prepare plans for recall, organization and marshalling of organic personnel and equipment assigned to the Logistic Support Unit. Coordinate recall and preparation for non-organic units through parent Headquarters (Airlift BLT only).
- e. Coordinating Instructions
- (1) This Plan cancels and supersedes reference (c). It is effective for planning upon receipt and execution on order.
 - (2) The Ready Force is composed of the airlift and sealift elements listed in Annex A when assigned in accordance with Annex C to reference (a), and/or directives issued by this Headquarters. Ready Force duty is assumed as of 0800 on the dates indicated.
 - (3) Commanding Officers of units designated to support ready infantry units will assign reinforcing elements, trained, formed, equipped and supplied for attachment in accordance with reference (a) and this Plan. Changes in the assignment of attached units will be coordinated with the supported unit commander and reported to this Headquarters. This Headquarters and the supported unit commander will be advised immediately of any significant change in the readiness categories of assigned elements.
 - (4) Commanding Officers of units comprising Ready Force BLT's and/or RLT's will establish a system to inspect organic mount out supplies and equipment to insure complete readiness prior to reporting to the Ready BLT/RLT. A report of readiness to include an update of embarkation data, if required, will be made to the Airlift Ready Force Commander not later than 96 hours before assumption of the Air Ready Force duty and to the appropriate Sealift Ready Force Commander not later than 7 working days before assumption of the sealift ready force duty. In the case of elements of the BLT (Air) LSU, embarkation data will be provided both to the 5th Service Battalion and the Ready Force Commander.
 - (5) Commanders assigning reinforcing elements to infantry units will prepare plans supporting the timely mount out of those elements which are in consonance with the time requirements of reference (a), and the supported infantry unit's plans.
 - (a) Ten (10) copies of all RLT and BLT plans and orders shall be provided to 5th Marine Division.
 - (b) Five (5) copies of all BLT plans and orders shall be provided this Headquarters.
 - (6) Emphasis will be placed on the training of vehicle drivers, tie down crews, and embarkation personnel to insure that adequate personnel are trained and available.

- (7) All units/elements of the Ready Force will prepare plans to rapidly recall all personnel upon notification of alert to execute this Plan. Staff/Duty personnel will have available at all times alert folders containing copies of appropriate orders and up to date recall lists.
 - (a) Ready Force unit commanders will insure that all elements of their Task Organizations receive notification of practice or actual alerts.
 - (b) 5th Service Battalion coordinate the planning for, and recall of elements assigned to the BLT (Air):LSU. through parent headquarters of respective units and agencies involved in accordance with reference (a).
 - (c) See Annex D (Alert Procedures and Instructions)
 - (d) Parent units of personnel assigned TAD to Marine Corps Base activities or attending local schools are authorized direct liaison to request the appropriate MCB activity/school to release the personnel for the purpose of final preparation to achieve the necessary readiness posture and for briefing and inspection. Any difficulties or problems encountered will be reported to this Headquarters.
- (8) Notification of establishment of an alert readiness condition to begin recall and marshalling of forces will be on order of 5th Marine Division.
- (9) All units/elements of the Ready Forces will prepare plans for the organizing and marshalling of their respective organic personnel and equipment. 5th Service Battalion will coordinate the organization and marshalling of personnel assigned to the Logistic Support Unit through the parent headquarters of respective units. (BLT (Air) only).
- (10) Designated Ready Force Commanders will insure that their forces are organized and marshalled, ready in all respects for movement within the time prescribed above.
- (11) When prepared for movement to enplaning areas/PCE, Ready Force Commanders will notify this Headquarters (S-3 Ext. 4619) and 5th Marine Division (G-3 Ext. 2123) by telephone and follow with confirmation by message (See Enclosure (1) to Tab B of Annex D). Once an airlift BLT reports readiness for movement, operational control may pass at any time from parent regiment to Commanding General, 5th Marine Division (-) (Rein). Operational control will be shifted upon order of 5th MarDiv.
- (12) 5th Marine Division is responsible for the movement of Ready Forces (troops, equipment and supplies) from the marshalling/staging areas to the enplaning/embarkation point.

- (13) Upon receipt of notification of readiness, 5th Marine Division will either dispatch the alerted unit to enplaning/embarkation areas or set further conditions of alert. It is anticipated that, once marshalled, alerted units will be placed in a six (6) hour reaction status if air mount out is directed and twelve (12) hours if sea mount out is directed.
- (14) All Ready Forces be prepared to conduct practice mount outs ordered by Commanding General, 5th Marine Division or this Headquarters, which may extend to actual enplaning and fly away, or movement to sea as a phase of the practice exercise.
- (15) Parent headquarters of ready force elements will provide assistance as required during planning, movement and enplaning/embarkation. (See RLT-27 Admin Plan 303-67).

4. ADMINISTRATION AND LOGISTICS

RLT-27 Administration Plan and Embarkation Plan 303-67

5. COMMAND AND COMMUNICATIONS-ELECTRONICS

a. Communications-Electronics

- (1) Communications will be in accordance with reference (a) as modified by subsequent instructions included in Annex I (Communications-Electronics).
- (2) Recall plans will be coordinated with the Base Communications-Electronics Officer for assistance and to obtain more Class "A" phones.
- (3) Movement reports will be submitted in accordance with references (e) and (f).
- (4) Message reports will be submitted to appropriate commanders. (See Annex R Reports).
- (5) A complete allowance of RPS distributed publications will be on hand at the time of departure of Ready Forces. Materials will be segregated in three (3) categories for airlift; (1) publications; (2) machines, and (3) Rotors. Each category will be carried on separate aircraft (ALFA and BRAVO Forces) and will be provided required security and accountability in accordance with current directives.
- (6) Upon deployment from Camp Pendleton, assigned call signs and frequencies may continue to be used, or upon arrival in the objective area new call signs and frequencies may be designated. Radio frequency plans will be issued before the departure of Ready Force BLT ALFA to include communications procedures in the objective area.

- (7) Concurrent with a BLT's Ready Force assignment, local area frequencies will be requested in accordance with reference (g), if required to conduct practice mount outs.
- (8) Embarkation communications will be in accordance with references (a), (d), (f) and RLT-27 Administrative Plan 303-67.
- (9) Upon execution of Phase I (Recall) RADIO SILENCE is imposed on all Regimental radio equipment.
- (10) Battalions submit communication personnel, equipment, and repair parts support requests to this Headquarters.
- (11) Convoy and embarkation control communications will be provided by units external to deploying units.

b. Command Posts

- (1) The RLT Command Post during the recall and marshalling phases will be in the War Room, Building #33341.
- (2) BLT 2/27 and 3/27 Command Posts are located initially in Buildings #33453 and #33351 respectively.

Annex A (Task Organization) to Operation Plan 303-67

Ref: (a) 5th Marine Division Operation Plan 303-67
 (b) CG, 5th MarDiv ltr 3/CEN/wff 3121.1 of 24 Oct 67

Time Zone: U/T

1. GENERAL

- a. This annex is based on references (a) and (b) and planning data provided by the task organized units.
- b. The task organizations contained herein will be used as the basis for all deployments and drills during which OPPLAN 303-67 or any portion thereof is implemented. Additions or deletions from these Task Organizations will be contained in the alerting message, or other directives published on each occasion that the Plan is executed.
- c. The figures shown are the best available estimates of the strengths units would deploy with using manning level as the guide in most cases. It is anticipated that some changes might be necessitated as more information is received relative to the mission and objective area of the Ready Force.

2. AIR MOVEMENT TASK ORGANIZATIONS

- a. Appendixes 1 and 2 pertain to the Ready Air Lift BLT and RLT Headquarters. These Task Organizations are divided into the increments by which marshalling and movement will be accomplished if the Air Lift portion of the plan is executed.
- b. The incrementation or Task Organization of the Ready Force BLT may be modified by the Ready Force BLT Commander as dictated by operational requirements. This Headquarters will be advised immediately of any changes.

3. SEA LIFT TASK ORGANIZATIONS

- a. Appendixes 3 and 4 contain tentative Task Organizations for Sea Lift Ready Forces. These Task Organizations have been developed in detail because of the short time available for staging, loading and embarkation. These Task Organizations together with Annex I (Landing Plan), Admin and Embark Plans 303-67 are designed to provide the Ready Force BLT Commander with sufficient information to allow him to execute this plan in a timely manner.

b. Appendix 3 may be modified by the Ready Force BLT Commander as required by the operational situation. This Headquarters will be advised immediately of any changes.

BY COMMAND OF COLONEL CASTAGNA

N. G. RODES

Lieutenant Colonel, U.S. Marine Corps
Executive Officer

 (c) 5th MarDiv Operation Plan 303-67

Time Zone: U/T

1. SUMMARY OF ENEMY SITUATION. Intelligence studies and summaries will be issued when contingency area(s) are assigned.
2. ESSENTIAL ELEMENTS OF INFORMATION. To be determined and distributed by higher headquarters.
3. RECONNAISSANCE AND OBSERVATION MISSIONS.
 - a. Orders to subordinate units. To be determined.
 - b. Requests to higher, adjacent and supporting units. Higher headquarters will be requested to provide information to support this mission.
4. MEASURES FOR HANDLING CAPTURED PERSONNEL, DOCUMENTS AND MATERIAL.

In the event that ready BLT ALPHA/BRAVO is deployed as a separate unit (i.e., the RLT Headquarters is not deployed) and the mission requires the assignment of linguists, such linguists will be provided as directed by Commanding General, 5th Marine Division. Captured personnel, documents and materials will be handled in accordance with the Regimental Intelligence SOP.

5. MAPS, CHARTS AND PHOTOGRAPHS

When probable objective areas are determined maps, charts and photographs will be obtained by the ready BLT ALFA/BRAVO/RLT Headquarters through supply point distribution from the Division Map Room in the numbers listed in Section IX, Graphic 1 of reference (a). A recommended breakdown and utilization of these maps is shown below. In the event required maps are not available, emergency requirements will be prepared by Commanding General, 5th Marine Division and maps will be delivered to subordinate units.

6. COUNTERINTELLIGENCE

a. References (a), (b) and Appendix 1 apply.

b. Summary of Counterintelligence Situation

- (1) Counterintelligence information will be disseminated as obtained. The principle enemy capabilities of concern to the ready units are sabotage, espionage and subversion.
- (2) The Communist bloc is known to have a clandestine collection capability within the U. S.. In addition, members of the Communist Party of the United States, and those who sympathize with that party, may be expected to provide the enemy with a large and reasonable effective intelligence gathering potential.
- (3) The primary enemy effort during the staging and mounting out phases will probably be directed toward sabotage such as the introduction of fire bombs in supplies and ammunitions, sugar or sand in fuel tanks and drums, and abrasives in lubricants; communications intercept; the questioning of personnel; and subversion; characterized by propaganda efforts to undermine the morale of personnel.
- (4) Liaison will be established through higher headquarters with the appropriate agencies for monitoring suspected political groups.

c. Military/Civil Security. (See Appendix 1)

d. Censorship

- (1) Mail and communications censorship will be instituted only when directed by Commanding General, 5th Marine Division.
- (2) Refer all news media inquiries regarding alert status of ready force to Commanding General, 5th Marine Division (Attn: JISO).

e. Special Operations. The Commander, 13th Counterintelligence Team

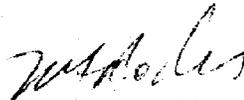

will be prepared to advise and assist ready force commanders in the implementation of counterintelligence matters affecting the unit.

- f. Civic Action. The Ready Force Commander must be prepared to institute civic action programs within the assigned objective area. The extent of these programs will be determined by higher headquarters and/or by the commander, dependent upon the situation existing within the area.

7. REPORTS AND DISTRIBUTION

Report immediately information of actual or suspected espionage, sabotage or subversion to this Headquarters (Attn: S-2).

1. Instructions

- a. These check lists will be maintained during normal working hours in the respective unit S-2 Sections. All units will provide their duty officer with instructions pertaining to the location and use of the checklists in the event the alerting directive is received after normal working hours.
- b. When the alerting directive is received the procedures set forth in Tab A, (Phase I Recall) to Appendix 1 (Military/Civil Security) to Annex B (Intelligence) to Operation Plan 303-67 shall be executed in the sequence listed by the S-2 section of the alerted force or by the duty officer after normal working hours. Close coordination with the unit S-3 must be maintained to insure the timely completion of this checklist.
- c. Completion of Phases II and III checklists will be coordinated by the unit S-2.
- d. Checklists will be maintained as a permanent record. For each item, enter the actual time a message or telephone call is received or sent, the telephone number of the organization calling or called and the name and rank of the person delivering or receiving the message.

1. Phase I - Recall

- a. Establish and maintain adequate internal security, emphasizing surveillance over and protection of communications facilities, supply and ordnance storage areas and motor transport parks. (Unit Commanders)
- b. Cancel, or curtail to the degree dictated by the situation, use of pay telephones in your area. Limit use of government telephones to official business only. Telephone security will be observed at all times. Under no circumstances will the unit designation and call sign be used together over the telephone nor military classified or sensitive information be discussed. (Unit Commanders).
- c. Establish road blocks at all points of vehicular entrance or exit from 33 Area and allow only authorized personnel/vehicles to enter the area. (Regimental OOD)
- d. Emphasize security discipline in command posts, and elsewhere.
- e. Implement strict visitor control within ready force area. Visitors on official business will be allowed in the area to accomplish their business. Dependents with urgent business or immediate problems will be referred to the Dependent Control Point in the Regimental Library. (Regimental Chaplain)
- f. Use authorized call signs frequencies, authentication and couple codes unless a modification to the present code is published by higher authority.

Time Zone: U/T

1. The following action will be taken by Ready Force units prior to assuming Ready Force responsibilities.

- a. Review and update all recall rosters.
- b. Insure all embarkation data is current.
- c. Designate marshalling areas.
- d. Designate increment commanders.

e. Insure that the required number of trained drivers, tie down personnel, and embarkation personnel are available to effect rapid efficient enplaning/embarkation. (Notify this Headquarters immediately if additional training is required).

f.. Prepare and maintain a folder available to unit duty officers containing as a minimum:

- (1) This Operation Plan
- (2) Recall lists
- (3) Unit notification lists

(4) Appropriate unit directives governing the conduct of actions relative to the execution of this Plan.

g. Using the format contained in Appendix 2 to Annex C submit a message report of readiness to assume Ready Force responsibilities 72 hours prior to the assignment date contained in Annex C to reference (a) or directives published by this Headquarters.

Annex D (Alert Procedures and Instructions) to Operation Plan 303-67

Ref: None

Time Zone: U/T

1. GENERAL

a. This order will be executed in three (3) phases:

- (1) Phase I - Recall Phase
- (2) Phase II - Marshalling/Staging Phase
- (3) Phase III - Movement to the Enplaning/Embarkation Points

2. ALERTING DIRECTIVE

a. Normally the alerting directive will be issued by CG, 5th Marine Division at least 24 hours prior to the execution of Phase III. A situation may arise which requires the execution of Phase III in less than 24 hours.

b. The alerting directive will be of the classification required, of immediate precedence and addressed to the Ready Force and other major commands concerned with the execution of the plan. It will contain the following elements of information:

- (1) Phases of Operation Plan 303-67 to be executed.
- (2) Task Organization: Designate ready force as shown in Annex A, or a revised Task Organization.
- (3) Situation: Will include appropriate enemy and friendly information as available.
- (4) Mission.
- (5) Logistics Instructions: Includes designation of embarkation/enplaning points.
- (6) Fiscal Instructions.
- (7) Personnel Instructions: Will include personnel criteria for deployment and other information.
- (8) Informational Services Instructions.
- (9) Type and Quantity of Lift Transportation.
- (10) Command and Communications Instructions.

c. Upon receipt of the alerting directive the procedures outlined in Appendix (1) to Annex D will be executed.

3. REPORT OF READINESS. When prepared for movement from marshalling area the Ready Force Commander will make a report to 5th Marine Division utilizing the format contained in Enclosure (1) to Tab B to Annex D.

Time Zone: U/T

1. Instructions

a. These check lists will be maintained during normal working hours in the respective unit's S-3 Section. All units will provide their duty officer with instructions pertaining to the location and use of these check lists in the event the alerting directive is received after normal working hours.

b. When the alerting directive is received the procedures set forth in Tabs A, B and C shall be executed by the Duty Officer, by the cognizant staff section of the alerted force, or by an element of the Loading Support Group. These check lists will be maintained as a permanent record. When appropriate, enter the actual time a message or telephone call is received or sent, the telephone number of the organization calling or called and the name and rank of the person delivering or receiving the message. Appropriate note will be made in the space provided.

c. When contacting subordinate units during working hours, call the first one of the following Officers who can be reached by telephone:

Commanding Officer, Executive Officer, Operations Officer. After normal working hours, call the Duty Officer.

PHASE I - RECALL

ALERT PROCEDURE	TIME	TELEPHONE NUMBER	PERSONNEL CONTACTED
1. Alert directive received.			
a. Retain one copy for reference.			
b. If the initial alert directive is received by phone verify it by making a return telephone call to the issuing officer.		2137/ 2123 4619	G-3 5th MarDiv S-3, 27th Mar
2. Notify Base Telephone Officer that recall procedures are being instituted.		2332 DWH 4500 AWH	
3. Commence emergency recall of all personnel. (Use Class "A" phones only for off base calls).			
a. Do not utilize public news media unless authorized by CG, 5th MarDiv.			
b. Notify all organic and task organized units (a phone listing will be maintained by all units of the numbers to be called).			
c. Notify all units of Marine Corps Base that have personnel attached to them from the Ready Force to return these personnel to their parent organization immediately.			
4. Headquarters of all Ready Force units and all supporting units will be fully manned until secured or placed in another readiness status by CG, 5th MarDiv.			

D-1-A-1

<u>ALERT PROCEDURE</u>	<u>TIME</u>	<u>TELEPHONE NUMBER</u>	<u>PERSONNEL CONTACTED</u>
5. Inform all sections to remain fully manned until secured by the alerted force commander.			
6. Implement security measures as outlined in Annex B (Intelligence) of this Plan.			
a. Regimental OOD establish road blocks to control traffic on all vehicular access roads into Camp MARGARITA.			
b. Allow only authorized personnel to enter the 33 Area.			
c. Regimental Chaplain establish a Dependent Control Center in the Regimental Library to handle immediate and serious personal problems of personnel and their dependents. Dependents desiring to enter the 33 Area will be directed to this Center.			
7. Instruct communications officer to activate Ready Force Communications Center.			
a. Field radio equipment will be activated only upon direction of this Headquarters.			
8. Appoint Liaison Officers to effect liaison with Regimental Headquarters and be prepared to effect liaison upon order, between the CG, 5th MarDiv and the Ready Force Commander.			
9. Determine, coordinate and confirm transportation requirements. (See Admin and Embark Plans).			
10. Instruct medical section to complete medical processing of all troops. (See Admin Plan).			
11. Instruct all administrative sections to complete the administrative processing of all troops. (See Admin Plan).

PHASE II (MARSHALLING/STAGING)

ALERT PROCEDURES	TIME	TELEPHONE NUMBER	PERSON CONTACTED
------------------	------	------------------	------------------

1. Insure marshalling areas are designated and promulgated to all participating units.

a. Marshalling areas for organic troops, equipment, and supplies will be determined by the Ready Force Commander if not already designated.

b. Insure that coordination has been accomplished with CO, 5th Svc Bn for staging of non-organic supplies and equipment.

5301/
5478

2. Institute security measures as outlined in Annex B and the Embark Plan. The Ready Force Commander will be responsible for marshalling area security. The Ready Force Commander will be responsible for security at the POE (Sea Lift). CG, 5th MarDiv will provide augmentation personnel as required and requested.

3. Process personal effects in accordance with Base Order 4050.2.

a. Stow personal effects in locked seabags and/or cardboard boxes marked with the individuals name, rank, serial number and organization.

b. Determine area for storing private automobiles. Obtain and tag keys of all privately owned vehicles. Require disposition instructions be submitted with the keys to insure that orderly disposition may be made in the event deployment becomes permanent.

PHASE II (MARSHALLING/STAGING)

ALERT PROCEDURES	TIME	TELEPHONE NUMBER	PERSON CONTACTED
4. Coordinate with and assist higher headquarters in establishing communications with marshalling and staging areas.			
5. Notify organizations responsible for providing transportation and coordinate and confirm transportation of increments subsequent to the initial move.			
6. Contact DivMTO to insure each convoy will contain one wrecker and one stand-by vehicle for each type vehicle involved.			
7. Insure DivPMO is prepared to provide MP control and coordinate with the Marine Corps Base Provost Marshal for control of all convoy movement.		2351/ 2300	
8. Return custody of garrison property and buildings to appropriate parent unit.			
9. Move deploying troops and equipment to designated marshalling areas.			
10. When ready for movement to enplaning point/POE, Ready Force Commander will notify Assistant Chief of Staff, G-3 by telephone and follow with confirmation by message.(Enclosure (1) to Tab B to Annex D).		2123/ 2137	
11. Appoint Sortie Commander if not already designated and distribute Sortie Commander Check Lists if movement is to be by air.			
12. Inspect the marshalled Ready Force prior to the movement to the embarkation/enplaning point.			
13. Notify this Headquarters as to the requirements for the use of the UH-1E helicopter to be assigned to the Ready Force Commander.

Administrative Plan 303-67 to accompany Operation Plan 303-67

Ref: (a) DivO 4000.1
(b) RLT-27 Embarkation Plan 303-67
(c) RLT-27 Operation Plan 303-67

Time Zone: U

1. SUPPLY

a. Logistic Concept

- (1) This plan provides for the logistical support of a Regimental Headquarters and 2 BLT's to be airlifted into the objective area. These units will be self sustaining for a period of 5 days. This plan further provides for the logistical support for a surface lifted Regimental Landing Team which will be self-sustaining for a period of 30 days.

b. General.

(1) Supply Sources

- (a) The 5th Service Battalion will be the source of all classes of supply and higher echelon services and maintenance during initial deployment and until enplaning/embarkation is completed.
- (b) The Beach Support Area/Logistic Support Area will be the source of supply and higher echelon maintenance and services upon arrival in the Objective Area.
- (c) The CG, 5th Marine Division will direct withdrawal of Class I, II (replenishment items only), III, IV and V. The foregoing supplies will be delivered to the Marshalling Areas or Staging Areas at the POE/departure airfields as requested by the Ready BLT/RLT Commanders.
- (d) Combat essential items not readily available will be exchanged upon the direction of this Headquarters. Upon receipt of the warning order, units will notify this Headquarters of its requirements in order that arrangements for replacements can be made.

(2) Prescribed Load(a) Class I

- 1 MCI - 3 MCI per individual.
- 2 Fuel Compressed Trioxane - one bar per MCI
- 3 Water - one gallon per individual, to include 2 canteens per individual.

(b) Class II - Minimum Essential(c) Class III

- 1 Fuel tanks of all vehicles and equipment to be driven from marshalling areas to POE/departure airfield will be full, all other vehicle and equipment fuel tanks will be 3/4 full except the M274's which will be 1/2 full when staged in marshalling areas.
- 2 Filled five gallon expeditionary cans will be furnished to provide one can per 1/4 ton vehicle and three cans per 3/4 ton vehicle or larger.
- 3 One five gallon expeditionary can of 30 wt oil per five vehicles.

(d) Class IV. - To be carried by the Logistic Support Unit.(e) Class V. - Basic Allowance.c. Supplies and Equipment Available

(1) Supplies and Equipment to be carried in addition to prescribed load.

(a) Class I

1 MCI

Air: 4 days

Surface: 15 days

2 Fuel, Compressed, Trioxane - 1 bar per MCI.

- 3 Ration Supplement Sundries Pack - 15 Days. (Surface)
- 4 Ration, Operational "B" - 15 days (Surface).

(b) Class II

1 Air:

- a Organic T/E and T/A Allowances less field messing and NBC equipment.
- b Repair parts - 30 days 2d echelon parts.
- c Consumable supplies - 5 days.
- d Medical supplies - 10 days
- e Batteries, dry cell - 5 days plus initial requirements.

2 Surface.

- a Initial T/E and T/A allowance.
- b Mount Out - 30 days.
- c Batteries, dry cell - 30 days.
- d Medical and Dental supplies - 30 days.

(c) Class III

1 Air:

- a Mogas and Diesel - 5 days.
- b Special oils, lubricants and packaged products - 5 days.

2 Surface

- a Mogas and Diesel - 2 days.
- b Special oils, lubricants, and packaged products - 30 days.
- c An additional 30 days Mogas and diesel will be carried if no POL sources are available in the objective area.

(d) Class IV

	BLT <u>AIR</u>	BLT <u>SUR</u>	RLT <u>AIR</u>	RLT <u>SUR</u>
1 Bag, burlap, pk	10	500	30	1000
2 Concertina, 50ft, rl	10	250	30	500
3 Post, 2 ft, ea.	-	1000	-	2000
4 Post, 3 ft, ea.	40	500	120	1000
5 Post, 5 ft, ea	20	400	60	800
6 Barbed Wire, coil	10	250	120	1000

(e) Class V

1 Air: 5 DOA or B/A which ever is greater (includes prescribed load).

2 Surface: 30 DOA plus B/A

(f) Water

1 All water cans and water trailers full.

(g) Medical

1 Salt Tablets.

a 5 days, airlifted units.

b 30 days, surface lifted units.

d. Supplies and Equipment to be maintained in the Objective Area

(1) All units will maintain the prescribed load.

(2) U S Forces present in the objective area will be the only service and supply support available other than organic assets, until the establishment of normal supply and service support. Procurement will be at the direction of this Headquarters.

e. Control

(1) Surface Lifted Units

- (a) Tac-Log Groups will be formed at the RLT Level on the primary Control Ship and will be composed of representatives from each BLT, Artillery and LSG.
- (b) During the landing, units will request for On Call, Non-Scheduled Serials and supplies from Shore Party Teams. In the event of communication failure, requests will be submitted to the Tac-Log via tactical or command radio nets.

f. Distribution

- (1) Unit distribution of Class I, IV, and V supplies to front line infantry units; supply point distribution of Class I, IV and V supplies for all other units. Supply point distribution of Class III supplies for all units.
- (2) Supply requests will be submitted in accordance with reference (a).

g. Resupply

- (1) Air: Follow-up shipping will carry the remaining supplies and equipment to the objective area for air lifted units. Resupply by air will be employed to support airlifted units until arrival of surface shipping.
- (2) Surface: Follow-up shipping arrangements to resupply Division units will be made by 5th Marine Division Headquarters.

2. EVACUATION AND HOSPITALIZATION

- a. See Annex A (Medical)

3. TRANSPORTATION

- a. Movement of personnel, supplies and equipment to point of embarkation or to departure airfield will be in accordance with the provisions of reference (b).
- b. Control in the Objective Area.
 - (1) Highway
 - (a) Main Supply Routes will be established later.

- (b) Traffic within the BSA will be controlled by the BSA Commander.
- (c) Traffic within the LSA will be controlled by the ISG/LSU Commander.
- (d) Each unit will be responsible for traffic control measures within its respective zone of action.
- (e) Traffic moving toward front line units will have priority over traffic moving rearward, except ambulances.
- (f) Units responsible for traffic Control will identify and post road security conditions in accordance with the following color code.

1 Red Road - High probability of enemy contact.

- a All personnel will be armed.
- b Movement will be by convoy only.
- c Convoy guard will be required.
- d No night vehicular movement.

2 Yellow Road. - Risk of ambush possible, but not probable.

- a All personnel will be armed.
- b Convoy guard will be required.
- c Movement at night will be by convoy only.

3 Green Road - Minimum risk of ambush.

- a Armed guard with each vehicle.
- b Single vehicle authorized to move without restriction.

(2) Security and Minimum Convoy Requirements

- (a) All vehicles which move on roads coded red and yellow will meet the following security requirements.

- 1 3 to 5 vehicles - one reinforced rifle squad, truck mounted.
- 2 6 to 15 vehicles - two reinforced rifle squads, truck mounted.
- 3 16 to 30 vehicles - one reinforced rifle platoon, mounted in three trucks.

- (b) Convoys will be scheduled at irregular intervals.
- (c) Convoy Commanders will be briefed on the enemy activity along the prescribed route immediately prior to departure.
- (d) Convoy Commanders will be provided with adequate communication equipment to maintain contact with its parent unit.

(3) Restrictions

(a) Speed Limits

1 Daylight

a Improved roads - 35 MPE.

b Unimproved roads - 20 MPH.

2 Darkness. - 15 MPH.

3 Blackout drive light or blackout marker - 10 MPH.*

- (b) Under blackout conditions, all vehicles traveling through Command Posts or in an area where troops might be bivouaced will be preceded by a guide on foot.

4. SERVICE

a. Functions

(1) Construction

- (a) Initially construction will be limited to combat support.
- (b) As the demand for combat support decreases, construction required to rehabilitate civil facilities will be authorized. Opportunities to assist in civil construction projects will be reported to this Headquarters, identifying the location and nature of the project.

(2) Maintenance

- (a) Units will exert maximum effort to fully utilize its own 1st and 2d echelon maintenance capabilities before requesting assistance in 2d echelon maintenance support.
- (b) Backup 2d and 3d echelon maintenance services will be provided by the LSG/LSU for all equipment.
- (c) Unit Commanders will insure that adequate security is provided for all equipment which becomes inoperative until it is evacuated to a secure area.

(3) Salvage

- (a) Location of salvage collection points will be announced.
- (b) Units receiving supply point distribution will deliver salvage to collection points.
- (c) Units receiving unit distribution will advise the BSA/LSA of the location, nature and quantity of salvage for collection.
- (d) Captured material will be handled in accordance with Annex B (Intelligence) to Operation Plan 303-67.

b. Assignment of Responsibilities(1) Landing Force Shore Party

- (a) Task Organization. The Landing Force Shore Party will be task organized in accordance with the provisions of Annex A (Task Organization) to RLT Operation Plan 303-67.
- (b) Concept of Operations. Shore Party support will be provided initially by landing one SP Team over each numbered beach. Each team will develop a Beach Support Area that will provide the facilities necessary to support the landing of troops, equipment and supplies over designated beaches; for the evacuation of casualties; security of POW's; for the provisions of traffic control and beach security until relieved by the Logistic Support Group/Unit.

(c) Execution

- 1 Prepare unloading points.
- 2 Clear beach exit roads.
- 3 Remove beach obstacles and assist vehicles in moving from beach areas.
- 4 Clear areas for and establish supply and maintenance installations.
- 5 Prepare and mark helicopter landing site in the vicinity of each Shore Party Team evacuation station.

(2) Logistic Support Group/Unit

- (a) Task Organization. The Logistic Support Group/Unit will be tasked organized in accordance with the provisions of Annex A (Task Organization) to RLT Operation Plan 303-67.
- (b) Concept of Operation for Surface Lifted Unit. Upon order, the Logistic Support Group/Unit will land, establish the Logistic Support Area relieving the Landing Force Shore Party and will provide the necessary facilities necessary to support RLT-27 in operation ashore. The Logistic Support Group/Unit will provide for the hospitalization and evacuation of personnel; transportation and 3d echelon maintenance services.
- (c) Concept of Operation for Airlifted Unit. The Logistic Support Unit attached to the Alpha RLT will establish and develop a Logistic Support Area upon arrival in the objective area that will provide the facilities necessary to support the landing of troops, supplies and equipment; hospitalization and evacuation of casualties; transportation; 3d echelon maintenance services; traffic control and security of the LSA until relieved by the RLT Logistic Support Group. Upon arrival of the Logistic Support Unit attached to the Bravo RLT in the objective area, the RLT Logistic Support Group will assume control and consolidate the LSA; continue to provide for the hospitalization and evacuation of casualties; transportation and 3d echelon maintenance services.

5. PERSONNEL

- a. See Annex B (Personnel)

6. MISCELLANEOUS

- a. Rear echelon. See Annex B (Personnel)
- b. Reports. See Annex (Reports) to RLT Operation Plan 303-67.
- c. Excess Supplies and Equipment.
- (1) Excess supplies, equipment and personal effects will be retained locally in unit warehouses and prepared for subsequent shipment to the objective area, if required.
- d. Uniform and Equipment.
- (1) Uniform.
- (a) Utilities, normal arms, helmets, camouflage cover, cartridge belt, 2 filled canteens, gas mask, body armor (Upper), field jacket and field marching pack with sleeping bag attached.
- (b) Uniform/equipment may be modified upon the designation of the objective area.
- (c) Those items of individual equipment not required in the field marching pack or worn by the individual will be placed in the individual's sea bag.
- (2) Baggage
- | | |
|---------------------------|-------------|
| (a) Field Grade Officer | 2 suitcases |
| (b) Company Grade Officer | 1 suitcase |
| (c) Staff NCO | 1 suitcase |
| (d) Sergeant and below | 1 sea bag |
- e. This plan is effective for planning upon receipt and execution on order.

- e. Coordinating Instructions

- (1) Conduct training and maintain readiness to provide Medical support and be self sustaining for five (5) days.
- (2) Company corpsmen will enplane or embark with assigned company.
- (3) Medical platoon of the BLT and Det, Co. _____, 5th Med. Bn. will enplane or embark in accordance with assigned priority. Upon arrival at destination, be prepared to accomplish mission as directed by the BLT Surgeon.

3. SANITATION AND PREVENTIVE MEDICINE

- a. See Appendix 1.
- b. Special area immunization will be accomplished in accordance with reference (a) as soon as possible after area of deployment is known.

4. EVACUATION

- a. Casualties prior to explaining or embarking will be evacuated to the nearest Armed Forces Medical Facility by the most expeditious means.
- b. Casualties occurring during flight and/or while embarked shall receive initial care by the corpsman if present and if not, by passengers. This information shall be immediately brought to the attention of the BLT CO and the BLT Surgeon if the tactical situation permits.
- c. The medical section will be prepared to handle mass casualties.
- d. Casualties will be classified:
 - (1) Minimal - Those requiring minimal treatment to be rendered fit for duty and will include psychiatric casualties.
 - (2) Immediate - Those casualties requiring immediate treatment to save life or limb.
 - (3) Delayed - Those casualties capable of having treatment delayed for a period of up to 12 hours without hazard to life or limb, but requiring more than minimal treatment.
 - (4) Expectant - Those casualties who are moribund or who cannot reasonably be expected to survive with immediate treatment or for whom strenuous effort will be required with slight chance of survival with treatment. Examples

of this are: Multiple lacerations. These are not to be abandoned, but will be made as comfortable as possible and will be given last priority in evacuation.

- (5) Casualties will be reclassified as indicated by a change in condition at any time.
- (6) Casualties classified as "minimal" shall be used to the maximum extent practicable for the collection and evacuation of other casualties or may be returned to duty as soon as practicable. Radiation casualties may be used to assist as practicable.
- (7) Casualties will be evacuated in the following order of priority:
 1. Immediate
 2. Delayed
 3. Minimal
 4. Expectant
- (8) Dental personnel will be utilized as practicable to assist treatment of casualties.
- (9) Evacuation of casualties will not be delayed solely because of lack of records or other administrative requirements.
- (10) See Appendix 3.

5. HOSPITALIZATION

- a. USNH CAMP PENDLETON, USNH LONG BEACH, and USNH SAN DIEGO (Balboa) are primary hospitalization centers before and during enplaning and/or embarkation.
- b. At the destination: As directed by higher authority.

6. CIVIL AFFAIRS TEAMS

- a. Such Teams shall be activated when directed.
- b. See Appendix 2.

7. MEDICAL SUPPLY

- a. Prior to assuming ready status, the basic outfits will be rechecked for completeness. All deficiencies will be immediately rectified. Items requiring security stowage will be drawn from division supply.

- b. Contingency items such as biologicals will be requisitioned from normal sources of supply. (MU-2 while in garrison and before mounting out) Have Standby requisitions prepared.
- c. Carry sufficient sick call supplies to support parent organizations and attachments for 5 days air and 30 days surface field operation.
- d. Carry full allowance of litters.
- e. Automatic exchange of litters, equipment and supplies at all levels of evacuation.
- f. Medical personnel will each carry first aid kit, individual (Unit 1).
- g. Carry full basic outfit (195 cubic feet; weight; 2449)
- h. Medical section will carry special items of medical supply peculiar to theater of operation and which are not contained in basic outfit (5 days air and 30 days surface).
- i. Additional medical supplies for use in treating civilian casualties will be carried when directed in amounts appropriate to the area of proposed operations.
- j. Requirements. Supplies of whole blood, fluids and other like items of supply shall be arranged by the BLT Surgeon.
- k. Resupply shall be as directed by higher authorities.

8. MEDICAL ADMINISTRATION

- a. Location of BLT Surgeon
 - (1) Before enplaning or embarkation - BAS
 - (2) Aboard plane or aboard ship.
 - (3) At destination - Bn. CP
- b. Evacuation and casualty reports.
 - (1) Casualty reports - See Annex B (Personnel). All medical personnel will be familiar with the proper preparation of combat casualty cards (NAVMC 10453-PD) and with the U. S. Field Medical card (DD form 1380, 1 June, 1962.)
 - (2) Reports by all medical units will be submitted IAW the instructions contained in references (e) and (f).

Alpha - Total casualties received
Bravo - Total casualties to duty
Charlie - Total casualties evacuated
Delta - Total casualties died of wounds
Echo - Total casualties remaining
Foxtrot - Any special requirement in medical personnel,
whole blood, supplies, and any other matter
of medical significance.

BY COMMAND OF COLONEL CASTAGNA

N. G. Rodes

N. G. RODES

Lieutenant Colonel, U.S. Marine Corps
Executive Officer

APPENDICES:

- ✓1. Sanitation and Preventive Medicine
- ✓2. Civic Action Medical Teams
- ✓3. Helicopter Med. Evac. request
- 4. List of Diseases, insects and reptiles common in objective area.
(To be issued)

DISTRIBUTION: Annex C (Distribution) to Operation Plan 303-67

RLT - 27
5th MarDiv (-) (Rein), FMF
CAMP PENDLETON, CALIFORNIA 92055

Appendix 1 (Sanitation and Preventive Medicine) to Annex A Medical to
Administrative Plan 303-67

Time Zone: U

1. SANITATION

- a. Maximum sanitary discipline commensurate with combat conditions will be assured by troop commanders of all echelons.
 - (1) Medical and hospital corps personnel attached to troop units are responsible for inspecting sanitary facilities and practices and will advise troop commanders of unsanitary conditions and make recommendations for corrections. Particular attention is enjoined to facilities, or lack of them, for disposal of human waste.
 - (2) Untreated water is not potable. Food and beverages will not be consumed unless from approved sources. Local food, if approved, must be thoroughly cooked for human consumption.

2. PREVENTIVE MEDICINE

- a. Routine immunizations will be accomplished prior to embarkation. See reference (a).
- b. Diseases, insect vectors and reptiles in the objective area. See Appendix 4.
- c. All streams and beaches are contaminated. Swimming is not permitted. Rivers and streams will not be used for bathing, laundry or washing vehicles unless approved.
- d. Anti-rabies vaccine and serum, and snake bite anti-venom of crotalid type effective for hemotoxic venoms will be carried by C&G Companies.
- e. Persons bitten by any rodents or animals will be considered as having been exposed to rabies and will receive the routine course of anti-rabies vaccine.
- f. Dehydration may be of significance; therefore, adequate water intake should be a matter for command attention. Salt tablets will be required. All units will carry sufficient tablets for issue of two tablets/day/individual attached.

- g. Blowing sand and dust may be encountered and cause moderate eye hazard. Wearers of contact lenses are particularly susceptible to corneal ulceration due to dust and the prolonged wearing of lenses under combat conditions. Measures will be required for eye protection from dust.
- h. POW's and civilians requiring medical attention will be screened for communicable diseases and will receive prophylactic injections of smallpox, typhoid and parathyphoid. Wounded POW's and civilians will also receive tetanus anti-toxin.
- i. Commanders at all echelons institute training in VD control before enplaning.
- j. Anti-malarial measures. Mosquito control by battalion.
 - (1) Insect repellent 2 oz. bottle (Stk No. 6840-656-1630), 4/man/month.
 - (2) Protective drugs as ordered in reference (b). Primaquine (Stk No. 6505-854-2239) .045 Gm. and Chloroquine (Stk. No. 6505-753-5043) 0.3 mgm. One tablet weekly to begin before entry into area and continue for 6 weeks after leaving the area.
- k. Poisonous snakes. Prompt administration of anti-venom is necessary to prevent fatal outcome of bite. Identification of snake is needed. If possible, the snake should be captured dead or alive for identification.
 - (1) Personnel will be instructed in identification, dangers and treatment of snake bites. (See Appendix 4)
- l. Personal hygiene is essential to maintain health of the unit. Every individual is responsible to practice good hygiene for the protection of himself and those about him by:
 - (1) Frequent bathing in approved areas.
 - (2) Preventing contamination of clothing, food and water.
 - (3) Foot care before trouble starts.
 - (4) Use of salt tablets as directed (Stk No. 6505-264-9713).
 - (5) Proper disposal of body wastes.
 - (6) Treating of unsafe water with water purification tablets 30 minutes prior to use for drinking.

- (7) Proper wearing of impregnated clothing as directed.
- (8) Water purification tablets 1/canteen 30 minutes before use.
- (9) Conducting frequent personal inspection of all areas of the body for leeches and vermin.

CAMP PENDLETON, CALIFORNIA 92055

Appendix 2 (Civil Action Medical Teams) to Annex A (Medical) to Administrative Plan 303-67

Time Zone: U

1. All Medical units shall be prepared to dispatch medical teams for assistance in Civic Action. Such teams shall consist of one medical officer and three hospital corpsmen. Teams shall be prepared to assist Civic Action Teams in the conduct of emergency or humanitarian treatment of individuals, to conduct public health improvement projects, or to conduct village clinics as may be appropriate or directed by the commander of the area.
2. The team leader (the medical officer of each team) shall establish liaison with the civilian medical officials of the local area, and, subject to the orders of the military commander, shall not interfere with or substitute for existing civilian medical programs. The role of the medical assistance teams shall be one of assistance, not replacement.
3. Local customs and practices shall be respected and not violated except as may be necessary, with the consent of the military commander, for the institution of proper medical care and public health management or with the consent of the patient or local populace as may be appropriate.
4. Treatment shall not be used as social bribery and shall be given on a basis of need and availability without regard to the political convictions of the patient of the community. Needed available treatment shall not be withheld as punishment for any case.
5. Medical teams shall report to, and be responsible to, the military commander or the U.S. official having responsibility for the area.
6. Local facilities and supplies shall be used whenever possible and practicable. Additional medical supplies may be requested through the Shore Party or Logistic Support Agency.
7. Medical teams shall be prepared to carry such medical supplies and equipment as may be practicable for care of sick and injured without seriously depleting unit supplies for care of U.S. Forces.
8. Medical teams shall use their own vehicles; however, when augmentation is necessary, vehicles for the transport of teams or use by teams may be requested from the Logistic Support Agency.

9. Security of vehicles, personnel, supplies and equipment shall be a matter of constant consideration. Provision for adequate security shall be made and shall be the responsibility of the U.S. Forces commander in the area.
10. Requests for additional medical assistance shall be addressed via the local U.S. commander to this Headquarters (Attn: Regimental Surgeon).
11. Reports of important medical matters shall be made via the local U.S. commander to this Headquarters (Attn: Regimental Surgeon).

5th Mar Div (-) (Rein), FMF
CAMP PENDLETON, CALIFORNIA 92055

Appendix 3 (Helicopter MED EVAC Request) to Annex A (Medical) to
Administrative Plan 303-67

Time Zone: U

1. Medical evacuation of casualties by helicopter can be hazardous and difficult, particularly when a unit is deployed in a hostile or densely vegetated area. In many cases, small unit leaders coordinate the evacuation. If the leader becomes a casualty, some individual in the unit must be qualified to control and coordinate the operation. The unit must be provided with a minimum amount of equipment and training which will enable it to communicate with the aircraft by using the approved procedures and techniques for medical evacuation by helicopter.
2. Equipment should include smoke signals, pop-up flares, hand illumination grenades, at least two flashlights, and radio equipment capable of entering the Emergency Helicopter Evacuation Net (VHF 38.8).
3. The following is a check list of helicopter evacuation information that the pilot should have before attempting a landing:
 - a. Establish radio contact and identify unit calling.
 - b. Advise pilot of enemy location, situation and type of fire.
 - c. Advise pilot what type of signal (smoke, flare, etc..) will be used to identify LZ.
 - d. Advise pilot of the location of other friendly troops in area if appropriate.
 - e. Advise pilot of the recommended approach to LZ.
 - f. Advise pilot of the wind direction and terrain at the LZ.
 - g. State the number of casualties and type of wound.
4. In the event that friendly ground forces requiring the MED EVAC are actively engaged in hostile action with the insurgents, the MED

EVAC helicopter will not be called into the landing zone. The LZ must be reasonably secure, due to the vulnerability of helicopters to ground fire.

 (b) MCO P5000.3, MARCORPERSMAN
 (c) DivO P5000.1, SOP for Administration
 (d) DivO P3040.1, SOP for Casualty Reporting
 (e) 5thMarDiv Op Plan 303-67
 (f) RegTO 1760.1, Personal Affairs Program

Time Zone: U

1. Strengths

- a. All companies and attachments will be at Manning Level.
- b. All units maintain rosters of non-deployables for planning purposes to include the following:
- (1) Sole Surviving Sons
 - (2) Conscientious Objectors
 - (3) Personnel with PULHES category 2 or more in any factor as determined by unit Medical Officer
 - (4) Hospitalized
 - (5) General Court-Martial Prisoners
 - (6) Personnel with less than three month obligated service remaining who have not executed an extension of enlistment.
 - (7) Twice/thrice wounded
 - (8) Restrictive assignments by CMC
 - (9) 17 Year Olds
 - (10) Other

NOTE: Certain of the above criteria may be modified by higher authority upon actual deployment.

c. Personnel TAD to service schools, other units of the 5th Marine Division, and Marine Corps Base, or other organizations, will not be recalled.

d. Personnel who are currently in an unauthorized absence status, on annual or emergency leave, or other such administrative absences must be counted as not available for deployment.

e. Personnel requisitions for deploying units to reach Manning Level will be increased by the number of personnel in categories (b) and (d) above.

2. Replacements

a. Prior to deployment an augmentation unit (normally another battalion of this regiment) will be designated to provide the necessary replacements required to bring the deploying unit to Manning Level.

b. Parent organizations of all attached units will designate augmentation units as in 2a above.

c. Vacancies within 27th Marines unable to be filled internally will be referred to this Headquarters (S-1).

d. During deployment, replacements and personnel requisitions will be through normal channels or as directed by higher headquarters.

3. Discipline, Law and Order

a. Persons confined (other than GCM prisoners) may be deployed at the discretion of the commander directing confinement. See JAG Manual, Section 0122. On taking this action, the desirability of suspending unexecuted portions of sentences shall be given full consideration. Individuals deemed not suitable for release will be designated for transfer to the Unit Sub Unit. (See paragraph 7.c).

b. Persons (cases) awaiting trial will be reviewed in order to expedite trial and punishment or dismissal. If expeditious action is not feasible, the Convening Authority shall determine whether the individual accompanies the unit for trial enroute, or is to be transferred to the battalion sub unit. Consideration in either case must be given to the need for witnesses at any legal proceedings.

c. Continuous aggressive personal affairs and legal assistance programs will be conducted to ensure personal readiness of participating personnel. (See Appendix 1 to this Annex)

4. Prisoners of War

a. Prisoners of War will be handled in accordance with the 27th Marines SOP for intelligence and Annex B (intelligence) to Operation Plan 303-67.

b. Capturing units will ensure immediate removal of prisoners from the battlefield; organizational commanders are responsible for establishing and operating a POW enclosure until relieved of this responsibility by higher authority.

c. The general policies and procedures contained in FM 19-40, Handling Prisoners of War, and FM 7-10, the Law of Land Warfare, will be adhered to in respect to treatment and processing POW's and detainees.

d. Litter cases will be evacuated through medical channels. Treatment will be in accordance with the Geneva Conventions, Hague Convention, and FMFM 4-5.

5. Graves Registration

a. In the event that graves registration or other augmentation personnel are not available, the BLT Commander will designate one officer and appropriate enlisted personnel to function as a temporary graves registration unit.

(1) Under no circumstances will labor in connection with graves registration be assigned for disciplinary purposes, nor will replacement personnel be used. On the contrary, graves registration personnel must be mature stable Marines of proven integrity and reliability who are capable of thorough accurate performance under the most undesirable circumstances.

(2) All personnel involved in identification, recovery, or disposition of the dead will, as a minimum, be familiar with the following references:

- (a) Rules of Land Warfare
- (b) MARCORPERSMAN, Chapter 12, Part E
- (c) CINCPACFLT Instruction, 5361.1
- (d) FM 10-63/NAVMED P5016/AFM 143-3

b. Unit Commander's specific responsibilities include but are not limited to:

- (1) Positive identification
- (2) Evacuation or proper interment
- (3) Mark and register grave if interred
- (4) Collect, safeguard, and return to NOK all personal effects, less those determined to be of no intrinsic value or possible offensive to the NOK.
- (5) Interment other than under actual battlefield conditions will be on approval of higher headquarters only.

6. Morale and Personnel Services

a. Annual leave is not to exceed a total of five (5) percent of the on-board strength during the period the BLT is designated as Ready BLT (Alpha). Emergency leave will be granted upon verification by the American Red Cross.

b. Normal liberty may be granted while in a Ready BLT (Alpha) status.

c. Decorations and Awards (In accordance with SECNAVINST P1650.) Units embark with combat award recommendation cards.

d. Postal Service

(1) Personal and official first class mail will be forwarded.

(2) Second, third and fourth class mail will be handled in accordance with instructions from higher headquarters at time of deployment.

(3) Any change in proper mailing address will be announced.

e. Exchange Services, will be limited to those available in the objective area.

f. Pay

(1) All personnel will be paid prior to deployment.

(2) Pay records for all personnel will accompany the BLT.

g. Religious Activities

(1) Divine services will be provided to the fullest extent possible for troops of all faiths.

(2) Lay Leaders will be used when chaplains are not available.

h. Special Services. Expendable items will be carried at the discretion of the Ready BLT Commander.

7. Personnel Procedures

a. Normal until alerted for deployment.

b. Ready BLT (ALPHA) will upon assignment to such status provide the augmentation battalion with personnel requirements by rank and MOS's necessary to reach manning level. The augmentation battalion will be prepared to fill such requirements and will designate specific personnel for transfer, if required. Personnel so designated will be retained in the same degree of administrative readiness as that of the Ready BLT. Both personnel will however participate in the normal schedules of their parent units.

c. Upon being alerted for deployment the Ready BLT Commander will designate one officer and required enlisted personnel necessary for establishing a Battalion Sub Unit. See subparagraph 16102.4 and paragraph 16104 of Marine Corps Bulletin 1080 of 16 August 1967 (Revised Instruction for Personnel Accounting).

d. Upon deployment personnel not accompanying the Ready Battalion will be reassigned to the Battalion Sub Unit. Ready BLT Commander will prepare a roster of personnel to be transferred to the Sub Unit. A copy of this roster will be submitted to the Commanding Officer, 27th Marines (Attn: S-1). Such personnel will remain billeted in their company area until notified by this Headquarters. The officer so designated as officer in charge of the Sub Unit will be responsible for administration and record keeping of all personnel not deploying.

e. Supporting units will notify the Ready BLT Commander of their capability to meet the task organization requirements as set forth in the operation plan. Rosters of such personnel will be submitted to the Ready BLT Commander as soon as possible after notice of alert and will include verification and category of Security Clearances. Supporting units will maintain current personnel status boards at all times in which personnel designated to fill the task organization requirements will be shown. Personnel officers of Supporting Units will institute liaison with the Ready BLT Headquarters immediately upon such notice of an alert. In all cases liaison personnel will be individuals who are familiar in detail with the personnel status of the parent unit. Service record books and health and dental records will accompany personnel upon reporting to the Ready BLT Commander.

f. Copies of all correspondence involving the Ready BLT will be submitted to this Headquarters (S-1).

g. Personnel on station augmentation will be reflected in the roster of personnel not accompanying the BLT (paragraph 7d above) and will be transferred to the Battalion Sub unit. In the case of Corpsmen in a TAD status, the Regimental Surgeon will provide the personnel augmentation necessary to bring the Ready BLT to manning level strength in medical personnel.

h. The augmentation battalion will provide two (2) vehicular messengers (with vehicles) and two (2) foot messengers to this Headquarters. Messengers will report to the Regimental S-1.

i. Personal Affairs in accordance with Appendix 1 of the Annex.

j. Administrative records will be checked prior to assumption of Ready BLT status to ensure currency of ID Tags, Geneva Convention Cards, ID Cards, records of Emergency Data, and to verify eligibility of personnel for combat deployment. Geneva Convention Cards will be issued in the event of an actual deployment.

k. Supporting Units will provide a certification in writing to the Ready BLT Commander that all personnel so earmarked for deployment with the Ready BLT are eligible and in all respects ready.

8. Miscellaneous

a. Classified Material. In accordance with Appendix 2 (Classified Material Control).

b. Informational Services. In accordance with Appendix 3 (Informational Services)

c. Attachments Reporting to BLT

(1) The attachments of disbursing section, postal sections and information section will upon announcement of Mount-Out automatically report in person to the S-1 of the BLT at the BLT's Command Post as soon as possible. They will bring SRB's and Health Records.

(2) Any attachments not organic to the 5th Marine Division must be contacted by the BLT S-1 and given reporting instructions.

(3) The Commanding Officers, or their representatives, of all other attachments will automatically report in person to the BLT S-1 at the BLT Command Post as soon as their personnel are completely ready for deployment. They will bring SRB's and Health Records.

(4) The disbursing section will bring the pay records for the entire BLT when they report to the BLT S-1. In order to accomplish this, units will submit the following roster to disbursing:

(a) Infantry Battalion--roster of those men not deploying.

(b) All other BLT units and attachments--roster of all those men who are deploying.

(c) All rosters will be listed by company, each company roster being on a separate sheet. Names will be listed alphabetically if time permits.

(5) The Medical Unit will bring the medical records for the entire BLT when they report to the BLT S-1. In order to accomplish this all units and units attached will submit rosters to Medical in exactly the same manner as in paragraph 8c(4) above.

d. Reports

(1) As directed by this Headquarters, the Commanding General, 5th Marine Division, or other competent authority.

(2) Passenger Manifest

(a) Passenger Manifest will be prepared by deploying units in accordance with FMFM 4-6 (Air-Operations)

(b) Units will be responsible for proper distribution.

(3) Casualty Reporting

(a) Non-Combatant casualties in accordance with Part D, Chapter 12, MARCORPERSMAN and DivO P5000.1, SOP for Administration.

(b) Combat casualties in accordance with Part C, Chapter 12, MARCORPERSMAN and Division Order P3040.1 and Regimental Order P3040.1 and local directives.

(4) Readiness Status Report (See paragraph 7e)

By Command of Colonel A. J. CASTAGNA

N. G. RODES

- ✓ 3. Informational Services

DISTRIBUTION: Annex W (Distribution) to Operation Plan 303-67

Appendix 1 (Personal Affairs) to Annex B (Personnel) to
Administrative Plan 303-67

Ref: (a) RegTO 1760.1 (Personnel Affairs Program)

Time Zone: U

1. General. Personal Affairs readiness is as important as material or training readiness. Detailed attention must be given to the preparing of personnel for deployment in the area of personal affairs. This Appendix sets forth the areas considered to be minimal in the preparation of personal affairs. Detailed Guidance is set forth in Regimental Order 1760.1 (Personal Affairs Program)

2. Legal Assistance

a. Make liaison with the Regimental Legal Officer. If no legal officer is assigned to 27th Marines at time of deployment, direct liaison with Division Legal Assistance Officer is authorized. For routine assistance, group presentation and handling is preferred.

b. Unit program for handling legal assistance affairs in order to avoid late overload. Programming on a continuous basis by all units with a goal of completed personal readiness by all personnel upon assumption of status as Ready BLT.

3. a. Encourage all personnel to register allotments in favor of dependents.

b. Encourage Savings allotments to banks or credit unions in case of unmarried personnel.

4. Dependents Affairs

a. The BLT S-1 will prepare a brochure and lecture for delivery to dependents.

5. Miscellaneous

a. Each unit of company size or above will appoint a personal Affairs Officer. This officer will set up a systematic program which will provide each individual with opportunity to request assistance as required.

b. Supporting units ensure personal affairs readiness of personnel. Such readiness is implicit in certification required by paragraph 7.k of the basic Annex

Appendix 2 (Classified Material Control) to Annex B (Personnel)
to Administrative Plan 303-67

- Ref: (a) OPNAV Inst 5510.1_
 (b) KAG 1_____
 (c) RPS 4____(Registered Publication Memoranda)
 (d) DivO P5510.1_____
 (e) RegtO P5510.1_____
 (f) CSPM 3____(Communication Security Publication Memorandum)
 (g) OPNAV Inst PO 5605.19_

Time Zone: U

1. GENERAL. Continuous security of all classified material will be maintained in accordance with references (a) through (e). It is understood that the means of deployment will dictate time available for completing the procedures outlined below. Therefore priority of handling material will be in the following order.

- a. RPS Publications and Material
- b. COMTAC Material
- c. S&C Material

2. RPS PUBLICATIONS AND MATERIAL

- a. Allowance. Review chapter 4, reference (f) to ensure understanding of status of publications.
- b. Disposition. Transfer all effective publications and material to unit communications officer.
- c. Accounting Forms. Ensure adequate supply of below listed forms is available for future transactions.

- (1) RPS - 1 (Transfer Report)
- (2) RPS - 2 (Destruction Report)
- (3) RPS - 16 (Inventory Report)
- (4) RPS - 17 (Custody Card)
- (5) Replacement Section V pages of RPS 10 (A)

d. Status. Local holder status continues until terminated by the Commanding Officer, 27th Marines.

3. COMTAC MATERIAL

B-2-1

- a. Allowances. Continuous review of reference (e) is necessary to ensure required allowance of COMTAC material is maintained on board.
- b. Disposition. COMTAC material as needed will accompany unit.
- c. Accounting Forms. Ensure adequate supply of below listed forms is available for future transactions.
- d. Communications Publications. Communication-related material will be transferred to unit communication officer.

4. S&C MATERIAL

a. Essential Documents. Documents in the following categories will be embarked with unit.

- (1) Current operational material including messages.
- (2) Unit and higher echelon orders pertaining to personnel and logistics matters.
- (3) Intelligence material as directed.
- (4) Other essential documents as directed or needed.

b. Non-Essential Documents

(1) Disposition. The following material will be turned over to OIC, 27th Marines S&C Files.

- (a) Retired RPS records.
- (b) Non-essential classified messages
- (c) All other material not within the definition of paragraph 4 a (Above).

(2) Procedure

(a) Material to be turned in will be placed in a large container (lockable canvas bag or field safe) and sealed. If the battalion is unable to turn in S&C material to this Headquarters it will be locked in the battalion S&C safe and a copy of the inventory given to the Regimental S-1. At the first opportunity the Regimental S&C Officer and the Assistant Regimental S-1 will verify the inventory and move the material to Regimental S&C files.

(b) Receipts are to be prepared in triplicate.
(Original and (1) copy to issuing unit and (1) copy to 27th
Marines S&C files.)

(c) This material will be retained unopened pending the
return of the deployed unit.

5. EMERGENCY DESTRUCTION

a. Plans and Procedures. Review of emergency destruction
plans and procedures in accordance with references (a) through
(e) to ensure adaptability to all contingencies is imperative.

b. Emergency Destruction Material. Necessary material for
emergency destruction as directed by references (a) through (e)
will accompany the deploying unit and will be kept in the immediate
vicinity of the classified material at all times.

BY COMMAND OF COLONEL A. J. CASTAGNA

N. G. RODES

Lieutenant Colonel, U. S. Marine Corps
Executive Officer

DISTRIBUTION: Annex W (Distribution) to Operation Plan 303-67

Appendix 3 (Informational Services) to Annex B (Personnel) to
Administrative Plan 303-67

- Ref: (a) U. S. Marine Corps Information Services Manual
(b) U. S. Navy Public Information Manual (NAVEXOS) P-1035
(c) 5th MarDiv Op Plan 303-67

Time Zone: U

1. GENERAL

a. References (a) and (b) set forth the mission of Informational Service in the Marine Corps and reference (c) sets forth the policy concerning initial news releases.

(1) The mission of Informational Service units in the Marine Corps includes:

(a) The Marine Corps as an instrument of national policy and security.

(b) The activities to the Marine Corps as compatible with military security.

(c) The responsibilities and participation of Marines as United States citizens under the American concept of government and society.

2. ORGANIZATION

a. Command Information Bureau (CIB). Normally the senior commander present in the area of operations will establish an organization to plan, coordinate, and implement informational services for all units in the task organization. In the Navy commands this organization is called the Command Information Bureau (CIB).

b. Technical Information Command Officer. Reference (a) directed that all installations and separate companies designate an officer with additional duties as Technical Information Contact Officer (TICO). In the event of deployment the Ready BLT TICO has the following responsibilities.

(1) Contact the 5th Marine Division Informational Services Officer (ISO) for specific guidance regarding ISO matters while deployed.

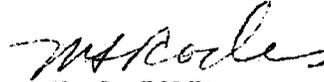

(2) Maintain Liaison with the appropriate representatives of the CIB or (if no CIB is established) with the ISO of the next Senior Headquarters.

(3) Insure that ISO matters in the unit are handled in accordance with the policies and special instructions promulgated by the CIB or the Informational Services Officer of the next Senior Headquarters.

(4) Advise and assist the Commanding Officer on discharging his ISO responsibilities.

c. Informational Services Personnel. If informational services personnel (reporters, photographers, etc.) are to be assigned to accompany a deploying unit they will be under the direct control of the BLT Commander. They will not be assigned collateral duties within the BLT.

RLT - 27
 CAMP PENDLETON, CALIFORNIA 92055
 December 1967

Embarkation Plan 303-67 (Surface) to Accompany Operation Plan 303-67

- Ref: (a) 5thMarDiv Operation Plan 303-67
 (b) 5thMarDiv Admin Plan 303-67
 (c) RLT-27 Operation Operation Plan 303-67
 (d) RLT-27 Admin Plan 303-67
 (e) DivO P4600.1
 (f) RegtO P4600.1
 (g) FMFM 4-2

Time Zone: U

1. ORGANIZATION FOR EMBARKATION

a. General

- (1) RLT-27 will be organized for embarkation into two embarkation units formed around the following troop organizations:

ALPHA 2ND BATTALION, 27TH MARINES

BRAVO 3RD BATTALION, 27TH MARINES

CHARLIE HEADQUARTERS COMPANY, 27TH MARINES

- (2) Follow-Up Shipping

- (a) Surface-Follow up shipping arrangements to resupply RLT-27 will be made by the 5th Marine Division Headquarters.

2. MATERIAL TO BE EMBARKED

a. Organic Equipment

- (1) Class II in accordance with reference (d).

b. Types and Amount of Supplies

- (1) Class I (including water); Class III; Class IV; Class V and medical in accordance with reference (d).

c. Preparation

- (1) Packing, crating and marking in accordance with references (e) and (f).

- (2) Supplies will be palletized in accordance with references (e) and (f).
- (3) Waterproofing of vehicles will be in accordance with reference (f).
- (4) All cargo and equipment loaded in vehicles will be lashed and secured properly.
- (5) All vehicle windshields will be folded down and crated.
- (6) All bows on vehicles 3/4 ton and larger will be down.
- (7) Vehicle tarps will be used to cover all cargo and equipment loaded in beds.
- (8) Vehicle loads will not exceed the maximum rough terrain capacity.
- (9) Cargo loaded in vehicles will not exceed the highest point of the vehicle with bows down.
- (10) Each vehicle will be marked with pertinent information in accordance with reference (e).

d. Allocation of Supplies and Equipment

- (1) All units will embark with prescribed loads in accordance with reference (d).
- (2) Annex B (Allocation of Supplies and Equipment) for overall allocation of supplies.

e. Movement

- (1) Embarkation unit commanders are responsible for coordination and movement of material organic to organization and detachments comprising their respective embarkation units.
- (2) The 5th Service Battalion has been assigned the responsibility for movement of Landing Force Supplies to Embarkation Areas. The Regimental S-4 will effect coordination of movement of Landing Force Supplies between the CO, 5th Service Battalion, and respective unit commanders. Movement schedules will be coordinated with this Headquarters (Embarkation Group I Control Office).
- (3) Insofar as practicable, supplies will be scheduled for movement to embarkation areas to coincide with loading schedules.

3. PERSONNELa. Uniform, Equipment and Baggage

- (1) Reference (d) sets forth uniform, equipment and baggage requirements.

b. Advance Details.

- (1) Provision, composition, functions, billeting, messing and administration of advance details is a responsibility of the individual embarkation unit commander.
- (2) Working parties and security personnel will be moved to respective embarkation areas prior to the movement of any material to embarkation areas concerned.
- (3) Advance parties will be moved to embarkation areas to coincide with arrival time of respective ships.

c. Movement of the Main Body

- (1) The main body of troops of respective embarkation units will arrive in embarkation areas to coincide with the expected time of completion of loading.
- (2) Commanders of embarkation units will submit transportation requirement to the Regimental S-4 48 hours prior to the anticipated move.

d. Embarkation Rosters

- (1) A two line plate impression roster will be prepared on all personnel of the embarkation unit.
- (2) Twenty copies of corrected rosters will be delivered to this Headquarters (Embarkation Group I Control Office) within two hours after the completion of embarking personnel of respective embarkation units.

4. EMBARKATION AREASa. Assignment of Areas and Embarkation Point

- (1) Annex G contains the ~~assignment~~ assignment of areas and embarkation points.

b. Preparation

- (1) Embarkation unit commanders will make reconnaissance of assigned embarkation areas and will submit improvement requirements if so desired to this Headquarters S-4 as expeditiously as possible.

c. Materials Handling Equipment

- (1) Additional requirements for MHE other than that available at the assigned embarkation areas will be submitted by the embarkation unit commander upon the completion of his reconnaissance if so required.

d. Security

- (1) Upon execution of this plan, embarkation unit commanders will be responsible for security of assigned embarkation areas as coordinated with local port or beach authorities.
- (2) The Commanding Officer, 5th Service Battalion, has been assigned the responsibility for the security of Landing Forces Supplies.

5. EMBARKATION SCHEDULES

a. Limiting Dates

- (1) The limiting dates with respect to commencement and completion of embarkation will be announced at a later date.

b. Berthing and loading schedules are contained in Annex D

6. CONTROL

a. Traffic Circulation and Control

- (1) See appendices to Annex C for a sketch of traffic circulation routes and locations of major control posts within embarkation areas.
- (2) Embarkation unit commanders will be responsible for traffic circulation and control measures within assigned embarkation areas and will coordinate with local port and beach traffic control agencies.
- (3) Additional Military Policemen will be provided at major control posts on requests from this Headquarters. Embarkation unit commanders submit requests for MP's to this Headquarters upon completion of initial reconnaissance.

b. Embarkation Control Offices

- (1) Reference (g) sets forth the functions of Embarkation Control Offices.
- (2) This Headquarters will establish a control office (Embarkation Group Control I Control Office) at the point of embarkation. Location and time of opening to be announced. This office will function until all personnel and equipment is loaded. RLT-27 liaison representatives will be made available to each embarkation unit control office established.
- (3) Embarkation unit commanders will establish an embarkation control office at assigned embarkation areas on order of this Headquarters. Report the location and time opened to Embarkation Group I Control Office.
- (4) Control Offices when established will function on a 24 hour basis. Offices will continue in operation until the final loading report is submitted.

c. Communications

- (1) The senior troop commander at the embarkation area is responsible for establishing communications within the area.
- (2) Communications will be established in accordance with reference (e).
- (3) The maximum use of external communications is directed so as to preserve communications equipment within the Landing Force.
- (4) Request for external communications equipment will be made to the Division Communication Officer by this Headquarters on the recommendation of the Senior Troop Commander at each embarkation area.

7. MISCELLANEOUSa. Loading Plans

- (1) Seven copies of the completed loading plans will be delivered to this Headquarters 15 days prior to the commencement of embarkation except when an emergency situation dictates otherwise.

- (2) The procedures of reference (e) are to be followed on the delivery of Corrected Copies.

b. Loading Reports

- (1) Embarkation unit commanders (Control Offices) will submit the following reports to the Embarkation Group I Control Office.

- (a) Initial loading report (within one hour after arrival of each ship at assigned anchorage, berth or beaching point).

ALPHA Name and Hull Number of Ship

BRAVO Time commenced loading.

CHARLIE Organization for Embarkation. List the following data in five columns for each Unit/Detachment embarking.

First Column - Name of Unit/Detachment
 Second Column - Marine Officers/Enlisted
 Third Column - Navy Officers/Enlisted
 Fourth Column - Other Services
 Fifth Column - Total Personnel

DELTA Supplies to be embarked by class.

<u>Supplies</u>	<u>Cu Ft.</u>	<u>S/T</u>
Class I		
Class II		
Class III		(Number of drums only)
Class IV		
Class V		

ECHO Actual number of vehicles and square feet of vehicles

FOXTROT Other items of concerned to CG 5thMarDiv.

- (b) Loading/Unloading Status Report. (Within four hours of the time loading commenced, and every four hours thereafter. Final report to be submitted within one hour after completion of loading to include embarkation of troops)

ALPHA Name and Hull Number of Ship

BRAVO Overall percentage loaded/unloaded

CHARLIE Estimated time of completion

DELTA Other items of interest or concern to
CG, 5thMarDiv.

ECHO Actual completion time of loading/unloading.
(final report only to include total person-
nel embarked.

c. Other Embarkation Instructions

- (1) Request for additional dunnage and chocking material will be made to this Headquarters 15 days prior to the embarkation date.

BY COMMAND OF COLONEL CASTAGNA

N. G. Rodes
N. G. RODES

Lieutenant Colonel, U. S. Marine Corps
Executive Officer

ANNEXES

1. ORGANIZATION FOR EMBARKATION

a. General

- (1) This plan provides for the organization, preparation and movement of personnel, supplies and equipment of 2 BLT's and a Regimental Headquarters or elements thereof, to the departure airfield in the execution of reference (a).
- (2) To facilitate the staging and loading of the Ready Force, a Staging and Loading Support Group will be established and organized to relieve the airlifted units of certain logistical duties attendant to an air mount-out. The concept, organization, functions and responsibilities of the Staging and Loading Support Group are outlined in Annex A.
- (3) To establish effective control of the movement of the Ready Force from the marshalling areas to the staging areas at the departure airfield, the 2 BLT's and Regimental Headquarters will be organized into increments as indicated in Annex B.

b. Assignment to Aircraft

- (1) All units will be prepared to mount-out in any type aircraft which may be assigned. Reference (c) sets forth the capabilities and limitations of various types of aircraft.

2. MATERIAL TO BE EMBARKED

- a. Organic Equipment. In accordance with reference (b).
- b. Type and Amount of Supplies. In accordance with reference (b).

c. Preparation

- (1) Unit cargo manifest of supplies to be airlifted will be prepared in accordance with reference (b).
- (2) Packing, crating and marking in accordance with existing regulations and reference (d).
- (3) All vehicle deep water fording kits will be loaded on vehicles but will not be installed until so directed.
- (4) All cargo and equipment loaded on vehicles will be properly secured and lashed.
- (5) All vehicle windshields will be folded down and crated.
- (6) All bows on vehicles 3/4T and larger will be down, vehicle canvas will be used to cover all mobile loaded cargo and equipment. Canvas will be properly secured.
- (7) All supplies and equipment not mobile loaded will be palletized and properly banded.
- (8) All vehicles will be mobile loaded. However, the maximum rough terrain capacities will not be exceeded.
- (9) Each vehicle will be marked with priority number and increment number on both sides and the hood.

d. Allocation of Supplies

- (1) All units will carry prescribed load.
- (2) See Annex B (Increment Breakdown of Personnel, Supplies and Equipment).

e. Movement

- (1) The Ready BLT Commander will be responsible for the coordination and movement of material organic to organizations and detachments comprising their respective BLT'S, to the departure airfield.
- (2) Requests for transportation to move organic supplies and equipment, not mobile loaded, to the departure airfield will be submitted in accordance with Annex C (Requests).

3. PERSONNEL

- a. Uniform, Equipment and Baggage. In accordance with reference (b).

b. Advance Details.

- (1) The Staging and Loading Support Group will depart Camp Pendleton to arrive at the departure airfield in sufficient time to establish liaison and commence operations.
- (2) Vehicle and equipment operators will accompany the convoy transporting their respective vehicle to the departure airfield.
- (3) Requests for transportation will be submitted in accordance with Annex C.

c. Movement of the Main Body

- (1) Troops will be moved to the departure airfield by increments in accordance with Annex (D).
- (2) Requests for transportation will be submitted in accordance with Annex (G).

d. Passenger Manifests

- (1) Passenger manifests will be completed in accordance with reference (c).
- (2) Distribution of passenger manifests will be in accordance with reference (c) with sufficient copies prepared for each intermediate landing point.

4. EMBARKATION STAGING AND LOADING AREASa. Assignment of Staging Areas at Departure Airfields.

- (1) See Annex F.
- (2) Direct Liaison between the Officer in Charge of the Staging and Loading Support Group and the departure airfield authorities is authorized upon receipt of orders to execute this plan.

b. Preparation

- (1) The Staging and Loading Support Group Commander and/or his representative will make a reconnaissance of staging areas at the departure airfield as soon as possible after receipt of orders to mount-out.

- (2) Modification or improvements to facilities or assigned areas is not authorized unless approval has been requested and obtained from this Headquarters.

c. Materials Handling Equipment

- (1) Ready BLT Commander will submit requests to this Headquarters for material handling equipment to be utilized within the marshalling area upon execution of this Plan.
- (2) The Staging and Loading Support Group Commander will submit requests for the materials handling equipment to be utilized in the staging areas at the departure airfield upon execution of this Plan.

d. Security

- (1) The Staging and Loading Support Group Commander will be responsible for the establishment of security within the staging areas at the departure airfield.

5. EMBARKATION SCHEDULE

a. Staging and Loading Schedule

- (1) Marshalling, Staging and Loading will commence on order from this Headquarters.
- (2) Marshalling, Staging and Loading will be in accordance with the schedule contained in Annex F.

6. CONTROL

a. Traffic Circulation and Control

- (1) The Ready BLT Commander will be responsible for the control and circulation of traffic within the marshalling area.
- (2) The Staging and Loading Support Group Commander will be responsible for the control and circulation of traffic within the staging areas at the departure airfield and will coordinate such measures with the departure airfield authorities.

b. Embarkation Control Offices.

- (1) The Ready BLT will establish an embarkation control office in the immediate vicinity of the marshalling area upon the execution of this plan.

- (2) The Staging and Loading Support Group Control Office will be established at the departure airfield six hours prior to the departure time of the first increment from the Marshalling Area. Location and telephone numbers to be promulgated later.

c. Communications

- (1) Commercial Telephones may be utilized within existing security regulations and restrictions.
- (2) Communications equipment and personnel required between this Headquarters, staging areas and departure airfields will be as indicated in Annex I.

7. MISCELLANEOUS

a. Flight Manifest

- (1) A Flight Manifest will be completed for each aircraft utilized by the Ready BLT, in accordance with instructions issued by this Headquarters at the time of execution of this plan.

b. Reports

- (1) The Ready BLT Commander will keep this Headquarters informed of the progress of marshalling of his unit. This first report will be submitted upon the completion of marshalling of the first increment. Subsequent reports will be submitted as the marshalling of each increment is completed. The following format will be utilized in submitting this report.
 - (a) ALPHA - Increment number
 - (b) BRAVO - Time marshalling commenced
 - (c) CHARLIE - Time marshalling completed
- (2) The Staging and Loading Support Group Commander will be responsible for the preparation and submission of those reports required by higher headquarters.

- c. Effective Date. This plan is effective for planning upon receipt and execution on order.

APPENDIX 1 (Duties of Staging and Loading Support Group) to Annex 1
(Staging and Loading Support Group) to Embarkation Plan
303-67

Time Zone: U

1. General. This appendix sets forth specific duties for personnel of the Staging and Loading Support Group. These duties will be accomplished in coordination with the Ready BLT Commander or his designated representative and conditions which occur at the time of mount out.
2. Duties During Mount Out
 - a. Staging and Loading Support Group Commander. The Staging and Loading Support Group Commander will be the Regimental S-4 Officer who will be responsible for the following:
 - (1) Five (5) days prior to the assumption of the ready force responsibilities, the Staging and Loading Support Group Commander will conduct a liaison visit to the departure airfield (if known) to make arrangements for staging areas operating space for the Control Center and other logistical support requirements.
 - (2) Supervise initial activities in the marshalling area and then shift location of his headquarters from the marshalling area to the departure airfield at the earliest practicable time.
 - (3) Ensure that all staging and loading support group personnel receive sufficient training to effectively carry out their assigned duties.
 - (4) Establish TCP's at departure airfield and ensure uninterrupted flow of traffic.
 - b. Marshalling Area Control Officer. The Marshalling Area Control Officer will be the Regimental Motor Transport Officer and will:
 - (1) Coordinate the overall assembly of vehicles, troops, supplies and equipment in the proper increments.
 - (2) Control convoy departures from the marshalling area to the departure airfield staging area.
 - (3) Acts as the RLT representative in the marshalling area after the Staging and Loading Support Group Commander departs for the departure airfield.

- (4) Inform the Ready BLT Commander of the discrepancies noted by the Vehicle Inspection Team.
 - (5) Ensure that all vehicles are prepared for embarkation I/W the paragraph 2c of the Basic Order.
- c. Weighing Team. The weighing team at the departure airfield will be supervised by the Regimental Embarkation Officer who will ensure that:
- (1) All vehicles are weighed; Center of gravity is properly computed and marked.
 - (2) The proper weight is reflected on the cargo manifest.
 - (3) The Control Center is advised of the arrival and completion of processing of each convoy:
- d. Vehicle Staging Team. The Vehicle Staging Officer will be the Motor Transport Officer of the non-deploying Battalion and will be responsible for the following:
- (1) Stage vehicles in the proper sorties.
 - (2) Control all vehicles entering and departing the vehicle staging area.
 - (3) Keep the Control Center informed of the arrival and departure of all vehicles, by sorties, from the vehicle staging area.
- e. Tie Down Teams. Tie down teams will be composed of non-deployable personnel and organized into ten (10) teams consisting of six (6) members of which one member will be a licensed Motor vehicle operator (2½ Ton). They will:
- (1) Assist the load master in loading and securing of aircraft load.
- f. Personnel Staging Control Officer. The personnel staging control officer will be the Regimental Adjutant who will:
- (1) Keep the Control Officer advised of the arrival of each increment.
 - (2) Ensure that each increment is formed and correctly manifested by sortie.
 - (3) Keep the Sortie Commander advised of expected departure time.

- (4) Collect two (2) corrected personnel manifests from each Sortie Commander and deliver them to the Control Center.
- g. Bulk Cargo Staging Officer. The bulk cargo staging officer will be the Regimental Supply Officer who will:
- (1) Receive and receipt for all supplies delivered to the staging area at the departure airfield.
 - (2) Establish Class I, II, III, IV, V, Bulk Staging Areas.
 - (3) Be responsible for segregation of supplies received into increments by class of supply and subsequently into sorties IAW Cargo Manifest prepared by the Ready BLT.
 - (4) Be responsible for delivery of Sortie supplies to aircraft loading points.
 - (5) Keep Control Center informed of progress as to supplies received.

DISTRIBUTION: See Annex W (Distribution) to RLT Operation Plan 303-67

RLT - 27
CAMP PENDLETON, CALIFORNIA 92055
December 1967

Annex I (Communications) to Embarkation Plan 303-67 (Air)

1. Situation. In order to provide efficient control of the airlifted BLT during embarkation, it will be necessary for all communication personnel and equipment to be provided from sources external to the airlifted unit.
2. Mission. To provide communication support for execution of the embarkation phase of the 303 plan.
3. Execution
 - a. Concept. Communications for all control points and organizations will be providing for the embarkation unit, with the exception of internal convoy control communications.
 - b. Headquarters Company Communications Platoon (+) (-)
 - (1) Provide personnel and equipment, as required, for internal communications at the marshalling area.
 - (2) Provide personnel and equipment for one radio net linking the marshalling area, the P.O.E. and any intermediate check points.
 - c. Communications Platoon (+), Airlifted Unit
 - (1) Provide communication personnel and equipment for internal CONVOY CONTROL.
 - (2) Prepare all communication equipment for airlift.
 - (3) Employ frequencies and call signs for embarkation as directed by this headquarters.
 - d. Coordinating Instructions
 - (1) Radio
 - (a) Marshalling Area. No internal radio requirements is anticipated at the marshalling area.
 - (b) Embarkation Control Net. One radio net will be established linking the embarkation control center at the marshalling area with the P.O.E. control

center. All convoys and intermediate check points are required to enter this net.

(c) Point of Embarkation. An internal embarkation control net will be established by this headquarters linking the control center at the P.C.E. with any of the below areas which are not accessible by telephone.

- 1 Vehicle Staging Area
- 2 Personnel Staging Area
- 3 Weighing Station
- 4 Supply Staging Area(s)

(d) Special embarkation call signs and/or frequencies may be assigned by higher authority; if not, this headquarters will designate those to be used.

(2) Wire.

(a) Commercial telephone facilities will be used to the maximum extent possible, consistent with security limitations.

(b) An internal embarkation telephone system will be installed if possible at the P.C.E. to supplement and/or replace the radio net reflected in paragraph 3.d.1.c. above.

(c) Switchboard call signs if required will be coordinated through this headquarters.

(3) Radio Relay. No radio relay links for embarkation are anticipated.

(4) Cryptographic.

a. Authentication. Effective edition.

b. Shackle. Effective edition.

- c. On-line/Off-line Encyryption. As directed by this or higher headquarters, **if required.**
