PART IINARRATIVE SUMMARY

During the month of May 1970, Marine Wing Headquarters Group One and its subordinate units provided administrative and logistical support for the 1st Marine Aircraft Wing Headquarters at Danang Airbase, Republic of Vietnam and provided command administrative communications for the 1st Marine Aircraft Wing Headquarters and air control communications for the Tactical Air Direction Center. Tango Sector Alpha was in defense condition #3 every night during the month except on 7 May when defense condition #2 was set at 2130. Rocket warnings were sounded on 1 May, 8 May, 10 May and 20 May. No enemy rounds were received in the Marine Wing Headquarters Group One Compound.

PART IIISEQUENTIAL LISTING OF SIGNIFICANT EVENTS

1. Personnel. The Group continues to be over the approved T/O, but well below the provisional T/O. Because of the size of the 1st Marine Aircraft Wing, the accompanying workload in the Wing Headquarters requires the additional Wing Staff personnel. The lack of the recommended number of personnel is not considered to have a deleterious effect on the ability of this Group to carry out all assigned missions and tasks.

2. Administration. Routine Administrative work was performed during May 1970.

3. Awards. The following awards were presented during the month of May 1970.

One Marine Enlisted was awarded the Navy Commendation Medal with Combat "V"
 One Marine Officer was awarded a Certificate of Commendation signed by the Secretary of the Navy
 One Marine Enlisted was awarded a Certificate of Commendation
 One Marine Officer was awarded a Bronze Star, for the first Strike Flight Air Medal Award
 One Marine Officer was awarded the Cross of Gallantry
 One Marine Officer was awarded a Letter of Appreciation
 Two Marine Officers were awarded the Strike/Flight Air Medal Award
 One Marine Enlisted was awarded the Good Conduct Medal
 One Marine Enlisted was awarded Meritorious Mast

4. Casualties. There were three Marines hospitalized during the month of May 1970. There was one hostile casualty resulting in death.

a. Pfc W. G. YOUNG 258 15 92 USMC died on 5 May 1970 from wounds received at Chu Lai.

5. Morale and Welfare Programs. Wing Special Services provided the Headquarters Group Compound with many off-duty activities including handball, volleyball, tennis, horseshoes, basketball and weightlifting. The Group as well as Wing offered entertaining floor shows and happy hours several times throughout the month of May. The China Beach, Freedom Hill and Golden Gate USO's supplemented the aforementioned activities. Although liberty remains secured in the Danang area, the China Beach recreation center continued operations for the enjoyment of all hands. Also, R&R seat allocations and RON flights enabled personnel to relax out of country for several days.

6. Civic Action. Details of the MWHG-1 Civic Action Program are outlined in the Civic Action Command Chronology.

7. Intelligence and Counter-Intelligence. The Intelligence Section performed routine administrative support during the month of May 1970. There were 33 clearances processed and 15 accesses granted to Group personnel. The Intelligence section processed 1 war trophy and turned in 4 unauthorized war trophies to the Group Armory. The Intelligence Section also held Intelligence Briefs for the Command Indoctrination Presentation and obtained the daily G-2 briefing on significant events in I Corps.

8. Ground Defense. On 2 May 1970 Ground Defense Reserve Company A/Zulu One participated in a Cordon and Sweep from the road at BT 001723 to BT 014726 south to the Cau Do river. Results were fourteen Vietnamese civilians ap-

prehended (three considered to be VCS) and one VC flag was found. On 3 May 1970 a detachment from Ground Defense Reserve Company A/Zulu One, consisting of twenty men, was sent to the Chu Lai Airbase. During the morning of 5 May 1970 the unit came under a heavy enemy rocket attack resulting in one KIA and four WIA (one Evac). Another twenty man unit was sent in relief on 6 May 1970 and remained at Chu Lai until recalled on 9 May 1970. Their presence freed the technicians of VMA-311 to continue to maintain operation of their aircraft during this period and to launch 109 sorties which delivered over 170 tons of ordnance on enemy positions, resulting in 46 enemy killed, two 50 caliber guns and two 37mm guns destroyed, two 37mm guns damaged and numerous bunkers and structures destroyed.

9. Training. General Military Subjects Training for all enlisted Marines is held at the Group Level each Wednesday morning and Thursday afternoon. A total of 465 personnel attended General Military Subjects Training during the month. A total of 233 officers and enlisted attended the Command Indoctrination Presentation and Fam Fire Exercise. Drug Abuse Indoctrinations were attended by 16 officers and enlisted during the month of May

10. Maintenance. The Utilities Section constructed and screened in a storage area in the enlisted mess, built 50 embarkation boxes for Group Supply, checked and repaired 59 air conditioners, and constructed 93 mount-out boxes for various sections and squadrons in Marine Wing Headquarters Group One. They received 247 trouble calls, completed 240, and referred 7 to Public Works. They received 292 work orders, completed 281, and 11 are left pending.

11. Logistics. The Logistics Section carried out routine administrative support for the Group.

12. Supply. The Supply Section conducted normal supply operations in support of the Group and the 1st Marine Aircraft Wing. The Marine Corps Property Section processed 1,065 requisitions with a net effectiveness of 99%.

13. Communications. See Part III, Paragraph 5 of Marine Wing Communications Squadron One Command Chronology.

14. Religious Services. See Marine Wing Headquarters Group One Chaplain's Command Chronology.

PART IV

SUPPORTING DOCUMENTS

 14 June 1970

From: Civic Action Officer
 To: Commanding Officer, Marine Wing Headquarters Group One (Attn: S-3)
 Subj: Command Chronology for the Month of May 1970
 Ref: (a) GruO 5750.1D

1. In accordance with reference (a), the following report is submitted.

PART III

2. Civic Action

a. On 4 May, MedCAP treatments were officially begun at the MWHG-1 Civic Action Center. Corpsmen from the MWHG-1 and MMSG-17 Dispensaries offered medical treatment at 1400 each day, except Sunday, on the first three days and last three days of each week, respectively.

b. On 4 May, the boar which belonged to the MAG-16 Civic Action team was transferred from the MACG-18 Civic Action unit to the MWHG-1 Civic Action Center for permanent housing.

c. By 8 May, all four of the young sows had been mated for breeding. The swine raising project continued with no problems throughout the month of May.

d. A Personal Response class was given on 11 May at 0800. Attendance was 30 Marines with about half having attended the class previously.

e. The Civic Action Officer attended a two-hour meeting at 1000, 18 May, at the 175th Army Veterinary Detachment. The purpose of the meeting was to familiarize Civic Action personnel and the Army Veterinarians with the various animal husbandry projects being carried on within ICTZ by both the Vietnamese people and American military forces and to determine problem areas and means to alleviate them. Maximum effort in getting the Vietnamese people and animal husbandry cadre to immunize their livestock was stressed.

f. At 0600, 19 May the "2nd Egg Incubation Project" was terminated and the remaining unhatched eggs were broken and examined. The following information represents a chronology and results of the project.

MWHG-1 - CIVIC ACTION OFF

MAY 1970

(1) At 1200, 27Apr70, 196 eggs from CORDS and 34 eggs from the Asst. Hamlet Chief of Phuoc Tuong Hamlet were placed in the incubator.

(2) At 1000, 16May70, after 19 days and 22 hours of incubation, the first chicken hatched. The 46th, and last, chicken hatched after 21 days and 21 hours of incubation at 0900, 18 May 1970.

(3) Examination of the unhatched eggs, along with previously compiled data, revealed the following:

CORDS Eggs	Asst. H.C. Eggs	
28	18	HATCHED
2	0	ROTTEN
113	11	NO FORMATION
29	0	VERY ELEM. FORM. (Pea size)
8	1	MODERATE FORMATION (Half or less)
14	3	WELL FORMED EMBRYO
<u>2</u>	<u>1</u>	READY TO HATCH (Pecked through shell but died before hatching)
196	TOTAL 34	
14.3%	52.9%	PERCENTAGE
20.0%		TOTAL PERCENTAGE OF 230 EGGS HATCHED

(4) Evaluation of the hourly data accumulated throughout the course of the project along with the Major result of the project (the fact that 46 chickens did hatch) indicates there were no faults with the incubation process. The fact that there were 113 CORDS eggs with NO FORMATION seems to indicate that the low hatching percentage rate is due to a high number of infertile eggs being included in the egg shipment from CORDS.

g. All 31 chickens hatched in the "1st Egg Incubation Project" are alive and well. Four (4) of the 46 chickens hatched in the "2nd Egg Incubation Project" had deformed legs and were subsequently killed on 19 May. The remaining 24 were vaccinated for Newcastle disease prevention on 19 May. The 150 chickens being raised for the 4-T Project are all alive and well. They were treated for Fowl Pox on 19 May. At the end of this reporting period, there were 220 chickens in various stages of development being raised at the Civic Action Center.

h. Twenty-five and sixteen sets of clothing were sewn and distributed by the Civic Action sewing classes on 23 and 31 May, respectively.

i. On 30 May, the Civic Action Officer accompanied the FLC S-5 Cultural Tour of DaNang to gather information relevant to organizing a similar tour for MWHG-1. This information is presently being evaluated, a tour route is being established, and schedules are being worked out for approval.
