c. (U) Public Information

(1) 179 hometown news stories were released for the month of February 1967.

d. (U) Counter Intelligence

(1) Intelligence Briefs were presented for all operational missions during the subject period.

(2) Five (5) AAA fire incidents were reported by Squadron Crews and processed for intelligence. Four (4) were "no hit" incidents and one (1) was a "hit" resulting in minor airframe damage. Of significance are the AAA incidents occurring on 21 and 24 February in which intense automatic weapons fire was encountered North of the DMZ by Squadron aircraft. Despite the high volume of fire and low altitude of the mission, no aircraft were hit and the mission was successfully completed.

(3) At approximately 0315 on 27 February a mortar/rocket attack was commenced by the VC on Danang Air Base. The value of prior planning and training conducted for the Squadron's defensive responsibilities was quite apparent at the onset of the attack. Within 45-50 seconds after the first round landed, all positions were manned on the Squadron's portion of the Area "C" defense perimeter. Within 2 minutes the perimeter was manned, all revettments containing Squadron aircraft were manned, ammunition had been broken out and passed, all other personnel were in shelters and the radio

was manned. So rapid was their deployment that it was necessary to wait five (5) minutes before the platoon commander could report their readiness condition because the Area "C" C.P. had not yet been manned. In area "A", the Squadron's mobile defense platoon formed with equal speed and stood by in reserve for the remainder of the alert. Forces were secured at approximately 0415.

e. (S) Air Operations

(1) During the month of February 1967, VMCJ-1 flew a total of one thousand, one hundred and three (1,103) hours. One thousand-ninety (1,090) of these hours were Combat hours. VMCJ-1 broke all previous records of Combat hours flown by any squadron of Marine Aircraft Group 11, since the arrival of the Group in Danang, Vietnam. The record breaking flight hours were logged just three (3) months after the first introduction of the RF-4B and EA-6A into a Combat environment.
