PART II. (U) Significant Highlights

1. 10 December 1967, Lieutenant General CUSHMAN, presented VMJ-1 with the Commandant's Efficiency Trophy for fiscal year 1967. It was awarded for outstanding performance in flight safety, accident prevention, combat readiness, and overall participation in Naval Aviation Competition.

2. On 19 January 1968, VMJ-1 received the Navy Unit Commendation, awarded for exceptionally meritorious conduct in the performance of outstanding photographic and electronic reconnaissance in the Republic of Vietnam, from 1 November 1965 to 20 September 1966. The Award was presented by Colonel Frank C. THOMAS, Chief of Staff, First Marine Aircraft Wing.

3. (C) Casualties

a. One (1) Naval Aviator, Captain William D. MORELAND 089830, USMC, and one (1) Naval Flight Officer, 1stLt Paul S. GEE, 097420, USMCR, were declared MIA on 16 January 1968. The officers were the aircrew of an EF-10B supporting Navy Operations.

4. (U) Information Service

Fifty-nine (59) Fleet Hometown news stories were submitted.

5. (U) Counter Intelligence

a. Orientation briefs for new aircrews were provided at MAG-11 S-2. Orientation and squadron operations briefs were also given to the new aircrews by the squadron S-2 and S-3 sections.

b. General situation briefs with emphasis on the Danang TAOR were given weekly to the officers and enlisted men of the squadron by the S-2 sections of the squadron and MAG-11.

c. Briefings on SAR, SEME, and MIG activity were continued for selected aircrews. An additional DMZ brief was initiated, presented on a map of the DMZ TAOR and up-dated daily.

6. (C) Photo

a. There were one hundred and sixty-three (163) photo sorties flown, completing sixty-four (64) tasks, with fifty-five (55) tasks pending including continuous coverage tasks.

b. Monsoonal weather greatly hampered the squadron in completing its assigned tasks. Sixty-three (63) sorties were cancelled due to weather. This is exclusive of airborne aborts because of weather.

c. The Ashau valley road and enemy enroachment route continues to be the number one day priority with about fifteen (15) percent of the total squadron day photo effort devoted to this area. During the reporting period, in addition to confirming known enemy activity, seven (7) new AA/AN/positions and construction on a new road leading NE were found. The rest of the day photo effort was divided among the Vietnam DMZ, North Vietnam, Khe Sanh, Hue, Danang, and Hoi An areas. In a mission flown south of Khe Sanh, eleven (11) possible bivouac areas were discovered. On 22 January 1968 a mission was flown North of Con Thien which revealed nine (9) light artillery sites, thirty-two (32) possible

storage revetments, one hundred fifty-one (151) AA/AW/positions, eighteen medium AA positions, and one hundred sixty-three (163) light AA positions.

d. Night infra-red photo missions also continued to dominate the priority list. The value of this mission has been recognized because of the sensor's ability to detect enemy movement and activities at the time the enemy believes he is secure from detection. The results of night infra-red missions flown by VMQJ-1 are well known to United States Forces in Vietnam.

7. (S) Electronic Warfare

a. During the month of January 1968, operations continued in support of Navy Strikes in NVN route packages IV and VI B, but were again reduced in number due to cancellations for weather by the Navy. VMQJ-1 support was requested for night Navy strikes in addition to the normal day operations and several support missions were flown. Support for Marines in the DMZ and Air Force coordinated Rolling Thunder operations were continued, although not as many were flown due to the strike support by the A6A's at Khe Sahn. The expanded frequency coverage was continued on DMZ operations and some Firecan intercepts made. The First Marine Aircraft Wing extended our coverage on PECM missions to include the C Band Fansong. None were detected.

b. Through the month, the following emitters were jammed in support of Navy Strike operations, Rolling Thunder operations and on the DMZ:

FIRECAN: 249
FANSONG: 141
UNKNOWN: 1

c. The following emitters were intercepted and reported on but not jammed:

FIRECAN: 8
FANSONG: 7
FLATFACE: 2

8. (S) Air Operations

a. During the month of January 1968, VMQJ-1 flew a total of eight hundred and thirty-nine (839) hours, of which seven hundred and eighty-three (783) were combat hours.
