PART II. SUMMARY OF SIGNIFICANT EVENTS

1. With the continued cessation of bombing north of the 20th parallel, AECM missions in support of Navy strike operations remained substantially reduced relative to previous months since the majority of the strike targets are located out of radar controlled threat environments. The freed ECM assets were used to up date the ROB of North Viet Nam, with special emphasis placed on Route Package One, and to locate suspected radar controlled AA/AW sites in I Corps.

2. The DMZ patrol initiated a change in the basic orbit to support attack aircraft of MAG-11, MAG-12, and MAG-13 during their strikes in Route Package I. Upon egress of strike aircraft, the orbit was again changed to best support DMZ operations.

3. On 28 May 1968, LT. COL E. B. PARKER, Commanding Officer of VMCJ-1, and Capt. J. W. STONE, EA-6A/EF-10B ECMO, visited the attack aircraft carrier Ticonderoga. RADM BARDSHAR, CTG 77.6, and aircrews aboard the Ticonderoga were briefed on the AECM capabilities of the EA-6A and EF-10B, and procedures were established for efficient coordination of attack/support aircraft communications and tactics.
