PART II

NARRATIVE SUMMARY

July 1970 climaxed the tour of Marine Composite Reconnaissance Squadron One in the Republic of South Viet Nam which began in April 1965. The five years that the squadron was in country saw many advances in electronic warfare and photographic reconnaissance.

Beginning with "Willie the Whale" and Crusaders, the squadron departed with the latest of reconnaissance vehicles; the EA-6A, Intruder, and the RF-4B, Phantom. Especially noteworthy is the fact that Marine Composite Reconnaissance Squadron One flew more than 25,000 combat sorties and closed operations with a total of 11,297 accident free hours.

Before standing down on 1 July, both the electronic warfare section and photo section set operational records in June 1970. During the two weeks since the squadron ceased operations, administrative records were brought up to inspection standards. The main emphasis was embarkation of aircraft, personnel and support equipment in anticipation of the transfer of five EA-6A's to Marine Composite Reconnaissance Squadron Two and the actual redeployment of the squadron to MCAS, Iwakuni, Japan.

The fifteenth of July marked the last day that the squadron was in the Republic of South Viet Nam. Beginning with a flyover of the EA-6A's transiting to CONUS, the command departed at 0001Z as LtCol P. A. MANNING led four RF-4B's to Japan. As exhibited by the numerous accolades given the squadron, Marine Composite Reconnaissance Squadron One developed an outstanding record of accomplishments. As LtGen. McOutcheon stated in his congratulatory message: "Your record in combat against the enemy has been commendable and indicative of the esprit of all the officers and men of 'J-1'."

PART III

SEQUENTIAL LISTING OF SIGNIFICANT EVENTS

- 1 July - VMJ-1 stands down
- 15 July - Five EA-6A's depart for CONUS and transfer to VMJ-2. Official farewell ceremony was highlighted by remarks by LtGen. McCutcheon and MajGen. Armstrong. The Command departs at 0001Z for NCAS, Iwakuni, Japan.
