PART II

NARRATIVE SUMMARY

The month of June was highlighted by the arrival of General CUSHMAN, Commandant of the Marine Corps. On the 18th at a briefing, which followed a reception luncheon, he was formally introduced to VMCJ-1/2 officers and men. On 16 June aircraft of this squadron, Pigment 13 and 01, provided ECM support for the Commandant's aircraft as it transited I Corps area. With the transfer of several aircrew personnel to CONUS, and the addition of new members into the unit, crew training and evaluation continued. An average crew flew 18 combat sorties and logged 36 hours with an additional 3 hours of testing and training in Cubi Point. The Electronic Warfare department stepped up its training program to meet the needs of new aircrewmen and briefings to crews from other squadrons. Members of VMA(AW)-533, before their departure west, received the latest Electronic Order of Battle along with a resume of tactics employed by Naval Forces.

In order to maintain a high degree of readiness, the logistics section performed a complete review of squadron embarkation data. Plans were formulated for re-deployment of the unit or of the separate VMCI-1/2 detachments by either air or surface lifts.

Hours for June must also be reflected with a full system capability. Maintenance sections were able to keep all deployed aircraft full system capable, even during extended absences from the Cubi Point area. Four and five day mini-deployments in country, were forced on our maintenance section, by bad weather in the Philippines. With an RON in Thailand, packups included support for extended coverage, but missions were met.

PART III

SEQUENTIAL LISTING OF SIGNIFICANT EVENTS

16-18 June General CUSHMAN, Commandant of the Marine Corps, visited VMCJ-1/2 detachments.
1-31 June Individual sorties flown are reflected in OPREP-4 reports. Cumulative statistics for the month of June follows:

	Combat Support Sorties/Hours	Combat Sorties/Hours	Others Sorties/Hours
VMCJ-1	66 / 122	50 / 94	8 / 11
VMCJ-2	89 / 161	69 / 134	8 / 14
