Had two near mid aivs, there was too much radio clutter for a complicated mission as night med evac. They were in our platoon zone or we were in theirs, who knows? LZ call sign was changed after briefing, word was never passed to dead-lock H/c. just added to the confusion -

SLF control (ice pack) seemed to know nothing of our mission. Other incidents included 6 or 7 air bursts in the immediate vicinity of the LZ at anywhere from 500 to 1000.

IN SUMMARY - too much traffic, too much radio and too ~~much~~ little control, makes for a #10 hop -
