NSN H-43 consisting of 2 gunships was launched at 1130 H to escort 2 VIP helicopters. Prior to launching, we were instructed by the Group S-3 that this was a priority msn and the wx minimums were 1500' and 2 mi. We proceeded to Phu Bai and at times were operating at 400' & ½. This was discussed with the lead a/c (VIP) and we informed him of the 1st WING instruction concerning wx minimums. A Marine Major from Wing was co-pilot of the VIP a/c and he said the Wing S-3 said to go if at all possible. On landing at Phu Bai, we further discussed this and contacted Wing via radio. They said if the VIP's wanted to go — go. When we launched from Phu Bai to go to Khe Sanh, the reported wx at destination was 400 X ½6 VLS. We asked Sandshark to find out if they wanted us to proceed. The answer was "Ask your passenger". We stopped at Camp Carroll at pilots discretion. On return, we (gunships) were released at Dong Ha as we were not needed. The msn was at no time upgraded to emergency or mandatory so as to comply with the Wing instruction concerning weather minimums.

What is mission of this flight? If it is to spot rocket flashes what do I do then? I have no one on station or artillery batteries standing by. Only batteries answer all incoming until gone time.

Why not launch an A/C in a balloon over Da Nang it would save time, work, and money.

~~FMOR survey launched with a very marginal 1500/3 mi. Most of the time spent dodging clouds and other traffic both IFR and VFR from Danang The only place that the weather permitted us to fly was in the Danang traffic pattern at approximately the same altitude. Visibility was restricted most of the time and we would not have been able to see any rockets launched unless they were launched directly at us. This pilot feels very uncomfortable flying in a situation that is constantly asking for a midair collision.~~

11C Frag from L/S gave 35.5 (med Evac freq.) as contact freq for Cottage 14A. Cottage 14A would not or could not work this freq. Med Evac had to wait approx 06 minutes in the zone for the med Evac to arrive.

It appears that in the past of the requests for a med evac that there is no urgency about being up on freq nor having med evacs in the zone for pick ups. Approximately 50% of the time it is necessary to employ a middleman to get the requests up on freq and also many times there is a wait until the med evac arrives at the zone. Under these conditions I believe that the two aircraft involved are minimum.

IF ROAD RECONIASSANCE IS SOMETHING MORE THAN A ENJOYABLE AIRPLANE RIDE FOR SOME ENGINEERS, I WOULD LIKE THAT EXPLAINED TO ME THROUGH THE USE OF PRIORITIES. I AM UNWILLING TO RISK MY AIRCRAFT AND CREW IN PURSUANCE OF HAPHAZZARD WHIMS OF SOME ENGINEERS. FURTHER THE PASSENGERS (ENGINEERS) SHOULD FIRMLY BE REMINDED THAT THE PILOT NOT THE ENGINEER HAS CONTROL OF AND RESPONSIBILITY FOR THE A/C. ARM PUNCHING EMPHASIS OF PLEAS AND DEMANDS DO NOTHING BUT NEEDLESSLY DISTRACT THE PILOT. THIS PILOT IS NOT GOING TO FLY THROUGH SAVA PLANES OR CLOUDS OR POSSIBLE ENEMY FIRE TO ~~SEE IF A ROAD~~ CONFIRM THE FACT THAT A ROAD IS MUDDY UNLESS IT IS IMPORTANT TO DO SO WHICH MAY EASILY BE ~~FIST~~ DETERMINED BY THE PRIORITY ASSIGNED TO THE MISSION

2) UNABLE TO CONTACT LANDSHARK CHARLIE ON ANY OF ASSIGNED FREQS (LATER THEY ADMITTED CABLE COMMUNICATION PROBLEMS) ~~[illegible]~~ MANAGED TO CONTACT HUE TOWER JUST IN THE NICK OF TIME TO AVOID SAVAPLANES OUT OF HUE. FOR GOD'S SAKE DOESNT MAKE SENSE THAT IF LANDSHARK KNOWS ITS RADIOS ARE OUT, THEY IMMEDIATELY CEASE SAVAPLANES ??

H/S also seemed reluctant to pass Savaplane. Flt was instructed to contact H/S alpha 7 miles south enroute to Hill 63

① Crepe Myrtle 14 briefed the flight to operate on 47.2 the TACP did not even get into zone until the third wave making close air support impossible during most critical portion of flight/strike.

② Based on intelligence received from a major at Crepe Myrtle CP, it is felt that the decision to use the LZ selected caused the useless killing of many civilians. The co-ord given was situated between some slightly raised areas on which some villages were situated. I was instructed to prep the LZ with fixed wing. In order to do so the villages had to be destroyed. The intelligence brief indicated that there was no expected resistance expected and there were no automatic weapons reported anywhere in the area. An LZ some 1000 meters either to the west or southwest could have been selected and adequately preped it also would have been in defilade from the villages. I may not have the whole picture but it appears we could have avoided this situation and still have attained our goals with just a little more forethought.

Coordination between controlling agencies in using practically non existant. Reported to Korean Band they knew nothing of mission. Finally received brief from DIV G-2 and then had to wait over two hours for clearance to run mission. This type of mission requires approximately two hours to brief for days missions. It is very discouraging for a pilot to get up 6 hours before he is finally cleared to run a mission set up for 0800 and finally goes at 1130.

11G Proceeded to BT 145462 to contact Pierced River. They informed us that there would be no LZ in the zone but snake would be popped. No snake Nowhere. Finally Pierced River found out that this medivac had already been picked up.

BUT DID NOT REFER TO THEM OR USE THEM IN ANY WAY. EVERY TIME WE CAME TO A FEEDER ROAD OFF A MAIN HWY HE JUST SAID "LET'S CHECK THAT ROAD OUT FOR A LITTLE WHILE." THE WHOLE ROAD RECON HOP IN MY OPINION IS A MORN AIRPLANE RIDE FOR DIV. ENGINEERS. NO RESULTS!

ON ROCKET BELT SWEEP BLACKCOAT 13 HAD A ARTY REGISTRATION MISSION. SPENT (WASTED) 30-45 MINUTES TRYING TO GET 11 MAR ARTY BATT UP ON PRE-BRIEFED FREQ. WHEN ARTY BATT FINALLY RAISED THEY CANCELLED THE MISS FOR NOT ENOUGH TIME REMAINED TO COMPLETE A ARTY REGISTRATION. WE WERE FRAGGED FOR A ROCKET BELT VR NOT TO PLAY GAMES WITH ARTY. ALSO WHEN CHECKED OUT AND GAVE REPORT OF INSIGNIFICANT SIGHTINGS CONSTRUE 14 WANTED US TO REPORT SAME LENGTHY DEBRIEF TO BEACON LIGHT BRAVO - DID SO - BEACON LIGHT BRAVO WANTED SAME REPORTED TO BEACON LIGHT BRAVO REAR - DID SO. THE SIGHTING REPORT CONSISTED OF ROCKS, FORMATIONS ON A HILL THAT COULD FORM NATURAL BUNKERS, ETC.

BOTH THESE MISSIONS IN MY OPINION WERE A WASTE OF PILOTS, A/C, A/C, AND CREW TO SAY NOTHING OF THE COST.

DECLASSIFIED

OPERATIONAL DISCREPANCIES, REMARKS AND/OR RECOMMENDATIONS Brief for strike was held at LZ 411, NAILBRUSH 14 & a Battalion O-4 briefed requesting a LZ prep to include a small tree line containing a VILLAGE. Later when asked to re-confirm their request to prep the VILLAGE (no intelligence as to enemy activity) a Battalion O-5 perhaps the C.O) overheard the question and answered that we would absolutely not fire on village unless fired on, as per rules on engagement. This points up the necessity of all pilots (TAC(A)) to make very clear their position and to be sure exactly what is required by supported unit.

This is not so much a discrepency as it is a lesson learned.

SLE.

P.S. The strike went off with absolutely no fire encountered.

20-C HANAWORTH 1-4 REQUESTED US TO ASSIST PATROL 7B3 ON A SWEEP. WHEN CONTACTED 7B3 WANTED US TO CHECK "THAT TREELINE OVER THERE" AND WAS HIGHLY IRRITATED WHEN I COULDN'T HELP. I DIDN'T KNOW PATROLS POSIT AND WASN'T SURE WHICH DIRECTION "OVER THERE" WAS. AFTER TEAM WAS LOCATED TREELINE CHECKED AND ON OPPOSITE SIDE OF TREES WERE 5 MARINES RESTING IN RICE PADDY. THEN WE WERE TO CHECK OPPOSITE SIDE OF RIVER BANK FOR SUSPICIOUS PERSONNEL. ON LOW PASS OBSERVED ONE (1) MARINE TAKING MY PICTURE. I SINCERELY HOPE OUR ASSISTANCE WAS BENEFICIAL.

The LZ mentioned in the frag. was LZ 460 - no one there knew any thing about an ARP mission. Contacted tantshark and found out we were expected at 1111 10. Poor information caused us to be 40 minutes late. Mission was~~ finally completed !!!
