Aircraft was poorly utilized entire day. I ran 3 VR's
 over the same exact area with the C.O. all the
 way down to the platoon leader. This seems unnecessary
 to risk ~~an~~ two aircraft and crew landing in an
 unsecure zone to V.R. the same area 3 times. There is
 also always a great lack of coordination / ~~into~~ Several
 times when landing in a zone people jumped in the
 aircraft to ride from one zone to another who
 were not fogged to do so!! Past 14 of myself
 had no idea these people wanted ride or knew
 where they were going.
