We had the night portion of Mission 55 at Afton. During the night the A/C accumulated three downing discrepancies. We continued to fly the mission and informed Base.

although Mission 55 had first priority. We were not relieved until 1410. Our relief was supposed to be at 0700. My Gunner and Crewchief had flown the day of the 13th, the night and then again during the day because our relief did not show up.
