At approximately ~~1700~~¹⁷⁰⁰ I ~~was~~ flying from NIGHT COVER "C" to the Hoi An airstrip to pick up the Chief of Staff, 2nd ROK Marine Brigade. The junior staff secretary (appointed by General Lee to control the mission 10 Huey) was aboard my aircraft. Past 14 called me enroute and informed me that I was to return to the ROK CP at 1530 to pick up General Lee. At 1525 I was forced to leave Hoi An ~~at~~ without the Chief of Staff in order to be back at the CP in time to pick up the General. When I arrived at the CP PAST 14 asked me if I'd picked up the Chief of Staff; I said no, I was unable to wait for him because I had to get back to pick up ^{the} General. They then said they didn't know anything about the General, and told me to shut down! Ten minutes later the staff secretary told me to turn up and go get the Chief of Staff, who was waiting at Hoi An to be picked up. I asked about the General, and Past said they knew nothing of him. After completion of this sortie, the junior staff

secretary told me I was secured and cleared to RTB to Morble. I checked out with Past 14 and told them I was returning home. They said to wait one, which I did - I waited several as a matter of fact. Finally they come back and told me to secure! I was almost back to base when they called again and asked me to wait another one before going home. I said okay and turned back toward the CP. When halfway back I called and asked what was up. Past said never mind go ahead and secure!

Later that evening I was told that the "ROKS" (meaning Anglico) was in a 30 foot hover because I had "refused a mission".

I suggest Past get together with the people they're sent there to help, namely the ROX Marines.

After receive from AN HOA WASC
 Coyne 8-0 and 8-2 checked in with
 Coffey for clearance to Hill 55. On
 coming up on Coffey freq Blue Spruce
 14 called in MEDIEUAG 5K. He said
 BLUE SPRUCE 14D had two emergencies. Coyne
 8-0 copied the info and we initiated
 to Blue Spruce 14D freq and received
 the gone brief. 14D did not have
 the location of the emergency medevacs.
 At this time I had 380 lbs. One
 emergency ~~landed~~ came in on a
 tank to the landing zone. Coyne
 8-0 picked him up and instructed
 me to pick up the 2nd emergency.
 After orbiting 20 minutes - fuel state 220
 I was told the emergency was in the
 gone. I landed and a routine came
 aboard and a KIA. I told the 14D
 I could not take KIA and routine with
 the ~~KIA~~ ^{emergency} 14D told me the emergency was
 aboard. As it turned out after much
 discussion there were no ^{2nd} emergency originally.
 (The 14D was injured.)

Men #5000

Poor usage of A/C & crew. I started out as ODO this morning and due to circumstance in the area we had several pilots with several hours of flight time so schedules started rounding up relief crews and in order to due so had to have a pilot who was supposed to be Sr. & take the ODO so that I could fly. Instead of relieving one of the pilots who had several hrs. It was insisted upon that I go on mission 50 instead. I flew to An Hoa arriving at 1400 shut down and waited until 1630 when I was told to bring a carrier back to Danang & secure. This would not necessarily be a discrepancy on normal days however today was not normal.
