NARRATIVE SUMMARY

1. During the month of May 1969, VMC-2 flew a total of 2219 sorties for a total of 2317.1 hours. These totals are the combined efforts of 7 UH-1E's, 16 OV-10A's and 8 AH-1G's assigned this squadron. The following tasks were accomplished:

- a. Armed Helo Escort
- b. Visual Reconnaissance
- c. TAC(A) Tactical Air Coordinator (Airborne)
- d. Artillery Spot
- e. Convoy Escort
- f. Photo Reconnaissance
- g. Training
- h. Med Evac Escort
- i. Helo Escort (OV-10A)
- j. Naval Gunfire Spot
- k. Search/Rescue
- l. Command and Control
- m. APD (Airborne Personnel Detection)

2. Highlights of the Month. The following data is taken from the daily SITREPS.

On 9 May 1969, while supporting the 5th MAB, OV-10 pilots and crews accounted for the destruction of a large enemy force. The situation revolved around numerous sightings early in the day of NVA/VC in the open. As the day progressed OV-10A's, attack aircraft and refueling tankers were on station to provide a constant bombardment of various ordnance. The OV-10A's alone accounted for 23 KBA, the aircraft accounted for a large unconfirmed number and the Aerial Observers provided constant coordination with the ground units plus saturating the area with artillery.

Also during the month of May VMO-2 has very successfully used the suppressive fire power of the Cobra. The increased ordnance load combined with the accuracy with which it can be deployed has proved invaluable. With these capabilities we have been able to remain on station longer and can bring our suppressive fire much closer to the friendly units than was possible with the UH-1E.

This has been proven on several occasions this month. On the 15th of the month, while running an emergency med-evac, it was necessary for the Cobras and OV-10's to remain on station for a long period of time. It was also necessary to employ our suppressive fire only a few meters from friendly lines. Again on the 29th, while running a night emergency med-evac, the Cobras were called upon for close support. While the weather deteriorated rapidly and darkness set in, it was still possible to deliver our ordnance close to the friendlies due to the accuracy of the turret.

Again this month, the fire power of the Cobra was put to use on several emergency extractions of recon teams. During these operations it's necessary to have a volume of fire along with the capability of close delivery.

VMO-2 OV-10's and Cobras have been supporting Operation Pipe Stone Canyon since its initiation in the latter part of the month. We will continue to support it for the duration.

As the squadron transitioned from the UH-1E to the AH-1G, our aircraft assignments went from 7 UH-1E's and 4 AH-1G's at the beginning of the month to 2 UH-1E's and 8 AH-1G's by the end of the month.

4. The following BOD was credited to the squadron for the month of May:

a. OV-10A	KIA(Conf) 47	KIA(Poss) NA
	boats Destroyed: 4	
b. UH-1E	NA	
c. AH-1G	Structures Destroyed: 8	Damaged: 1
