PART II. NARRATIVE SUMMARY

1. During the month of March, the weather, for the most part, was good. There were a few days of rain with low ceilings and visibility, and ground fogs hampered flights. Operations in the Phu Bai and "Chinook II" TAOR's were supported with six gunships and four slicks located at Phu Bai. Operation: "Prairie III" was supported with two slicks located at Dong Ha.

12. Ground Defense

a. Ground defense for the month of March remained essentially the same as February. The Squadron continued to contribute 10 men to the internal guard conducted by MABS. In addition to the internal guard a perimeter reserve was established. This reserve consisted of two additional men for each bunker during the hours of darkness to augment the normal perimeter defense. The personnel for this reserve come from the resident units at Phu Bai. VMO-3 was delegated to provide two men per night to man one of the bunkers on the northern portion of the perimeter.

15. Training

a. General Military Subjects Training. The NCO leadership group study is being continued. Five hours of classes were held on the care and cleaning of individual Weapons with 79 personnel attending. Six hours of classes were given by the S-2 briefing the enlisted personnel with 80 in attendance.

b. Technical Training. 167.5 hours of on the job training were accomplished, and 57.0 hours of formal classes were given.

c. Pilot Training. Two new PQM's were made with NATOPS checks this month plus continued syllabus training for three pilots for Qualification as PQM. The flights included Gunnery/Rockets, Navigation/Instruments and night proficiency.

d. Crew Chief and Gunner Training. Two crewman were sent to the Aerial Gunnery school in Okinawa. In addition two aerial gunners were NATOPS qualified. One crew chief was NATOPS checked and Qualified.

e. Education. 85 personnel are enrolled in 90 correspondence courses.

17. Supply

a. Project 01 expenditures for the month of March totaled \$11,839.69; this includes \$5,005.00 which was obligated for the purchase of additional NOMEX flight suits. This is a \$7,002.56 increase for the total operating expenditures from the month of February.

b. Group Supply Forward, has received lumber for packing and crating of retrograde aeronautical material. This will greatly shorten the evacuation time for major repairable assemblies.

c. Marine Corps Property has received approximately 85% of the clothing requested for replacement of in-kind issue during this month.

18. Motor Transport: 12 vehicles assigned with a total of 3,973.0 miles utilized

20. Aircraft Maintenance. Average aircraft availability for the month of March was 33%. This is based on 12 aircraft assigned with an average of four aircraft flyable daily. The low availability was due primarily to sand damage to main rotor hubs and lack of replacement hubs in the supply system. A secondary cause has been a series of Hot-End inspection and lack of replacement parts for completion of the inspections. Availability improved to 58% during the last few days of March with the receipt of several AOCB items. We also received 12-airframe change 27 kits which is the main rotor hub dust deflector. These kits are expected to minimize sand damage to the rotor hubs, and alleviate most of our problems in this area.

a. We also had one aircraft damaged by a hard landing after an engine failure and autorotation. The engine failure appeared to be caused by failure of the NI turbine as evidenced by a one inch hole in the combustion section adjacent to the NI turbine, and pieces of NI turbine blades found in the engine compartment. The aircraft sustained C damage and was transferred to H&MS-16 for repairs.

b. The maintenance control section processed 255 work orders, the vast majority of which were caused by sand damage to various parts. The only relief in sight for this problem is the completion of the aircraft parking apron and maintenance area north of the runway.

21. Avionics

a. Avionics maintenance has improved greatly due to the locating of an avionics repair van here at Phu Bai.

b. Sand is still a problem maintenance wise.

c. Avionics supply is still improving.
