2 DEC 1967

a..During the month of November the material section submitted two major budgets which were BPN 09 and BPN 11.

b. These budgets covered the NAVAIR00 - 350M - 6 - 2 tools and materials for Motor Transport. The BPN 09 came to \$2,987.54. The BPN 11 came to \$2,316.86. Both budgets cover the 3rd and 4th quarter fiscal year 68.

c. During the month of November adequate rain gear was received for all personnel in the Squadron. Also knee length rubber boots were put on order for all hands.

23. AIRCRAFT MAINTENANCE

a..For the period of 1-25 November 1967, aircraft availability averaged 57%. The planes were grounded on 26 November for a special main rotor mast and tail rotor hub inspection. As of this date they are in the process of coming back into an AIO status, hopefully^{to} return to normal operations shortly.

b. The monsoon season is upon us. As a result, considerable effort has gone into trying to make the maintenance hangar as dry as possible. It is a slow process, with hundreds of shrapnel holes to repair, but we are gaining slowly. We also have lights installed in the hangar, so that night maintenance will be a little less difficult to perform.

24. AVIONICS

a..The 3M documentation for the AVIONICS section was greatly improved. Documentation increased from 43% to 94%. Five personnel joined, three radiomen and 2 electricians. MSGT F. C. KNUTH is now assigned as NCOIC.
