with an unknown size enemy force. We let the enemy know & feel our presence by rocketing and strafing the area. Murray Aircraft 4-1 & 4-2 were brought in to make the snatch after it was decided that fixed wing prep would take too long. During the ensuing time SW 4-21

ran low on fuel and went to K.S. and refueled. Upon lift off and going down wind he was hit by 1 sniper round from the vicinity of X D 848406 which is where an enemy force pinned down a convoy later in the day.

SW 4-21 returned to assist SW 4-20

and mission was successfully completed and aircraft returned to QT.

2-111

The successful extract. We then proceeded to XD931608 to extract recon team "Bus Stop" which was extracted with ease by Chatterbox 22-1. We then proceeded to XD 943577 to extract "Crested Star" Chatterbox 22-2 performed this wonder and easily snatched the team. Having been previously asked by

Grasshopper 14 we proceeded to CC to pick up one man who was to go on emergency leave. We then proceeded to the bus stop at the ~~bus stop~~ <sup>Chambers</sup> SA so that SW 4-2 could also pick up passengers. SW 4-1 + 4-2 proceeded to camp to drop the 1 fox on 4-1. However, upon arrival at CC and after dropping our fox we were asked to carry 4 more people and we obliged. 4-1 took two and 4-2 took two. Drove to DH to discharge 3 passengers at LZ Kivi. Finally arrived at QT and disgorged two more and mission 116 CD FG + were complete.

1630 we launched on mission 107A which was the emergency extraction of recon team "Churchview" at YD 097673 who had been in contact with an unknown size enemy force. Southern Romeo was the AO en station and he directed us into the area apprising us of the situation. It was then decided to move the Recon team 500 meters to the east so that SW 4-1 + 4-2 could work over the area with rockets + machine guns. The first run was made with rockets and at completion Chatterbox 22-1 had arrived and was ready for the pick up. We then made one more run and then directed CB 22-1 into the zone. Recon extraction was swift and successful. SW 4-1 + 4-2 then made 2 more strafing runs on the area and departed for QT.

resupply of LZ Hawk. Moved back over the RS area and orbited. Then Vesper Bell team "F" had an external to go out so we covered CS. Went over to 820450 to cover a few externals then back to Vesper Bell team "F" for an external. Returned to

5-204

circle dizzily above K.S. Finally a little respite  
 able to watch a few supplies brought to  
 552. A call from Harper Ball team "E" to  
 pick up an external to go to ~~the~~ Hawk and we  
 fly over for CB. Fuel is low and we depart  
 holding pattern for Camp Carroll (1 flight).  
 Well juiced (Ac) we return to K.S. Watch LZ  
 Hawks get resupplied again and move into  
 holding until fuel runs low and must return  
 to QT for fuel as Camp Carroll is dry.  
 Return to K.S. without incident. Fly over  
 for resupply of 861 and then 558 then  
 881 return to the carousel pattern high  
 above K.S. Finally 471 needs resupply  
 and we once again oversee that and redirect a  
 chatterbox that has a lock-on on Co Roc. Finally  
 get 4 a/c onto 471 without incident and  
 return to QT to be relieved by SW 4-22-

Guided them into the zone while SW 4-2 laid down suppressive fire 10 rounds and 1700 lbs of ammunition expended. AD station was established. Mission successful and returned to AT. Do RT Regan for brief on insert of "Stein Song" and extracts of "April Shower," "Mole Stein," and Klondike.

**5-218**

Do YD 135490 to insert "Stein Song" utilized fixed wing prep of zone by "Love Bug" 534. Capt price ran the strike and the team was successfully inserted by Chatterbox -1. At this time we received a call from "Heritage" team saying that they were surrounded by NVA. Since they had not made contact airrunded near advised us to continue with missions. Hence we proceeded to withdraw "April shower" at YD 030504. Mission posed no problems and extract was successful. Then proceeded to YD 965595 for extract of "Mole Skin" once again no problem as when mission complete we returned to refuel and rearm for a mission of assistance with "Heritage".

O.T. → YD 134496 Fingerprint 32 on station Southern Hotel directed us to the zone and we proceeded to rob the two lines surrounding the team. Fingerprint 28 then took over and we continued to harass the area until Chatterbox came to extract the team. On one pass we took fire and commenced a rocket run on the next pass, setting fire as close as 25 meters to the friends. Finally extract was completed with Chatterbox also taking fire. Fingerprint then worked the zone with fixed wing. We returned to refuel and rearm in order to go out after "Dallas girl". However, after take off the mission was aborted owing to Chatterbox's inavailability of a/c.

The End

W

rearm and refuel. While proceeding to KS pilot of lead aircraft spotted two gooks swimming river with bundles & what appeared to be a rocket tube. made low VR to investigate and took fire from XD 249557. Rolled back in left channel and delivered all ordinances. DT to rearm & refuel.

While proceeding to KS once again heard from Rockrunner 14 that Gold Lemon 14 "M" was in trouble and needed help. Contacted SW 4-22 at KS and found there was no immediate need for our services at KS. and proceeded to Gold Lemon 14 "M" position (XD 957460) to help out. SW 4-5 was on the scene and we operated in conjunction with them. After expending rockets and some 7.62 at XD 975458 we started receiving fire from one twin 50 cm and 2 single 50's at XD 969470. Rolled in and delivered 7.62 on these positions. Ground units fixed their position and were calling ARTY as we departed. DT to end an interesting day.
