at XD 670485 which is river crossing
and well traveled trail leading from Fass
down to Khedonh. Stretching across
the river was a large cable. appeared
to be a communications cable leading
into grove of trees. Just as sun set, I
got a glimpse of a vehicle in the some
trees. Due to darkness I couldn't get a
definite sighting. Also appeared to be an
antenna sticking up through the trees.
Ran one flight but due to darkness
they missed the target. Suggested TPA
to Vandergrif DASC.
