INTELLIGENCE CHRONOLOGY FOR JULY AND AUGUST 1965

On 9 July 1965, the day after its arrival into the Republic of Viet Nam, the Marine Aircraft Group 11 Intelligence section commenced the production of target intelligence for the various missions flown by the tactical squadrons in Marine Aircraft Group 11. The order of battle, i.e. compositions on positions, strength, tactics, training, logistics and combat efficiency of Viet Cong forces, is maintained by the section on a daily basis.

Also maintained by the section is the enemy Air Order of Battle which includes both A/C, AAA, and missile intelligence.

Weekly briefings are conducted for all officers, and a nightly briefing is held for the ground defense force. Troop briefings are held for H&MS-11 and MABS-11 by duty section Monday through Thursday.

Intelligence information is gathered for dissemination to the group from Wing-2, Div-2, I Corps, II Corps, 2d Air Div, Special Forces and all other Isums available to this command.

1. In accordance with reference (a), the enclosure is submitted.
2. Summary

a. During July and August MAG-11 Logistical Activity was centered around debarkation at DaNang AB, RVN and building a semi-permanent Camp-site. In support of these operations Motor Transport vehicles traveled over 80,000 miles, carried 47,738 personnel and transported 1,786,000 tons of equipment and supplies. The Aircraft Maintenance Sections operating jointly from one hanger performed their normal jobs with only one problem, shortages of spare parts. The end of August saw MAG-11 firmly established at DaNang and rushing completion of a permanent camp.

CHRONOLOGICAL LOGISTICS SUMMARY

The month of July started with the majority of personnel and equipment from MABS-11, H&MS-11, and VMFA-542 aboard the USS Washoe County (LST 1165), USS Whetstone (LSD 27) and USS Vernon County (LST 1161). These ships sailed on 2 July for Vietnam. 7 July saw the arrival of the Group Commander at DaNang Air Base. On 10 July unloading of the USS Washoe County began at Red Beach. Unloading was hampered by poor preparation of beach roads, lack of traffic control, and lack of information about ship movements. It was further slowed by reports of enemy action against the initial motorcade proceeding from the ship.

On 11 July the USS Whetstone and the USS Vernon County arrived at Tien Sha Beach, DaNang, RVN and unloading operations shifted to this area. Movement from the beach to DaNang Air Base was extremely slow because all heavy loads had to cross the Tourane River by barge ferry. There are no bridges in this locale suitable for heavy wheel loading. On 13 July the temporary tent camp was completed, and VMFA-542 was established on the east side of DaNang Air Base. The temporary camp had been begun by an advance party of 30 personnel on 27 June.

Construction of a permanent mess hall began on 14 July with MCB-3 supplying the skill and materials. Four days later a 24 foot 6000 gallon water tower was started. It was completed in 12 days and provides a pressure head for the water system.

On 20 July MABS-11 assumed control of the ammunition supply point and began building revetments. MCB-3 began erecting a steel Butler building to store perishable Group supplies. Four days later the 40 man rear echelon from Atsugi arrived by airlift. Also on this day the ready service ordnance issue area began operation at the southern end of the flight line. Construction in various areas continued for the next two weeks slowed only by the lack of engineer equipment deadlined for parts and material shortages.

17 August saw the beginning of a road between the ready service ordnance issue and the flight line.

Construction began on strongback tents 25 August and is continuing. The Group Supply Butler building was completed 28 August.
