HC ROK MARINE BDE
4 Feb. 1967

FROM: SGT KENNETH C. CAMPBELL
SUBJECT: AIR SUPPORT
TO: WHOM IT MAY CONCERN

1. On Feb. 1, 1967 while acting as ground FAC for a platoon from 2nd Company, 1st Bn, 2nd ROK Marine BDE, we were hit by heavy VC fire. At this time I contacted TOGO, 87, a airborne spotter and using him for relay requested a Med-Evac for wounded. He relayed this to Chung Po Do. The helicopters were at my position soon after but were unable to land due to heavy fire.
2. Soon after, using TOGO 87, I requested an air strike in a nearby area. For the next hour he controlled air strikes and relayed information to my ALO because I had no radio contact.
3. The air strikes were all outstanding and on target. Both TOGO 87 and the fixed wing aircraft complied immediately with all my requests and changes of targets.
4. A little later we were overrun by the VC and I requested an emergency air strike on my position. At that time my radio went out and TOGO 88 who relieved TOGO 87, even having no radio contact with the ground called in my air strike which was the deciding factor in our escape from the village. After we got away from the area they continued with the air strikes which delayed the VC long enough for us to get away and find a better position.
5. At this time knowing our general position they continued with air strikes from both fixed wing and "Hueys". These air strikes which continued until dark were probably the only reason we were brought out alive. They had "Hueys" strafing on 2 sides of us which held the VC back for several hours until a rescue force was able to reach us and take us out.
6. Myself and the Koreans who came out alive owe our lives and our thanks to the great support we got from the TOGO airborne controllers, the fixed wing aircraft, and the "Huey" helos. This is probably the finest example of air support I've ever seen.
