Subj: Command Chronology for June 1968

1. The month of June saw a great deal of progress on the Lo Giang school. Nearly 9000 bricks are now in place and the school is rising fast. This is a model Civic Action project because all of the actual work is being done by the people of the hamlet. The school will be ready to accommodate the fall term.
2. Weekly milk runs are now being made to both hamlets along with the MEDCAP personnel. A dental program has been started in conjunction with the MEDCAP and will be continued. Both are very popular with the people.
3. Personal Response Counsel meetings were held in both hamlets. Present and future projects were discussed and problem areas dealt with. Both hamlet chiefs were asked to select Vietnamese girls for the nurse training program that we are going to offer. Dispensaries are being planned for both hamlets.
4. Much liaison was conducted concerning two long range projects. The introduction of IR-8, a new experimental rice, into the MAG-11 Civic Action area and a proposed planting during the September rice season on an experimental basis. The other project involves bringing a species of carp in to stock the streams that feed the rice paddies. The fish will become a source of food and will be helpful in that they feed on insects and algae which affect the rice. Both projects offer a great deal and will be put into effect in both hamlets.
5. Two MAG-11 members of the Civic Action team now live in Echo 4 compound in Lo Giang. They are there to serve as a resident link between our MAG-11 Civic Action program and the people of the hamlet. They have started English classes in the hamlet and interest is good among the people.
6. No particular problem areas were encountered. The people in both hamlets were receptive and cooperative to our program and we are accomplishing much.
