Subj: Command Chronology for July 1968

1. July was an important month for our Civic Action program. The tactical situation remained fairly stable. Lo Giang was visited by two tax collectors, one was captured and the other was run out. Five members of the Viet Cong were killed by the RD cadre deployed in our hamlet. The Echo 4 CAP unit is patrolling at night, affording a greater degree of protection for the people of the hamlet. Le Son officials received threats from the VC but did not leave the hamlet. Since then, defenses have been strengthened and alerted.
2. Personal Response Counsel meetings were held in both hamlets. At no time in previous months has the MAG-11 Civic Action Team enjoyed greater cooperation or friendship with the people. Every program that we introduce and want to instigate receives the unqualified support of the people. With this attitude prevailing, we can accomplish much.
3. A Personal Response School was conducted in the MAG-11 Chapel. About 35 Marines were in attendance, and were entertained by the various guest speakers. Movies were shown and native relics were used in the speaker presentation.
4. Much ground work in July was devoted to the 4 major projects which are in accordance with our long range goals. The Nurse Training program was established and girls have been selected to receive the scholarship for the training. IR-8 rice will be planted during the fall on an experimental basis, much interest has been generated over this program. A cattle vaccination project is definitely scheduled for 6 August 1968. Five thousand Tillapian fingerlings have been ordered and the ponds are being planned for August construction. MAG-11 will support 16 students this fall under the General Walt Scholarship program, more than any other group in the 1st Marine Air Wing.
5. The squadrons in MAG-11 have been assigned projects in conjunction with the new school at Lo Giang. It will be in operation this fall.
6. Our objective here in MAG-11 is to add depth and long range planning to our Civic Action program. The benefits of such a program are already evident, though much remains to be done. It will be accomplished.
