PART IINARRATIVE SUMMARY OF SIGNIFICANT HIGHLIGHTS

1. (U) On 1 September 1968, for the first time since commissioning, VMFA-334 commenced combat operations.
2. (U) On 2 September 1968 MGen TOWNSEND, USA, MACV J-1, visited MAG-11 for a brief and tour of the flight line.
3. (S) For the first time on 9 September 1968 A6A aircraft from VMA(AW)-242 and F4B aircraft from VMFA-542 combined successfully to form a hunter-killer group to attack moving targets (trucks and boats) in Route Package 1. Although no BDA was observed it is believed this will become a significant tactic for future operations in this area. The procedure is continuing to be evaluated to obtain best tactics and most effective weapons employment.
4. (U) On 11 September 1968 two aircraft of VMFA-334 successfully delivered their ordnance within 30 meters of friendly troops, preventing further friendly casualties and producing 4 NVA POW's. These are perhaps the first confirmed POW's credited to Marine fixed wing air.
5. (S) On 17 September 1968, after receiving intensive enemy ground fire, an RF4B from VMCG-1 was unable to lower its starboard main gear. During the subsequent arrested landing the wing tank ruptured and ignited causing extensive damage to the aircraft.
6. (C) On 19 September 1968 and F4B from VMFA-542 apparently received disabling enemy ground fire during a 45° dive rocket attack in NVN. The aircraft failed to recover from the dive resulting in the deaths of Capt. J. A. LAVOO and Capt. R. A. HOLT.
7. (U) On 19 September 1968 Adm. MC GAIN, CINCPAC, visited MAG 11 for a static display of organic aircraft.
8. (U) On 22 September 1968 LtGen BUSE, CG FMFPAC, LtGen CUSHMAN, CG III MAF and MGen QUILTER, CG 1stMAW visited MAG-11 Dental and Special Services.
9. (U) On 25 September 1968 MGen A. H. ADAMS, CG 3dMAW visited MAG-11 for a brief and tour of the flight line.
10. (S) On 30 September 1968 a TA4F from H&MS-11 provided NGF spotting for the first fire mission of the USS NEW JERSEY. This is a continuing commitment.
11. (C) Testing of the Motorola and Vega beacons continues. A6A's of VMA(AW)-242 used the beacon with very good results in the protection of Special Forces camps.

1. September saw the completion of the Lo Giang fish pond. It is now ready for the stocking operation and the fish are being awaited. Mr. Fidel, the Cords' fishery adviser, pronounced the pond as being ideal for *Tillapia*. The benefits of the fish project will soon be available to the people of the hamlet. Seven other ponds are now being constructed as a result of our original project.

2. The hamlet of Le Son has been requested by the newly-arrived 1st Marines for civic action purposes. This hamlet is in the center of their TAOR, it is close to their compound for defense purposes, and it would allow MAG-11 to concentrate a full effort in Lo Giang. This course of action has definite and obvious merit. I am personally in favor of releasing Le Son to the 1st Marines and am awaiting final confirmation from the 1st MAW Civil Affairs Officer.

3. Medcap visits were made weekly to both hamlets during September and were accompanied on all occasions by security elements. A total of 411 persons were treated by this part of our program.

4. Three Marines from MAG-11 are presently living in Lo Giang. The job that they are doing is outstanding. Each day is started with a "walk-through" visit in the hamlet. Help is given to persons needing it and their friendship with the people is growing daily. Their presence in the hamlet has greatly aided our rapport with the people and the program that we are directing. This is an invaluable part of good civic action.

5. New projects are now in the planning stage. A pig program, a chicken project, and November planting of IR-8 rice constitute new ideas that are soon to be introduced to the people. These programs are designed to supplement the very limited diet of most Vietnamese, and at the same time, to bolster private economy.
