 4 Jun 1969

From: Civil Affairs Officer
 To: Commanding Officer, Marine Aircraft Group-11
 Subj: Command Chronology, month of May 1969

1. The month of May developed into a rather routine month for the MAG-11 Civil Affairs team. The team is well broken in now and functioning smoothly.
2. One of the highlights of the month was the attendance of the Lo Giang villagers at a school on IR8 "miracle" rice. The school was set up by CORDS at Hoi An in coordination with 1st MAF and MAG-11. Lo Giang has been supplied with IR8 rice kits by MAG-11, and experimental plots will be planted this season.
3. Med Caps are still being held weekly except when enemy activity dictates otherwise. It is under consideration that Med Caps be limited to twice a month due to lack of "business".
4. As stated in previous reports, there was a problem in the mortality rate of young rabbits. The problem has apparently solved itself, as the new litter of three rabbits is doing well.
5. MAG-11 has contributed \$700 US dollars to the completion of the Ba Met dam near Hoi An. This dam controls the majority of irrigation ditches in the Lo Giang area. 1st MarDiv and 1st MAF have also contributed large amounts of money to this project. The dam is nearly complete but a final opening date is indefinite due to problems in stopping flow of high velocity water through the remaining gap.
6. The tilapia fish pond, which was built by MAG-11 last year, is considered a failure. Due to the proximity of the Vinh Han River two hundred meters from the center of Lo Giang, the villagers prefer to wash, bath, and catch their fish from the river than the pond. Carp type fish weighing three to five pounds are the normal catch from the river. In contrast, tilapia fish will weigh 3/4 pounds when fully grown.
7. The completion of the school in Lo Giang is pending. Money for the school will be available to the villagers from QVN as soon as a representative is trained in the paper work involved. The chosen representative is now in Saigon being schooled in this respect.
