6 Jul 1969

From: Civil Affairs Officer
To: Commanding Officer, Marine Aircraft Group-11

Subj: Command Chronology, Month of June 1969

1. The MAG-11 Civil Affairs team has experienced a good deal of change during the month of June. We have a new OIC, NCOIC, and four new members on the team, bringing to 10 the number of enlisted men. This number will gradually decrease until each squadron is represented by at least one man.
2. Of more consequence is the fact that the overall direction and effort of the team is being shifted to the area of civil affairs rather than civic action. There has been a gradual sliding in this direction in the attitude of our Civil Affairs personnel in MAG-11 in the past six months but now this is the official direction of those coordinating the pacification effort at higher levels. This has been brought to a climax by the institution of "the 1969 Pacification Program for Village Self Development". In essence it is designed to force the GVN to be responsive to the people's needs at the lowest level. Leaders at the Village and Hamlet level have been elected by popular vote where the security situation allows (This is true in our area). The people's government has been given a relatively large budget and should be able to carry on what the military has been doing in its Civic Action effort. Eliminated will be the problem of Americans forcing their ideas on the Vietnamese people which has time and again produced failures in projects which seemed perfect to Americans but were not accepted by the Vietnamese.
3. This may seem like an obvious step however it creates many problems for the Civil Affairs team in the field which used to truck out loads of supplies and provide labor when the Village Chief beckoned. We now must say no but at the same time keep their confidence and ensure them that we haven't lost interest in their progress.
4. An obvious question then is what are we doing. Our effort is to lend our technical advice when asked and encourage long range planning. There are certain long range projects to promote overall economic improvement in which we will still be actively involved. But only when there is an obvious need felt by the Vietnamese people. This type of work requires, more than ever, an in-depth knowledge of customs, traditions and organization in our particular area. This is the advantage of having our team living with the people. Only through constant personal contact can the confidence and trust of the Vietnamese people be gained. This personnel response effort will be the key to carrying out our task of helping to insure the effectiveness of the local government. The most effective

Appendix-10

01:JLK:na1
6 Jul 1969

way to reduce the possibility of communist in-roads is an effective government which the people realize to be worth having and worth giving their allegiance to.

6. Our most urgent need is developing a working knowledge of Vietnamese with our team members. To this end a school is being organized and will be taught in the Hamlet by the IRO interpreter, ARVN GySgt DOUNG. This will be followed as quotas come in with the 3 week language course at III MAF. GySgt DOUNG has been an invaluable aid in almost daily use in my contact with the Village and Hamlet leaders. Our progress would be zero without an interpreter.

7. In this new Pacification effort we have increased our coordination with the Air Force and MWSG-17 Civil Affairs teams who are assigned an area within the Village at Hoa Da. Each unit has 2 of the 6 Hamlets in this village. The second of our 6 Hamlets, Tung Lam, has just recently been assigned. It is considered less secure and has not had a Civil Affairs team in it. But with our larger team and through coordination with District there is much hope for progress in this new area. We have begun operating in it and have had no contact.

8. Some of our present operations include the developement of demonstration IR-8nrice crops (a larger yield product). They are progressing satisfactorily despite the limited supply of water.

9. The Medical unit from MAG-11 continues to run successful Med Caps in the area, treating on average 40 patients per week.

10. The Village government has asked us to start English classes. They will be taught by our team members and will begin during the month of July.

11. Scholarships will be provided for the coming semester for High School students from the Village. This is being coordinated by the three Civil Affairs teams working there.

12. Since the government does not provide school supplies MAG-11 provided these for over 80 students this past month.

13. VMCJ-1 has continued to sponsor trips to the Sacred Heart Orphanage near China Beach. Small repairs are done on the premises but mostly this involves attentions given readily by our Marines to the children. Serious problems in sanitary conditions were recognized that involved major improvements. This was brought to the attention of, MCB-4, A SeeBee unit nearby and action is being taken to install toilets with a flush system, a proper drainage system and new showers. This project should help reduce large numbers of deaths from preventable causes and should reduce skin infections on the younger children.

01:JLK:nal
6 Jul 1969

14. In summary then it will be increasingly difficult to measure our success, at least on a short term basis, in the Hamlet Pacification Program. There are however small and intangible signs of increasing effectiveness in the Village Government. In the past week two sapper supply caches have been found with several VC suspects and weapons. Furthermore there are three Village initiated projects in government channels. Hopefully if our efforts are effective the need for our presence will diminish gradually and disappear.

15. I feel this rather lengthy introduction will indicate the reason for the lack of distinguishable projects.
