Subj: Command Chronology, Month of July 1969

1. It is difficult to define or even estimate the progress of our pacification effort particularly with our overall aim of passing the goals of civic action into the hands of the local Vietnamese. However, the everyday routine contact between the Vietnamese people and our team living in their hamlet continues. Everyday occurrences cannot be mentioned but this is what our program depends on, and these have been favorable.
2. On 23 July, at about 2230 the CAP/Civil Affairs compound came under attack. Grenades were thrown into the compound but only a single VC was seen and he apparently escaped. Cpl FOURIER, a member of our team, was hit in the mouth by grenade fragments and was med-evaced. He was later med-evaced to the states because he had only a short time left on his tour. The team reacted well during this incident and this was commented on favorably by the CAP members. The two units work closely and support each other's missions.
3. The Med Caps are a continuing success and an integral part of our Civil Affairs effort. Over 150 patients were treated on three different occasions. One four month old baby was brought into the MAG-11 Dispensary for stitches in a head laceration. It was an interesting story but suffice to say at least ten different groups of women went out of their way in the afternoon to tell the team "Americans #1"
4. During the month the Village government mobilized the opinion of the villagers on an issue of corruption. A past Village chairman had stolen and misused Civic Action supplies. After four separate meetings of the entire Village Peoples Council, a decision was handed down from the District Chief consisting the offender. Our Civil Affairs personnel were honored guests at each meeting. Above all, these meetings indicated the local government can and will act when it is necessary.

Appendix-10

5. The process of the Village requesting funds is still slow and tedious. But with persistence and far sighted planning it can work. A project to rebuild a school, destroyed almost two years has begun. A sample of the confusion is that a school almost 75% completed remains unfinished while a new one is started. There have been no satisfactory answers despite attempts at our level to gain information.
6. After a request from the Village Chief our Civil Affairs team volunteered to clean out barbed wire and remove a conax box from an area abandoned by Americans. This turned out to be a gibber project than expected but it should be completed next month. The people living near there intend to plant tobacco or possible a new village office building will be built on the site.
7. Newspapers are not often found in rural Vietnam. Wing, however has a supply of Vietnamese newspapers and the Civil Affairs Team now has a paper route. It is a tedious process trying to get these papers circulated. The people are anxious to get them and it provides information on the war and their country's progress which is sorely lacking.
8. Whenever possible GySgt Dong, our interpreter teaches English classes in the field to our team members. They are all picking up a good deal of Vietnamese on their own and this gains much respect from the people.
9. A Personal Response school has been started in the MAG and held every two weeks. Subjects such as "the Third World Concept", and a study and discussion on cultural shock are emphasized. It is taught either by a guest lecturer or by Lt Kennedy. In the afternoon the class is taken to Lo Giang Hamlet and is broken down into small groups that are taken through the area by members of the Civil Affairs team. The personnel that have gone have enjoyed it and found the day worth while, particularly the trip to the Hamlet.
10. A cultural tour of DaNang City is held every two weeks, alternating with the Personal Response School. It is strictly voluntary and the Marines who have gone have all enjoyed it. It provides an opportunity to see the nicer and more interesting sections of DaNang which are normally off-limits.
