Subj: Command Chronology, Month of October 1969

1. The Civil Affairs Operations by the MAG-11 team continued to be effective during the month of October in our operations concerned with the pacification effort in Hoa Da Village. Contact with village officials and coordination with other units, however, were kept to a minimal level due to a lack of dependable transportation.
2. An additional two Hamlets were added to the present two Hamlets assigned to the unit bringing the total number of people in our area to about 5000. This area contains four Regional Force Platoons for security and contact has been established with the units battalion advisors. This area is far more isolated than the rest of the village. An all day activity was executed to familiarize the team with the area. Plans have been made for the unit to move in with two RF Units early in November for periods of about a week at a time. During the initial activity each RF compound was visited with our hosts being more than hospitable and looking forward to having our team workout of their compound. The two Hamlet Chiefs were also visited and general problems of the area were discussed.
3. The Village of Hoa Da has taken an important step forward in the "1969 Pacification Program". They are one of the first villages in Hoa Vang District to complete the first phase. They purchased eight large water pumps costing VN\$ 365,000 for eight family groups consisting of 50 families each. This was important because the channels of local government in cooperation with Province and District Governments were thoroughly exercised. The village and hamlet officials, responsible for using a budget for the first time did so in an anxious and competent manner. The priorities of the entire village were considered in reaching the decision which was the product of many meetings. The Vietnamese have demonstrated an anxiousness to control their affairs and this has revealed the competent leadership necessary. Civil Affairs advice on the matter was shuned but we did provide transportation into DaNang for the leaders to examine the pumps and delivered the pumps from DaNang to various locations throughout the village.

Appendix-10

4. "Operation Chicken" finally began on 15 October with the delivery of 205 baby chicks via Air-America from Saigon. There was some confusion on the immediate necessity of New Castle shots and despite our request they were not given immediately. Over a six day period 90 chicks were lost. When the shots were given the losses were stopped and no more chicks have been lost since. They are healthy and have impressed the Vietnamese Farmers by how fast they are growing. The demonstration concept of the project should still work and information will be put on a bulletin board soon. The second phase chicken coup will be ready by the end of the fourth week. The present price of a grown chicken is over VN\$ 600 in DaNang and going up.
5. During the month 95 people were treated by our Med Caps in Hoa Da Village. The number of people decreased from the previous month apparently because of heavy rains. The Med-Cap was cancelled once because of the rains. A new site has been established further into the village in an attempt to cover the Hamlet of Tung Lam. This appears to be an effective location at this time. Plans are being made to establish an additional site for alternating Mondays in the lower section of the village.
6. Twenty ARVN Veterans, soon to be discharged from the service, completed two weeks of on the job training in the MAG-11 Utilities Section as plumbers and electricians. This was part of a Vietnamese Veterans Vocational Training Program. The ARVN's found the work they were assigned interesting and they all indicated it gave them necessary practical experience for their jobs in the future. The ARVN's impressed our Marines with their enthusiastic ability and willingness to learn. The Marines in turn went out of their way to assist their Vietnamese counterparts in the various tricks of the trade. The ARVN's ate their noon meal in our mess hall and were in general very pleased with our hospitality.
7. The Personal Response School has been reorganized to cover all new personnel checking into the Group. The school has helped to acquaint 66 Marines with the local people this month. DaNang City Tours have also provided an opportunity for 45 Marines to become familiar with the city.
8. The teaching program at Anh Sang School continues to be an ideal mode for successful relations between the Vietnamese and Americans. Over 140 students were registered for the course but because of heavy rains an average night has 12 classes with about 100 students attending.
