PART II

NARRATIVE SUMMARY

During February, 1970 MAG-11 continued combat operations against insurgent forces in the Republic of Vietnam as a part of the 1st Marine Aircraft Wing and III Marine Amphibious Force. The reorganization necessitated by the departure of VMFA-512 in January was completed as VMO-2 was transferred to MAG-11 in early February. Also during February the Group was heavily committed to a major 1st MAF interdiction program - "GRAND CANYON".

PART III

SEQUENTIAL LISTING OF SIGNIFICANT EVENTS

1. IMPORTANT VISITORS

a. On 3 February 1970, MajGen. Wilborn G. DOLVIN, USA, Chief of Staff, Headquarters MACV, visited MAG-11 for an informal tour and brief of squadron facilities.

003A07370
14 March 1970

On 7 and 8 February 1970, 1st Lt. UPSHULTE and Maj. LUNDBERG, members of the Air Warfare Projects Demonstration Team visited MAG-11 and gave a presentation on new weaponry programmed for Fleet use.

c. On 19 February 1970, BrigGen. LEE, DONG YONG, CG, 2nd ROKMC Brigade and party of three visited MAG-11 for a brief and static display of the A6A aircraft.

2. CASUALTIES: NONE

3. INTELLIGENCE: See Supporting Document #7.

4. Civic Actions: See Supporting Document #10.

5. OPERATIONS

a. On 2 February 1970, MAG-11 received operational and administrative control of VMO-2. VMO-2 had been an integral part of MAG-16 since its arrival in Vietnam in May 1965. The re-location provides several advantages for VMO-2. The squadron's hangar facilities and spaces are a vast improvement over those at the Marble Mountain Air Facility. Operating from Danang Air Base has provided a substantial increase in safety and operational effectiveness and the close proximity of the photographic services of VMGJ-1 has greatly enhanced the effectiveness of VMO-2's photo missions.

b. Operation Grand Canyon, a H&MS-11 playboy developed/1st MAW exploited interdiction operation, commenced on 2 February 1970. The initial concept was developed by Playboy Reconnaissance and Intelligence Section from Playboy generated intelligence and other intelligence sources external to 1st MAW. After acceptance as a tactically sound plan, 1st MAW conducted planning and coordination with 7th Air Force, III MAF, and XXIV Corps; in addition to targeting and fragging strike aircraft from Marine Aircraft Groups 11, 12, and 13. This operation was aimed at slowing enemy infiltration along established motorable routes into the area. The operation represented a 24 hour effort to not only interdict crucial points along the routes into I Corps, but to exploit them by employing harassment-type ordnance making repair as difficult as possible for the NVA. H&MS-11 Playboy TAC(A)'s provided dawn to dusk tactical air control airborne of 1st MAW A4, F4, and A6 assets, totaling 150 sorties.

c. OPERATIONAL STATISTICS

(1) During the month of February 1970, MAG-11 squadrons flew a combined total of 1737 sorties logging 3120.4 hours and expending 4165.4 tons of ordnance.

INTELLIGENCE CHRONOLOGY1. SIGNIFICANT ACTIVITIES

a. Four orientation briefs for newly arrived aircrew members were conducted during the month. These briefs included information on; SAR, SERE, Survival Tips, Lessons Learned, Intelligence Briefing Procedures and information on the current situation.

b. During the month a representative from Group S-2 and a BN from VMA(AW)-225 made a liaison visit to CTG 77.0 (USS CONSTELLATION) to discuss; Target Techniques, Radar Scope Photography (RSP) procedures. A cognate visit by a representative from VMJ-1 was made to discuss Electronic Warfare matters.

c. A presentation to MAG-11 Aircrews by members of the Air Warfare Projects Demonstration Team was recieved during the month of February.

2. OPERATIONAL INTELLIGENCE

a. During the month of February the Intelligence Section prepared maps and mission briefs for 371 Steel Tiger missions and 419 In-Country missions. Mission planning included map preparation, enemy situation, target description, search and rescue procedures, anti-aircraft, ELINT and SAM Order of Battle. The scope of this planning was expanded by the continuing commitment of MAG-11 aircraft.

b. A total of 790 missions were debriefed in addition to numerous "Hot Pad" scrambles and test hops. A large number of these missions were in direct support of the following operations: Victory Dragon XIX, Geneva Park, Frederick Hill, Iron Mountain, Nantucket Beach, Randolph Glen, and Green River.

c. Reported significant BDA in air operations against Communist Forces in Viet Nam during the month of February are as follows:

- (1) 72 TRUCKS DAMAGED OR DESTROYED
- (2) 102 SECONDARY EXPLOSIONS OR FIRES
- (3) 35 BUNKERS DESTROYED OR DAMAGED
- (4) 6 ENEMY KILLED OR WOUNDED BY MARINE AIR

d. The Intelligence Section continued to brief the Commanding Officer, Group Staff Officers and Squadron Commanders on a daily basis.

e. The Intelligence Section continues to compile the G-2 Brief Summary on a daily basis.

(3) Comments

(a) The excessive TA-4F NORS rate continues to be due to a shortage of required parts in the local supply system. This is partly the result of the demands battle damaged aircraft put on the supply system.

(b) The excessive TA-4F NORM rate is due to (1) a lack of experienced avionic troubleshooters and the consequent maintenance time lost locating actual discrepancies, (2) a calendar check including an engine change, and (3) manhours required to repair battle damaged aircraft, Three (3) battle damaged aircraft were repaired locally and returned to service during February.

(c) The excessive EA-6A NORS rate was established due to the high number of AOCF'S during this period (see para 13b).

(d) The high EA-6A NORM rate was due to (1) the high ALQ-76 system failure rate, (2) the numerous communications-navigation system failures, and (3) three (3) aircraft being down for scheduled maintenance. The COMM-NAV system NORM rate should be reduced in the future due to the influx of trained personnel.

(e) The RF-4B NORS rate decreased slightly this period in comparison to the last reporting period, but still remains high. This is due to the long outstanding NORS items listed in paragraph 13 b.

(f) The excessive RE-4B NORM rate is due to (1) two battle damage incidents and (2) two aircraft down for scheduled maintenance.

(g) The slight improvement in the A-6A NORS and NORM rates is due to the updating of A-6A usage data and the input of additional qualified technicians.

(h) Even though the OV-10 NORS/NORM rates are acceptable some cannibalization is necessary to maintain aircraft availability to meet squadron commitments.

Subj: Command Chronology, Month of February

1. February was a relatively quiet month. With the coming of Tet expectations were for the worse. Other than the numerous celebrations Tet brought no significant change in the normal village activity. Civil Affairs met with the council representatives on several occasions. Various projects were discussed. One thing of importance was established during these meetings. Unless the proper requests were made to the Government of Viet Nam and a copy submitted to the Civil Affairs Officer very little could be done by Civil Affairs in the way of help.

2. Out of the February meeting also came a request for help in constructing a temporary dam. A thorough check showed that the proper papers had been submitted to Province Headquarters requesting construction repairs on the Ha Cung Dam, originally built by the Government of Viet Nam in 1963. Province is considering the request. Although it has not yet been approved there are positive indications it will be. The dam is very important to the village economy. The dam prevents sea water from entering the village irrigation system at high tide. 570 hectares (about 125 Acres) of rice paddy are affected by the high tide. Last year 80% of the rice crop on this land was lost due to brackish water entering the rice paddies. Realizing that it will take a great deal of time to fix the Ha Cung Dam the villagers became concerned for the next rice crop. A temporary dam was in need. MAG-11 Civil Affairs helped by supplying some materials. 28 sheets of plywood and 24 4"X12"X15' timbers were supplied. The wood was given in small quantities, so that it could be easily accounted for. All the wood went into the dam construction. The dam was completed in one week. As a result of MAG-11's help, Civil Affairs status has greatly improved in the village. It was also emphatically demonstrated that unless the proper requests are made to Province there is little Civil Affairs can do.

01:DJM:ret
5080
4 Mar 1970

3. Chicken Projects are still under construction. This month with the help of the village agriculture expert two locations for chicken coups were located at the homes of two responsible men. One man is to represent Lo Giang and Tung Lieu the other will represent Co Man and Lieu Lac. The hamlets will be in competition to see who has the most successful Chicken Project. The Civil Affairs Team has been busy constructing feeders. Two Pens have been built. All that remains to be done is a rat free cage for the young chickens and a means of keeping them warm for the first couple of weeks.

4. Med Caps were held three times this month. Twice at Lieu Lac and once at Lo Giang. About 370 people were treated in all. 90 were dental patients. Med Caps will be continued in Lo Giang at the request of the village chief. The villagers would give no reason why there was such poor attendance in some of the previous Med Caps in Lo Giang. The attendance last month in Lo Giang was about 60 people. This is a significant enough number to continue the Med Caps in this area.

5. Personal Response was held twice this month for one hundred nineteen incoming marines. Most of the squadrons are cooperating well with the Personal Response Program. There has been a breakdown in some of the squadrons communications with their marines, however steps are being taken to remedy this.

6. The Personal Response Program was expanded as planned during the month of February. A series of lectures were held on three separate evenings. The lectures encompassed topics such as Religious, Customs and Traditions, History, and present day Viet Nam. The program was given on a volunteer basis to interested individuals. It was met with quite a bit of enthusiasm and success. The program will be improved on and continued in future months.
