SECRETINTELLIGENCE CHRONOLOGY

1. SIGNIFICANT ACTIVITIES: Four orientation briefs for newly arrived aircrew members were conducted during the month. These briefs included information on; SAR, SERE, Survival Tips, Lessons Learned, Intelligence Briefing Procedures and information on the current situation.

2. OPERATIONAL INTELLIGENCE

a. During the month of March the Intelligence Section prepared maps and mission briefs for 282 Steel Tiger missions and 349 In-Country missions. Mission planning included map preparation enemy situation, target description, search and rescue procedures, anti-aircraft, ELINT and SAM Order of Battle. The scope of this planning was expanded by the continuing commitment of MAG-11 aircraft.

b. A total of 631 missions were debriefed during this period. A large number of these missions were in direct support of the following operations: Victory Dragon XIX, Geneva Park, Frederick Hill, Iron Mountain, Nantucket Beach, Randolph Glen, and Green River.

c. Reported significant BDA in air operations against Communist Forces in Viet Nam during the month of March are as follows:

- (1) 63 TRUCKS DAMAGED OR DESTROYED
- (2) 170 SECONDARY EXPLOSIONS OR FIRES
- (3) 32 BUNKERS DESTROYED
- (4) 3 ENEMY KILLED OR WOUNDED BY MARINE AIR

d. The Intelligence Section continued to brief the Commanding Officer, Group Staff Officers and Squadron Commanders on a daily basis.

e. The Intelligence Section continues to compile the G-2 Brief Summary on a daily basis, and provide Intelligence lectures to newly arrived enlisted men.

(3) Comments

(a) The excessive TA-4F NORS rate is due to a lack of required parts in the local supply system. This is primarily the result of first demand items required to repair battle damaged aircraft.

(b) The excessive TA-4F NORM rate is due to a lack of experienced troubleshooters in OF 6200 and numerous manhours required to repair battle damaged aircraft. Six of the eight battle damaged aircraft were repaired locally and returned to service. The remaining two were sent to STRAAD for repair.

(c) The excessive C-117D NORM rate was due to extensive troubleshooting to locate lost voltage in the navigational system.

(d) The excessive EA-6A NORS rate was established due to the increased number of AOCF's during this period (see para. 13b).

(e) The EA-6A NORM rate for this period is a significant improvement over the last reporting period. This improvement is attributable in part to an influx of trained personnel.

(f) The excessive RF-4B NORS rate was due to the high AOCF rate (see para. 13b).

(g) The much improved RF-4B NORM rate was due primarily to the influx of trained personnel.

(h) The significant increase in the A-6A NORS rate and the slight increase in the A-6A NORM rate over the last reporting period is directly attributable to the V-Band Coupling problem.

(i) The excessive OV-10A NORS rate is due to a critical need for starter generators and inverters (see para. 13b).

Subj: Command Chronology for the Month of March

1. The month of March saw an increase in Viet Cong Activities in the Village of Hoa Da. This increase is not peculiar to Hoa Da alone but is being experienced in all the areas around DaNang. One reason for this upward trend of activity is the abundant rice harvest this year. The Viet Cong are coming from out of hiding to force the people to pay taxes to them. Unfortunately the Viet Cong have met little resistance from the villagers. The villagers however have assisted the Marines living in the area. Never by pointing out exactly where the Viet Cong are or will be but by warning the marines that Viet Cong will be moving throughout the village. Poor intelligence to be sure but it is a start.

2. Hoa Da had an unfortunate incident this past month. One night movement was detected along the side of a road and the CAP Unit opened fire. A stray round passed through a nearby home and killed a civilian inside. As to be expected much remorse was shown by the family of the dead man. There was talk of a demonstration because it was felt by some of the villagers the marines did not care about the death. Civil Affairs and CACO worked together on this problem. Several visits were made to the dead mans family. A solitium payment was given to the family. It was clearly and tactfully explained that the marines deeply regretted the death in the family and the payment made in no way represented payment for the man's life. It was given only as a token of respect for the sorrow experienced in the man's family. Once the marines had paid their respects to the dead man's family relationships began to improve throughout the village. It must be emphasized however, that when such incidents occur prompt action is imperative or severing friendly relationships maybe the end result.

3. The chicken coups have been completed during March. Contracts have been drawn up with the two men involved in helping Civil Affairs with the project. The terms of the contract establish exactly what each man will gain through the project. This will eliminate most of the problems of payment at the end of the project. The men chosen for the projects seem to be very reliable and responsible. Both contributed a great deal of their time in the construction of the chicken coups. All that is awaited on now is the baby chicks.

01:DJM:ret
5080
4 April 1970

4. Med Caps were held four times this past month. Twice at Lo Giang, once at Liem Lac, and once at a new cite in Co Man, about four hundred patients were treated in total. The new cite was arranged by the RD Cadre in Hoa Da. It is significant because Civil Affairs worked very close with the RD Cadre on this Med Cap. The RD Cadre help provides security and kept the villagers orderly. It is hoped that Civil Affairs will be able to continue to have a good working relationship with the Cadre. Co Man was much in need of a Med Cap also. About 200 people were treated there; many badly in need of Medical Treatment.

5. Personal Response was held twice this past month for one hundred twenty six incoming marines. Attendance at the Personal Response Classes has continued to improve. The squadrons are now cooperating well with the personal response program.

6. The Vietnamese Workshop was held again in March on the evenings of the 12th, 13th and 14th. The workshop consisted of lectures on the History, Religions and Customs and Traditions of Viet Nam. The attendance was good inspite of the fact there were conflicts with floor shows at the clubs. These conflicts were an oversite that will definitely be taken into consideration in the future.

7. DaNang City Tours commenced the month of March. Three tours were given. Each squadron was allowed to send four personnel with a tour. Attendance was good. About fifty marines attended the tours during the month. Many comments were made on the difference between DaNang and the surrounding refugee camps. The realization that you can't judge a whole country by what you see from the compound fence is one Personal Response always tries to portray. The DaNang Tours reinforce this important point. They not only benefit the Personal Response Program but are a beneficial diversion in the monotonous routine of compound living.
