5. Civil Affairs

a. Medical. Eighteen scheduled sick calls and eight medcap patrols were held in the village of Hoa Long. The doctors treated: 1337 people medically, and 158 dental patients. The USNH admitted 54 Vietnamese civilians to the hospital, 29 of these cases required major surgery. Doctors from the USNH are assisting in the Danang civilian hospital. One village health worker is being trained at the Son Thuy sick call. A nun from the Catholic orphanage is receiving nurse's training at the USNH.

b. Education. English classes were begun in the hamlet of My Thi and Son Thuy by MCB-6 and MCB-11.

c. Projects. The pond in Son Thuy was completed and the Buddhist priests are happy with the results. The dike in My Thi has been worked on, and is almost completed. The dike will be capped with cement, with Vietnamese supplying the labor. Security, consisting of both American and Vietnamese forces, was placed on the dump. No longer are civilians permitted to enter the dump. MAG-16 was given coordinating responsibility for "Boys Town" construction and development project. A large portion of the needed funds are coming from the Marine Reserve Fund. Cement and tool kits were requested through channels. Showers and "four hole" toilets were constructed in My Thi, and the villagers were instructed in the maintenance of these facilities. The Buddhist priests have extended invitations to the armed forces to visit the pagoda on Marble Mountain.

d. Government. Mr. SUN was relieved as village chief of Hoa Long. Mr. HOA, assistant village chief, took over as village chief. Mr. HOA is using his village officials effectively and is very cooperative with the American forces.

~~SECRET~~

e. Tours. General ROBERTSHAW was taken on a tour of the civic action area on 2 June 1966. He met three of the four hamlet chiefs. The Protestant Chaplain sponsored weekly visits of MAG-16 Marines with orphanages in the Catholic Orphanage.

f. Psychological Operations. The wing band performed in the hamlet of Da Man on 18 June. A "Psy War" team was with the band. Soap, candy, and "Psy War" booklets were distributed. The MAG-16 Chaplains delivered four lectures on Vietnamese culture and religion to over 250 Marines.

g. Census and Population Control. The census in the hamlet of Dong Hai has begun and is over 50% completed. The census team went into the hamlet with security provided by MAG-16 and the local Popular Forces. On 17 June, after receiving word of a possible VC cadre in the hamlet of Son Thuy, the Popular Forces conducted a sweep with Marine Forces acting as a block. Five VC suspects were apprehended and taken to District Headquarters.

h. Give Away Program. MCB-11 distributed clothing, food, and soap to the people in My Thi. All gifts were regulated and distributed by the hamlet chief. 5th Comm. Bn. constructed a bulletin board in Da Man; donated a Vietnamese flag to the school; and provided coverings for the hamlet wells. MCB-6 delivered a load of scrap lumber to Son Thuy at the request of the hamlet chief. The Bishop of Da Nang was given \$550.00 to be used on various charity projects.

9. Communications. Section reorganization continued. Due to shortage of personnel it was necessary to go to a two section watch; 12 hours on duty and 12 hours off. The personnel shortage is expected to continue for several months. Total traffic for the month was over 5,000 messages with over 1,000 originated by Marine Aircraft Group 16.

Radio relay was relocated to obtain an improved signal. The Radio and wire equipment in the Group Command and Control Center Bunker was relocated. An additional SR-22 switchboard was installed to handle additional hot line requirements.

Three new telephone lines were laid: (1) a hot line from I Corps Headquarters to MAG-16 Command and Control Center, (2) a hot line from the new III MAF CP to VMO-2's operations, and (3) a trunk line to the 1st Marines via the FLAMINGO switchboard.

Automatic retransmissions tests were conducted utilizing AN/PRC-25 radios at MAG-16 and MAG-36 with a C-117 aircraft configured with ARO-44 acting as the airborne relay station. Results were generally unsatisfactory due to excessive distance (35 miles) between stations.

After a three month wait, a critically needed FU-454, 400 cycle generator was received on a priority 2 "Red Ball" requisition from MCSC Barstow. This generator was received with extensive damage even though the packing crate was intact.

The repair section made the following transactions during the month:

- a. 176 pieces of equipment processed.
- b. 8 pieces of equipment evacuated to higher echelon.
- c. 9 pieces of equipment returned from higher echelon.
- d. 174 pieces of equipment repaired and returned to sections.
- e. 73 new requisitions processed by supply.

10. Logistics. Logistics support remained normal for all organic units, sources of supply were unchanged.

a. The following weight of air freight was processed with delivery destination as indicated:

| | |
|----------------------------------|---------------------|
| (1) Marble Mountain Air Facility | 700 Lbs. |
| (2) Hue/Phu Bai | 230,160 Lbs. |
| (3) Dong Ha | 400 Lbs. |
| (4) Chu Lai | 300 Lbs. |
| Total | <u>231,500 Lbs.</u> |

b. Construction of 24, 50' X 50' aircraft parking pads at Marble Mountain Air Facility has been completed.

SECRET

c. The increased population of CH-46A aircraft by the joining of HMM-265 during May has not yet caused any notable deficiencies in supply support over and above those experienced by HMM-164. It should be noted that the pack-up shipped from FMFLANT activities in support of HMM-265 was based upon a "peace time" computation therefore it is questionable as to whether such depth will support a constant 960 hour per month flight hour program for HMM-265. Deficiencies not included in the packup due to non-availability in FMFLANT assets have been placed on order and a satisfactory support position is contingent upon ability of the system to effect timely response to these stock replenishment requisitions. Some 391 line items were not included in the pack-up. Most of these items were already in the "hard to get" category.
